

A history of light, glass, metal

1950. Italy. Venice. The town of Marcon and the island of Murano are just a few kilometres apart. Angelo Tosetto goes through those few kilometres almost every day from his workshop of artistic chandeliers to the shops of Murano glass masters to steal the secrets of their glass, hand blown in their furnaces.

It's a journey of pure passion, artistic affinities, where light meets matter, glass joins metal – brass, aluminium, steel – and tradition welcomes the future. The beginning of a great story: Studio Italia Design's story.

From Italy to the world over, a constant evolution.

This is the main path of "made in Italy", chosen and followed by three generations, experimenting each year with new processing techniques, technologies, designs, precious materials and a series of exclusive collaborations to create unique and ingenious luminaires: by form, content, aesthetics and functionality.

It's the path of success, that from Venice leads Studio Italia Design to shift attention to foreign markets, more than 90 countries the world over: to become one of Italian lighting's most internationally developed brands.

Make room for creativity. In each and every form.

Every path has its limits and to overcome them you need eyes, sensibility, skills and different emotions to decipher an ever changing world. For this reason Studio Italia Design chooses to partner with famous designers, researchers and engineers from a variety of nationalities and backgrounds. A selected group of creative people that together with the firm reinterprets the objects as true interior pieces where the light source plays freely with volumes, reflections, transparencies, lines and all the shades of the materials. Infinite new collections joined together by a common thread of manufacturing excellence.

Lighting every need in modern living.

The path of innovation also leads to extreme customisation: an answer to the needs that come with new lifestyles thanks to inventive new products custom-made for a variety of different interiors and tailored solutions developed with the leaders in contemporary architecture.

Another new frontier travelled by Studio Italia Design on the path of experience: merging different materials, classicism and avant-garde, craftsmanship and technology. A look at the path where it all began and the excitement in the next step.

Una storia di luce, vetro, metallo.

1950. Italia. Venezia. Il paese di Marcon e l'isola di Murano distano pochi chilometri. E sono quelli che Angelo Tosetto percorre quasi ogni giorno dalla sua bottega artigiana di lampadari artistici ai laboratori dei maestri vetrai muranesi, per carpire tutti i segreti del vetro soffiato a bocca nelle fornaci.

È un viaggio di pura passione, affinità artistiche, dove la luce incontra la materia, il vetro si unisce al metallo - l'ottone, l'alluminio, l'acciaio - e la tradizione sorride al futuro. L'inizio di una grande storia: quella di Studio Italia Design.

Dall'Italia al mondo, evoluzione continua.

Questa è la strada maestra del made in Italy, quella che tre generazioni scelgono di seguire sperimentando ogni anno nuove tecniche di lavorazione, tecnologie, linee, materiali pregiati, e una serie di collaborazioni esclusive nella creazione di lampade uniche e innovative: per forma e contenuto, estetica e funzionalità.

È la via del successo, che da Venezia porta Studio Italia Design ad accendere l'interruttore sull'estero, in oltre 90 paesi in tutto il mondo: per diventare oggi uno dei brand italiani nel settore dell'illuminazione più evoluti a livello internazionale.

Spazio alla creatività. In tutte le sue forme.

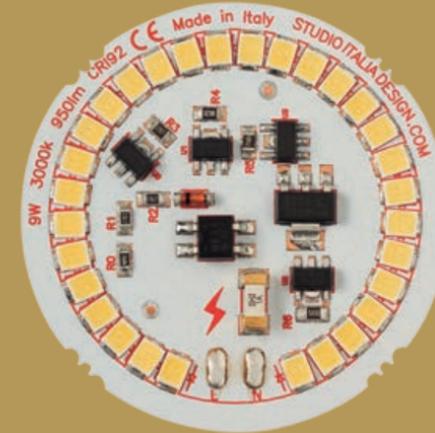

Ogni strada ha i suoi confini e per superarli servono occhi, sensibilità, competenze ed emozioni diverse capaci di interpretare un mondo che cambia. Così Studio Italia Design ha deciso di farsi accompagnare da designer, ricercatori e progettisti famosi di varie nazionalità e background. Un pool di creativi che insieme al brand reinterpretano gli oggetti come veri e propri elementi di arredo, dove la sorgente luminosa è libera di giocare con i volumi, i riflessi, le trasparenze, le linee e tutte le sfumature della materia. Infinite nuove collezioni unite dall'eccellenza produttiva di sempre.

