LA FLUIDITÀ SI FA MATERIA/RIGOURCO FUGITEM FUGIT

Linee curve, sinuose, ispirate al movimento dell'acqua, come a voler congelare il flusso e riflusso delle onde. Dominante è il principio di funzionalità e componibilità dei moduli, che consente di creare soluzioni su misura in base allo spazio a disposizione. Tratti distintivi di questa linea sono poi la cromia (cristallo e laccatura tono su tono) e il piano in cristallo azzerato e perciò completamente adagiato alla parete.

Testo in inglese.... Volumi rigorosi e libertà negli accostamenti per un design che arricchisce la forte ispirazione al gusto '70s con dettagli di estrema modernità. La sobrietà delle composizioni laccate lucide nelle tonalità dell'argento, rosso, prugna e altri si integra finemente con l'esclusività delle proposte dei lavabi in cristallo extrachiaro o d'appoggio in resina lucida; il rigore delle forme squadrate si stempera con la presenza di ante frontali diamantate, indiscutibile segno distintivo della collezione.

Gli elementi portalavabo sono disponibili con cassettoni che permettono un'elevata capienza forniti di guide ad estrazione totale con "stop-control". Per un'allure di discreta ed elegante essenzialità.

QUANDO SEMPLICITÀ SIGNIFICA ELEGANZA.

Un'elevatissima componibilità caratterizzata da più moduli in larghezza - a partire da 25 cm sino a 140cm - e da una duplice profondità - 42 e 52cm - ; da basi porta lavabo in cui sono presenti le ante ma anche i cassettoni ad estrazione totale forniti di guide con stop control che arrestano la corsa del cassetto o lo sbattere dell'anta e permettono la chiusura con dolcezza.

Il rigore delle forme squadrate si stempera dall'effetto di leggerezza creato dal rivestimento totale in vetro extrachiaro coordinato con i top integrali dello stesso colore.

In alternativa è possibile coordinare le basi in finitura laccata lucida nelle 30 tonalità proposte con i top in resina lucida o anche opaca che coprono completamente la base.

Le specchiere abbinata sono sospese con illuminazione fluorescente integrata o nella versione contenitore con apertura dall'alto o laterale nella specchiera a trittico permettendo così un'elevata capienza.

PASHA,
LUSSO
E RICERCATEZZA

Alla base di questa linea ci sono gli stessi principi di originalità e unicità che caratterizzano l'opera d'arte: ogni elemento, ogni dettaglio è studiato per rispondere all'esigenza di esclusività di chi desidera un prodotto di lusso, un oggetto-gioiello frutto, necessariamente, di un'accurata ricerca. Tutto ciò è evidente soprattutto nella diamantatura del lavabo e nelle sfaccettature degli angoli alla base del mobile. Il taglio a diamante, obliquo per sfruttare al massimo i giochi di luce, dà risalto alla qualità della materia e alla preziosità dell'oggetto.
