= Specific bulbing information.

In 1898, Max Blumberg established a glass factory in New York. His son Jack, founded Fine Art Lamps in 1940. The company has a long tradition of fine craftsmanship and artistry, and the name Fine Art Lamps was intended to emphasize this from inception.

#### HISTORY & MISSION — INSPIRED BY DESIGN®

Lamps and objects to contain light sources are among the earliest design efforts, meeting a universal need with the human instinct to beautify and decorate. Every age from prehistoric times has left behind its decorative lamps, torchieres, or lanterns made to burn oil, wood, or wax, usually the work of individual craftsmen working in clay, metal, glass, or stone. In our times lighting designs are made by organized industrial efforts. But when our company came into existence, the founders chose the name Fine Art Lamps to highlight a dedication to lighting design as an art form, an ancient tradition that would again be practiced by creative designers, artisans, and craftsmen.

Max Blumberg began his glass-making factory in the late 19th century, and by 1940 his son Jack founded Fine Art Lamps. He endeavored to gather the finest designers, sculptors, artisans, and decorative artists, many of whose talents had roots in the ancient crafts of Italy where they were born. From the beginning, Fine Art Lamps has been a design leader, creating true works of art — innovative designs, beautifully crafted forms of metal, glass, and unique materials with exquisite finishes. In the process, the company developed an artistic standard that has come to symbolize the Fine Art Lamps name today.

Since 1965 Jack's son Max has carried on the commitment of grandfather and father to design excellence and superb workmanship. In 1976, the company moved to Miami and expanded to a state-of-the-art 400,000 square foot facility. Fine Art Lamps is proud of its pledge to manufacture in the United States of America, based on the belief that this insures design integrity, quality control, reliable delivery, and personal service. Today there are Fine Art Lamps galleries in over sixty-five countries around the globe.

