

FINE ART

HANDCRAFTED LIGHTING

2020 CATALOG

*Express what you
believe in, in a
language of light.
Inspirations patterned
from historic worlds,
nature itself, and
pure reverie.
Sculpted of metal and
embellished with glass
of the richest tones.
Any dream you may
conjure, rendered
into reality.*

We have made every effort to accurately represent the character of our finishes shown in this catalog, however, due to printing there may be variations. In addition, there may be variations in handmade finishes. To request a sample, please contact your Territory Manager or send an email to customerservice@finearthl.com.

ARTISTRY IS OUR HERITAGE

One name has for generations stayed passionately devoted to creating the finest handcrafted lighting.

The company's artistic heritage began in the New York glassmaking factory founded by Max Blumberg in the late nineteenth century. In 1940, his son Jack Blumberg gathered the finest designers, sculptors, and decorative artists to fulfill their shared vision of becoming the world's premier lighting manufacturer, and Fine Art Lamps was born.

In 1965, Jack's son Max carried on the commitment of his grandfather and father to design excellence and superb workmanship. In 1976, the company moved to Miami and expanded its operations capitalizing on the dynamic and creative culture thriving in South Florida at the time. Over time, Fine Art has been honored with numerous design awards, including the prestigious ART Manufacturer of the Year Award an unprecedented nine times, distinguishing the company beyond compare, and cementing our induction into the ART Hall of Fame.

In early 2018, as Max looked to enjoy new adventures in retirement, the company was acquired by his long-term executive team, Laura Goldblum and Rene Quintana. Vowing to continue the exceptional legacy the Blumberg family initiated, while updating the look and feel for today's savvy consumer, Fine Art Lamps was rebranded to Fine Art Handcrafted Lighting—a name more descriptive of the artistry and craftsmanship

involved in creating their original product designs.

Fine Art Handcrafted Lighting is driven to achieve the highest artistic standards by creating unique and original lighting designs of beautifully handcrafted metal, hand-blown glass, and other unique materials utilizing exquisite hand-applied finishes. Today our devoted team of design and development specialists continually explore new concepts, challenging the status quo to bring to market elegant and sophisticated works of art, unparalleled in detail, character and value.

We are especially proud to manufacture in the United States of America, based on the belief this ensures design integrity, quality control, reliable delivery, and personal service. We are honored to have our handcrafted lighting grace exquisite spaces in private homes, and commercial applications in more than 70 countries around the globe.

When our company began, the name Fine Art was chosen to highlight our dedication to honoring lighting design as an art form. This tradition has been practiced by devoted designers, artisans, and craftsmen for almost 80 years and counting. We remain forever dedicated to inspiration, to vision, to illumination, to exploring the boundaries of what seems impossible—until by innovation and new technologies, we make it possible.

Today, we proudly uphold that tradition to bring our clients lasting works that are truly fine art.

Handcrafted

Quality craftsmanship requires connection between material and maker. Our in-house masters of glassmaking and metalsmithing utilize an array of both traditional and innovative techniques to carefully tailor lighting of impeccable beauty. We weld, hammer, blow glass, finish, and assemble by hand—not because Handcrafted is in our name but because it is in our hearts.

Studio Glass

The integration of studio glassworks with creative metalworks offers an unlimited range of custom design. New lighting technology such as LED has opened the door to totally innovative ways of lighting studio glass to highlight and enhance its unique characteristics. To quote Master Glass Artist Frank Englesby, "We are committed to keeping the American made tradition of studio glass in the forefront of design and to constantly push the boundaries of what may be impossible until it is possible."

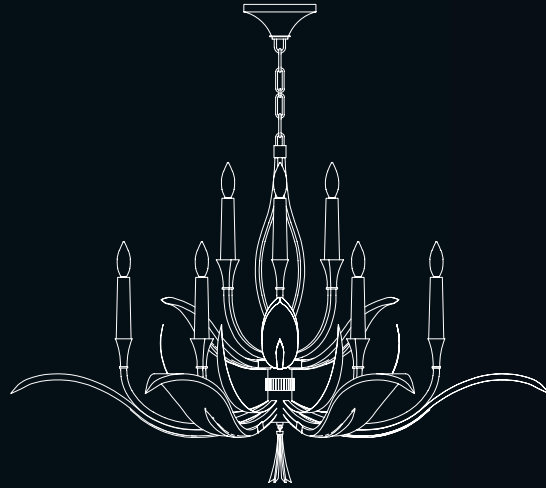

Custom

Explore the infinite possibilities of creating custom lighting in collaboration with our lead designers. From stunningly original works of maximalism, to spare inventions enriching modern architecture—we create unique pieces that achieve any aesthetic. Our territory managers provide on-site expertise to ensure that your building plans, concepts, and lighting requirements align, including site-specific custom installation. Your vision comes to life through the bespoke workmanship of our studio artisans, who carefully craft every detail.

PLUME

Plume sets classical lines soaring into modern designs. A labor of love in our Miami glass studio, this elegant collection interweaves elements of our signature handblown studio glass with handmade metal fabrication. The resulting forms exhibit the finest craftsmanship and cast ribbons of light in the richest hues.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

LUNÉA

Designed by ERINN V.

