“Opening as a Passage” è un invito ad esplorare un mondo poliedrico, che evolve dalla forma della luce e si espande ai mobili, un concetto multifaccettato che parla di apertura e scoperta. Questa soglia introduce ad un luogo espositivo e di incontro che celebra i 10 anni di Venicem nella realtà del design internazionale. La nuova collezione, presentata al Salone del Mobile 2025, è il risultato di un dialogo armonioso tra forme primarie e materiali nobili sapientemente lavorati. I progetti di illuminazione e d’arredo, dalla forte identità stilistica e presenza scenica, generano un’esperienza visiva e sensoriale coinvolgente. In uno spazio accessibile, dove i confini diventano labili, l’osservatore è figura attiva e protagonista di un’interazione sinergica con i prodotti Venicem.

“Opening as a Passage” is an invitation to explore a multifaceted world, which evolves from the shape of light and expands to furnishings, a multi-faceted concept that speaks of openness and discovery. This threshold introduces an exhibition and meeting place that celebrates Venicem’s 10 years in the field of international design. The new collection, presented at the Salone del Mobile 2025, is the result of a harmonious dialogue between primary forms and expertly crafted noble materials. Products with a strong stylistic identity and scenic presence generate an engaging visual and sensory experience. In an accessible space, where boundaries blur, the observer is an active figure and protagonist in a synergistic interaction with the Venicem collections.