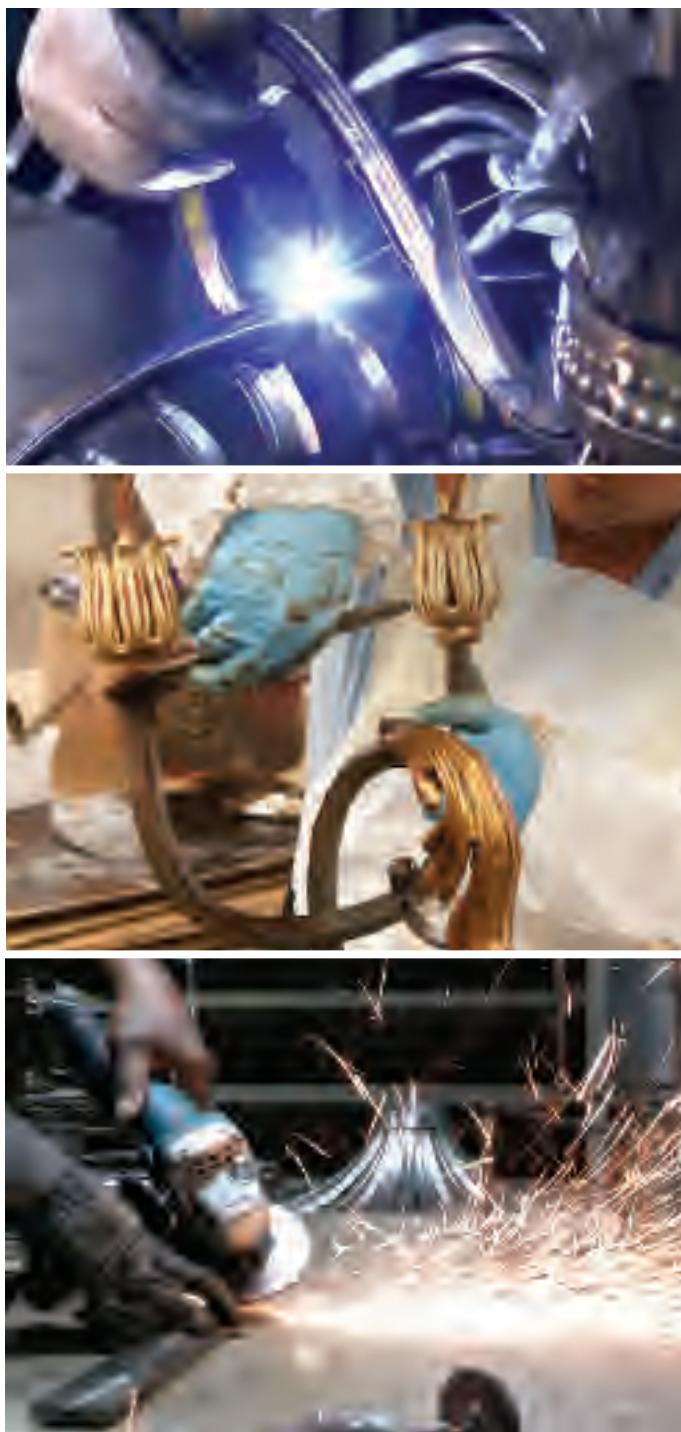

Fine Art Lamps has been honored with numerous design awards, including the prestigious ARTS® Manufacturer of the Year Award an unprecedented nine times, and the company was recently inducted into the ARTS® Hall of Fame. Our unique designs are copyrighted and protected by several patents. Today our devoted team of in-house design and development specialists continues to explore new concepts. But the past is always present: Fine Art Lamps' collections from the 1940s and 50s have been shown around the country in museum retrospectives of the best decorative products of the era, and all our new designs continue to uphold the company's original mission.

#### QUALITY & CRAFTSMANSHIP — INSPIRED BY EXCELLENCE

Beauty is nothing without quality — and for over a century, Fine Art Lamps has adhered to the highest standards of craftsmanship and durability to provide a product worthy of our customers' confidence. All principal design components are manufactured in-house, from glass-blowing to metalwork, under the strict supervision of the industry's foremost craftsmen and engineers. And before ever leaving our facilities, each piece is pre-assembled and rigorously tested by Fine Art Lamps' stringent quality control process.

# HISTORY

ORIGINAL  
LIGHTING DESIGNS  
HANDCRAFTED  
IN AMERICA AND  
SPECIFIED  
WORLDWIDE  
SINCE 1940.

In all, Fine Art Lamps represents the singular vision of over 700 skilled designers, crafts people, artists, and associates, working together to create unique works of art – an intricate blend of Old World tradition melded with New World innovation.

**FINISHES & CUSTOMIZATION — INSPIRED BY DETAILS**  
Exquisite finishes are the trademark of all Fine Art Lamps collections; many of the finishes require dozens of steps and applications to achieve the desired effect. Each piece is handcrafted with a unique finishing process, making it a one-of-a-kind work of art.

Through Fine Art Lamps' exclusive Customization Program, many of our products can be tailored to create your very own work of art. The Program allows you to select the finish, choose the shade type and make minor design modifications.

The Fine Art Lamps Customization Program offers added range and flexibility to enhance the décor of discerning Fine Art Lamps' owners around the world. Ensuring that the human instinct to beautify and decorate will be satisfied once again.

# CONSTRUCTIVISM

Constructivism as an architectural philosophy originated in Moscow in 1919 as an expression of Russian futurism. Fine Art Lamps glass artist Frank Englesby has created a technique of crystal cobblestones in the spirit of Constructivism. Individually cast pillow-shaped glass pieces are fused at high temperature in a hand-laid cobblestone pattern of individual lenses creating a fascinating light diffuser and sculptural form. There are multiple sizes in both stepped and cylinder shaped sconces, square and round pendants on adjustable cables, and drop lights, all using incandescent candelabra-based bulbs. Exposed metal in hand-applied silver leaf finish. A triumph of studio glass artistry!

