design castiglia associati

Un sistema progettato per sottrazione. Grazie all'assenza delle maniglie e al top incassato le linee risultano essenziali e i volumi estremamente puliti. Alla purezza formale del disegno corrisponde la cura per il dettaglio e l'attenzione per il particolare: l'alta tecnologia si coniuga con la tradizione artigianale. Modulare e componibile, il sistema è caratterizzato anche dai lavabi stampati in vetro freddo, foglia d'oro e foglia d'argento, dai piani integrati in cristallo e Wilsonart, dai vetri decorati e da suggestivi specchi modulari dotati di luce integrata. It is a system designed by subtraction. Thanks to the absence of handles and to the inset top lines result essential and volumes extremely neat. To the formal pureness of the drawing corresponds the details' care and the attention to the particular: the high technology weds the handicraft tradition. Modular and sectional, the system is characterized by sinks pressed in cold glass, gold leaf and Silver leaf, by integrated top in crystal and Wilsonart, by decorated glasses and by suggesting modular mirrors provided with integrated light.

Si piantò quindi
davanti alla roccia e
ad alta voce gridò:
“Sesamo, apriti!” E
sebbene la sua voce

Il bruno sembrò esaminarla
di un lungo sguardo dalla
piuma del suo cappellino,
che scherzava coi ricci
dei suoi magnifici capelli
cadenti sin quasi sulle
sopracciglia, alla punta del
suo piccolo piede, chiuso
in stivaletti di seta nera,
che allora, forse per la più
squisita civetteria, l'ampia
guarnizione della veste
lasciava scoperto sino al
basso di una gamba sottile e
ben modellata.

The dark-skinned man
seemed to examine her
with a long gaze, from the
feather of her hat that
played with the curls of her
magnificent hair falling
almost onto her eyebrows,
to the tip of her small foot,
enclosed in black silk boots,
which, perhaps out of the
most exquisite coquetry,
the ample trimming of her
dress left uncovered to the
bottom of a slim and well
modelled leg.

TIMELESS

TIMELESS is a smart modular furniture developed by the experience of B2K and Less collections. The top is particularly charming, looking as soft as it stands in the air, with a door with remarkable thickness. Inside, wide customizable spaces. As per the name, TIMELESS is characterized by its everlasting elegance.

Raffinato mobile componibile, TIMELESS è stato sviluppato a partire dall'esperienza delle linee B2K e Less. Particolari di charme sono il suo top così leggero che pare sospeso nell'aria e l'anta di notevole spessore. Al suo interno ampi spazi personalizzabili. Come suggerisce il proprio nome, TIMELESS si contraddistingue per la sua eleganza intramontabile.

K.ONE

K.ONE is a stunning built-in furniture with an innovative bicromatic effect given by the contrasting finishing, glossy/matt lacquered or woods with lacquered. 45 degrees cut, ease the internal angles to give the perfect proportion for a particular visual experience. The furniture attracts all eyes immediatly thanks to its door which it's like waving in the void. A precious particular is the internal with the same finishing of the external. K.ONE represents Rifra's renew process as it includes what the firm is: style and constant innovation.

K.ONE è un mobile monoblocco che stupisce per l'innovativo gioco bicromatico originato dalle finiture a contrasto - laccato lucido-opaco oppure in essenza abbinata al laccato. I tagli a 45 gradi che attenuano i suoi angoli interni proporzionano anche un'esperienza visiva singolare: è immediato il modo in cui il mobile cattura lo sguardo grazie alla sua anta che sembra fluttuare nel vuoto. Qualità rara, l'interno è proposto nella stessa finitura dell'esterno. K.ONE racchiude in se tutto quello che Rifra rappresenta: stile e continua innovazione.

Элегантная наборная мебель TIMELESS была разработана на основе опыта серий B2K и Less. Особенный шарм придает столешница, такая легкая, что кажется висит в воздухе, и дверка значительной толщины. Внутри – просторные персонализируемые пространства. В самОм названии серии заложена ее неувядающая элегантность.

K.ONE – инновативный моноблок привлекающий контрастной игрой двух цветов (глянцевых или матовых) или натуральных шпонов различных пород деревьев в сочетании с глянцевыми лаками. Внутренние углы по 45% придают гармоничную пропорциональность, которая немедленно притягивает внимание своей как бы «парящей» в пустоте дверкой. Редкое качество; внутренняя часть предлагается в той же отделке что и снаружи. K.ONE сочетает в себе квинтэссенцию философии Рифра – стиль и постоянная инновация.