Timeless elegance emanates at the core of this collection. Hand-cast glass—highlighted by hand-beveled edges—evokes the properties of rock crystal and creates an architectural feeling. Inspired by mid-century, Lunéa blends modern and classic aesthetics, allowing the pieces to add a touch of glamour to a modern home and modernize a more traditional space.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

Soft Gold Leaf (-2)

Also available in our 5 Standard Finish Options. See page 459.

LIOR

Designed by ALEX WOOGMASTER

Asked about the interpretation for "Lior," designer Alex Woogmaster responded: "Lior in Hebrew can mean my light, and light to me, both of which seemed appropriate for my first design collaboration with Fine Art. The fixtures are influenced by the ephemeral appearance of illuminated rock crystal, which has here been interpreted into handmade glassworks with the collaboration of the Fine Art studio glass master craftsmen. Lior is meant to evoke a primal sense of craftsmanship: formed of glass spires that mimic natural crystal formations as much as they do rays of sunlight, and clean metal lines in unadorned but precious finishes—all inspired by the raw sense of wonder Adam might have had upon first seeing light on Earth. Available in silver leaf, gold leaf, or patinated bronze.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

CROWNSTONE

As a celebration of Roman ingenuity and design, a transformative element of classical architecture has been interpreted with the brilliance of glass. As the primary element of these elegant transitional fixtures, the Crownstone is captured in cast glass by the highly skilled artists in our Miami studio. Strength and elegance are the hallmarks of this bold new series, giving testimony to our commitment to innovative designs and American craftsmanship.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

ALLISON PALADINO

Designed by ALLISON PALADINO

A state-of-the-art dimmable LED collection of lighting fixtures and sconces conceived by Allison Paladino incorporates our exclusive studio process of dichroic rough-cut sculpted glass, conceived by Fine Art master glass artist Frank Englesby. Each rough-cut glass gem is lit by (small and high efficacy) hidden LEDs, highlighting a dual-colored reflective brilliance. Dichroic glass was developed by NASA for use in space shuttles. Making dichroic glass requires complex processing technique in high-temperature vacuum chambers using vaporizing metallic oxides such as magnesium and titanium. The process requires 15 to 45 individual layers totaling a width less than a single human hair.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

ARCTIC HALO

Fine Art Master Glass Artist Frank Englesby has been inspired by memories of childhood dreams: the heavenly light show that dances around the midnight moon hovering over the Arctic circle. We have conceived lighting fixtures that capture this effect perfectly, in the form of shallow bowls, drums, rings, waisted bodices, and cylinder sconces. Using thousands of handmade "rough-cut" crystal gems made in our glass studio, Arctic Halo celebrates the refracted light of ice crystals carried by cirrus clouds and forming a lunar halo in the night sky. Drums and rings with tightly woven white fabric diffusers.

Available soft tinted pale gold leaf, silver leaf, and black matte.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

DELPHI

Designed by ALEX WOOGMASTER

When Alex Woogmaster began working on designing the Delphi collection, he wanted to arrive at a design that felt clean, timeless and true. The collection is inspired by the myths and legends of the ancient Oracle of Delphi, and each piece needed to have an almost mystical quality, glowing from an almost primitively classical basin silhouette—made of hand formed or blown glass— set within a silhouette whose form above all, emphasizes purity. There is something deeply peaceful and reassuring to Alex about the concept of knowledge, and while these fixtures don't necessarily reveal truths, we hope that the light they shed can, metaphorically speaking, help bring the light of truth into our lives. At the very least, these fixtures are meant to bring a contemplative serenity and clarity to our world.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

NATURAL INSPIRATIONS

Born from the core elements of Earth, inspired by the beauty of nature and created by the sculpting hands of master glass artists. A collection of precious drop lights as wondrous and unique as nature itself. Available in platinized silver leaf or gold-toned silver leaf finish, and your choice of eight hand blown glass options. Custom finishes and custom sizes available on all canopies.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

OUR CABLING SYSTEM

Glass pendants are individually adjustable after installation for optimum composition. This is a major advantage compared to other drop pendant cabling systems that require cutting. Cables are hand adjustable by simply pushing up to shorten the length. To increase cable length, push plunger up and pull cable out.

ORDER MULTI-GLASS PENDANTS

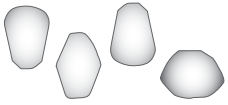

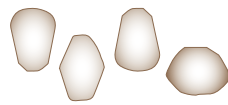

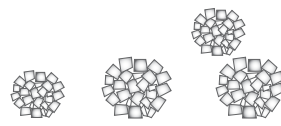

Select finish/glass suffix option from below and add to item base number.

CUSTOMIZATION

As seen on page 89, Natural Inspirations has multiple canopy configurations. However, through Fine Art Handcrafted Lighting's Customization Program we can make canopies to your specification in size and in number of drops with supplied appropriate transformer capacity. Canopies can be customized in finish and shape, including a version that has been coated with a base primer for you to paint to match your home decor.