Per illuminare ogni esigenza dell'abitare.

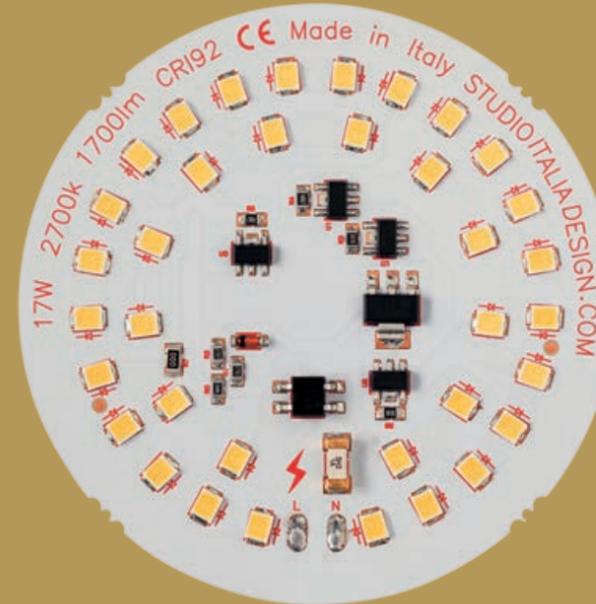

Il percorso dell'innovazione passa anche attraverso la massima personalizzazione: la possibilità di rispondere ai nuovi stili di vita grazie a prodotti pensati ad hoc per i vari contesti dell'abitare e a soluzioni su misura studiate insieme ai protagonisti dell'architettura contemporanea.

Ancora una nuova frontiera che Studio Italia Design percorre nel solco della sua esperienza: integrando materiali eterogenei, classicismo e avanguardia, artigianato e tecnologia. Uno sguardo a quella strada dove tutto è iniziato e l'entusiasmo di raggiungere la prossima destinazione.

ANNO | YEAR

1878

Edison inventa la lampadina ad incandescenza.
 Edison invented the first incandescent light bulb.

1901

Vengono sviluppate le prime lampade a scarica a vapori di mercurio.
 The first mercury vapour discharge lamps were developed.

1910

Viene brevettata la prima lampadina ad uso commerciale.
 The first light bulb was patented for commercial use.

1926

Viene brevettata la lampada a fluorescenza.
 The fluorescent lamp was patented.

1962

Viene brevettato il LED.
 LED was patented.

1978

Appaiono le prime lampadine a basso consumo (CFL).
 The first energy saving light bulbs (CFL) was appeared.

1993

Viene inventata la prima lampadina LED.
 The first LED light source was developed.

2007

Appaiono le prime lampadine a LED retrofit.
 The first retrofit LED bulbs appeared.

2015

Studio Italia Design propone le prime lampade con chip integrato LED a tensione di rete.
 Studio Italia Design offered its first lighting fixtures with

Il 90% della collezione SID utilizza la tecnologia LED a tensione di rete.
 90% of SID collection uses mains voltage LED technology.

2016

SID lancia i propri moduli LED a tensione di rete studiati e realizzati internamente (Made in Italy).
 SID launches mains voltage LED modules designed and manufactured in house (Made in Italy).

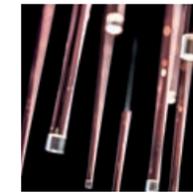

SID lancia i moduli LED a tensione ad alta efficienza (Made in Italy). integrated mains voltage LED chip.
 SID launches high efficiency mains voltage LED modules (Made in Italy).

