# COLLECTIONS

When light plays a main role. Everything the customer needs to light up the interiors of the house and more: the company is proud of its high quality production of furnishing, mirrors, stairs, glasses and more...

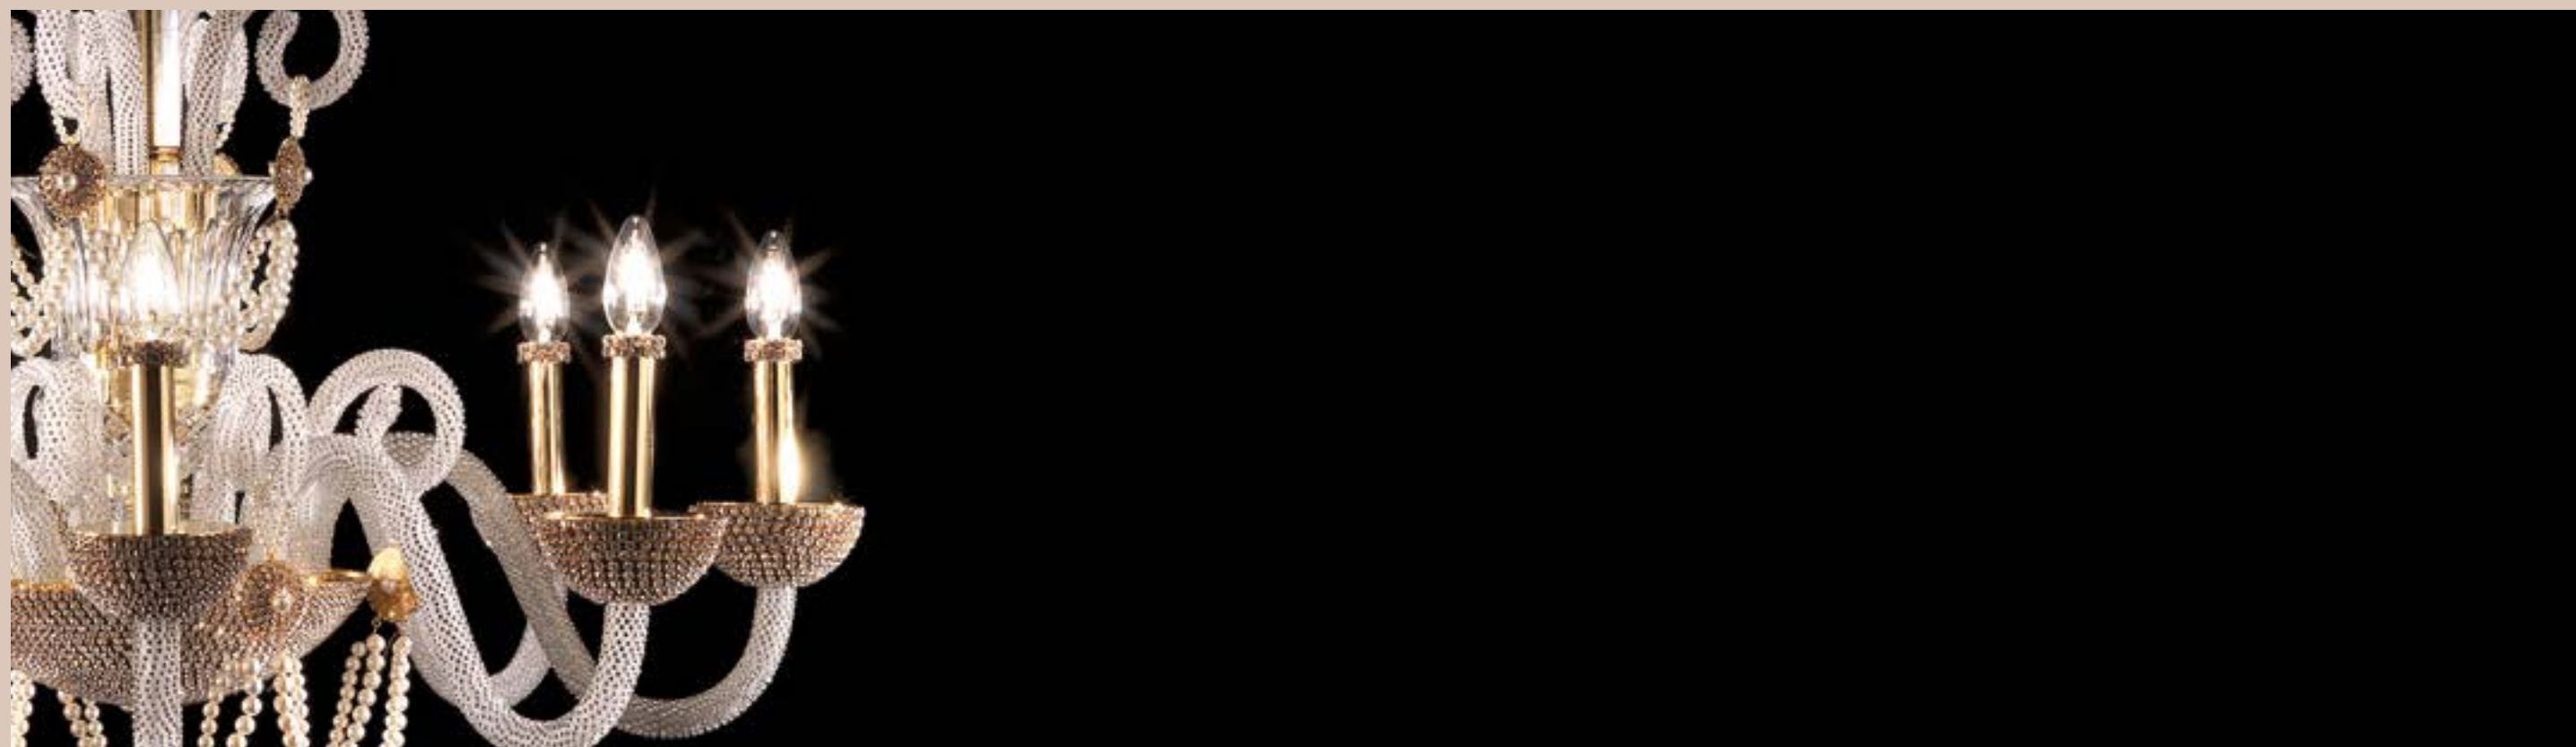

In classical style or "on demand", if the customer has particular requests.

But one can also choose Nonsololuce for the restoration of lightings, drafting of projects and relevant estimates. Every job is looked after personally by the owners who dedicate a lot of attention to materials, selected by quality, to refinishes, to manufacturings, up to the installation and they guarantee an exemplary result.
