Sherle Wagner is the premier name in bath design and manufacturing world wide. Richly imaginative and beautifully crafted, the Sherle Wagner bath is a reflection of your own good taste and individuality. Along with our classic pieces manufactured in our own facility, we offer an ever expanding line of products which are both innovative and beautifully proportioned. All production is done on a limited basis, resulting in a level of quality that would otherwise be impossible .

We will help you outfit your BATH with a fully integrated array of products, suitable for palatial homes or diminutive powder rooms. In case you do not find exactly what you want, we have extensive custom capabilities, and can meet the individual needs of the most discerning customer.

FITTINGS include Basin Sets, Bar Sets, Tub and Shower Systems and components, Water Closet and Bidet fittings.

FIXTURES include Basins, Pedestal Lavatories, Counters and Consoles, Water Closet and Bidets, Tubs and Vanities.

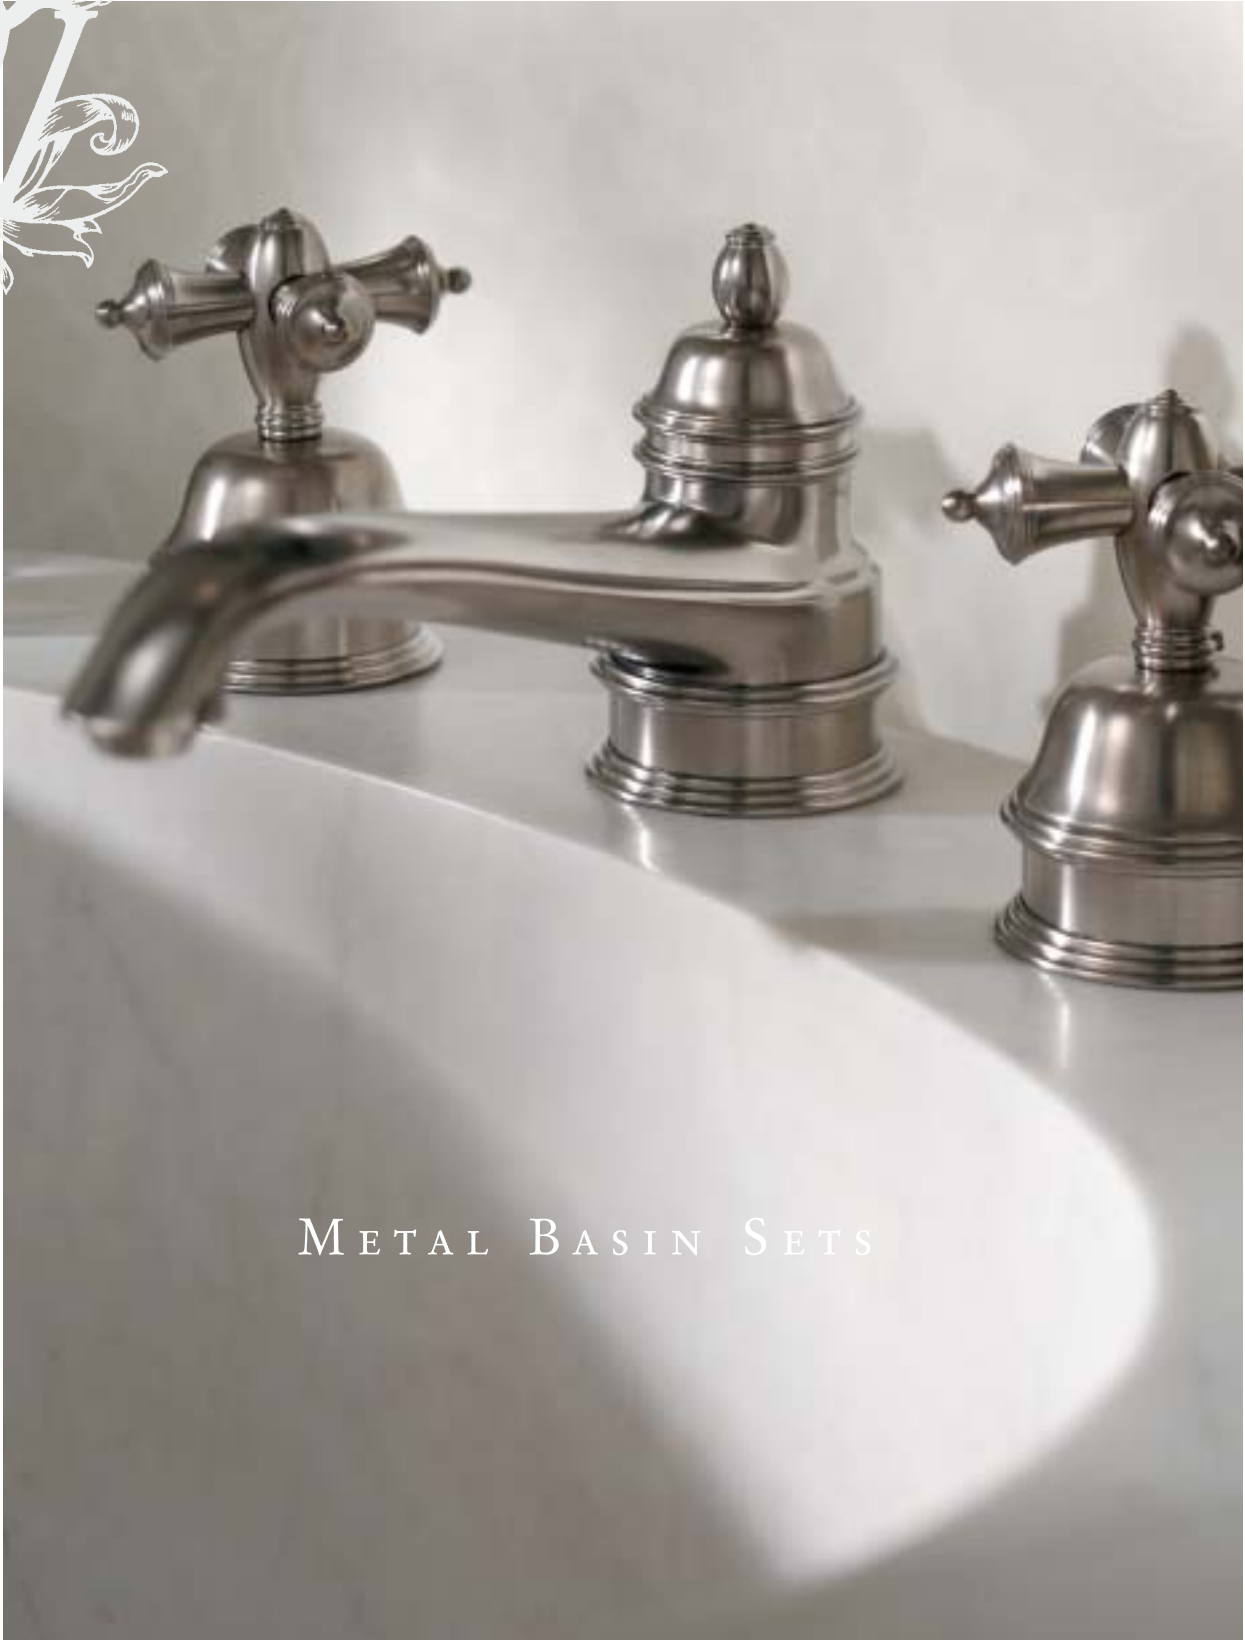

METAL Fittings and Fixtures are made of solid brass or bronze, hand chased and polished, and plated in a choice of sixteen finishes. The result is a jewelry quality product, in which surprising heft coexists with delicacy of design and detail.

CHINA Fittings and Fixtures are hand decorated by highly skilled and talented artists. Painted designs are applied in a multi-step process which involves hand penning and hand coloring. The platinum and 24k gold on painted designs, bands and solids are also applied by hand, fired and then hand burnished.

STONE Fittings and Fixtures come in selection of marbles, onyx and semiprecious stones. You will be surprised by the range of effects. The heft of a Tub carved from a solid block of stone, the subtle beauty of Rose Quartz paired with Gold, or the flash of Lapis Lazuli accented with Polished Nickel are examples of the wonderful possibilities.

Vanities fitted with Sherle Wagner Hardware, evolved from our La Nuit, Annadale, Bamboo Ming and Soho Furniture Collections. Our vanities are available in a choice of wood finishes, hand applied using a multi-step process to enhances the WOOD's natural richness and depth of color. To complete the ensemble, choose from an array of Stone Counter Tops, Basins and Basin Sets.

