GRAND CANAL

Inspired by the chandeliers in the Venetian palaces that line the Grand Canal, and made in the same age-old, **HAND-BLOWN** and mouth-blown methods by Fine Art Lamps glass-blowers, the Grand Canal Collection's **GRACEFUL** lines are comprised of ribbed glass that catch and refract light in **ROMANTIC** patterns. The metal components are minimalized and in a pale, aged silver finish.

ENCASED GEMS

Mounting clear gems **CREATIVELY** in metal is one of the oldest art forms, and survives today in the realm of jewelry. Fine Art Lamps, **INSPIRED** by this grand tradition, has created jewelry for the home. Crystal gems are mounted with a fine metal encasement and **INTEGRATED** into original metal lighting fixtures.

All of the designs are offered in a venerable bronze patina, variegated gold leaf or vintage silver leaf.

COMPLETE COLLECTION CAN BE FOUND IN OUR 2008 CATALOG

This original collection features three beautiful finishes; vintage silver leaf, variegated gold leaf, and venerable bronze patina. Every style in the collection is available in each of the three finishes with three crystal gem options; all neutral crystal gems, all clear crystal gems, or a multi-color gem configuration designed to compliment the finish color as shown above. To order the item with the finish and crystal gemstone color configuration desired, please use the item's six-digit style number that indicates the desired finish with the crystal gem color extension (-1 Multi-color, -2 Neutral, -3 Clear). For additional information please contact your Territory Manager or Account Service representative. NOTE: Any other selection of single crystal gem colors will be processed through our Customization Program.

GOLDEN AURA

Subtly radiating with **REFINEMENT**, the unique golden crystals in this collection refract a warm, rich light within finely appointed interior spaces. The **HANDCRAFTED** iron frames are painstakingly finished in an **AGED GOLD** patina. Shades are hand-sewn in silken pale taupe with metal filigree bandings in matching patina.

The laurel wreath became one of the most enduring design motifs of all time, and inspired Fine Art Lamps Crystal Laurel Collection of decorative lighting. Stylized crystal leaves with boldly cut **FACETS** reflect light in delicate patterns, and the **HAND-WROUGHT** metal forms are finished in antiqued warm silver leaf or gold leaf.

CASCADES

Inspired by the **MAGNIFICENT** water displays of eighteenth century fountains, Cascades is a collection of unique lighting fixtures of **EXQUISITE GRACE**. Metal frames of **WARM SILVER LEAF** support dramatically bold cascades of hand-cut crystals delicately woven together and trailing away like water droplets.

BRONZE VEIL

The captivating **WARM GLOW** of bronze sets the tone for a collection of lighting fixtures with an **INNOVATIVE** lighting effect as the light of long filament tubular bulbs pierces the bronze veils through a layer of sheer organza. Bronze Veil is utterly **SEDUCTIVE**.

COLLECTION ALLEGRETTO

Alegretto, a musical tempo that is briskly bold yet relaxed, gives its name to a lighting collection created to the sound of music. Like a conductor directing his orchestra with **ARTFUL** movements of his baton, the Fine Art Lamps designer made confidently bold, swift strokes at his easel in drawing Allegretto. The lines drawn for each piece in the collection make distinct, **GRACEFUL** gestures that timelessly span yesterday, today, and tomorrow, as the **CURVES** change direction gracefully with elegant simplicity.

LA MANCHA

Inspired by the **HAND-FORGED** candle-lit fixtures of the Iberian La Mancha region made in the 14th through 16th centuries, this collection features bobeches and important pendant ornaments of various shapes in solid quartz rock crystal. The tooled metal elements and large-scale chains are in an aged deep **BRONZE** patina. The glass shades are hand-blown **OPALINE** in a quilted optic pattern.

Fine Art Lamps uses genuine Rock Crystal Quartz. Rock Crystal Quartz is a natural material, and every piece of cut quartz will have a unique appearance often with naturally occurring variations in color, opacity, and texture. No two stones are alike. The internal fractures result in veils and light refractions that lend beauty and uniqueness to each quartz crystal.