# CELESTIAL

Celestial Collection, stunning pendants and sconces inspired by the rings of Saturn and cascading stars on the galaxies. The metal rings in silver-leaf are suspended by narrow silver-leaf metal rods and contain incandescent lights shielded by finely perforated metal diffusers, and casting light on the falling strands of hand-cut crystals cascading at the center. Each crystal is individually coated with a fine thin layer of silver to create a reflective surface while the crystals are still transparent. The light from the rings reflects off the crystals while more lights inside the cascades light the crystals from within. The effect created by the inner lights and the outer lights on these unique crystals that are both reflective and transparent, is celestial, elegant, and dramatic, epitomizing Fine Art Lamps aesthetic approach to lighting fixture design, while providing an exquisite focal point in today's interiors.

Pendants include an adjustable 6' rod.

# BEVELED ARCS

This ground breaking concept has dramatic sweeps of arcing beveled crystals, mounted with metal in a warm muted silver leaf or gold leaf finish. Exquisite and innovative, the Beveled Arcs collection is equally effective in dramatizing a traditional or contemporary setting. A true advancement in lighting design for the 21st century and beyond. Look for the distinctive crystals, registered trademarks of Fine Art Lamps. (REG. U.S. PAT. & TM OFF) U.S. PATENT NO. D570,038S & 7,824,084 B2, EU REG. # CRYSTAL LAUREL

To ancient Mediterranean peoples, laurel stood for victory, distinction and merit. The Greeks and Romans wove them into crowns and gave them as honors to heroes, athletes, or great poets. The laurel wreath became one of the most enduring design motifs of all time, and inspired Fine Art Lamps Crystal Laurel Collection of decorative lighting. Stylized crystal leaves with boldly cut facets reflect light in delicate patterns, and the hand-wrought metal forms are finished in antiqued warm silver leaf or gold leaf.

# CASCADES

Inspired by the magnificent water displays of eighteenth century fountains, Cascades is a collection of unique lighting fixtures of exquisite grace. Metal frames of warm silver leaf support dramatically bold cascades of hand-cut crystals delicately woven together and trailing away like water droplets. Light playing on the crystals recalls the effect of sun or moon light animating cascading water. The extraordinary visual effect is that of falling water captured in mid-air.

In creating the nucleus of a new collection, Fine Art Lamps designer Mark McDowell envisaged distinctly individual designs that communicate with each other in intimate harmony, the essence of a liaison. Each piece is unique in time and space, executed in hand-crafted metal with extensive component details and articulation, finished in a choice of antique hand-rubbed bronze or platinized silver leaf. The glass shades are hand-blown with random glass overlay hand worked by Fine Art Lamps glass artisans in clear glass with a partial, graduated satin frosting on lower portion that softens the effect of the candelabra based incandescent bulbs.

# ALLEGRETTO

Allegretto, a musical tempo that is briskly bold yet relaxed, gives its name to a lighting collection created to the sound of music. Like a conductor directing his orchestra with artful movements of his baton, the Fine Art Lamps designer made confidently bold, swift strokes at his easel in drawing Allegretto. The lines drawn for each piece in the collection make distinct, graceful gestures that timelessly span yesterday, today, and tomorrow, as the curves change direction gracefully with elegant simplicity. Available in silver leaf finish or burnished gold leaf with subtle brown highlights and white textured linen shade(s).

# STACCATO

Like a conductor directing his orchestra through a staccato movement, wielding his baton in swift vertical motions, our designer composed a collection of lighting characterized by vertical central lines in the form of metal flanges, whose repeated profiles form graceful silhouettes. Fine Art Lamps Staccato Collection is offered in a choice of toned gold or silver leaf with cream crosshatched textured linen shades with hand-sewn fabric lining interior, most with matching silver or gold leaf vertically ribbed openwork metal trim.

---

AVAILABLE IN SILVER LEAF OR GOLD LEAF

# PORTOBELLO ROAD

Of the vast array of chic design found among the London dealers of Portobello Road, the most sought after lamps and fixtures are those of the 1920's to 1940's. Fine Art Lamps has created original designs in this vibrant spirit: strong lines that break with the past and form a bridge to the future. Portobello Road emits an aura of chic in gold leaf, silver leaf, or tortoise bronze, with hand-tailored silk shades.

All pendants include an adjustable 6' rod.

