

Original lighting design handcrafted in America.  
Specified worldwide since 1940 by contract  
hospitality and residential designers and architects.

*FA*  
FINE ART LAMPS®  
CUSTOM/CONTRACT

## A CENTURY OF ARTISTRY AND ORIGINAL DESIGN

Fine Art Lamps' artistic heritage began in the glass making factory founded by Max Blumberg in New York in the late nineteenth century. In 1940, his son, Jack Blumberg gathered the finest designers, sculptors, and decorative artists to fulfill their vision of becoming the premier lighting manufacturer in the world, and Fine Art Lamps was born.

From the beginning, Fine Art Lamps has achieved a high artistic standard by creating unique and original lighting designs of beautifully handcrafted metal, hand-blown glass, and other unique materials with exquisite hand applied finishes.

Since 1965, Max Blumberg, Jack's son and namesake of his Grandfather, has carried on the family commitment to design excellence and superb workmanship. The company has been honored with numerous design awards including the prestigious ARTS Manufacturer of the Year Award nine times distinguishing the company and qualifying its induction in the ART Hall of Fame.

In all, Fine Art Lamps represents the singular vision of over 700 skilled designers, artists, craftsman and associates working together in five plants totaling over 400,000 square feet in Miami Lakes, Florida to create unique works of art for the international design community.

Constructivism Multi-Pendant Program. For more information contact your Territory Manager or email [sales@fineartlamps.com](mailto:sales@fineartlamps.com)

## A SOURCE FOR THE DESIGNER AND ARCHITECT.

- World renowned original and elegant lighting designs favored by discerning designers and architects for contract and residential projects.
- Provides a skilled team of lighting professionals consulting with clients to develop a lighting plan that enhances the space, highlights the architectural features and defines the ambiance.
- Presents a contract/hospitality and residential lighting portfolio offering thousands of original designs in Traditional, Contemporary and Transitional styling.
- True vertical manufacturer.
- Highly skilled at customization.
- Ability and imagination to assist the designer in creating unique decorative lighting solutions.

Fine Art Lamps is pleased to discuss your specific lighting requirements and to prepare a quotation on any existing or customized fine lighting designs and to review your own designs with the intent to realize them.

## CUSTOMIZATION

Through Fine Art Lamps Customization Program existing lighting designs can be tailored to meet your requirements.

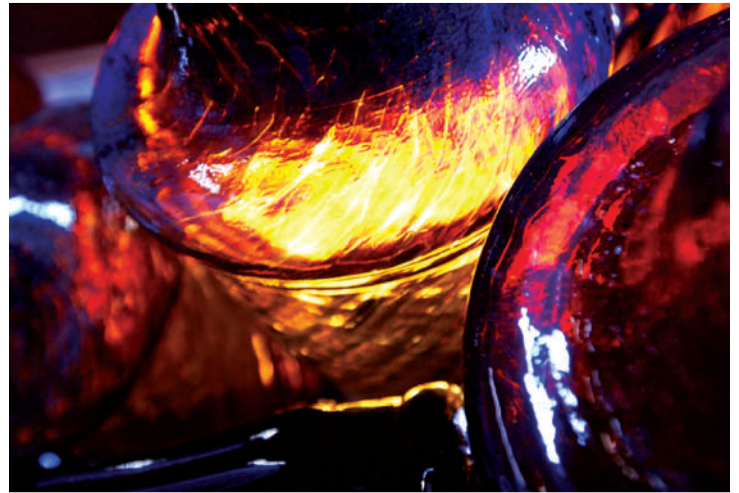

As a vertical manufacturer, Fine Art Lamps is self-reliant and enjoys an excellent record of meeting delivery date requirements so critical to clients.

## ADA COMPLIANT SCONCES

Fine Art Lamps designs and manufactures sconces that are beautifully handcrafted, innovative and representative of the lighting collections from which they belong. They are designed to look beautiful in all applications with many meeting the ADA requirements and others that can be modified to comply.

## FINE ART LAMPS IN-HOUSE CAPABILITIES MEANS FLEXIBILITY TO THE DESIGNER IN ACHIEVING THEIR CUSTOMIZED NEEDS.

- Design
- Engineering
- Metal-working
- Glass-making
- Casting
- Shade-making
- Finishing
- Assembly
- Packaging
- Logistics

## AN AMERICAN MANUFACTURER WITH INTERNATIONAL APPEAL

Fine Art Lamps has a global market and universal design appeal. From its Florida facilities, Fine Art Lamps lighting travels to every corner of the world destined for the finest homes, villas, palaces, hotels and public spaces.