SKYFALL

design: Studio Italia Design 2014

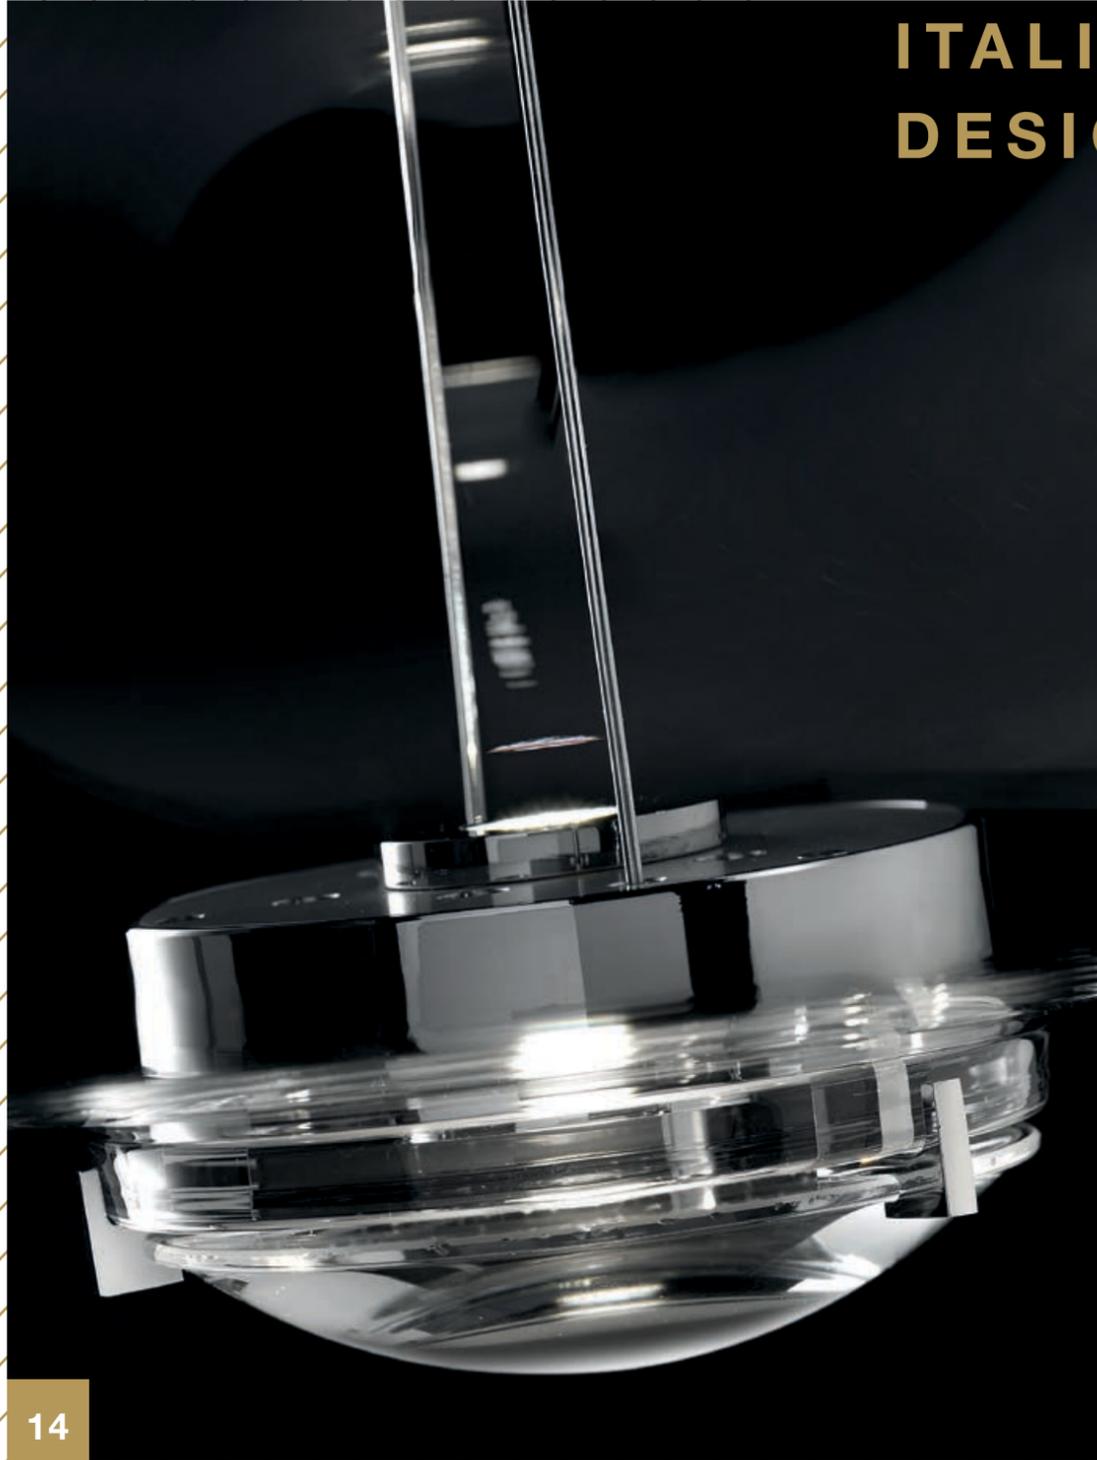

LA FORMA RICORDA I DECANTER DEI VINI PREGIATI IN PREZIOSO VETRO SOFFIATO CHE SI FONDONO CON IL PROGRESSO, UNENDO COSÌ LA MAESTRIA NELL'ARTE DEL VETRO CON LE NUOVISSIME TECNOLOGIE LED. SOSPENSIONE CHE NON SOLO INCANTA DI RICORDI MA CHE EMOZIONA, SINGOLARMENTE O IN COMPOSIZIONI MULTIPLE.

