

Wave *handle*

La maniglia è realizzata in esclusiva ed è abbinata alla tecnologica serratura magnetica con chiusura a nottolino.

The handle is made exclusively for this product, and is paired with the technological magnetic lock with privacy latch.

Ручка выполнена эксклюзивно для этого проекта и используется вместе с высокотехнологичным магнитным замком с защелкой.

WIND

Bespoke *to you*

La struttura di Wind è realizzata interamente in alluminio, garantendo così agilità di scorrimento delle ante. Essenziale, pratica, ma non solo: la realizzazione di una struttura leggera infatti, conferisce a Wind eleganza estetica e formale. È disponibile un'ampia gamma di vetri stratificati e temperati conformi alle norme di sicurezza. Wind è disponibile anche a specchiatura intera: da pavimento a soffitto senza interruzioni.

The "Wind" frame is made of aluminum, so the panels can slide easily. A key factor from a practical standpoint, but the lightweight frame also gives "Wind" aesthetic and design elegance. It is available in a wide range of laminated and tempered glasses, all in compliance with safety standards. "Wind" is also available entirely in glass - a single piece from floor to ceiling. With mirror finish, it furnishes the room and at the same time visually expands it.

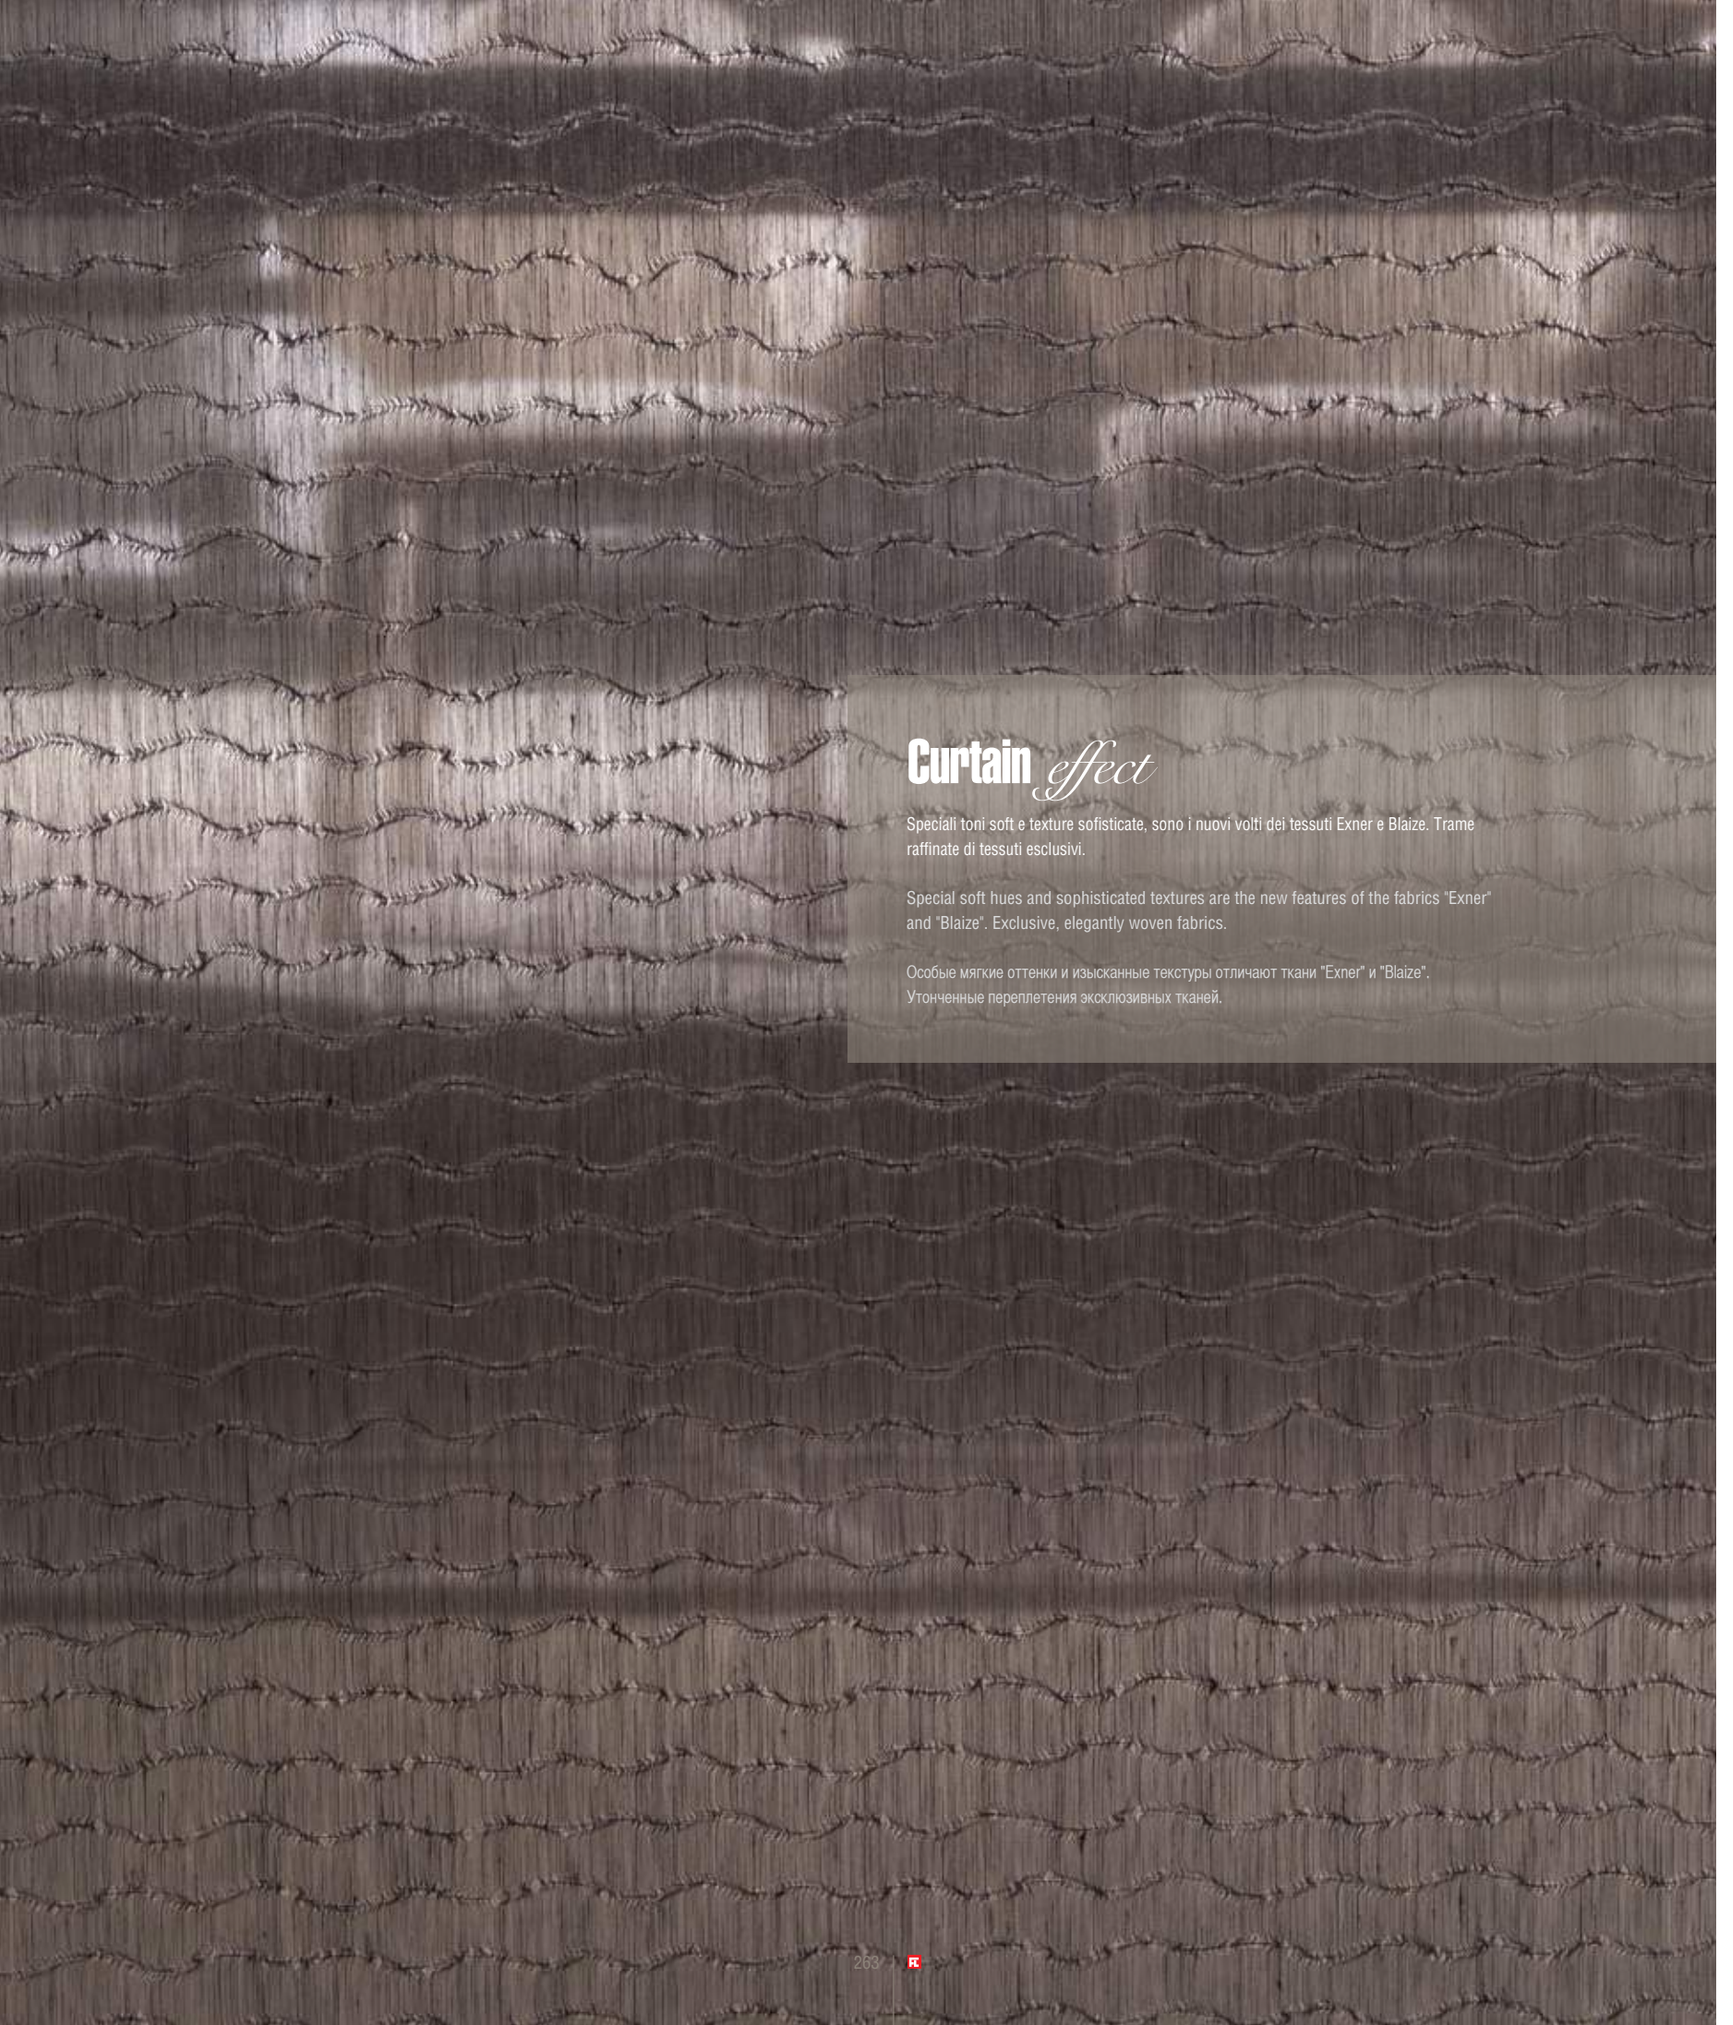

Каркас системы Wind выполнен полностью из алюминия, что обеспечивает плавное скольжение дверей. Использование только самых необходимых элементов делает систему Wind чрезвычайно практичной, а легкий каркас придает ей элегантный внешний вид и форму. В наличии имеется широкий ассортимент многослойного и закаленного стекла, соответствующего нормам