INSPIRATION

INSPIRATION

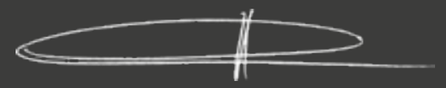

Ilfari lighting has a whimsical, fascinatingly eccentric feel that owes its off-beat elegance to...dance music! In this music you will find many classical touches. Simplicity combined with effects plays with your imagination and we channel it into handcrafted lighting that reflects what we hear.

This is the philosophy that has underpinned our collections ever since Ilfari is founded in 2001. The result is luxurious lighting that is unique with a highly progressive look, eclectic, almost artistic on light with a great beauty and simplicity.

Our products are entirely handmade, manufactured in Europe using the highest quality European glass and crystals from Swarovski, with razor-sharp attention to detail. The aim is to give both modern and classic interiors an individual, almost revolutionary, look with designs that play with light just as they play with your imagination.

In our latest catalogue you'll find inspirational lighting ideas that will totally transform your space designs with our newest collections as Stream, Ice Fall, Out of Line, Ballroom and Avenue One.
Extraordinary lighting for fascinating people!

Kind regards,

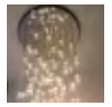

Coen Munsters
Ilfari founder and designer

INSPI RATION CENTER

In november 2013 Ilfari opened its new headquarters in the Netherlands. The building houses the Inspiration Center, a 500 square meter large showroom, where people can enjoy the complete Ilfari collection in a sensational presentation.

The heart of the Inspiration Center is ‘The Lounge’, where the guests can enjoy drinks and lounge music while witnessing its extraordinary surrounding. The Inspiration Center is built in the typical Ilfari style, modern with a classical touch, and plays with your imagination. Behind every corner is a new surprise, resulting in the optimal environment for contemplating the Ilfari light collection.
