WHY ELECTRIC FIREPLACES?

All the realism of logs with flickering flames, pulsating embers and natural inner glow combine with an energy efficient, safe unit that can be added to any room with a standard household electrical plug.

- Operates by a standard 15amp/110 volt outlet
- Year round enjoyment with or without heat
- Remote control for power and heat control
- Childsafe - glass remains safe to the touch
- Economical - operates for only pennies an hour
- No gas leaks or carbon monoxide
- No emissions or particles from combustion
- Three year warranty with in-home service
- No cleaning

MANTLES

BUILDER FRIENDLY FIREPLACE SURROUNDS.

All Ambella Home Collection Fireplace Surrounds are to be treated as combustible material and should be installed according to local building codes.

The decorative cast stone used in the Ambella Home Collection Fireplace Surrounds is a combination of select crushed stone and a polymer binder. This is then hollow cast with structural reinforcements and hand finished to achieve the desired color.

These decorative cast stone fireplace surrounds do not meet ASTM specifications for ARCHITECTURAL CAST STONE (ASTM SPEC 04720). Therefore, they must be treated as a combustible material and installed according to local building codes.

OUR STONE TOPS

The top of each chest is crafted out of the finest natural stone for quality and durability. We select the stone color that best suits the chest design whether it be Uba Tuba granite, Ivory Cream or Emperador marble, Travertine or Fossil Stone. Once selected, each is cut to perfection and finished with smooth decorative edges. Fossil stone is a natural stone quarried out of the mountains of the Philippines. Sliced into small pieces measuring 1” x 2”, they are then veneered onto a 1” piece of marine plywood with a special epoxy and then highly polished to bring out the beauty of the natural stone. To clean your top we recommend only mild soap and water, no hard cleaning agents should be used. To bring back the luster of your top it can be hand polished with Johnson’s Shine Up™. Fossil stone is porous. A stone sealer can be used for added protection but is not necessary.

SINK BASIN INCLUDED

Each of our sink chests comes installed with an Ambella Home porcelain undermount sink. A few designs include a specialty vessel that is specifically designed for that sink chest and it is also included with the chest.

FAUCETS SOLD SEPARATELY

The top of each sink chest comes pre drilled for a standard three-piece faucet set. The Ambella Home faucet collection includes styles and finishes designed specifically to complement our chest design or you can supply your own faucet. Our classic fixtures come in a variety of finishes - Brass, Nickel and Bronze.

Professional installation is recommended for all sink chests and faucet fixtures.