# BLACK+ WHITE STORY

The ethereal all-white rooms of Syrie Maugham in the 1920's and 30's were echoed around the world in interiors, on stage and movie sets. The glamour of the time owes its simple elegance to the legendary designer's aesthetic, which blended traditional refinement with modern style. Syrie Maugham's contemporary Elsie de Wolfe added black accents and the timeless chic of Black+White was launched. Cole Porter's song "That Black and White Baby of Mine" celebrated Elsie "who thinks black and white and even drinks black and white." Truman Capote's fabled Black and White Ball of 1966 was a tribute to this elegant style, the entire ballroom and its guests all in black and white.

Fine Art Lamps Black+White Story comprises of several styles from some of our more popular collections each offered in all white or black and white combined. The remaining designs from those collections, or other collections, are available through the customization program in all white or black and white combined.

# PERSPECTIVES

Perspectives is inspired by the geometric interplay of angular forms whose beauty is the phenomenon of perspective. In the spirit of the modernist movement in architecture, the rectilinear forms seem to float. As one moves around the pieces, the ever-changing spatial relationships fascinate the eye. Sculptural and structural, the lighting forms are a strong visual focal point. A patinated golden bronze finish with shades of multi-tonal gold organza add a subtly varied and uniquely layered pattern of light in a room. Also available in warm muted silver leaf finish with shades of multi-tonal white crepe.

# QUADRALLÍ

Inspired by one of geometry's most perfect shapes, the square is a powerful icon representing solid structure and form. Quadrallí presents drama visual impact, and the highly unique lighting effect of inner and outer shades. Available in a rich bourbon finish with golden highlights or silver leaf finish.

# RELATIVITY

Members of a new generation have adopted simple lines with clear functionality as their personal style statement. Relativity expresses that viewpoint, reinterpreting classic Fine Art Lamps formats, architecturally scaled for low or high ceilings, for small or large spaces, in a warm antique hand-rubbed steel finish, with mesh panels and early 20th century filament bulbs which are included with the first shipment.

# SINGAPORE MODERNE

Singapore in the 30's was a vibrant crossroads of Eastern and Western cultures. This was reflected in striking contemporary design, a look evoked by Fine Art Lamps today. Almond mica, hand-blown glass panels, orbs and pendants, combined with a warm muted silver leaf finish create the strong design statement and dramatic subtle lighting effects of Singapore Moderne. Also available in brown patinated bronze.

# FUSION

Mesh diffuser and unlit shade detail shown.

B

D

C

Fusion. Science or art form? As a science, Fusion combines different elements, creating a union. The merging of aesthetics and techniques from diverse cultures transforms the science of fusion to an art. Its deceptively simple forms suggest the influence of Asian philosophies on contemporary design. The surface of hammered bronze evokes the timeless beauty of traditional crafts. Fusion by Fine Art Lamps, the stunning result of merging techniques and cultures.

© 2013 Fine Art Lamps

# ENCASED GEMS

Mounting colored gems creatively in metal is one of the oldest art forms, and survives today in the realm of jewelry. Fine Art Lamps, inspired by this grand tradition, has created jewelry for the home. Crystal gems in carefully chosen coordinating hues are mounted with a fine metal encasement and integrated into original metal lighting fixtures. All of the designs are offered in a venerable bronze patina, variegated gold leaf, or vintage silver leaf.

**ENCASED GEMS GEM FINISH REFERENCE SHEET**

This original collection features three beautiful finishes; vintage silver leaf, variegated gold leaf, and venerable bronze patina. Every style in the collection is available in each of the three finishes with two crystal gem options; all clear crystal gems or a multi-color gem configuration designed to compliment the finish color as shown above. To order the item with the finish and crystal gemstone color configuration desired, please use the item's six-digit style number that indicates the desired finish with the crystal gem color extension (-1 Multi-color, -3 Clear). For additional information please contact your Territory Manager or Account Service Representative. NOTE: Any other selection of single crystal gem colors will be processed through our Customization Program.

