Esistono emozioni che segnano una vita, immagini inedite che possono essere raccontate, vissute e rivissute.

There are feelings that make their mark on your life, and brand-new images that can be described, experienced and experienced again and again.

Es gibt Emotionen, die man nie vergisst. Neue Eindrücke, die erzählt, erlebt und erinnert werden können.

Il existe des émotions que l'on ne peut oublier, des images inédites à raconter, vivre et revivre.

Your state of mind must take a break. Just rest. It will be better,

technicaldata

Tutte le strutture sono realizzate in alluminio e/o acciaio trattato con vernici epossidiche, a garanzia di leggerezza, resistenza agli agenti atmosferici e durata.

Per gli intrecci si utilizzano il SunWeave ed il Sunloom (fili di polietilene) in diverse finiture; SunWeave e Sunloom sono filamenti testati SGS. Le sedie ed il lettino da sole HAMPTON GRAPHICS sono disponibili anche con STRAPS in pvc intrecciate. Le STRAPS sono resistenti agli agenti atmosferici.

La combinazione alluminio+SunWeave Sunloom è garanzia di durata nel tempo sia nella casa che in ambienti pubblici, all'interno ed all'esterno. Il SunWeave ed il Sunloom sono resistenti al caldo, al freddo (+/- 50°), all'acqua ed alla salsedine oltre che ai raggi UV.

La loro manutenzione è semplicissima: è sufficiente lavare le parti intrecciate con acqua e sapone neutro ed una spazzola leggera. Per tutte le parti metalliche ed i basamenti dei tavoli è sufficiente pulire con un panno umido ed asciugare evitando l'uso di detergenti aggressivi o solventi. Si raccomanda di non strisciare i basamenti bensì di sollevarli, per evitare la rottura dei piedini.

Per una più lunga durata dei piani in Teak ed in Iroko si consiglia di applicare (almeno una volta all'anno) sulla superficie pulita ed asciutta un olio protettivo (normalmente in commercio). Il legno di Teak usato è originario di coltivazioni selezionate e rigorosamente controllate da parte degli organismi locali a garanzia di protezione del patrimonio forestale.

La durata dei singoli filamenti di polietilene (SunWeave e Sunloom) è subordinata ad un corretto utilizzo dei mobili; si declina ogni responsabilità per danni derivanti uso improprio ed atti vandalici.

Roberti si riserva la facoltà di apportare modifiche o migliorie senza alcun preavviso.

All the structures are in aluminium and/or stainless steel treated with epoxy paints to ensure lightness, resistance to atmospheric agents and durability.

SunWeave and Sunloom (polyethylene fibres) in different finishes have been used for the weaves; SunWeave and Sunloom are SGS tested materials. Chairs and sunbed HAMPTONS GRAPHICS are available also with woven STRAPS in pvc. STRAPS are weather-resistant.

Aluminium+SunWeave and Sunloom ensure long-term reliability both for residential and contract use, inside and outside. SunWeave and Sunloom withstand heat, cold (+/-50°), water and sea spray as well as ultraviolet rays.

The maintenance is very easy: just wash the woven parts with neutral soap and water using a light brush. For all aluminium parts and table bases clean with a damp cloth and dry. Do not use aggressive detergents or solvents. Do not drag the table bases but lift them to avoid the loss of feet.

To preserve the original beauty of the teak and iroko tops, a protective oil (easy to find) should be applied on the clean and dry surface at least once a year. The teak wood used comes from selected plantations that have been checked by local authorities in order to protect natural forests.

The durability of each single polyethylene thread is subject to proper use of the furniture; we deny any responsibility for damages caused by improper use.

Roberti reserves the right to modify or upgrade the product without prior notice.

Alle strukturen bestehen aus Aluminium und/oder Stahl mit Epoxydlackierung, die Leichtigkeit, Widerstandsfähigkeit gegen Witterungseinflüsse und Langlebigkeit garantiert.

Für das Flechtwerk werden die Materialien SunWeave und Sunloom (Polyethylenschnüre) in verschiedenen Ausführungen verwendet; SunWeave und Sunloom sind SGS getestet. Stühle und Sonnenliege HAMPTONS GRAPHICS sind auch in der Version mit geflochtenen pvc-STRAPS vorgesehen. STRAPS sind für Outdoor geeignet.