Sophistiqué meuble modulaire, TIMELESS a été élaboré de l'expérience de séries B2K et Less. Les détails charmants sont son plan si léger qu'il semble en suspension dans l'air et la porte de considérables épaisseur. A l'intérieur il y a des grands espaces personnalisables. Comme son nom l'indique, TIMELESS se distingue par son élégance intramontable

K.ONE, pièce monobloc qui impressionne par son jeu innovant origine du contraste de deux couleurs de finition - brillant, mat ou en bois combiné avec de la laque. Les coupes à 45 degrés afin de réduire ses angles internes qui proportionnent également une expérience de visionnement unique: c'est la façon immédiat dans lequel l'œil mobile capture grâce à sa porte qui semble flotter dans l'air. Qualité rare, l'intérieur est offert dans la même finition que l'extérieur. K.ONE contient tout ce qui est Rifra - style et innovation constante.

TIMELESS ist ein klug entwickeltes Möbelstück durch die Erfahrung von Rifra. Besonders charmant sind die dünne Platte, die aussieht als würde sie in der Luft schweben und die erstaunlich dicke Tür. Sehr großzügiger Innenraum. Wie der Name andeutet steht TIMELESS für seine zeitlose Eleganz.

K.ONE ist ein erstaunliches Möbelstück mit einem innovativen bichromatischen Effekt durch den Kontrast der Verarbeitungen matt/glanz lackiert oder Holz/lackiert gegeben. Der 45 Grad Schnitt mildert die inneren Ecken um eine perfekt Proportion und einen besonderen visuellen Anblick zu liefern. Das Möbelstück zieht sofort die Aufmerksamkeit auf sich durch die Tür, die in der Luft weht. Eine Besonderheit ist die Übereinstimmung zwischen innerer und äusserer Verarbeitung. K.ONE hat alles was RIFRA ist: Stil und ständige Innovation.

modus

Modus inteso come "modus vivendi", un progetto che propone una nuova estetica dell'ambiente bagno, attraverso forme rigorose e geometrie pure. Elementi che tracciano, articolano e disegnano lo spazio: contenitori con luce, specchi, pannelli, mobile con cassetti, lavabo in cristalplant e vasche in corian. Segni forti e caratterizzanti, realizzati con materiali e lavorazioni di pregio ed innovative soluzioni tecniche e formali. Un ambiente bagno raffinato e sofisticato, dove ogni dettaglio richiama attenzione e sorprende. Un prodotto dal design innovativo e funzionale, che propone nuovi scenari d'uso. / *Short for "modus vivendi", it is a project intended to suggest a new aesthetic approach for the bathroom environment by means of exact shapes and pure geometric design. The items mark, articulate and shape the space: built-in lights, mirrors, panels, drawer unit, cristalplant washbasin, and corian bathtubs. Character and definition are based on the use of high quality material and craftsmanship combined with innovative technical design solutions. In creating 245 Tenth, award-winning architects Jared Della Valle and Andrew Bernheimer looked to the natural and manmade contextual environment of west Chelsea, Manhattan's epicenter of modern art. Inspired by this vibrant context, as well as transient forms in nature and the trains that once frequented the adjacent High Line, Della Valle Bernheimer conceived the arresting, forward-looking design of 245 Tenth.

Della Valle Bernheimer is a New York based architectural practice founded on recognizing moments of simultaneity and exploring the unexpected through the innovative use of the familiar and the available. Della Valle Bernheimer insists on researching both form and material in an effort to locate those moments when client and architect realize that there actually is a kind of invention in familiarity, and inspiration in waiting for the right time to mix things up. The reward is the mantle of inventor, and the satisfaction of knowing that one can achieve innovation while working with both the intimately and the vaguely familiar. Della Valle Bernheimer's work includes cultural, civic, commercial and residential projects as well as furniture and fixture design. Della Valle Bernheimer is a member of the U.S. Green Building Council. Passion for design and attention to detail, supported by dedication and business savvy, brought Della Valle Bernheimer to 459

Much sought-after for their sophisticated modern aesthetic, combining signature creativity with the latest in technological advances, Della Valle Bernheimer is one of the most exciting firms working in architecture today. Passion for design and attention to detail, supported by dedication and business savvy, brought Della Valle Bernheimer to 459 West 18th as design architects and developers. Taking on both roles presented avenues for seamlessly implementing rigorous standards for design, functionality and efficiency; by acting as their own client, Della Valle Bernheimer gained greater control to fully realize and execute their creative vision.