STYLE NO.	EXTENSION PER FINISH	GEM COLOR
Style #	-1	Multi-Color
Style #	-3	All Clear

© 2013 Fine Art Lamps

Drawing inspiration from the London of the 1820s, Fine Art Lamps fashions Eaton Place, a highly original group of lighting with strong traditional roots, of solid brass and steel in a rich dark brown patina with garnet undertones. Unprecedented in scale and magnificence are the massive, fully faceted solid crystal bell-shaped pendants, urns and bobeche shades of optic quality. The shades are composed of faceted solid crystals mounted in metal frames, which create a stunning effect of refracted light. Also available in a silver leaf finish.

# MONTE CARLO

The Monte Carlo Collection is dedicated to the halcyon days of an American princess. Grace of Monaco possessed poise, sophistication, and a taste for elegant design. Brilliant faceted crystals of massive scale adorn gracefully intersecting arms in a gently worn gold leaf finish. Hand-blown swirled crystallized glass shades are framed in gilded metal.

# A MIDSUMMER NIGHT'S DREAM

Since the beginning of time, human beings have longed to live in the world of their dreams, a place of serene beauty. All of us aspire to bring our dreams to life, as we create our homes. In "A Midsummer Night's Dream", Fine Art Lamps offers us the chance to bring into our homes the eternal magic of summer moonlight in a romantic garden pavilion. Each creation has an elusive, dream-like quality, from the faceted crystal drops and cut crystal beads enriched with moon dust, to the delicate lines traced in iron in a moonlit patina. Behold a designer's reverie, rendered into reality to adorn a fantasy home with the magical illumination of a midsummer night's dream.

# WINTER PALACE

The Winter Palace in St. Petersburg was the Romanov seat of power. In its glass—enclosed winter garden, crystal chandeliers and sconces illuminate the plants that create an illusion of summer in the midst of glacial winters. The Winter Palace Collection highlights brilliant icicle crystals clustered in palmette forms, or emerald-cut borders, mounted with iron in a warm silver leaf finish. Hand sewn shades of silk shantung.

# VERONA

In fair Verona where our story lies, villas are set among cypress-covered hills and terraced gardens. The Verona collection draws from the finely wrought furnishings of the 18th century, with neo-classical motifs in Veronese gold, antiqued crystals, hand-blown glass, and hand sewn shades of silk shantung.

# PASTICHE

Pastiche, by definition a mixture of different elements, aptly describes the inspiration for this collection. From classical Greek forms to delicate chinoiserie accents and opulent finishes, Pastiche unifies diverse inspirations in an exquisite assortment of lighting products. Featuring finishes of warm silver leaf and gold stained silver leaf as well as delicate shades of silk and crystal accents, this collection is a testimonial to refined craftsmanship.

# GOLDEN AURA

C

D

Subtly radiating with refinement, the unique golden crystals in this collection refract a warm, rich light within finely appointed interior spaces. The handcrafted iron frames are painstakingly finished in an aged gold patina. Shades are hand-sewn in silken pale taupe with metal filigree bandings in matching patina.

The fabulous "cottages" of Newport stand as witnesses to America's Gilded age. Newport lends the luster of its name to a collection of lighting fixtures in iron with metal filigree galleries in burnished gold with silver highlights. Distressed mirror panels have a stunningly different look when illuminated from within. Taupe silk shades have unique matching metal filigree galleries.

# CANDLELIGHT 21ST CENTURY

The romantic allure of candlelight is expressed in 21st Century lighting technology. Distinctive faceted metalwork frames in a warm, gold-toned silver leaf finish accented by solid brass fittings. Hand-blown pale gold patterned glass tapered candles with matching blown art glass panels. The glass candles with tiny halogen bulbs and the illuminated glass panels are fully dimmable and enhance interior lighting effects. Also available in a clear silver leaf finish with hand-blown white patterned glass tapered candles with matching blown art glass panels.

# VILLA 1919

In 1919, the architect Julia Morgan began work on San Simeon for W. R. Hearst, while Addison Mizner that year broke ground in Palm Beach for El Mirasol, his first major villa commission. Each architect designed custom lighting using finely wrought iron with shades of decorated mica, a mineral rare until the 19th Century, when reserves were found and mined in Africa. The lighting designs of Villa 1919, exquisitely hand-wrought of patinated iron, have delicately painted mica shades that cast a warm and welcoming glow and evoke the enduring style of turn-of-the century America villas.