*Clear and Natural "Quartz" are predetermined at approximately 25% per shape. Hailstones are predetermined at approximately 50% per size for quantities of 5 or more on a canopy.

Min. Ht. 14" (36 cm) Max. Ht. 129" (328 cm). Includes US G4, 4W LED Bulbs, 2700K. International G4, 10W Halogen bulbs and 10' adjustable coaxial cables. 20' cables or longer are available through our Customization Program. Custom finishes and custom sizes available on all canopies. Ships unassembled.

LAS OLAS

The unique hand-sculpted surface creates waves of texture that refract and reflect the illumination from within. Drop lights feature an organic form, finished with a hand-polished edge creating a dramatic contemporary feel. The organic body and base have a distinctive style as a truly sculpted glass table lamp. Each piece is handmade in our Miami Glass Studio and one of a kind. Available in silver leaf or gold leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

NEST

Employing the craftsmanship and artistry of hand-blown glass, Nest is created to be a carrier of light, a translucent interpretation of sacred celestial forms. For thousands of years, the spherical shapes of the sun or crescents of the moon have captured the wonderment and inspiration of mankind. Nest interprets the fascination of many cultures as fixtures of sculptural luminosity created by two hand-blown glass forms nesting in brilliant light. The outer sphere is blown in thick clear crystal with a high-polished cut edge conveying the optic quality of our handmade studio glass. Nesting inside like a gem is the inner ball that surrounds the light source, illuminating in one of eight available jewel tones available in silver leaf or gold leaf with polished nickel and brushed brass accents.

Designed by Fine Art Master Glass artist Frank Englesby.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

DIAMANTINA

A gem-like old hilltop village in Brazil, Diamantina is famed for quartz crystal clusters, considered since ancient times to have cosmic connections and psychic healing powers. Inspired by nature, Fine Art Master Glass Artist Frank Englesby has created a collection of lighting as wondrous and unique as nature itself. Building on glass techniques over 2000 years old, and using the core element of natural quartz, the spires are worked by hand at over 2000 degrees. The raw crystal spires are then rough cut and hand polished to expose the inner core to light. As in the natural world each piece is distinctly unique.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

CONSTRUCTIVISM

Constructivism as an architectural philosophy originated in Moscow in 1919 as an expression of Russian futurism. Our Master Glass Artist Frank Englesby has created a technique of crystal cobblestones in the spirit of Constructivism. Individually cast pillow-shaped glass pieces are fused at high temperature in a hand-laid cobblestone pattern of individual lenses creating a fascinating light diffuser and sculptural form. Exposed metal in hand-applied silver leaf finish.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

TERRA

A new glass concept from Fine Art Master Glass Artist Frank Englesby, Terra creates a three-dimensional contrast of deep textured and polished cast glass. The stunning landscape of the glass, illuminated by waterproof LEDs, interprets a terrain of geographical beauty not yet seen in a contemporary fixture. Terra is an indoor or outdoor collection offered in multiple sconce sizes and a flush mount. Choose between three finishes (champagne tinted gold leaf finish and silver leaf for indoor only, and a hand-rubbed black iron for indoor and outdoor) and two glass options of clear or highlighted with antiqued gold leaf.