PHILA- DELPHIA LOFT AT BELLA VISTA

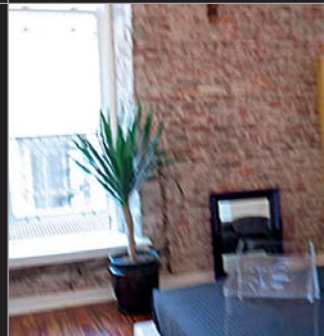

The White Building, in the B3 district of Center City, is a historic structure that has been transformed by GoldmanProperties to meet the demands of modern urban living. Elements of the past are embraced for their design and complemented by a modern yet approachable aesthetic. Classic elements like elegant, brick, barrel-vaulted ceilings are juxtaposed perfectly by modernist interiors and advanced technology and finishes. The design is a result of understanding how the modern urban dweller lives. The spaces at The White Building were not made for everyone. Rather, they were built with a specific person in mind—one who lives to entertain, and who has a discriminating eye for design and architecture. As a result, every nuance, from lighting to tiles, and hardware to fixtures, has been designed with a heightened sense of form and function.

PHILA- DELPHIA THE WHITE BUILDING

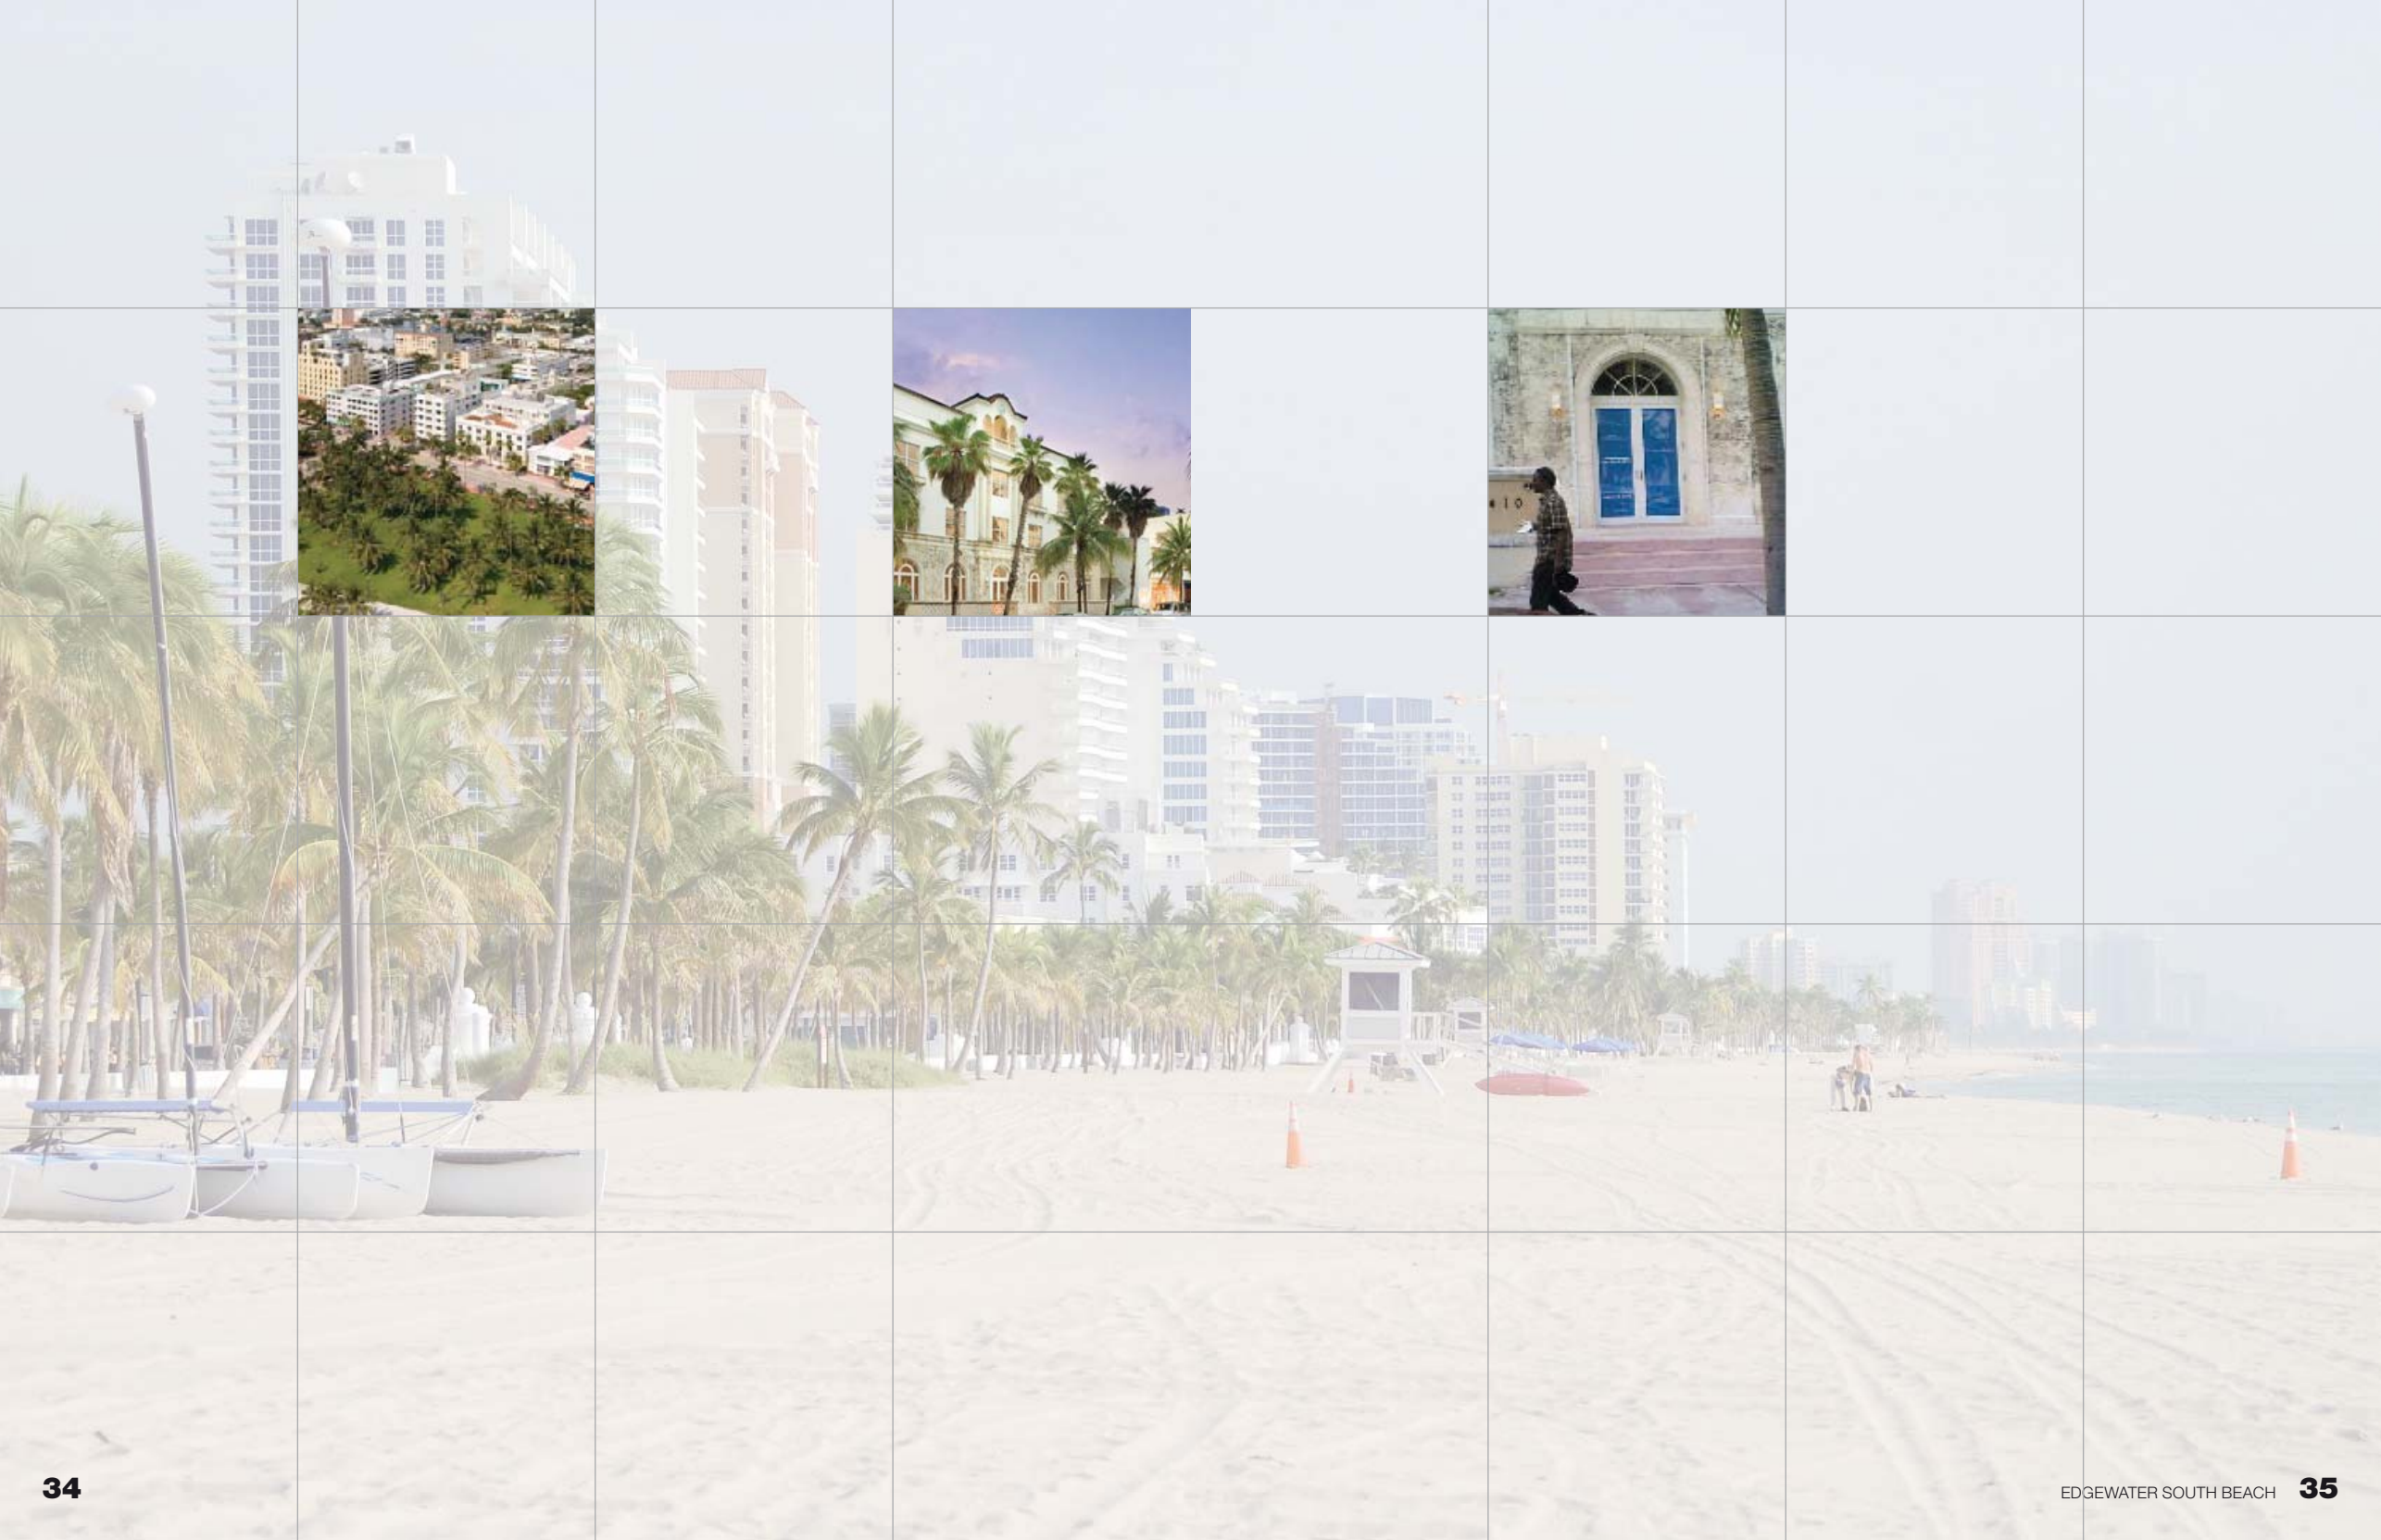

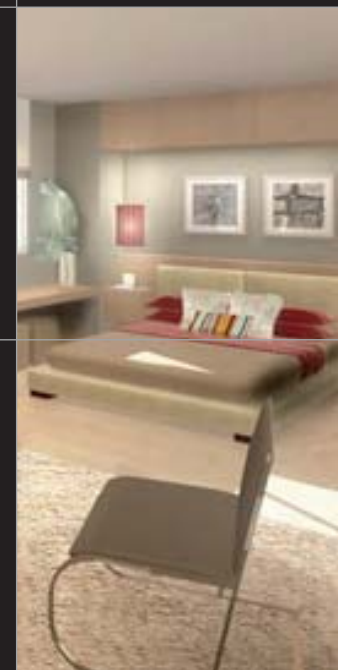

A luxury getaway condominium residence belonging to you alone, nestled comfortably just across from the ocean shore, awaits your arrival - always at the ready when you are. On the exterior, you'll find the facade of the Edgewater has been lovingly restored to reflect all the architectural elegance and charm Miami Beach has long been famous for. Within, there is a welcoming, sunlit atrium and a choice of floorplans, each providing all the comforts you'd expect of a home away from home.

