Employing the craftsmanship and artistry of hand-blown glass, Nest is created to be a carrier of light, a translucent interpretation of sacred celestial forms. For thousands of years, the spherical shapes of the sun or crescents of the moon have captured the wonderment and inspiration of mankind. Our Nest collection interprets this fascination of many cultures as an inspiration for fixtures of sculptural luminosity created by two hand-blown glass forms nesting in brilliant light. The outer sphere is blown in thick clear crystal with a high polished cut edge conveying the optic quality of our handmade studio glass. Nesting inside like a gem, is the inner ball that surrounds the light source, illuminating in one of eight available jewel tones suspended by a silver leaf or gold leaf canopy and brass or polished nickel accents. Designed by Master Glass Artist Frank Englesby.

AVAILABLE IN SILVER LEAF OR GOLD LEAF CANOPIES, WITH EIGHT INNER GLASS COLOR OPTIONS

A new versatile glass concept from Fine Art Lamps Master Glass Artist Frank Englesby, Terra creates a three-dimensional contrast of deep textured and polished cast glass. The stunning landscape of the glass, illuminated by waterproof LEDs, interprets a terrain of geographical beauty not yet seen in a contemporary fixture. Terra is an indoor/outdoor collection that can be mounted on ceilings or walls, vertically or horizontally. Choice of three finishes (champagne tinted gold leaf finish and silver leaf for indoor only, and a hand rubbed black iron for indoor and outdoor) and two glass options of clear or highlighted with antiqued gold leaf.

DELPHI OUTDOOR

by Alex Woogmaster

Inspired by the myths and legends of the ancient Oracle of Delphi, each piece has a mystical quality, glowing from a primitively classical basin silhouette. Our Delphi collection has been interpreted into a unique outdoor line featuring hand rubbed black iron and cast glass illuminated with waterproof LED's. Delphi will be a stunning enhancement to any architecture.