Please familiarize yourself with matching and complementary accessories, hardware, wall coverings, lighting, linens, textiles and furniture. All are produced to the exacting standards of quality that you have come to expect from Sherle Wagner.

Sherle Wagner is the premier name in bath design and manufacturing world wide. Richly imaginative and beautifully crafted, the Sherle Wagner bath is a reflection of your own good taste and individuality. Along with our classic pieces, still produced in our own facility, we offer an ever expanding line of products which are both innovative and beautifully proportioned. All production is done on a limited basis, resulting in a level of quality that would otherwise be impossible.

We will help you outfit your BATH with a fully integrated array of products, suitable for palatial homes or diminutive powder rooms. In case you do not find exactly what you want, we have extensive custom capabilities, and can meet the individual needs of the most discerning customer.

FITTINGS include Basin Sets, Bar Sets, Tub and Shower Systems and components, Water Closet and Bidet fittings.

FIXTURES include Basins, Pedestals, Counters and Consoles, Water Closets and Bidets, Tubs and Vanities.

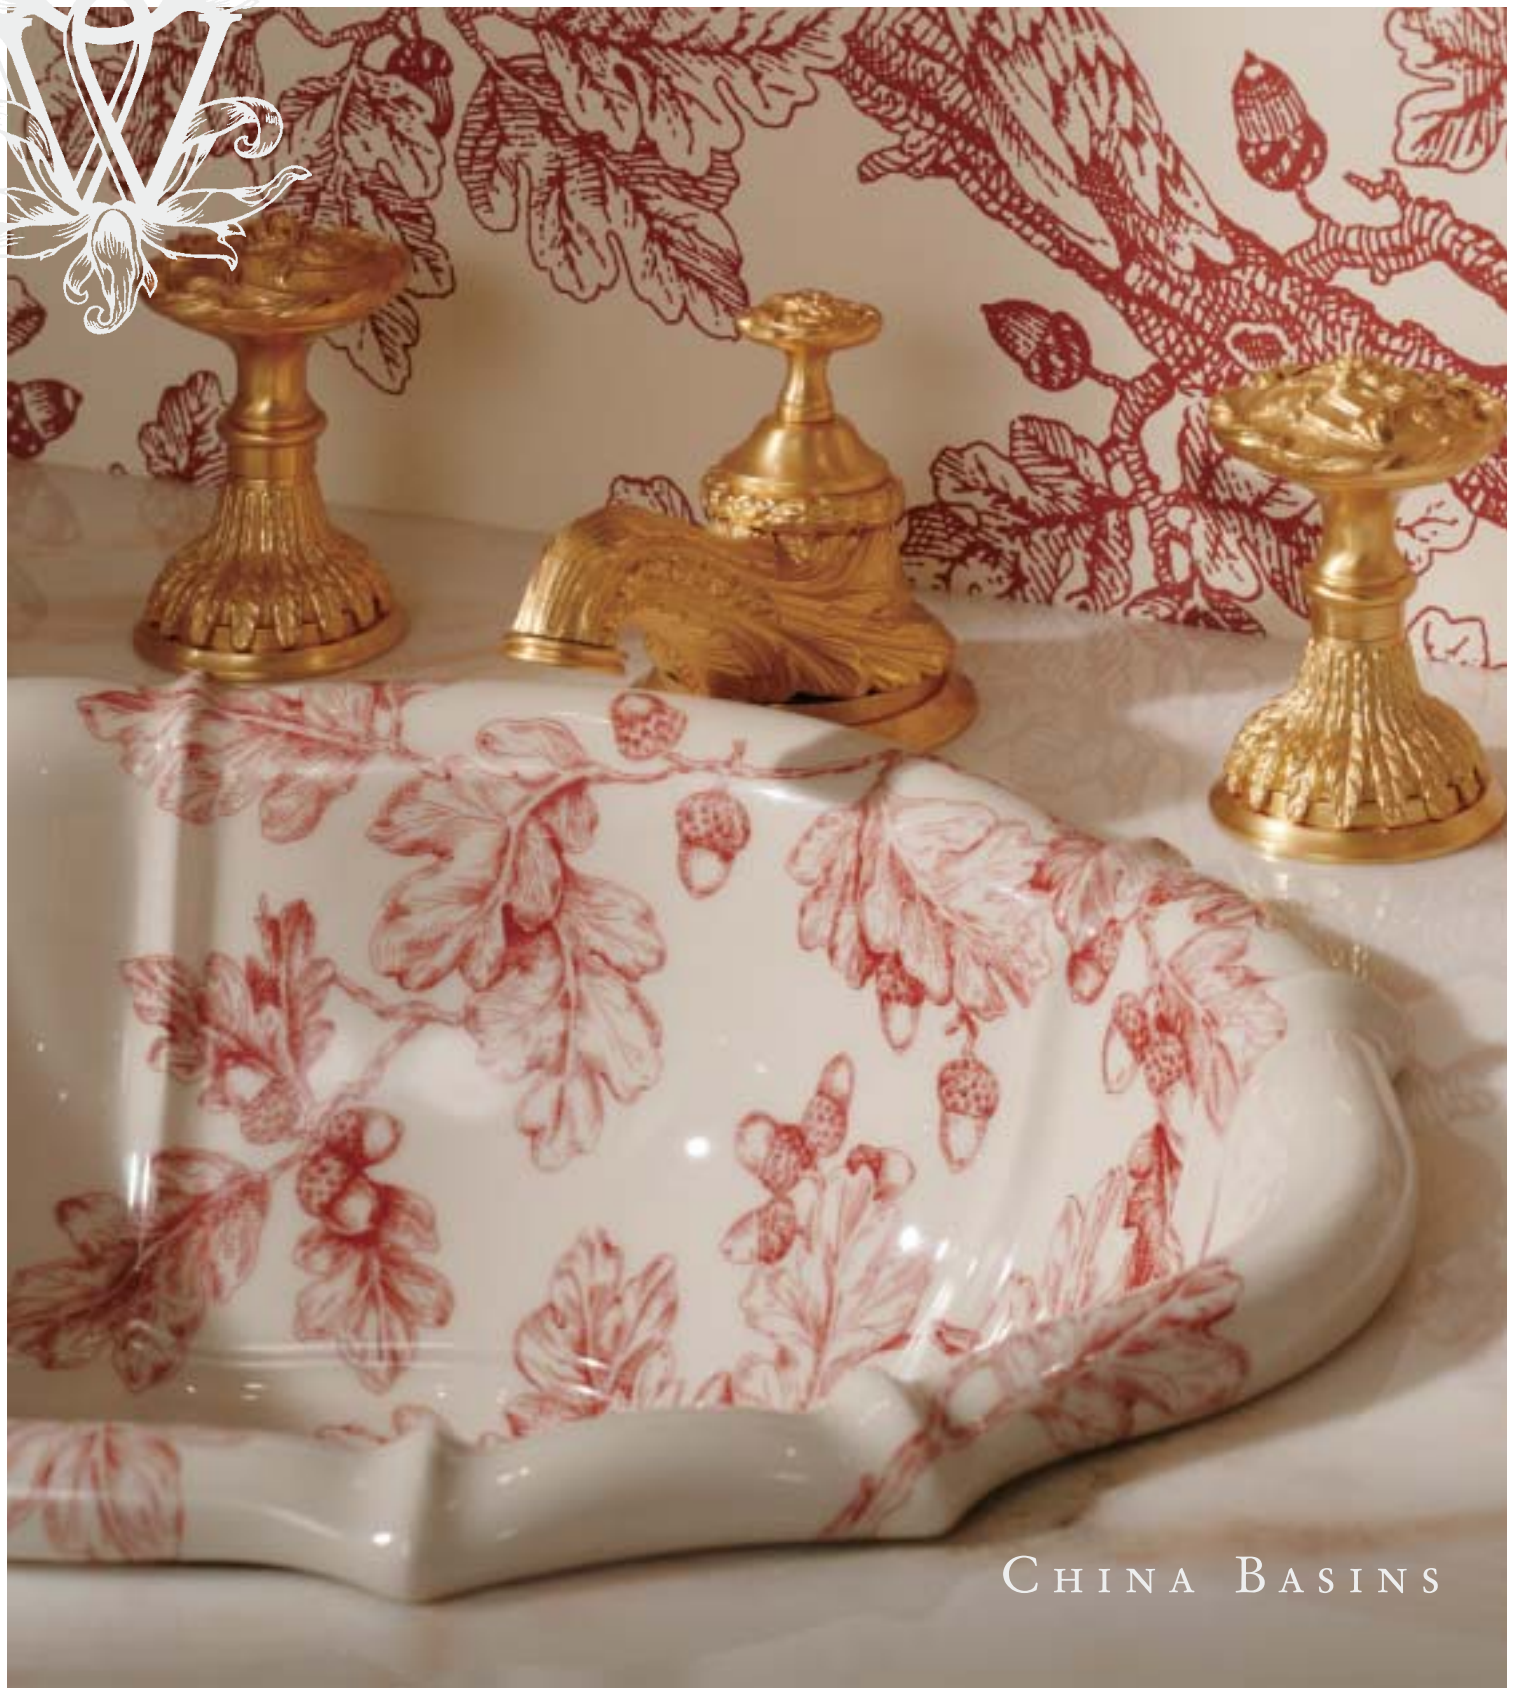

METAL Fittings and Fixtures are made of solid brass or bronze, hand chased and polished, and plated in a choice of sixteen finishes. The result is a jewelry quality product, enhanced by delicacy of design and detail.

CHINA Fittings and Fixtures are hand decorated by highly skilled and talented artists. Painted designs are applied in a multi-step process which involves hand penning and hand coloring. The platinum and 24k gold on painted designs, bands and solids are also applied by hand, fired and then hand burnished.