# SCHEHERAZADE

Scheherazade was the legendary storyteller of One Thousand and One Nights. Her name evokes an exotic world, where people lived in settings illuminated by lanterns fashioned of intricate metalwork and art glass blown in colors that bathed the pavilions and the people within them in a warm sensual glow. Fine Art Lamps Scheherazade hand-blown glass is offered in Sunset Red, Desert Sky, Amber Dunes, and Oasis Green, and combinations of these colors. The meticulously crafted metalwork is in an aged dark bronze finish.

# STILE BELLAGIO

The loveliest village in all of Italy, Bellagio is a place of sheer enchantment that became a Mecca for international society. Its magnificent lakeside villas are the inspiration for "Stile Bellagio". Finely chiseled carvings and ornamental ironwork are finished in a crackled tortoise with muted silver leaf, mineral-stained crystal, hand-blown glass, and hand sewn shades of silk shantung.

# CASTILE

The mention of Castile conjures images of cool and graceful courtyards, of the gentle interplay of light and shadow over Moorish tiles, passing through filigreed ironwork and across the deep recesses of finely carved giltwood ornaments. Castilian decorative style in the 16th century inspires a collection of lighting which captures the beauty and Romance of Castile, through richly-wrought iron, with worn gold leaf highlights, gold-dusted blown glass, beige silk hand sewn shades with antiqued trimmings, and warm-toned mica panels.

# BRIGHTON PAVILION

The Brighton Pavilion was a young prince's exotic dream house. With tantalizing curves, domes, minarets, latticed porticos, and air of seraglio with pleasurable associations. It inspired a collection of lighting in aged bronzed sienna with fine amber crystals and handmade floriated shades of exquisite detail and color.

# CRESCENTS

In a totally new, aerodynamic concept, unique crescent-shaped arms are hand-fabricated of sturdy steel, precision cut, then curved and fitted to form each cambered, three sided faceted arm. The arm supports one or more hand blown crystal candles with a finely striated texture suggesting clear running dew drops. The dew-drop candles are lit to maximum effect by tiny halogen bulbs that are fully dimmable. The adjustable tapered faceted metal links carry the spirit of the arms upward to the canopy containing state of the art transformers. Available in platinized silver leaf or warm-toned silver leaf finish.

# WHITE MARBLE LAMPS

C

White marble table lamps with shades of laminated cream fabric with stream-lined, rolled-over edges.

© 2013 Fine Art Lamps

# CATALYST

Fine Art Lamps Catalyst Collection of fine LED lighting exemplifies design at the point where Art and Science converge. Hand-formed solid cased crystal rods infused in a molten state with mineral crystalline, the ends angle-cut and hand-polished revealing the interior layers, are illuminated with a diffused white LED light source for fascinating effect and energy efficiency. The Catalyst Collection is available in clear crystalline quartz and 10 other crystalline colors derived from ancient minerals and rare metallic oxides found in nature such as cobalt, gold, silver, chromium, copper, and manganese.

# CRYSTAL BAKEHOUSE

In Fine Art Lamps' glass department, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting. A five day process of creating by hand crystal spires, crystal river stones and crystal colored shards, then baking and annealing them for several days at high temperatures, forms a massive block which is then carefully polished. Bubbles and seeds formed naturally in the slow bakehouse process, add to the dynamic effect when the slabs are illuminated by hidden fluorescent light, and the entire crystal composition comes to life. Available in silver, silver leaf and bronze finishes with four different looks — Crystal River Stones, Crystal Spires, Crystal Shards Blue: Cobalt & Aqua, and Crystal Shards Neutrals: Carnelian & Citrine.

---

AVAILABLE IN SILVER LEAF,  
SILVER OR BRONZE

All hanging fixtures include 6' adjustable rod(s) and removable, decorative diffusers.

