Heat-treated

Dogi, a collection designed by Enzo Berti for the bath, marries the natural elements of water, stone and wood into soothing shapes and forms easily combined to create a luxurious home spa experience. Crafted of solid ash in light and dark tones, Dogi includes wall mounted and freestanding furniture to hold washbasins, vanities, storage columns, open shelving, mirrors, towel racks and wood clad bathing tubs. Counters tops and basins come in a selection of 8 stones.
