## KEFA

design: Matteo Nunziati

Si ispira all'opera dell'architetto Giuseppe Terragni, padre del razionalismo italiano attivo negli anni trenta e quaranta del novecento la nuova serie Kefa. Terragni definiva la sua architettura "limpida, elementare, perfetta". I nuovi mobili da ufficio Kefa sono immensi volumi sospesi che si intersecano tra loro. Le forme sono essenziali ma, grazie alla dimensione importante, alle forme imponenti, alla cura dei dettagli e alla selezione accurata dei materiali come pelle cuoio, legno e metalli, ogni complemento acquista una ricchezza ed una esclusività unica. Il risultato è uno stile contemporaneo, innovativo ma allo stesso tempo elegante e borghese.

*The new Kefa series is inspired by the work of the Italian architect Giuseppe Terragni, the father of Italian Rationalism and active between the 30's and 40's of the twentieth century. Terragni called his architecture "clear, elementary and perfect". The new Kefa office are characterized by immense suspended volumes that intersect each other. The lines are basic but thanks to the important dimension, the imposing forms, the attention for the details and the careful selection of the materials such as leather, wood and metal, each complement acquires a richness and a unique exclusivity. The result is a contemporary and innovative style, at the same time elegant and bourgeois.*