безопасности. Wind может иметь полностью стеклянное исполнение: с цельным стеклом от пола до потолка.

CRISTAL

Exclusive *plus*

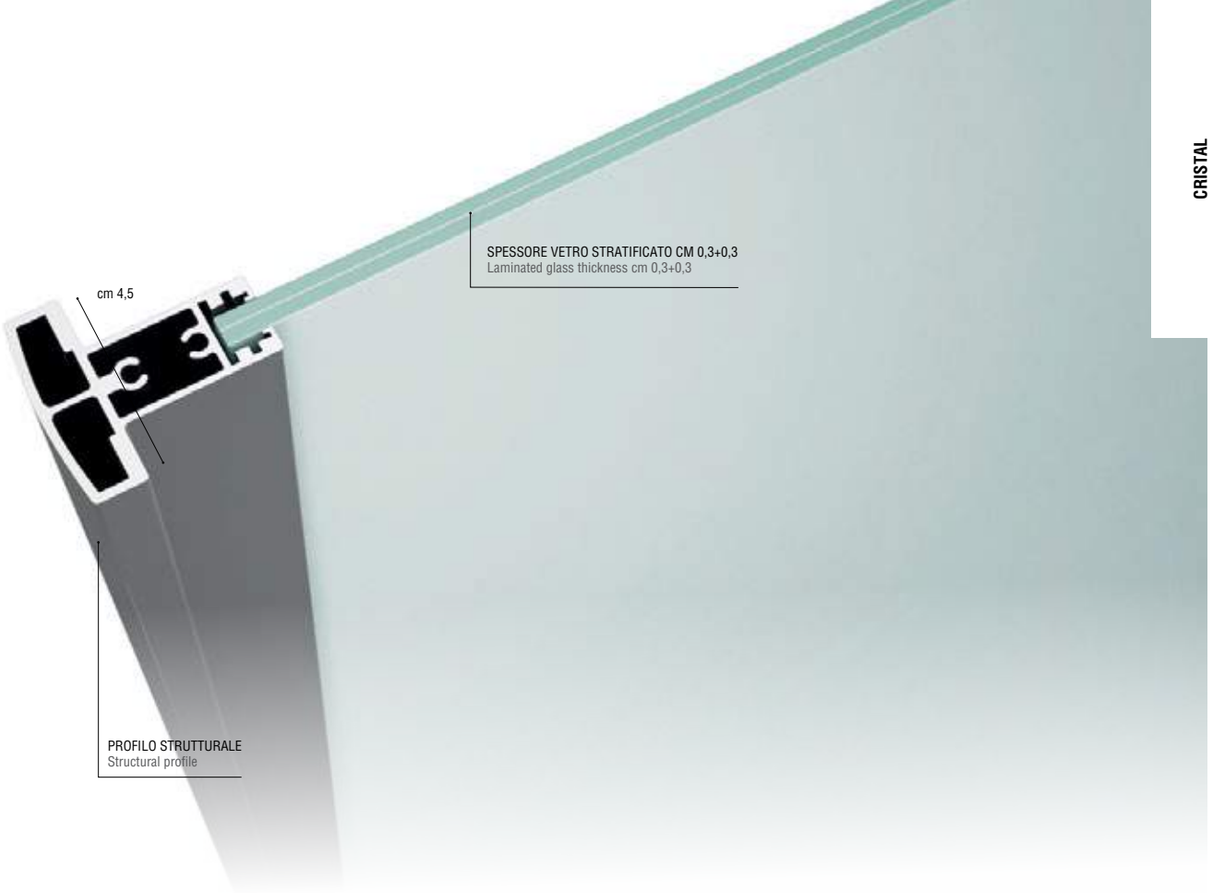

Cristal è un sistema articolato di porte battenti, pannelli scorrevoli ed a scomparsa con requisiti formali e tecnologici unici. Un aspetto qualificante del programma è dato dalla possibilità di declinare gli elementi "su misura" con la vastissima gamma di finiture e vetri speciali in combinazioni che superano i limiti della produzione seriale e rendono le porte un esclusivo elemento d'arredo.

