ITALIAN LIGHTING

Effe Bi
FERRO BATTUTO ARTISTICO

Effe.Bi
FERRO BATTUTO ARTISTICO

“Effe.Bi Ferro Battuto Artistico” is a company specialized in the creations of Lighting products and Home Decor in wrought iron.

The distinctive sign of our company is the creation of customised items or products based on specific design, thanks to the contribution of interior designers and skilled craftsmen.

Our company is part of the extraordinary handicraft Italian tradition and direct descendant of the ancient Florentine Renaissance workshops, and maintains this extraordinary heritage made by experience, taste and quality, handed down from father to son.

Apart from our simplistic and essential business definition, we like to consider ourselves a place out of time where your ideas along with our dreams come to life through skilled manual ability and we are more than convinced of the need to improve our life through the beauty of things.