MIAMI EDGE WATER SOUTH BEACH

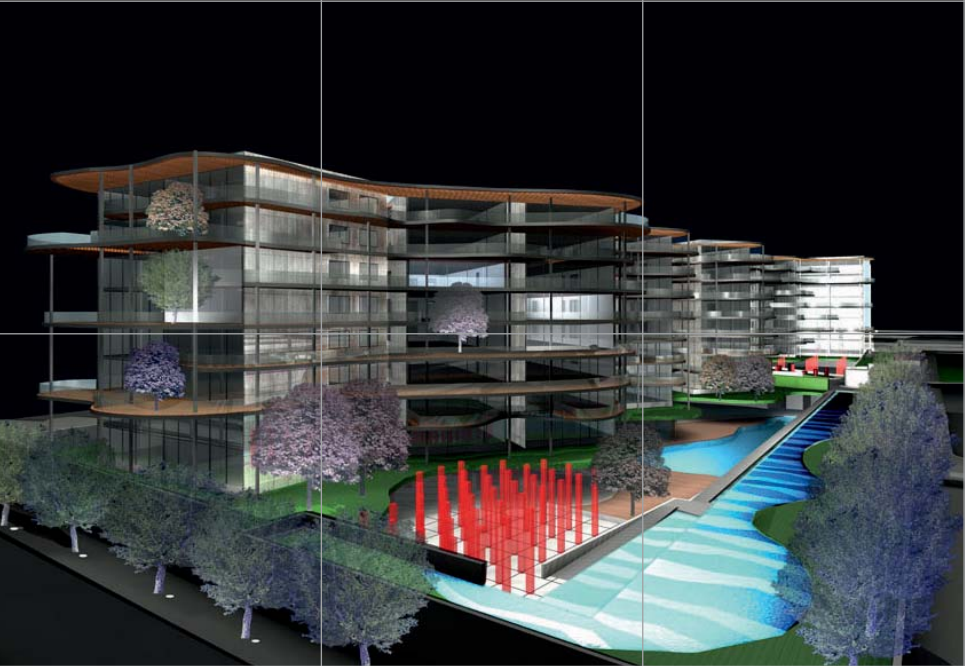

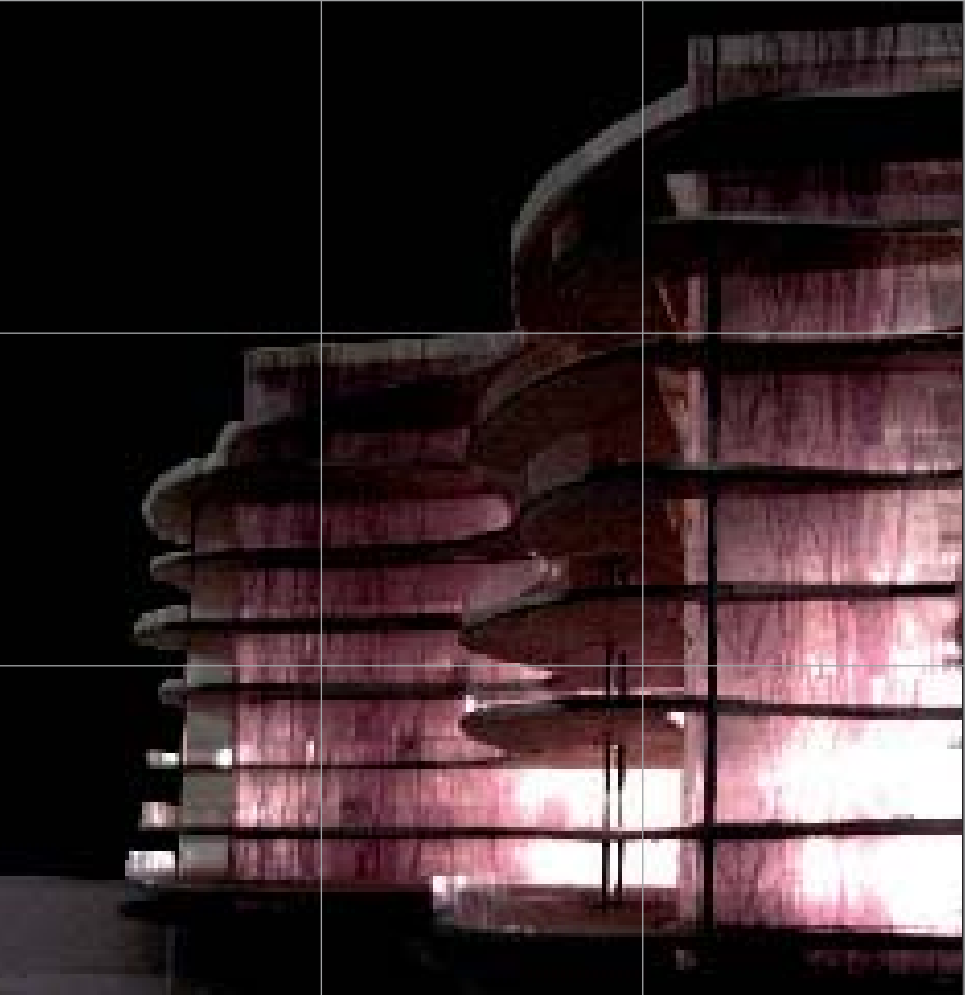

Emre Arolat Architects was founded in May 2004, as the continuation of Emre Arolat's architectural practice which he started at Arolat Architects as an associate designers in 1987. Arolat Architects was founded in 1961 and the group has drawn significant professional experience from regular contributions to architectural competitions and executed significant housing, tourism facilities, leisure centers, administrative buildings and sports grounds projects. The practice is being continued with the same range of projects in EAA, with a staff of 25 people. Architectural significance of the group was supported by many awards, two of which, worthwhile to depict, are the 2005 European Union Prize Mies Van Der Rohe Award 2005 (Selected work) / Minicity Model Park in Antalya, Turkey and 2006 Architectural Review Awards for Emerging Architecture (Highly Commended) / Dalaman International Airport in Mugla, Turkey. In the architectural design process at EAA, main decisions consider interpretation of the "context", in its widest sense. In this case, each context anticipates different approaches and this leads to an architectural practice where a conceptual and positional consistency is valid, rather than specific visual correspondences. The material use is determined by a categorical approach, depending on its visual and tactile nature, rather than designation of an inevitable specific material. Consequently, a flexible architectural expression is pursued on the basis of a definite conceptual ground.

K.ONE

DESIGN BYUNG SOO ZOCCHI

K.ONE è un mobile monoblocco che stupisce per l'innovativo gioco bicromatico originato dalle finiture a contrasto - laccato lucido-opaco oppure in essenza abbinata al laccato. I tagli a 45 gradi che attenuano i suoi angoli interni proporzionano anche un'esperienza visiva singolare: è immediato il modo in cui il mobile cattura lo sguardo grazie alla sua anta che sembra fluttuare nel vuoto. Qualità rara, l'interno è proposto nella stessa finitura dell'esterno. K.ONE racchiude in sé tutto quello che Rifra rappresenta: stile e continua innovazione.