Cristal is a versatile and diversified system of swing doors, sliding panels and panels for pocket doors with unique shapes and technological characteristics. One significant aspect of this system is the possibility of having "made to order" elements in a wide range of finishes and with a selection of special kinds of glass. Available combinations go beyond the limits of assembly-line production, and make these doors into exclusive furnishing elements.

Cristal - это гибкая система распашных дверей, раздвижных панелей и панелей с уходом в стену, обладающих уникальными технологическими и эстетическими характеристиками. Отличительной особенностью этой линии является возможность сочетать элементы, изготовленные по индивидуальному заказу, с огромным количеством отделок и стекол, создавая комбинации, выходящие за пределы серийного производства и превращающие двери в эксклюзивный элемент интерьера.

Cristal *handle*

La maniglia, realizzata su progetto Longhi, è espressamente dedicata al programma Cristal. La serratura miniaturizzata e brevettata è inglobata interamente nel montante della porta conferendole una pulizia formale ed estetica unica nel settore.
Finiture: cromato lucido e cromosatinato. Viene fornita sempre con nottolino di chiusura.

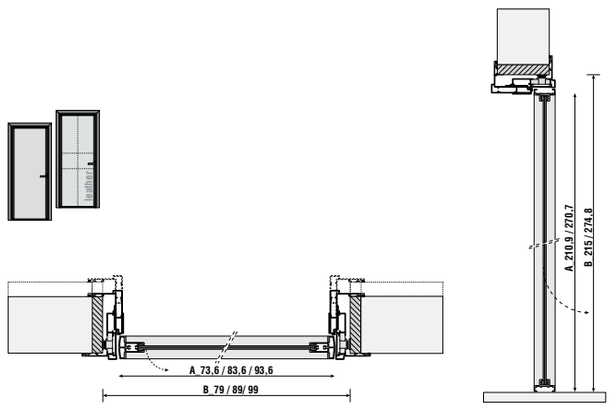

The handle, designed by Longhi, is manufactured specifically for the Cristal system. The patented miniature lock is completely encased in the doorjamb, giving the door a sleek, beautiful look that is unique in the industry.
Finishes: polished chrome and satin finish chrome. All doors come complete with lock.

Ручка изготовлена по дизайну Longhi специально для системы Cristal. Защищенный патентом миниатюрный замок, полностью спрятанный в стойке двери, придает ей уникальную эстетическую чистоту.
Отделка: глянцевый хром и сатинированный хром. В комплект поставки входит защелка.

Handle *and jamb*

La maniglia, realizzata su progetto di Giuseppe Iasparra, è espressamente dedicata al programma Alley. La particolare forma chiude in essa materiali opulenti, marmi, onici o morbide pelli. Lo stipite, invece, è la rilettura moderna di uno stile Neoclassico, morbido nel tratto, curvilineo fa risplendere una casa deluxe. Alley è un progetto completo dove la tradizione incontra un design rigoroso creando un'assoluta armonia di stile. Dona ancora più vigore la seconda finitura scelta per presentare la boiserie: il mogano tinto scuro.

The handle, designed by Giuseppe Iasparra, is expressly dedicated to the Alley line. Its particular shape encloses opulent materials such as marble, onyx or soft leathers. The jamb, on the other hand, is a modern version of Neoclassical style with a soft curved shape that gives splendour to the deluxe home. Alley is a complete project where tradition encounters rigorous design to create an absolute harmony of style. The second finish chosen to present the boiserie wall covering gives even more strength: dark stained mahogany.