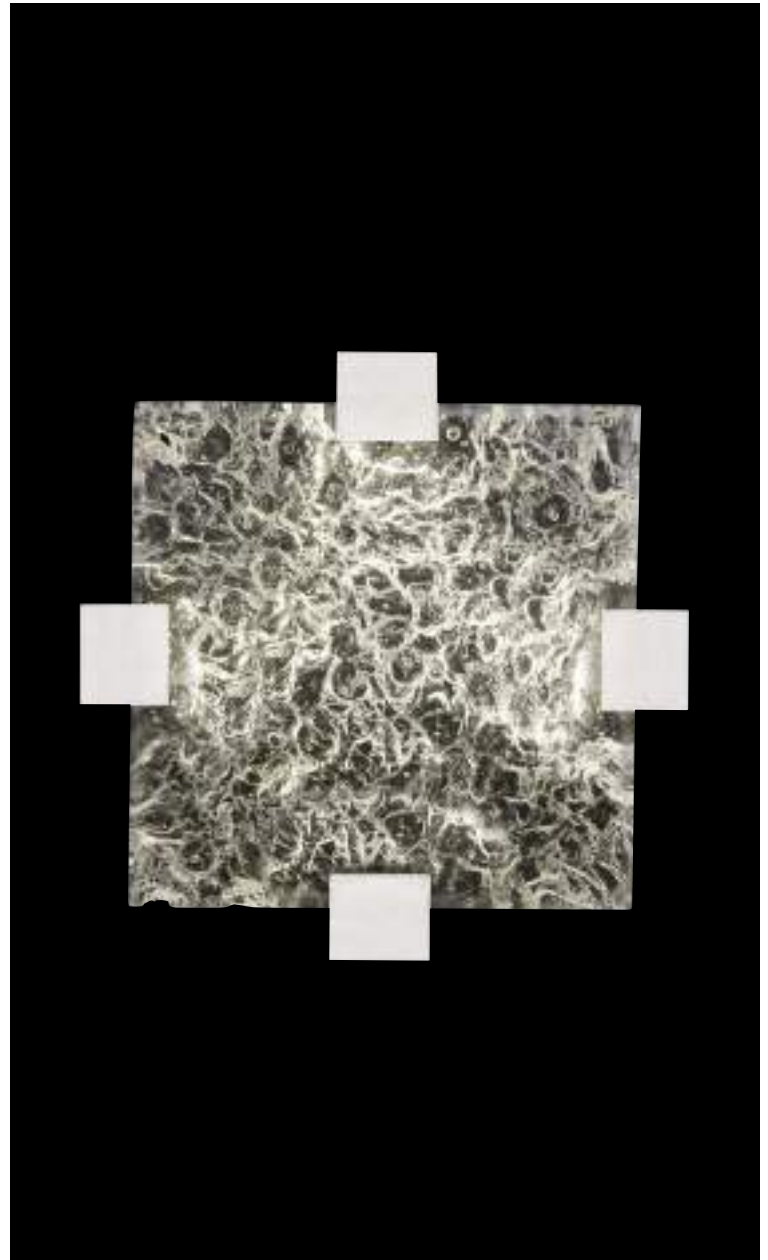

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

CRYSTAL BAKEHOUSE

In Fine Art's glass department, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting.

A five-day process of hand-creating crystal spires, crystal river stones and crystal colored shards, then baking and annealing them for several days at high temperatures to form a massive block which is then carefully polished. Bubbles and seeds formed naturally in the slow bakehouse process add to the dynamic effect when the slabs are illuminated by a light sources. The entire crystal composition comes to life. Available in Indoor/Outdoor silver and bronze finishes, and silver leaf (Indoor only) with two different looks— Crystal Spires and Crystal River Stones.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

SOBE

A collection of three distinct styles of contemporary table lamps reflecting the vitality and culture of Miami and South Florida. Each made individually in our Miami glass studio with gold or platinum lined coordinating or neutral fabric shades. The Argyle Diamond lamp is sculpted in glass as the focal point of this design. Features brass appointments and a brass base. The Diamond Lattice lamp is a combination of a classic mid-century bottle form with a diamond pattern as seen in 18th century French pattern glass. Features silver leaf or gold leaf accents. Our Dichro Collage lamp is a work of art.

A trendsetting innovative design born in our Miami glass studio that features a unique multicolor collage of luminescent abstract patterns with gold leaf accents. Created by fusing layers of dichroic glass into a blown vessel and cased in heavy clear crystal.