K.ONE is a stunning built-in furniture with an innovative bicromatic effect given by the contrasting finishing, glossy/matt lacquered or woods with lacquered. 45 degrees cut, ease the internal angles to give the perfect proportion for a particular visual experience. The furniture attracts all eyes immediatly thanks to its door which it's like waving in the void. A precious particular is the internal with the same finishing of the external. K.ONE represents Rifra's renew process as it includes what the firm is: style and constant innovation.

TIMELESS

DESIGN RIFRALAB

Raffinato mobile componibile, Timeless è stato sviluppato a partire dall'esperienza delle linee B2K e Less. Particolari di charme sono il suo top così leggero che pare sospeso nell'aria e l'anta di notevole spessore. Al suo interno ampi spazi personalizzabili. Come suggerisce il proprio nome, Timeless si contraddistingue per la sua eleganza intramontabile.

Timeless is a smart modular furniture developed by the experience of B2K and Less collections. The top is particularly charming, looking as soft as it stands in the air, with a door with remarkable thickness. Inside, wide customizable spaces. As per the name, Timeless is characterized by its everlasting elegance.

ADAM & EVE

DESIGN BYUNG SOO ZOCCHI

Le lampade Adam & Eve combinano la pulizia formale e l'uso di materiali nobili come l'acciaio o il raro cromo nero. L'eleganza classica della sfera è il punto forte di Eve. Invece Adam è un cilindro con due fonti d'illuminazione - una produce luce diretta e l'altra è diffusa in tutto l'ambiente.

Adam & Eve lamps put together the cleanness of the form and the use of noble materials as steel or black chrome. The classic elegance of the sphere is the strong point of Eve lamp, while Adam is a tube with two light sources, one producing straight light, the other diffusing light to the whole environment.