Fine Art Lamps' internationally-based Territory Managers, authorized distributors and dealers are supported by sales executives traveling the world and an internal sales service team in Florida.

Fine Art Lamps has expertise in foreign wiring requirements covering every continent and customers rely upon the company's International Product Specification Brochure for accurate measurements, weights and technical specifications.

## INTERNATIONAL CERTIFICATIONS

Fine Art Lamps complies with the requirements of national and international regulatory standards.

CE	European Community
SASO	Saudi Arabia
GOST	Russia
CCC	China (Certification pending)
UL	United States*
CSA	Canada

Fine Art Lamps complies with California's (Title 20) Appliance Efficiency Program.

## INTERNATIONAL LOGISTICS EXPERTISE

Fine Art Lamps' international logistics and shipping team works to ensure cost effective and secure delivery. In addition to shipping products directly from Miami, Florida to final destinations, the company offers a European Landed Program to final destination in Europe and UK for a "landed price" in Euros.

## COPYRIGHTS OF INTELLECTUAL PROPERTY

There is only one Fine Art Lamps producing authentic lighting product. There are many who attempt to emulate or copy our proprietary designs in an effort to benefit from the company's heritage, reputation and prestige.

When specifying lighting by Fine Art Lamps, the professional is assured of its authenticity and exclusivity. Fine Art Lamps vigorously defends its patents and copyrights in the United States and internationally to protect our clients from counterfeit product and inferior quality copies.

Natural Inspirations, No. 862840-24

# STUDIO GLASS

Created in our Miami studio, Fine Art Lamps has unmatched capacity and capabilities in the lighting industry. We have taken the concept of studio glass and incorporated the creative techniques and talent into ground breaking designs in lighting. Where other manufacturers must go to an off shore glass factory, we can provide the quality, service and on time delivery of an American handmade product. Our capabilities in glass design include casting, blowing, slumping and fusing, while our in-house design and engineering team can provide a wide range of customized products for your project requirements. *Our studio glass is handmade individually. Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.*

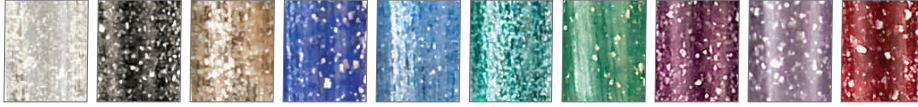

# CATALYST

This collection of fine LED lighting exemplifies design at the point where Art and Science converge. Hand-formed solid cased crystal rods infused in a molten state with mineral crystalline, the ends angle-cut and hand-polished revealing the interior layers, are illuminated with a diffused white LED light source for fascinating effect and energy efficiency. The Catalyst Collection is available in clear crystalline quartz and 9 other crystalline colors derived from ancient minerals and rare metallic oxides found in nature such as cobalt, gold, silver, chromium, copper, and manganese.

A. 795040 B. 795340 C. 794740 D. 794940 E. 794450 F. 794650

STUDIO GLASS OPTIONS:

# NATURAL INSPIRATIONS

Born from the core elements of earth, inspired by the beauty of nature and created by the sculpting hands of master craftsmen. A collection of precious drop lights as wondrous and unique as nature itself. Available in platinized silver leaf or gold toned silver leaf finish and your choice of four crystal glass options shown below. Includes 10 watt halogen bulbs and standard 10' adjustable coaxial cables. LED bulbs sold separately. Twenty-five configurations available. Custom finishes and custom sizes available on all canopies.

A. 853740-24 B. 853140-11 C. 852640-13 D. 852240-12 E. 862640-12

STUDIO GLASS OPTIONS:

# CONSTRUCTIVISM

Studio glass artist Frank Englesby has created a technique of crystal cobbles in the spirit of Constructivism. Individually cast pillow-shaped glass pieces are fused at high temperature in a hand-laid cobblestone pattern of individual lenses creating a fascinating light diffuser and sculptural form. A triumph of studio glass artistry! Now available in five distinct colors with exposed metal in hand applied finish: Moonlight Mist clear, Midnight gray or Sunset blush with silver leaf finish or Sunrise gold with gold leaf finish and lastly, Twilight sherry with hand rubbed bronze finish

A. 846840-1 B. 841340-4 C. 842250 D. 840450-4 E. 848440

STUDIO GLASS OPTIONS:

# CRYSTAL BAKEHOUSE

A five day process of creating by hand crystal spires, crystal river stones and crystal colored shards, then baking and annealing them for several days at high temperatures, forms a massive block which is then carefully polished. The slabs are illuminated by hidden fluorescent light, and the entire crystal composition comes to life. Available in silver, silver leaf and bronze finishes with four different looks: Crystal River Stones, Crystal Spires, Crystal Shards Blue: Cobalt & Aqua, and Crystal Shards Neutrals: Carnelian & Citrine.