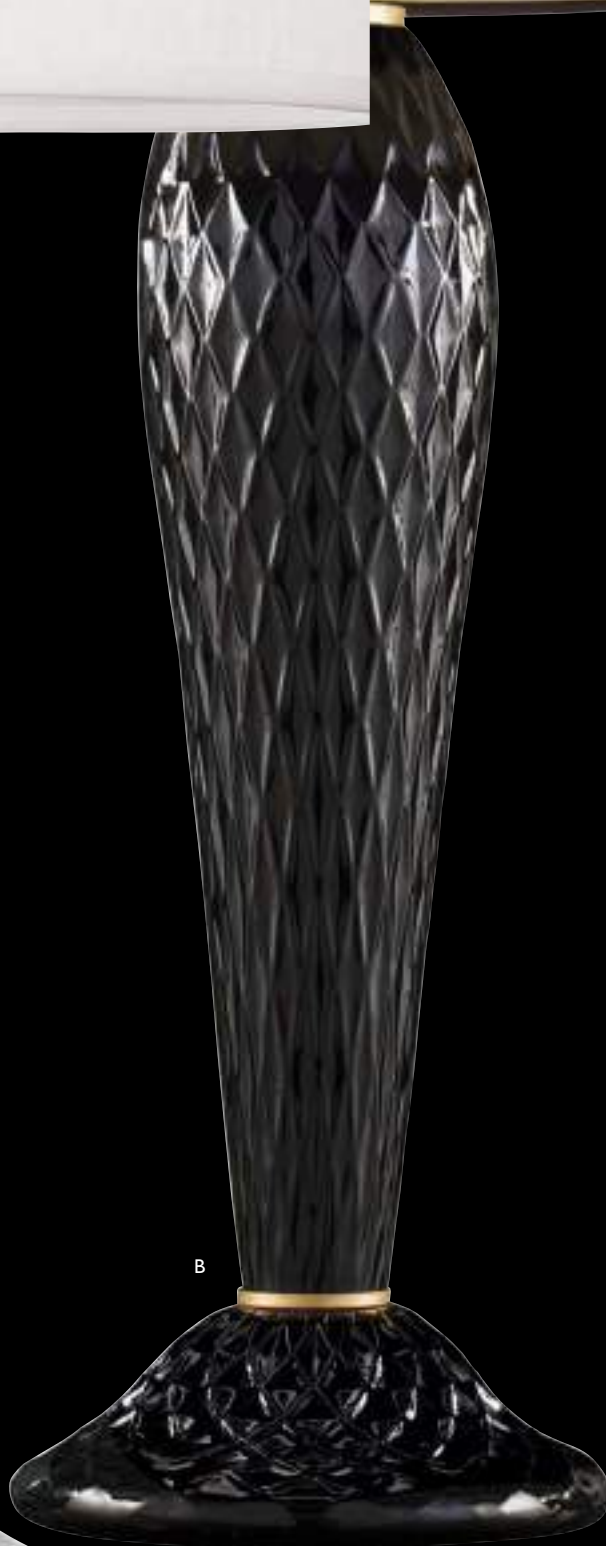

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

LILY BUDS

State of graceful bouquets of crystal lily buds form perfectly lovely compositions for chandeliers, pendants and sconces in a silver leaf or gold leaf hand applied finish. The lighting effect is naturally elegant, subtly brightening a space with the poetic promise of new blooms inherent in buds.

MARQUISE

Perhaps the most elegant and graceful shape for a diamond is the marquise, formed by two curves intersecting. Available in Florentine brushed gold leaf with antiqued candlesticks, or platinized silver leaf with warm gray candlesticks. All with hand-cut faceted crystals. Table lamp features marquise-shaped, laminated cream or white fabric shade with streamlined, rolled-over edges.

CHRYSANTHEMUMS

The chrysanthemum blossom is one of the great floral motifs in the history of design, in diverse cultures such as ancient Egypt, imperial Japan, and early Rome. Fine Art has fashioned mum blossoms of unique custom crystals in three sizes, all with the top side smoothly domed and the flared bottom cut with chrysanthemum petals.

The crystals are arranged in naturalistic random floral clusters, illuminated from within by incandescent round vanity bulbs. The lit effect is stunningly dramatic and casts very subtle patterns.

MONCEAU

Monceau is an exploration of geological faceting. The classical emerald cut is a rectangular composition with two short sides cut North & South and two long sides cut East & West. The top surface of Monceau has a large rectangular plane that serves as a window with deep facets on four sides. The use of classical facets in crystal creates a modern statement on this large scale. Each Monceau crystal is cut from a solid mass. The center is cored out and all facets and surfaces are meticulously polished. Metal frames in choice of platinized silver leaf, soft gold leaf or patinated bronze.

NEULLY

An excursion into the realm of asymmetry. No two arms are alike. And upon viewing from different angles, the overlapping linear interplay of steel suspended in space is endlessly seductive. Cylindrical crystal shades are meticulously scalloped on the interior to create a prismatic lighting effect. Shades are seated on hexagonal solid crystal bobeches. Available in platinized silver leaf, soft gold leaf and patinated bronze.

WESTMINSTER

Westminster is thoughtfully designed to be both boldly dramatic and quietly subtle. Double-faced beveled crystals exquisitely float openly in individual metal frames that conform to the crystal shapes but without touching them. The lanterns, chandeliers, pendants and sconces are offered in a choice of warmly washed pale antique gold or softly weathered English brown iron patina with vestiges of Brown Iron Patina. Both aged finishes lend a casual elegance to today's interior styles.

BEVELED ARCS

This groundbreaking concept has dramatic sweeps of arcing beveled crystals, mounted with metal in a warm muted silver leaf or gold leaf finish. Exquisite and innovative, the Beveled Arcs collection is equally effective in dramatizing a tradition or contemporary setting. A true advancement in lighting design for the 21st century and beyond.

CRYSTAL LAUREL

To ancient Mediterranean peoples, laurel stood for victory, distinction, and merit. The Greeks and Romans wove them into crowns and gave them as honors to heroes, athletes, and great poets. The laurel wreath became one of the most enduring design motifs of all time, and it has inspired our Crystal Laurel collection of decorative lighting. Stylized crystal leaves with boldly cut facets reflect light in delicate patterns. The hand-wrought metal forms are finished in antique taupe with silver leafed accents or gold leaf.

MONTE CARLO

The Monte Carlo collection is dedicated to the halcyon days of an American princess. Grace of Monaco possessed poise, sophistication, and a taste for elegant design. Brilliant faceted crystals of massive scale adorn gracefully intersecting arms in a gently worn gold leaf finish. Hand-blown swirled crystallized glass shades are framed in gilded metal.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size, and markings are the characteristics that distinguish art glass from mass produced glass.

CASCADES

Inspired by the magnificent water displays of 18th century fountains, Cascades is a collection of unique lighting fixtures of exquisite grace. Metal frames of warm silver leaf support dramatically bold cascades of hand-cut crystals delicately woven together and trailing away like water droplets. Light playing on the crystals recalls the effect of sunlight or moonlight animating cascading water. The extraordinary visual effect is that of falling water captured in mid-air.

PRUSSIAN NEOCLASSIC

The Prussian designer Karl Friedrich Schinkel in the early 19th century championed the neoclassical Greek Revival style that inspires this collection of lighting. Bold lines traced delicately by fine cut crystal beads. Available in weathered Prussian silver gray finish with hand-sewn driftwood linen shades or Brandenburg gold leaf finish with hand-sewn cream toned silk shantung shades.