STONE Fittings and Fixtures come in a selection of marbles, onyx and semiprecious stones. You will be surprised by the range of effects. The heft of a Tub carved from a solid block of stone, the subtle beauty of Rose Quartz paired with Gold, or the flash of Lapis Lazuli accented with Polished Nickel are examples of the wonderful possibilities.

Vanities fitted with Sherle Wagner Hardware, evolved from our La Nuit, Annadale, Bamboo Ming and Soho Furniture Collections. Our vanities are available in a choice of wood finishes, hand applied using a multi-step process to enhance the WOOD's natural richness and depth of color. To complete the ensemble, choose from an array of Stone Counter Tops, Basins and Basin Sets.

Please familiarize yourself with matching and complementary accessories, hardware, wall coverings, lighting, linens, textiles and furniture. All are produced to the exacting standards of quality that you have come to expect from Sherle Wagner.

Nothing can match the look of Sherle Wagner HARDWARE except perhaps the feel of it in the hand. The range of choices is truly impressive, the combinations of styles, materials and finishes literally unlimited. Door, cabinet and furniture hardware, pulls and switch plates, coordinate with the entire Sherle Wagner line.

Along with our classic pieces manufactured in our own facility, we offer an ever expanding line, innovative and beautifully proportioned. All production is done on a limited basis, resulting in a level of quality that would otherwise be impossible.

Hand chased and polished, all METAL parts are made of solid brass or bronze and are plated in a choice of sixteen finishes. The result is a jewelry quality product, enhanced by delicacy of design and detail.