# ADA SCONCES

The Americans with Disabilities Act (ADA) is a broad-sweeping piece of legislation that mandated many changes in the design and layout of publicly accessible areas to accommodate disabled persons. It has a direct effect on the design of lighting relative to the amount of projection allowable for wall sconces which is 4" (and mounted below 6'). Fine Art Lamps has an array of existing ADA compliant sconces and through our customization program, can make most existing non-compliant sconces ADA compliant.

# NICKEL / BRASS PLATED

Taking inspiration from an iconic square in the heart of London, which is considered the most dynamic city today from the standpoint of smart style and design, Fine Art Lamps has initiated a product program of gradually and steadfastly introducing solid brass transitional shapes in both antique brass and polished nickel along with additional unique materials. The umbrella for this developing collection is Grosvenor Square, filled with classical houses now being furnished with today's looks.

# CUSTOMIZATION

As a true vertical US manufacturer, Fine Art Lamps has the capabilities and flexibility to provide unique, custom product to meet the specific and discerning needs of the designer/architect/specifier. Our specialized Territory Managers are available to work with you on site, with your plans and concepts, to understand your complete lighting design requirements. Additionally, our in-house design staff is available to help your vision become a reality.

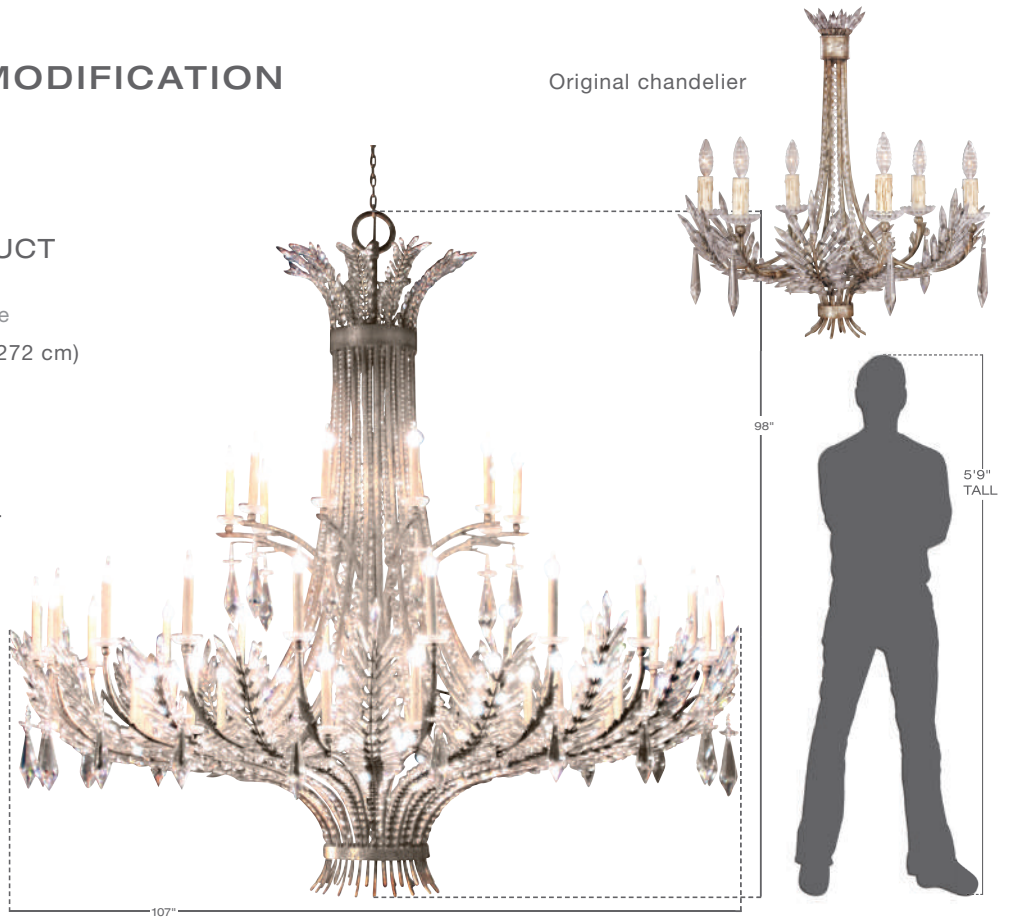

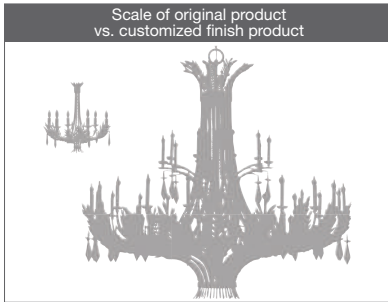

## EXAMPLES OF BODY MODIFICATION

### ORIGINAL CHANDELIER

NO. 302740 (Winter Palace)  
H. 28" W. 26" (71 cm x 66 cm)

### CUSTOMIZED FINISHED PRODUCT

- made dramatically larger
  - increased size by 6', now approximately 7' wide
- New dimensions: H. 98" W. 107" (249 cm x 272 cm)