Carefully hand-casted by skilled craftsmen, our art glass may exhibit occasional small bubbles and/or surface variations which are characteristics of hand made glass, making each piece unique. Variations in color and pattern are also acceptable. These unique qualities are inherent to our design and manufacturing process and not considered defects. All items featured in this supplement were photographed with bright white, 4100K GU24 CFL bulbs. Dimming is not available because the optimum lighting effect has been chosen in the bulb specification. Lower lighting levels give off very little light and do not show the art glass to its best effect. It is possible, however, to use lower wattages if desired. **For full glass and finish ordering options, please see page 301.**

# CHATEAU OUTDOOR

As night fell, the feasts and celebrations of Southern Europe moved inside the Chateaux, and the light of hundreds of candles would cast a magic glow. These lighting designs inspired Fine Art Lamps to create "Chateau," an interpretation of the metal arts still found in Southern Europe. The finish is of a variegated rich umber patina with gold accents.

Beekman Place is one of New York City's most sought-after residential addresses. A gracious ambiance that is elegant, but not too formal, impressive but not ostentatious. Georgian-style architecture dictates the façade, with handsome detail and a rich history. So it is with the latest Fine Art Lamps outdoor introduction — unequivocally elegant outdoor designs in weathered woodland brown with gold highlights and solid brass accents.

# COSTA DEL SOL

D

E

F

Invoking the soothing salty breezes of the Mediterranean and the rich design traditions of these historic coasts, this collection of outdoor lighting is an example of classical elegance, featuring stylized quatrefoil designs in Marbella wrought iron finish. Subtle iridescent textured glass adds another element of beauty to these pieces.

# DEVONSHIRE

The great patchwork-quilt area of Southeast England, part of the “West Country,” abounds in rolling hills, foreboding moors and picturesque villages that provide some of the finest scenery in England. Inspired by its history, each piece features forged bronze finish with antiqued gold accents and textured seedy glass.

© 2013 Fine Art Lamps

Built as a royal palace, the Louvre stands at the heart of Paris, housing the world's greatest museum. In the days of Louis XIV, within the palace walls lived hundreds of artists and craftsmen, supplying the decorative needs of the court. The arcades of the Louvre, then as now, were lit by lanterns designed and made on site. Fine Art Lamps' Louvre collection of outdoor lighting designs is inspired by the simple yet elegant lines of the lanterns that have adorned the arcades of the Louvre for centuries. In a fine bronze finish with clear blown glass, Louvre is a strong addition to many architectural styles.

# GRAMERCY PARK

D

E

Gramercy Park is a small, well-known private park in the old Gramercy neighborhood of Manhattan. Accessible only to residents of the historic townhouses in the quaint neighborhood, Gramercy Park is one of the most distinguished addresses in a historic part of the city. Fine Art Lamps introduces a collection inspired by the architecture and elegance of Gramercy Park. Fine Art Lamps' Gramercy Park collection of outdoor lighting features elegant designs in an aged antique gold finish, with hand-blown light, seedy, amber-tinted glass.

© 2013 Fine Art Lamps

# CAPISTRANO

Inspired by classic elements in mission design, Capistrano is a stylized and contemporary offering. Featuring a warm bronze patina and striated champagne linen glass, these pieces offer a clean architectural design while emitting a warm inviting glow. The smooth finish and clean lines are complemented by details such as the chain and bolt shapes that carry the design elements throughout the collection.

# A GUIDE TO OUR CUSTOMIZATION PROGRAM

## OUR "IN-HOUSE" CAPABILITIES

As a true vertical US manufacturer, Fine Art Lamps has the capabilities and flexibility to provide unique, custom product to meet the specific and discerning needs of the designer/architect/specifier. Our specialized Territory Managers are available to work with you on site, with your plans and concepts, to understand your complete lighting design requirements. Additionally, our in-house design staff is available to help your vision become a reality.

## WHAT WE PROVIDE

### In-line product modification

- Simple changes such as finish, shades and adding, or deleting crystals.
- Dimensional modifications to height, width, addition of lights and tiers.

### Unique designs proposed by us to meet your concept requirements\*

- Provide us your room setting and concept/product vision and we can design/modify original product custom made for your specific project needs.