EATON PLACE

Drawing inspiration from the London of the 1820s, Fine Art has created Eaton Place, a highly original collection of lighting with strong traditional roots, fashioned of solid brass and steel in a rich dark brown patina with garnet undertones. Unprecedented in scale and magnificence are the massive, fully faceted solid crystal bell-shaped pendants, urns, and bobeches of optic quality. The shades are composed of faceted solid crystals mounted in metal frames, which create a stunning effect of refracted light. Also available in a silver leaf finish.

ENCASED GEMS

Mounting colored gems creatively in metal is one of the oldest art forms, and survives today in the realm of jewelry. Inspired by this grand tradition, Fine Art has created jewelry for the home. Crystal gems in carefully chosen coordinating hues are mounted with a fine metal encasement and integrated into original metal lighting fixtures. All of the designs are offered in a venerable bronze patina, variegated gold leaf, or vintage silver leaf.

ENCASED GEMS GEM/FINISH REFERENCE SHEET

This original collection features three beautiful finishes; vintage silver leaf, variegated gold leaf, and venerable bronze patina. Every style in the collection is available in each of the three finishes with two crystal gem options; all clear crystal gems or a multi-color gem configuration designed to compliment the finish color. To order the item with the finish and crystal gemstone color configuration desired, please use the item's six-digit style number that indicates the desired finish with the crystal gem color extension (-1 Multi-color, -3 Clear). For additional information please contact your Territory Manager or Customer Service Representative.

NOTE: Any other selection of single crystal gem colors will be processed through our Customization Program.

FINISH

GEMS

CERTAIN ITEMS WILL NOT INCLUDE ALL GEM COLORS DISPLAYED BELOW.
For specific color variations contact your Territory Manger or your Customer Service Representative.
Gemstone colors reflected are not intended to be exact replicas of color due to the limitations of printing, naturally occurring color variations, and the hand-craftsmanship of our lighting designs.

A MIDNIGHT SUMMER NIGHTS DREAM

Since the beginning of time, human beings have longed to live in the world of their dreams—a place of serene beauty. As we create our homes, all of us aspire to bring our dreams to life. Fine Art offers you the chance to bring into your home the eternal magic of summer moonlight in a romantic garden pavilion. Each creation has an elusive, dream-like quality, from the faceted crystal drops and cut crystal beads enriched with moon dust, to the delicate lines traced in iron in a moonlit patina. Behold a designer's reverie, rendered into reality to adorn a fantasy home with magical illumination.

Finish Options. See page 459.

WINTER PALACE

The Winter Palace in St. Petersburg was the Romanov seat of power. In its glass-enclosed winter garden, crystal chandeliers and sconces illuminate the plants that create an illusion of summer in the midst of glacial winters. The Winter Palace collection highlights brilliant icicle crystals clustered in palmette forms, or emerald cut borders, mounted with iron in a warm silver leaf finish.

CRYSTAL LAMPS

Designed by THOMAS FUCHS

Crystal is magic. One day it is sand pigment, and the next day ashen. It's a beautiful object and has inspired this line of hand-cut crystal portables designed by Thomas Fuchs for Fine Art. Clear optic crystal bodies featuring plated brass and satin nickel accents.

NEWTON

Designed by ALEX WOOGMASTER

The strikingly carved and arrayed crystal planes of Newton are inspired by the light play of prisms. From pure geometric forms emerge rays of richly layered complexity. Contemporary in form and silhouette, these sculptures of metal and light offer the color-infused prismatic brilliance of multi-faceted glass in an ordered sensibility—crisp illumination sparkling at every angle.

PERSPECTIVES

Perspectives is inspired by the geometric interplay of angular forms, whose beauty is the phenomenon of perspective. In the spirit of the modernist movement in architecture, the rectilinear forms seem to float. As one moves around the pieces, the ever-changing spatial relationships fascinate the eye. Sculptural and structural, the lighting forms are a strong visual focal point. A patinated golden bronze finish with shades of multi-tonal gold organza add a subtly varied and uniquely layered pattern of light in a room. Also available in warm muted silver leaf finish with shades of multi-tonal white crepe.

ALEGRETTO

Allegretto, a musical tempo that is briskly bold yet relaxed, gives its name to a lighting collection created to the sound of music. Like a conductor directing his orchestra with artful movements of his baton, the Fine Art designers made confidently bold, swift strokes in drawing Allegretto. The lines for each piece in the collection make distinct, graceful gestures that timelessly span yesterday, today, and tomorrow, as the curves change direction gracefully with elegant simplicity. Available silver leaf finish or burnished gold leaf with subtle brown highlights and white textured linen shades.

PORTOBELLO ROAD

Of the vast array of chic design found among the London dealers of Portobello Road, the most sought after lamps and fixtures are those of the 1920s to 1940s. Fine Art has created original designs in this vibrant spirit: strong lines that break with the past and form a bridge to the future. Portobello Road emits an aura of chic in gold leaf, silver leaf with hand-tailored silk shades.