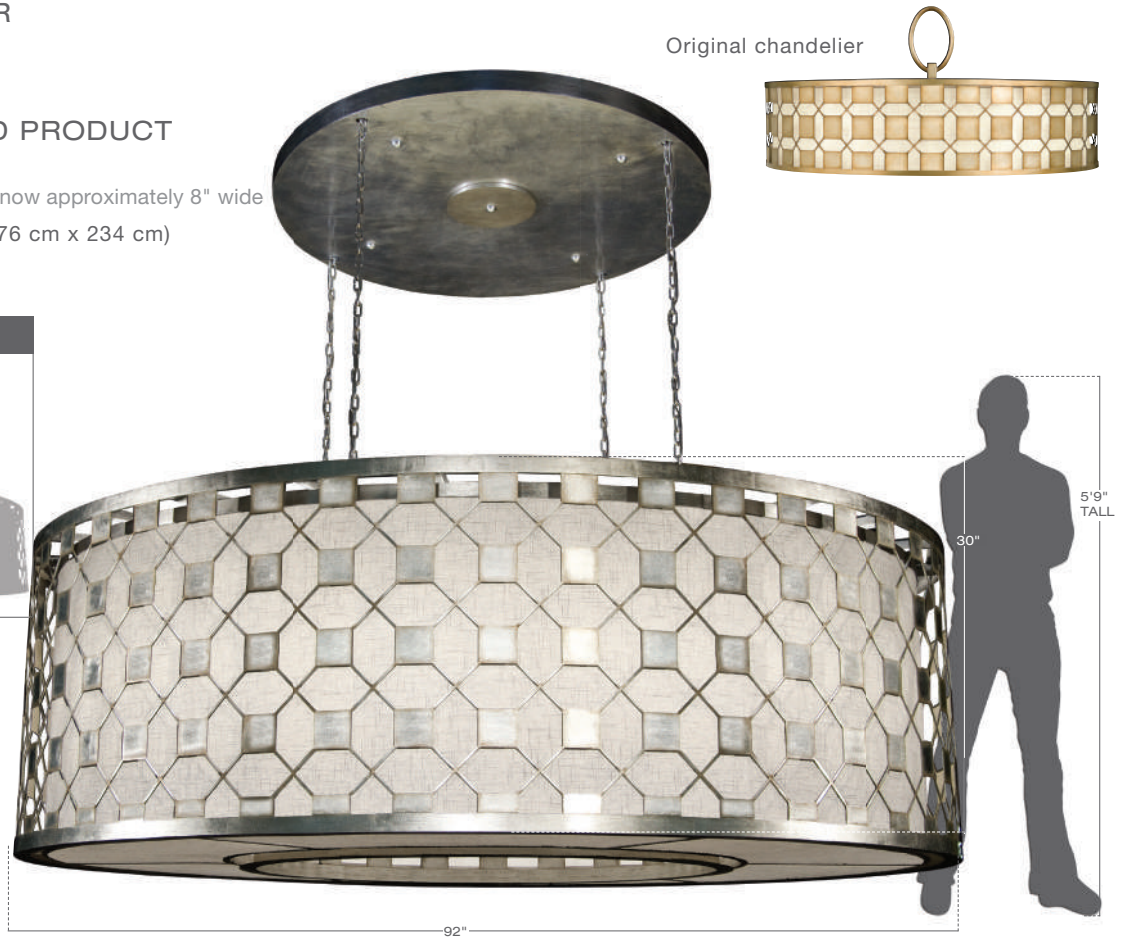

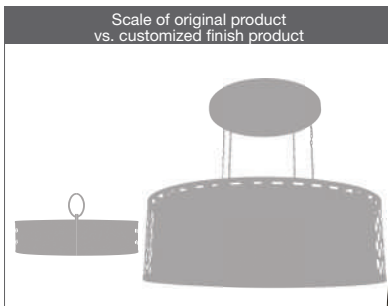

### ORIGINAL CHANDELIER

NO. 787840-2 (Allegretto)  
H. 16" W. 61" (41 cm x 155 cm)

### CUSTOMIZED FINISHED PRODUCT

- shade was doubled in height
  - pendant diameter increased by 3', now approximately 8' wide
- New dimensions: H. 30" W. 92" (76 cm x 234 cm)

## EXAMPLE OF MERGING PRODUCT

### ORIGINAL CHANDELIER

NO. 787450 + NO. 591140-2

### CUSTOMIZED MERGED PRODUCT

- shade pattern from sconce
- NO. 787450 replaced original glass
- shade of fixture NO. 591140-2

## HOW IT WORKS

Contact your local Territory Manager or Account Services Representative with your custom requirements. Once a custom request is received, we will provide a feasibility response within 24 hours and price quote within 2-3 business days. Additional time may be required for more complex or original designs. Upon budget/price acceptance, concept drawings will be provided (as needed) for your review and approval. Once approved drawings, purchase order and deposit/payment is received, our detailed engineering and manufacturing process is initialized.

**Lead times:** 8-12 weeks from order confirmation with deposit/payment. Additional time may be required depending on complexity and/or sourcing needs.

## WHAT WE PROVIDE

### In-line product modification

- Simple changes such as finish, shades and adding, or deleting crystals.
- Dimensional modifications to height, width, addition of lights and tiers.

