ORIGINALS

Our story

The story of Sika-Design begins in 1942 when my grandfather Ankjær Andreasen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950s he expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East and my grandfather travelled there to buy rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers, and decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture, and today we manufacture our furniture in our own factory in Indonesia. My father Knud Andreasen took over the company in 1983, however my grandfather still continued his daily "inspection" rounds in the company until his death in 1997.

On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of furniture. On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture was started. Since 1996 we have worked side-by-side bringing Sika-Design into the new century, while never letting go of our strong heritage and values of good craftsmanship and design.

ORIGINALS

The Originals collection is a collection inspired by our own design sketches as well as other successful models from the 1950's and 1960's. I have a great dedication to the materials my grandfather and his generation chose to work with, and I feel very privileged that I have the opportunity to continue his legacy.

Our skilled workers craft each piece of rattan furniture by hand. Rattan grown in the Indonesian forests and regenerate within 5-7 years. It transforms CO₂ into clean air, and it is one of the fastest growing materials for furniture production. Besides these amazing qualities, rattan is a very beautiful natural resource.

ORIGINAL TEAK COLLECTION

To complement our collection of rattan items we have developed an original series of teak products. All our teak items are made of old reclaimed teak from old houses, fishing boats and railroad supports. The rustic teak items will appear with reparations and fillings and the general characteristic that old wood will have.

Enjoy our catalogue!

Kind regards

Louise Andreasen

Third generation in Sika Design

Environment and social accountability policy

Sika Design strives to supply sustainable and comfortable quality furniture manufactured with respect for the environment and social accountability.

We attempt to improve our efforts on behalf of the environment on an ongoing basis and take responsibility for the people who create our furniture. We aim to minimize the consumption of resources and prevent pollution in our supply chain.

Sika Design does not accept child labour, respect human rights and complies with the SA8000 standard for social accountability, and we demand the same commitment from our suppliers.

Products from Sika Design are developed and marketed in accordance with our management system for environment and social responsibility ISO 14001/2004 and SA8000/2008. Certified by Bureau Veritas Certification.

Facts about rattan

- Rattan is one of the fastest growing materials and transforms CO₂ to clean air.
- Rattan generates in 5-7 years.
- Rattan is a very strong and durable material.
- Production is handmade and does not require big machines which pollute the environment.
- The Originals Collection is produced in Indonesia, which is where 80% of the World's rattan grows.
- Rattan is a 100% natural material. Furniture production does not require glue and can be treated with toxin free lacquer.
- Rattan is often confused with bamboo, but rattan is massive and bamboo is hollow.
- If you can bend it, it is 99% sure rattan.
