OUR STORY

I am proud to present to you our **NEW 2020 AMBELLA HOME UPHOLSTERY CATALOG**.

It's hard to believe, but it was just a little over 5 years ago that Ambella was launched into the upholstery business. I am simply amazed at the progress and the accomplishments we have made in such a short amount of time. Manufacturing is not easy by any means and it was a huge undertaking on our part. From the start we wanted to do things right, especially at the high level of quality that we pride ourselves on. We employ only the best of the best to give you, our customer, the kind of product you expect and deserve.

I hear over and over again how great and forward-thinking our styling and presentation of fabric selections are. We literally add only a small selection of fabrics each year after reviewing hundreds, if not thousands, of fabrics from all over the world. Why go through this painstaking process several times each year? The answer is simple. We do it to make our customers' job easier. Give the designer what they want: great styles, great fabrics, and fast delivery, and you win a customer for life. We do just that and our customers keep coming back for more, so it's telling us that we're doing something right.

COM and customization of certain products is always possible at Ambella and the results are fabulous.

Remember to check out Ambella's extensive line of **CASE GOODS** and **SINK CHESTS** too. When all of this is combined together one can truly create the Ambella Home experience. If you desire that "WOW" factor in your interior space, let us create that experience for you. You'll be proud and happy that you did!

Best Personal Regards,

1134-01 ELKINS SOFA

Francis Elkins was a legendary California based interior designer who practiced from the 1910's to 1950's. Truly a trendsetter, Ms. Elkins favored streamlined, generous chairs and sofas with large track arms and tight backs. Our version of the Elkin Sofa features a 7″ wide track arm, tailored tightly upholstered back sprung with Marshall Unit Springs, and a deep loose seat cushion all raised on solid Beech block feet. Two 20″ and two 11″ x 19″ throw pillows accompany the sofa. Coordinating chair and ottoman on page 93.

LOUIS CHAIR

Based on the classic Louis XVI chairs of the French late 1700's, these dining chairs feature all the details one would expect of silouettes of this period, while keeping the carvings clean and updated. Made of Beech, fluted legs raise a carved seat and back rail with scrolling arms. Our version of this chair can be ordered with a plain upholstered back, or one can select one of four back inserts to customize the piece ever further. Choose from a quatrefoil tracery back, a circle inside a square regency back, a stylized diamond back, or classic Chippendale fretwork back.

SEAT CUSHIONS & BACK PILLOWS

Ambella Home Collection offers five diverse cushion types so you can create the perfect seat.

SPRING/ULTRADOWN CUSHION

This is Ambella Home Collection's **standard cushion**. This cushion creates a plush, high crown seat with medium firm comfort and high resiliency. Coil springs wrapped in muslin are surrounded in a polyurethane foam envelope wrapped in a blend of 50% polyester fiber, 45% feathers and 5% down.

ULTRADOWN CUSHION

This cushion offers a luxuriously soft seat featuring high resiliency and shape retention. An Ultracel® foam core is wrapped with polyester fiber and then surrounded with a blend of 50% polyester fiber, 45% feathers and 5% down.

DOWN LUXURY CUSHION

Ambella Home Collection's most plush seat cushion. A mixture of 75% waterfowl feathers and 25% white duck down is wrapped in a channeled down proof ticking cover. This seat cushion will require maintenance, turning and plumping after each use.

TAILORED SUPPORT CUSHION

This hypoallergenic cushion creates a firm seat with a tailored, crisp appearance. An Ultracel® foam core is wrapped with plush polyester fiber.

SPRING FIBER CUSHION

Similar to Ambella's standard cushion, the Spring Fiber cushion creates a plump high crown seat with medium firm comfort and very high resiliency. Coil Springs wrapped in muslin are surrounded in a polyurethane foam envelope wrapped with plush polyester fiber. This is the perfect cushion to use in bench seats. It will eliminate most if not all of the comfort wrinkles and puddling that may occur in a cushion with down fill.

Ambella Home Collection offers three different back pillow options to further customize your upholstery selections.

ULTRADOWN BACK

This is Ambella Home Collection's **standard back pillow**. A blend of 5% down, 45% feathers and 50% polyester fiber creates this softly supportive back pillow. These backs are the perfect complement for Spring/UltraDown and UltraDown seat cushions.

DOWN LUXURY BACK

This luxuriously soft back pillow consists of a mixture of 75% waterfowl feathers and 25% white duck down encased in a channeled down proof ticking cover. This back pillow will require maintenance, turning and plumping after each use. This is the coordinating back pillow for the Down Luxury seat cushion.

TAILORED SUPPORT BACK

This hypoallergenic back pillow is comprised of an Ultracel® foam core wrapped in thick, plush polyester fiber creates Ambella Home Collection's most supportive back pillow with a tailored look and good resiliency. This is the coordinating back pillow for the Tailored Support seat cushion.

UPHOLSTERY CONSTRUCTION

Arms are covered with polyurethane foam in a variety of thicknesses and compressions which create the most comfortable sit available. All foams used at Ambella Home Collection contain no fluorocarbons or other harmful chemicals.

Backs are layered with polyurethane foam, another layer of cotton, and finally a layer of synthetic batting.

Marshall units, which are individually wrapped coil springs linked together, are installed on many of Ambella Home Collection's tight backed upholstered pieces. These springs create a luxurious back that will retain its shape for years.

Downy cotton is applied over arms and the inside back to give the upholstery a luxuriously plush look and feel.

Seat springs are covered with a woven textile which insulates the springs and helps the upholstered piece keep its tailored shape.

Waterfall skirts are held in position with a fitted sewn panel, which allows the skirt to hang freely from the frame. The sewn fabric lining encases an interlining which creates lasting shape, body and smoothness.

Seats are sprung with true 8-way hand-tied coil springs. All springs are individually installed and anchored with metal tie wire edging.

All Ambella Home Collection upholstery frames are constructed of kiln dried premium Maple or Beech. Joints are glued, screwed and double doweled for durability and rigidity. Engineered Baltic Birch hardwoods will be used in specific conditions and parts where hardwoods could be too fragile.

Sheet webbing and flex rods are applied to bottoms of seats to create a foundation that absorbs pressure from the sitter.

Sheet webbing is used to enclose the entire bottom of the frame which provides more protection and support than typical strip webbing.

A tailored black fabric neatly conceals the inner construction of the upholstered piece.