STACCATO

Like a conductor directing his orchestra through a staccato movement, wielding his baton in swift vertical motions, our designer composed a collection of lighting characterized by vertical central lines in the form of metal flanges, whose repeated profiles form graceful silhouettes. Staccato is offered in a choice of toned gold or silver leaf with cream crosshatched textured linen shades with hand-sewn fabric lining interior, most with matching silver or gold leaf vertically ribbed openwork metal trim.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

SlighHeight: variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

SINGAPORE MODERNE

Singapore in the 1930s was a vibrant crossroads of Eastern and Western cultures. This was reflected in striking contemporary design, a look evoked by Fine Art today. Almond mica, hand-blown glass panels, orbs and pendants, combined with a warm, muted silver leaf finish create the strong design statement and dramatic subtle lighting effects of Singapore Moderne. Also available in brown patinated bronze.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

CIENFUEGOS

The exquisite seaside city of Cienfuegos on the southern coast of Cuba was built by French émigrés two centuries ago, and is known as "The Pearl of the South." The 1920s were a unique transitional period in architecture and design in Cienfuegos, combining the old and the new. Metalworking innovations flourished among the artisans. This period inspired this eclectic collection which takes its name from Cienfuegos. Executed by skilled metal artisans, the pieces are finished in a choice of antique bronze, soft gold, and weathered greige patina. Most are offered with or without textured natural greige fabric shades.

LIAISON

In creating the nucleus of a new collection, Fine Art envisaged distinctly individual designs that communicate with each other in intimate harmony—the essence of a liaison. Each piece is unique in time and space, executed in hand-crafted metal with extensive component details and articulation, finished in a choice of antique hand-rubbed bronze or platinized silver leaf. The glass shades are hand-blown with random glass overlay hand-worked by Fine Art glass artisans in clear glass with a partial, graduated satin frosting.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

VILLA 1919

In 1919, the architect Julia Morgan began work on San Simeon for W. R. Hearst, while Addison Mizner that year broke ground in Palm Beach for El Mirasol, his first major villa commission. Each architect designed custom lighting using finely wrought iron with shades of decorated mica, a mineral rare until the 19th century when reserves were found and mined in Africa. The lighting designs of Villa 1919, exquisitely hand-wrought of patinated iron, have delicately painted mica shades that cast a warm and welcoming glow and evoke the enduring style of turn-of-the century American villas.

CASTILE

The mention of Castile conjures images of cool and graceful courtyards, of the gentle interplay of light and shadow over Moorish tiles, passing through filigreed ironwork and across the deep recesses of finely carved giltwood ornaments. Castilian decorative style in the 16th century inspires a collection of lighting which captures the beauty and romance of Castile through richly-wrought iron with worn gold leaf highlights, gold-dusted blown glass, beige silk handsewn shades with antiqued trimmings, and warm-toned mica panels.

TERRA

A new glass concept from Fine Art Master Glass Artist Frank Englesby, Terra creates a three-dimensional contrast of deep textured and polished cast glass. The stunning landscape of the glass, illuminated by waterproof LEDs, interprets a terrain of geographical beauty not yet seen in a contemporary fixture. Terra is an indoor or outdoor collection offered in multiple sconce sizes and a flush mount. Choose between three finishes (champagne tinted gold leaf finish and silver leaf for indoor only, and a hand-rubbed black iron for indoor and outdoor) and two glass options of clear or highlighted with antiqued gold leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

16.75" SQUARE FLUSH MOUNT/SCONCE

CRYSTAL BAKEHOUSE

In Fine Art's glass department, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting.

A five-day process of hand-creating crystal spires, crystal river stones and crystal colored shards, then baking and annealing them for several days at high temperatures to form a massive block which is then carefully polished. Bubbles and seeds formed naturally in the slow bakehouse process add to the dynamic effect when the slabs are illuminated by a light sources. The entire crystal composition comes to life. Available in Indoor/Outdoor silver and bronze finishes, and silver leaf (Indoor only) with two different looks— Crystal Spires and Crystal River Stones.

OUR STUDIO GLASS IS HANDMADE INDIVIDUALLY.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

DELPHI OUTDOOR

Inspired by the myths and legends of the ancient Oracle of Delphi, each piece has a mystical quality, glowing from a primitively classical basin silhouette. Our Delphi collection has been interpreted into a unique outdoor line featuring hand rubbed black iron and cast glass illuminated with waterproof LED lights. Delphi will be a stunning enhancement to any architecture.

All items include downlight
except Pier/Post Mount.

LOUVRE

Built as a royal palace, the Louvre stands at the heart of Paris, housing the world's greatest museum. In the days of Louis XIV, within the palace walls lived hundreds of artists and craftsmen, supplying the decorative needs of the court. The arcades of the Louvre, then as now were lit by lanterns designed and made on site. Fine Art's Louvre collection of outdoor lighting designs is inspired by the simple yet elegant lines of the lanterns that have adorned the arcades of the Louvre for centuries. In a fine bronze finish with clear blown glass, Louvre is a strong addition to many architectural styles.