IT'S SHAPE REMINDS YOU OF A PRECIOUS BLOWN GLASS DECANTER USED FOR HIGH QUALITY WINES BUT AT THE SAME TIME SHOWS PROGRESS, PUTTING TOGETHER THE SKILL IN THE ART OF BLOWN GLASS AND THE MOST UP TO DATE LED AND FINISHING TECHNOLOGIES. SUSPENSION LAMP THAT NOT ONLY BRINGS BACK WARM MEMORIES BUT CREATES EVOCATIVE NEW IDEAS IN DESIGN, INDIVIDUALLY OR IN CLUSTERS.

A-TUBE NANO

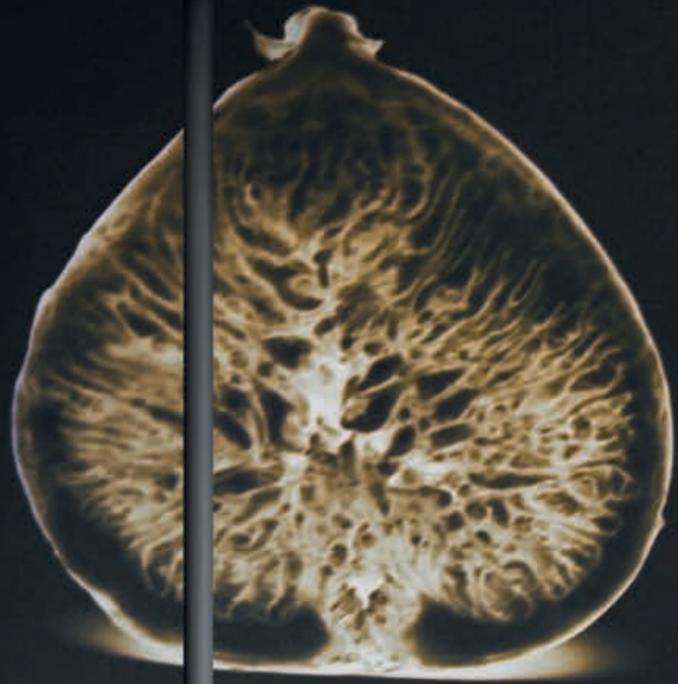

design: Studio Italia Design 2016

LINEE SOTTILI CHE VENGONO IMPREZIOSITE DAL DETTAGLIO CRISTALLO TRASPARENTE CHE QUANDO ILLUMINATO RISALTA COME LA RUGIADA IN PRIMAVERA. GRAZIE ALLA SUA MODULARITÀ CREA BELLISSIME COMPOSIZIONI CLUSTER.

THIN LINES HAVE A PRECIOUS TOUCH WITH A TRANSPARENT GLASS DETAIL THAT SHINES LIKE MORNING DEW IN THE SUNSHINE ON A SPRING MORNING. IT ALLOWS YOU TO CREATE BEAUTIFUL CLUSTERS THANKS TO IT'S MODULARITY.

LASER CUBE

design: Studio Italia Design 2004/2015

STRUTTURA IN METALLO ELEGANTE E RAFFINATA CHE RIPRODUCE ESATTAMENTE LE FATTEZZE DI UN CUBO AL CUI INTERNO LA SUA ANIMA LED PERMETTE DI SPRIGIONARE FASCI DI LUCE INDIRECTA ORIENTATA SIA VERSO L'ALTO CHE VERSO IL BASSO CREANDO MAGNIFICI EFFETTI LUMINOSI CHE AFFASCINANO E VALORIZZANO L'AMBIENTE.

AN ELEGANT AND POLISHED STRUCTURE IN METAL REPRODUCES A PERFECT CUBE, IT'S LED INNER SOUL ALLOWS LIGHT EFFECTS TO SPREADS INDIRECTLY, UP AND DOWN, FASCINATING AND ENHANCING IT'S SURROUNDING SPACES .