HD COLLECTION

DESIGN BYUNG SOO ZOCCHI

Dalla purezza dei segni e dalla semplicità delle linee scaturisce un'elegante gamma di prodotti in acciaio. Light HD è una capiente mensola a due piani. Air HD, una libreria dove convivono la struttura spazzolata e le mensole lucide. Soft HD, un camaleontico complemento d'arredo, che può essere utilizzato come tavolino o, nella versione con cuscino, come sgabello e panca. Pratico e moderno il porta-salviette caratterizzato da un gioco di incrocio. Completano la collezione gli specchi retroilluminati 2HD, realizzati con sottili lastre in acciaio super-riflettente o in vetro che proiettano una suggestiva luce d'atmosfera. Sono disponibili modelli da parete, da terra e da sospensione.

A range of steel high-resistant products is originated through pure marks and simple lines. Light HD is a roomy 2-level shelf. Air HD, a bookcase where the brushed structure and polished shelves collide. Soft HD, a chameleonic complement which can be used as a little table or, in the version with cushion, as a stool or a bench. Practical and modern, the tower-rail is characterized by a junctions clearance. The 2HD retroilluminated mirrors serie complete the collection, made with thin super-reflecting steel laminates or glass, giving a suggestive atmospherical light. Floor, wall or suspended versions are available.

ZERO

DESIGN RIFRALAB

Il mobile componibile Rifra raggiunge il suo livello più alto con la collezione Zero: l'anta di forte spessore è caratterizzata dall'elegante maniglia integrata, alle laccature lucide e opache corrispondono interni in rovere grigio. La nuova, esclusiva, finitura noce canaletto offre un interno completamente laccato in nero opaco. Nuovi lavabi, specchi, complementi, vasche e piatti doccia, progettati da architetti e designer europei e americani, completano questa collezione e la collocano ad un livello alto di gusto estetico e qualità dei materiali e delle finiture.

Rifra modular furniture hits its highest level with Zero collection: the door with considerable thickness has a characteristic stylish integrated handle, glossy and matt lacquering with grey oak internal parts, and the new exclusive canaletto walnut finishing including a completely lacquered internal part in black mat. New washbasins, mirrors, complements, bathtubs and shower trays, designed by european and american architects and designers, complete this collection, putting it on a high level of aesthetical taste and finishing and materials quality.

B2K

DESIGN CASTIGLIA ASSOCIATI

L'essenzialità è il punto di forza di questo programma componibile: la speciale lavorazione a 45 gradi dei cassetti ha permesso l'eliminazione delle maniglie rendendo i volumi puliti ed eleganti. Un'ampia gamma di moduli e di finiture crea una proposta capace di adattarsi a spazi di dimensioni diverse dando vita a soluzioni creative, ma razionali.

Essentiality is the strong point of this modular program: the special manufacturing of 45 degrees of drawers allows the exclusion of the handles making the volumes neat and elegant. A big range of modules and finishing creates a proposal able to fit to several spaces and dimensions making creative but rational solutions.

LESS

DESIGN CASTIGLIA ASSOCIATI

Un sistema progettato per sottrazione. Grazie all'assenza delle maniglie e al top incassato le linee risultano essenziali e i volumi estremamente puliti. Alla purezza formale del disegno corrisponde la cura per il dettaglio e l'attenzione per il particolare: l'alta tecnologia si coniuga con la tradizione artigianale. Modulare e componibile, il sistema è caratterizzato anche dai lavabi stampati in vetro freddo, foglia d'oro e foglia d'argento, dai piani integrati in cristallo, Corian® e pietra, dai vetri decorati e da suggestivi specchi modulari dotati di luce integrata.

Less is a system designed by subtraction. The absence of handles and an inset top form its exceptionally clean, essential lines. High technology meets traditional craftsmanship in an unassuming pureness of design and attention to fine detail and precision. Modular and sectional, the system is defined by basins pressed in cold glass, gold and silver leaf, with imbedded crystal, Corian® and stone, decorative glass, and a striking modular mirror with integrated light.

FORTE

DESIGN CASTIGLIA ASSOCIATI

La collezione Fonte si presenta in questo catalogo ampliata e rinnovata grazie non solo alle nuove maniglie che ne caratterizzano l'estetica, ma anche ai nuovi lavabi, i nuovi specchi ed una esclusiva finitura interna rovere grigio. Fonte è in grado di risolvere le esigenze di progettazione del bagno contemporaneo grazie alla sua ampia versatilità e modularità, che, unite a finiture di pregio, come i laccati opachi e lucidi ed i legni rovere, palissandro e teak, danno a questo programma una possibilità combinatoria molto elevata.

Fonte collection looks extended and renewed in this catalogue, thanks to the new handles aesthetic features and also to the new washbasins, mirrors and the exclusive grey oak internal finishing. Fonte can meet the contemporary bathroom projects' requirements thanks to its wide versatility and modularity giving high combination opportunities together with valuable finishing such as lacquered glossy and matt, and oak, rosewood and teak woods.