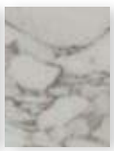

Ручка изготовлена по проекту Джузеппе Яспарры специально для системы Alley. Особая форма скрывает в ней богатые материалы, мрамор, оникс или мягкую кожу. Дверная коробка, отличающаяся мягкими изогнутыми линиями, представляет собой современную интерпретацию неоклассицизма и придает особый блеск роскошному интерьеру. Alley – это совершенный проект, где традиция сочетается со строгим дизайном, создавая абсолютную гармонию стиля. Еще большую энергию придает вторая отделка буазери - красное дерево, тонированное в темный цвет.

LORD

Contemporary *living*

Porta caratterizzata dall'accurata ricerca di materiali e finiture: il Sucupira Luxury opaco, il rovere thermo-smoked, il larice scolpito laccato, il rivestimento in camoscio o in pelle e il poliestere lucido brillante rendono Lord protagonista del living contemporaneo. L'esclusivo design della maniglia Longhi è abbinato a una serratura magnetica, disponibile con o senza nottolino di chiusura oppure con chiave.

This door epitomizes the quest for just the right materials and finishes. The matt Sucupira Luxury, thermo smoked oak, carved lacquered larch, suede or leather upholstery and shiny polyester make "Lord" an icon of contemporary living. The exclusive LONGHI handle design is paired with a magnetic latch, available with or without locking mechanism or with key.

Дверь отличает огромное внимание к материалам и отделке. Матовая Sucupira Luxury, копченый дуб, структурная лиственница с лаковым покрытием, замшевая или кожаная обивка и блестящее полиэфирное лаковое покрытие делают дверь Lord главным действующим лицом современного интерьера. Эксклюзивный дизайн ручки Longhi сочетается с магнитным замком, который может выполняться с защелкой или без нее или оснащаться ключом.

Sucupira *luxury*

Fantastica essenza di legno, il Sucupira ha come principali caratteristiche la durezza e la fitta venatura. Trattato con la finitura Luxury trasparente dona al materiale elevatissima morbidezza ed un tono vellutato. Una prodotto elegante e ricercato che vanta caratteristiche decisamente interessanti per un design dai tratti speciali, dall'effetto aptico.

The lovely wood, Sucupira, has two main characteristics: hardness and marked grain. Treated with a transparent Luxury finish, the wood shows extreme softness and a velvety tone. This elegant product provides very interesting features for a design with special traits and unexpected haptic effects.

Sucupira – это удивительная порода древесины, которая отличается твердостью и густой сетью прожилок. Прозрачная отделка Luxury придает ей необыкновенную мягкость и бархатистость. Это элегантный и изысканный материал с очень интересными характеристиками, позволяющими создавать особенные дизайнерские решения с осязательным эффектом.

WOOD
Traditional *look*

Wood è una tradizionale ed elegante porta battente in legno. Molto accurata è la scelta dei materiali e la venatura orizzontale delle essenze: Sucupira Luxury opaco, EcoWood ebano, EcoWood noce Canaletto e EcoWood rovere moro. Un'altra finitura presente nella collezione è il laccato opaco a poro aperto nei colori a campionario.

Wood is the name of an elegant, traditional wooden door. The choice of materials and the horizontal grain of matt Sucupira Luxury, EcoWood ebony, EcoWood Canaletto walnut or EcoWood dark oak is an essential element. Another finish available in the collection is matt lacquered open pore in the sample colors.

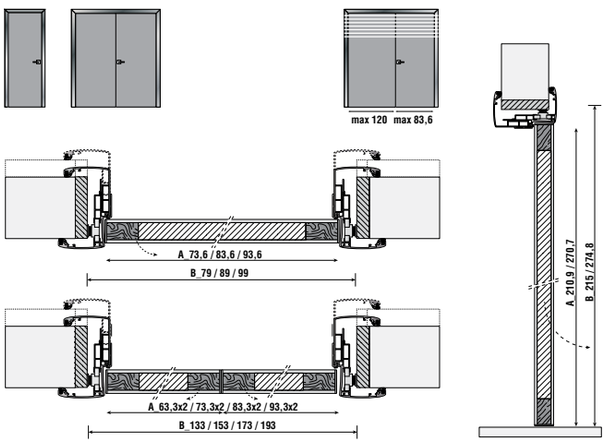

Wood - это традиционная и элегантная деревянная дверь, которую отличает очень тщательный выбор материалов и горизонтальная текстура древесных пород: матовая Sucupira Luxury, EcoWood эбеновое дерево, EcoWood орех Canaletto и EcoWood темно-коричневый дуб. Еще одной отделкой, представленной в этой коллекции, является матовый лак с открытой порой в цветовой гамме согласно набору образцов.