BEEKMAN PLACE

Beekman Place is one of New York City's most sought-after residential addresses. A gracious ambiance that is elegant but not too formal, impressive but not ostentatious. Georgian-style architecture dictates the façade, with handsome detail and a rich history. This unequivocally elegant collection features outdoor designs in weathered woodland brown with gold highlights and solid brass accents.

DEVONSHIRE

The great patchwork-quilt area of Southeast England, part of the West Country, abounds in rolling hills, foreboding moors and picturesque villages that provide some of the finest scenery in England. Inspired by its history, each piece features forged bronze finish with antiqued gold accents and textured seedy glass.

OXFORDSHIRE

One of the most beautiful counties in the English countryside is where Oxford University was founded over 900 years ago. The finely preserved architecture of Oxford inspired Fine Art's collection of individually beveled leaded glass outdoor lighting fixtures in a dark bronze patina.

COSTA DEL SOL

Invoking the soothing salty breezes of the Mediterranean and the rich design traditions of these historic coasts, the Costa Del Sol collection of outdoor lighting is an example of classical elegance, featuring stylized quatrefoil designs in Marbella wrought iron finish. Subtle iridescent textured glass adds another element of beauty to these pieces.

CHATEAU OUTDOOR

As night fell, the feasts and celebrations of Southern Europe moved inside the chateaux, and the light of hundreds of candles would cast a magic glow. These lighting designs inspired us to create Chateau, an interpretation of the metal arts still found in Southern Europe. The finish is of a variegated rich umber patina with gold accents.

GUEST DESIGNERS

ALEX WOOGMASTER

Alex trained as an architect at Cornell University, where he was challenged to master modern design thinking while nurturing his lifelong passion for historic design. Time spent living in Rome further fueled his desire to understand the nature of majestic architecture, and led him to Las Vegas, where he is creative director at the award-winning design company of Wynn Resorts. Alex is captivated by the effects that the built environment have upon the individual, and continues to devote great attention to the study of architectural and design masterpieces. His designs are rooted in nostalgia and reflect his passion for contemporary design as understood through historic senses of proportion, discipline, and drama.

Collections by Alex Woogmaster are Delphi, Delphi Outdoor, and Lior.

ALLISON PALADINO

One of the freshest faces on the scene today, Allison is well known for her exquisite residential and commercial interiors and award-winning licensed products and art. Since 2008, her main focus has solely been the interior design business. She finds relaxation in sketching, and has designed furniture and rug collections, in addition to her lighting line with Fine Art.

Collections by Allison Paladino are Allison Paladino.

ERINN VALENCICH

Erinn Valencich is a Los Angeles-based designer with a keen understanding of the classic California lifestyle. The granddaughter of a fine cabinetmaker and daughter of an architect, Valencich's approach to design underscores the importance of craftsmanship and celebrates luxe, livable furnishings. Her custom furniture line, ERINN V., is handcrafted in California and has evolved into a 90-piece collection available at fine to-the-trade showrooms around the country. In addition to designing for her namesake brand, she has several signature collaborations with a variety of lifestyle brands, including rugs with Creative Touch, lighting with Fine Art Lamps and a collection of hardware with Baldwin, Hollywood Hills by Erinn V. Her designs have been featured in *Elle Décor*, *Architectural Digest*, *Town & Country*, *House Beautiful*, among other publications.

Collections by Erin Valencich are Lunéa.

THOMAS FUCHS

Art, in all its forms, is the catalyst for what Thomas does. He is a furniture designer, creator of stunning Venetian glass, painter, and so much more. While training in fine arts at The Corcoran School of Art & Design, he developed a classical aesthetic with a modern twist that he incorporates into everything he does. His use of the "Golden Mean"—designing within a geometric construct—has also heavily informed his work. He has created chandeliers for a church in Aix-en-Provence as well as Bergdorf-Goodman, and showcased various projects in hotels such as the Bellagio and the Venetian in Las Vegas, and the Ritz-Carlton in Miami.

Collections by Thomas Fuchs are Crystal Lamps.

OUR CUSTOMIZATION PROGRAM

Distinguished by Refinement

We offer you the freedom and flexibility to contract customized products and create original designs to meet your most discerning tastes and exacting specs. The process is one of total artistic collaboration between designer, architect, specifier, and maker to bring about the ultimate refinement of handcrafted lighting. You will receive a spectacular work of art sure to exceed your expectations—on time and on budget.

We provide a skilled team of lighting professionals that consult with you in developing a lighting plan to enhance the space, highlight the architectural features, and achieve the ambiance you desire. We offer a portfolio of thousands of original designs in a vast array of styling from which to choose, and as a true vertical manufacturer in America, we can customize our designs to meet your unique requirements.

Our experience, design and creativity allow us to partner in creating bespoke, iconic pieces at any scale, starting with just a sketch, inspirational photo, or idea. We can handle any size order. There are no minimum quantity requirements. We meet all ADA requirements. And we utilize our international partnerships and logistics expertise to bring additional sources of materials and value-engineering to meet your specific design and budget needs.

As an international company serving more than 70 countries, we offer international wiring certifications including: UL/ETL (US), CSA (Canada), CE, SASO, and GOST.