The authenticity of HAND PAINTED CHINA cannot be replicated. Our artists, all talented and highly skilled, paint the designs in a multi-step process which involves hand penning and hand coloring. Platinum and 24K gold are applied by hand, fired and then hand burnished.

Stone bath fittings come in ONYX and SEMIPRECIOUS STONES, and you will be surprised by the range of effects. A carved Rose Quartz Leaf design paired with Gold, or the flash of Lapis Lazuli and Polished Nickel are examples of the wonderful possibilities.

We look forward to helping you select from a fully integrated array of products to enhance your home, making it a reflection of your personal taste and style. In case you do not find exactly what you want, we have extensive custom capabilities, and can meet the individual needs of the most discerning customers.

Sherle Wagner TEXTILES are suitable for wall applications

When Sherle Wagner WALLCOVERINGS adorn the walls of your home, the look is alluring and the effect is transforming. The designs, beautiful on their own, also coordinate with Sherle Wagner textiles and hand decorated china patterns, providing for the creation of a fully integrated environment.

The proper rendering of Sherle Wagner patterns on Wallpaper can only be achieved by hand screening in limited batches. The results are definitely worth the effort.

Tiles, painted by hand, also mix and match with china patterns and wall papers. They can be configured in a variety of arrangements to create an entirely individualized effect.

If you prefer the drama of semiprecious stone, we will work with you to plan walls of unparalleled beauty and timelessness. Semiprecious stones can be used exclusively, or combined with marble. Either way, you will be thrilled by the results.
