SALDA

1870

A *Family* story

The history of our furniture is the history of a family.
The search for Beauty is the aim that has guided the Besana family over the course of over a century of manufacturing and artisan history.

Since the beginning of the nineteenth century, when Arcangelo Besana and his wife, decorators of the royal house of Austria, started the production of furniture and accessories for the great residences of the French nobility, SALDA is a reference point for those looking for classic and contemporary furnishings at the same time.

This is the magic of SALDA: to create a suspension of time, a golden moment in which everything stops and Beauty becomes the protagonist of an eternal space.

La storia dei nostri mobili è la storia di una famiglia.
La ricerca del Bello è lo scopo che ha guidato la famiglia Besana nel corso di oltre un secolo di storia manifatturiera e artigianale.

Dall'inizio del XIX secolo, quando Arcangelo Besana e la moglie, decoratori della casa reale d'Austria, avviarono la produzione di mobili e complementi per le grandi dimore della nobiltà francese, SALDA è un punto di riferimento per chi ricerca arredamenti classici e contemporanei allo stesso tempo.

Questa è la magia di SALDA: creare una sospensione del tempo, un momento dorato in cui tutto si ferma e il Bello diventa protagonista di uno spazio eterno.