**Interpret, develop and manufacture your original designs\***

- Provide us an original sketch/concept of your product design and we will introduce into our product development process from Engineering through Manufacturing.

Sketch provided by customer for desired bath bar.

Finished custom piece, made to order.

## HOW IT WORKS

Contact your local Territory Manager or Account Services Representative with your custom requirements. Once a custom request is received, we will provide a feasibility response within 24 hours and price quote within 2-3 business days. Additional time may be required for more complex or original designs. Upon budget/price acceptance, concept drawings will be provided (as needed) for your review and approval. Once approved drawings, purchase order and deposit/payment is received, our detailed engineering and manufacturing process is initialized.

**Lead times:** 8-12 weeks from order confirmation with deposit/payment. Additional time may be required depending on complexity and/or sourcing needs.

### Pricing:

- Simple changes; finish, shade and crystal.
  - 1 change = 15% upcharge, 2 changes = 20% upcharge,
  - 3 changes = 25% upcharge.
- Body modifications or new concepts will be reviewed individually and priced based on specifications and requirements.

\*(Refundable design fee may apply)

## Indoor Product

### PRODUCT TERMINOLOGY

#### ADA Applicable

Any product identified as 'ADA Compliant' is regulated to be installed in hospitality areas that are appropriate according to the American Disabilities Act.

#### Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST point on the product, including any finials or fixed links. See diagrams below.

#### Shade Dimensions

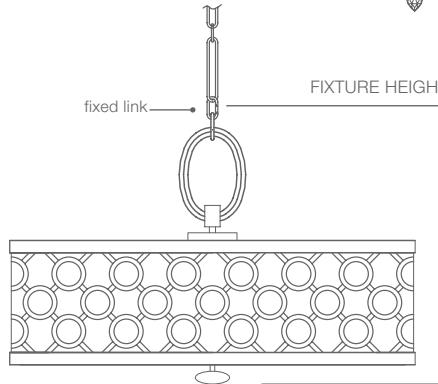

The width of a shade is measured as the shade is orientated on the product. For example, a hexagon shade width is measured CORNER-TO-CORNER, while an octagon shade is measured FLAT-TO-FLAT.

The height of a shade is measured along the side of a shade as orientated on the product. For example, a hexagon shade is the shortest distance from the top corner to bottom corner. This dimension is not usually vertical but slanted.

#### Standard Chain Length

Most of our fixtures include 6' of standard chain, rod or cable.

Additional chain kits are available for purchase, please contact Fine Art Lamps Account Services Department at 305.821.3850 for availability and pricing information.

## Outdoor Product

### PRODUCT TERMINOLOGY

#### Backplate Height

Some of our fixtures include backplates that affix to the wall for installation. Backplate height is measured from the BOTTOM-MOST to the TOP-MOST points of the backplate. See diagram below.

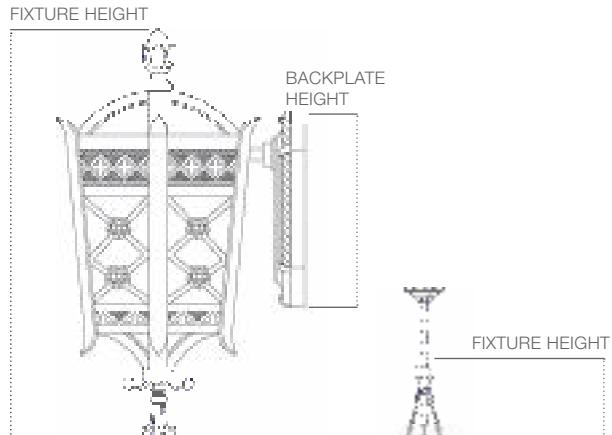

#### Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST points on the product, including any finials. See diagrams below.

**Standard Chain Length:** Most of our fixtures include the following standard chain lengths:

Medium Lantern - 6'  
Large Lantern - 8'  
Grande Lantern - 8'

Additional chain kits are available for purchase, contact Fine Art Lamps Account Services Department for availability and pricing information.