### Unique designs proposed by us to meet your concept requirements\*

- Provide us your room setting and concept/product vision and we can design/modify original product custom made for your specific project needs.

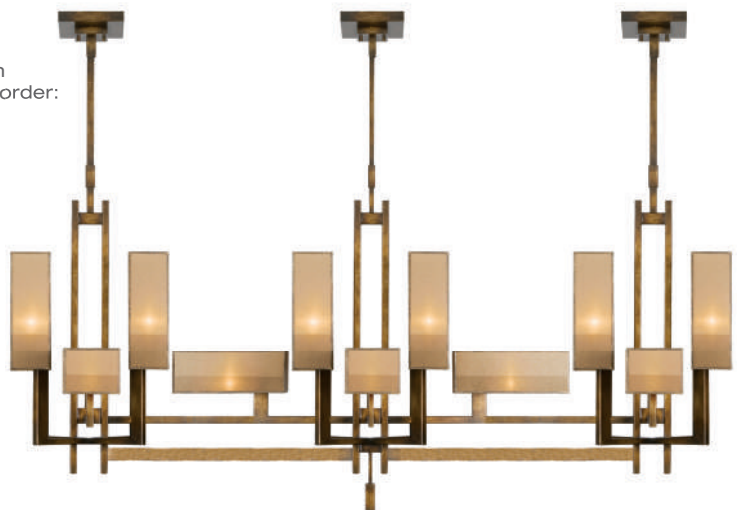

### Interpret, develop and manufacture your original designs\*

- Provide us an original sketch/concept of your product design and we will introduce into our product development process from Engineering through Manufacturing.

Original Fixture:  
NO. 733840

Finished custom  
piece, made to order:

\*(Refundable design fee may apply)

Shown above with three medium (843040) pendants.

## Constructivism Multi-Pendant Program How It Works

Through Fine Art Lamps customization program you can create infinite possibilities. Design your own original pendant combination or have us create one specifically for your area. Simply provide your ceiling height, desired maximum drop length and the dimensions or square footage of the area the fixture will occupy. Feel free to provide us with an image or sketch. We will provide you with a list of Constructivism item sizes and quantities required, along with a detailed schematic. Installation instructions containing sequence and specifications will be provided with the product. Since these layouts require multiple junction boxes, we highly recommend installation by a qualified electrician. The following pages depict multi-pendant possibilities. To begin your custom Constructivism multi-pendant design, contact your Territory Manager or Account Services Representative.