Die Kombination Aluminium + SunWeave / Sunloom ist eine Garantie für Langlebigkeit im Haus wie auch im Objekt-Außenbereich. SunWeave und Sunloom sind beständig gegen Hitze und Kälte (+/- 50°), Wasser und Salzrückstände, wie auch gegen UV-Strahlen.

Die Pflege ist absolut leicht: einfach die geflochtene Teile mit Wasser, neutraler Seife und einer weichen Bürste reinigen. Für die Tischgestelle einfach reinigen mit einem feuchten Tuch und sofort trocknen. Die Verwendung von aggressive Reinigungs-bzw. -Lösungsmittel ist absolut zu vermeiden. Wir empfehlen, die Tischgestellen nicht zu schleppen, sondern sie aufzuheben, um der Beschädigung der Gleiter zu vermeiden.

Für eine Langlebigkeit der Teak- und Iroko Holzplatte empfehlen wir, wenigstens einmal pro Jahr, die saubere und trockene Patten mit einem Schutzöl zu behandeln. Wir verwenden ausschließlich Teak-Holz aus ausgewählten und von den örtlichen Behörden streng kontrollierten Anbaugebieten.

Die Langlebigkeit der Polyethylenschnüre ist mit einer ordentlichen Verwendung der Möbel verbunden; wir lehnen jegliche Verantwortung für missbräuchliche Verwendung ab.

Roberti behält sich das Recht vor, ohne jegliche Benachrichtigung, Änderungen oder Produktverbesserungen vorzunehmen

Toutes les structures sont en aluminium et/ou en acier traité avec des vernis à base époxyde, en garantissant légèreté, résistance aux agents atmosphériques ainsi que durabilité.

Pour les tressages on utilise le SunWeave et le Sunloom (fil de polyethylene) en différentes finitions; SunWeave et Sunloom sont testés SGS. Les chaises et le bain de soleil HAMPTONS GRAPHICS sont disponibles aussi dans le tressage de STRAPS en pvc. Les STRAPS sont imperméable et peuvent rester dehors.

La combinaison aluminium+SunWeave et Sunloom est garantie d'une longue durée aussi bien à l'intérieur que à l'extérieur. Le SunWeave et le Sunloom sont résistantes à l'eau, à la chaleur, au froid (+/-50°) et à la saure ainsi-que aux rayons UV.

L'entretien est très simple: il faut laver les tressages avec de l'eau et savon neutre en utilisant une brosse souple. Pour les parties en aluminium et les piétements des tables, nous conseillons le nettoyage avec un chiffon humide; essuyer tout de suite et éviter l'utilisation de détergents agressifs ou de solvants. On recommande aussi de ne pas trainer les piétements des tables, mais de les soulever afin d'éviter la perte des patins.

Pour une longue durée des plateaux des tables en bois de teak ou iroko nous conseillons de traiter leurs surface sèche et propre, avec de l'huile de protection (une fois par an). Le bois de teak utilisé est originaire des cultures sélectionnées et strictement contrôlées de la part des organismes locaux afin de protéger la richesse en forêts.

La durée des fils en polyethylene est liée à une utilisation correcte du mobilier; nous déclinons toute responsabilité pour dégâts provoqués par une mauvaise utilisation.

Roberti se réserve la faculté d'apporter des modifications ou améliorations aux produits sans aucun préavis.

OUTDOOR PLEASURE

Roberti

Greenfield

the new in&outdoor

Conosci te stesso

Fin dall'antichità questo richiamo riecheggia inciso sull'ingresso dei nostri templi. Coloro che ci sono riusciti si dice abbiano trovato un tesoro inestimabile: di sentimenti, pensieri ed emozioni. Meditate, dunque, oziare... prendetevi cura di voi. Con le collezioni Greenfield di Roberti potrete percorrere, senza muovervi, spazi infiniti. Per raggiungere una totale empatia con l'ambiente architettonico che vi circonda e il suo paesaggio.

Know yourself

Since ancient times, this appeal has been echoed and impressed on the entrance to our temples. People who have succeeded in doing so are said to have found a priceless treasure of sentiment, thoughts and emotions. So, take it to heart, relax and...take care of yourselves. With Greenfield collections by Roberti, you can travel through endless space without moving. To achieve total empathy with the architectural layout that surrounds you and your path through life.

Erkenne Dich Selbst

Eine Aufforderung, die schon seit der Antike über dem Eingang unserer Tempel geschrieben steht. Man sagt, dass all jene, die dies geschafft haben, einen unermesslichen Schatz an Gefühlen, Gedanken und Emotionen gefunden haben. Meditieren Sie also und entspannen Sie sich ... verwöhnen Sie sich. Mit den Kollektionen Greenfield von Roberti können Sie unendliche Weiten durchqueren, ohne sich fortzubewegen, in vollkommener Empathie mit dem umliegenden architektonischen Ambiente und seiner Landschaft.

Connais-toi toi-même

Dès l'Antiquité, cette devise a été gravée à l'entrée de nos temples. On dit que ceux qui y sont parvenus ont trouvé un trésor inestimable : de sentiments, pensées et émotions. Méditez, détendez-vous ... prenez soin de vous-même. Avec les collections Greenfield de Roberti, vous pourrez traverser des espaces infinis sans vous déplacer et atteindre une empathie totale avec le décor architectonique qui vous entoure et son paysage d'émotions.

**Sospeso com'è tra cielo e terra,
il panorama visibile dal nostro punto
di vista è semplicemente meraviglioso.**

Suspended as it is between heaven and earth, the panorama
you see from our vantage point is simply marvelous.

Das wie zwischen Himmel und Erde schwebende Panorama,
das sich uns bietet, ist einfach zauberhaft.

Suspendu entre ciel et terre, le panorama que l'on voit de
notre point de vue est tout simplement magnifique.

**Non smetteremo di esplorare
e alla fine di tutto il nostro andare
ritorneremo al punto di partenza
per conoscerlo per la prima volta.**

We never stop exploring, and at the end of our journey we go back
to the starting point and get to know it for the first time.

Wir werden nicht aufhören zu forschen, und am Ende all unseres
Forschens werden wir wieder dorthin kommen, von wo wir
ausgegangen sind, um diesen Ort zum ersten Mal zu erkennen.

Nous n'arrêtons jamais d'explorer et le terme de ce voyage est le
retour au point de départ, pour le découvrir pour la première fois.

**Il vero viaggio di scoperta non consiste
nel cercare nuove terre,
ma nell'avere nuovi occhi.**

A true journey to discover new things is not
a search for unexplored foreign lands, but viewing things in a new way.

Die eigentlichen Entdeckungsreisen bestehen nicht im Kennenlernen
neuer Länder, sondern darin, etwas mit anderen Augen zu sehen.

Le véritable voyage de découverte n'est pas chercher de nouvelles terres,
mais porter un nouveau regard sur la vie.

**Un uomo viaggia per il mondo
alla ricerca di ciò che gli serve e torna
a casa per scoprirlo.**

A man travels the world in search of what he needs,
but returns home to obtain it.

Wir bereisen die Welt auf der Suche nach dem, was
uns dienlich sein kann und kehren nach Hause zurück,
um es zu entdecken.

Un homme peut voyager à travers le monde à la
quête de ce qu'il lui faut et retourner chez lui pour
enfin le découvrir.

Ci sono luoghi in cui si va per il piacere di andare e luoghi che catturano l'attenzione quando hai la fortuna di sfiorarli. E poi ci sono luoghi che ti rimangono nel cuore per un motivo che non sai spiegare.

There are places where you go for the simple pleasure of getting there, and there are places that capture your attention when you're lucky enough to pass nearby. And then there are places that remain in your heart for reasons you can't explain.

Es gibt Orte, die wir bereisen, weil sie uns gefallen und Orte, die unsere Aufmerksamkeit erwecken, wenn wir das Glück haben, sie rein zufällig zu entdecken. Es gibt aber auch Orte, an die wir unser Herz verlieren, ohne erklären zu können warum.

Il y a des endroits que l'on visite pour le plaisir d'un voyage et des endroits qui nous captivent quand on les découvre par hasard. Et il y a des endroits qui restent au fond de l'âme sans que l'on puisse en connaître la raison.

Traveling is like having a star in your sights and a road to travel. It doesn't matter that the star can't be reached. What's important is to move forward and let your journey take control of your soul.

Reisen bedeutet einen Stern vor sich zu haben und einem Weg zu folgen. Es ist nicht von Bedeutung, dass der Stern unerreichbar ist, wichtig ist allein, voranzugehen und sich von der Reise verzaubern zu lassen.

Voyager est suivre une étoile, avoir une route à parcourir. Qu'importe si l'étoile est inaccessible, l'important est de progresser et vivre le voyage.