SCREEN

Fuctional *design*

Screen è un sistema espressamente dedicato alle chiusure di cabine armadio, piccoli spazi e nicchie. Infatti i pannelli scorrevoli sono caratterizzati da una lastra di vetro posta solo sulla parte frontale della struttura ed i profili d'alluminio sono dotati di specifiche guarnizioni e spazzoline antipolvere.

Screen system is expressly made for closing walk-in closets, small spaces and niches. The sliding panels have a sheet of glass only on the front part of the structure and the aluminium profiles have special gaskets and anti-dust brushes.

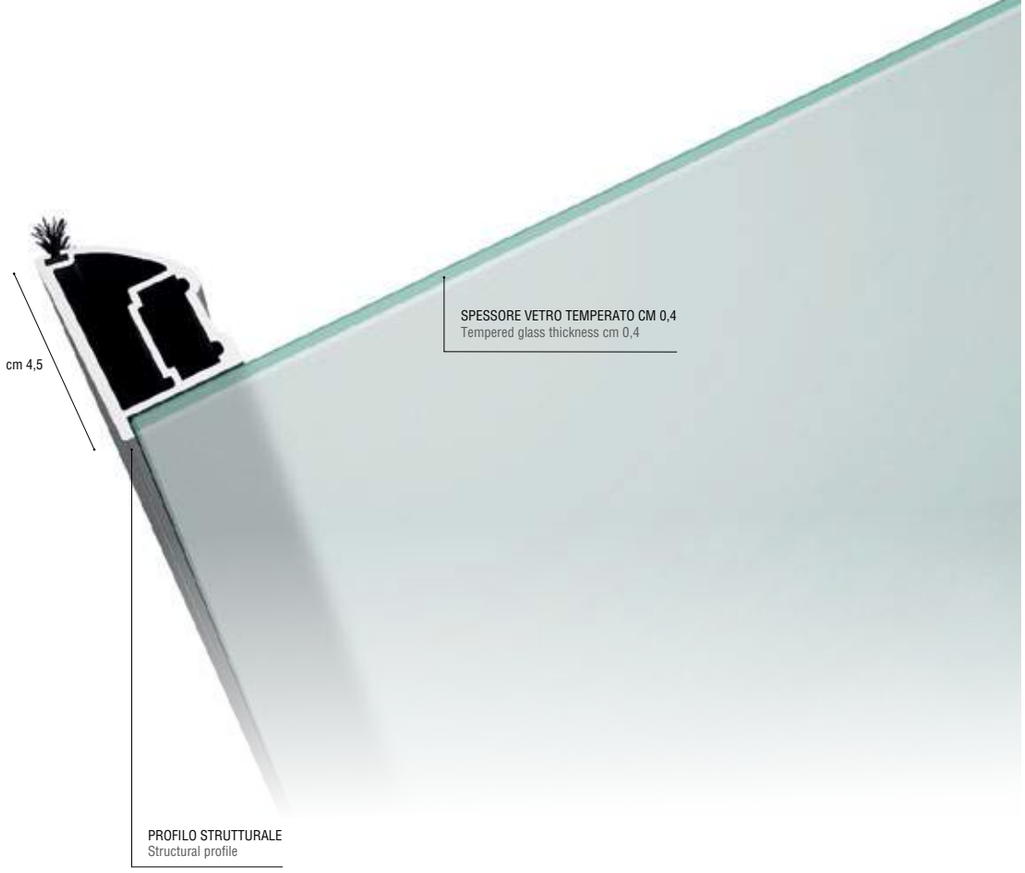

Screen - это система, предназначенная для закрытия гардеробных комнат, небольших пространств и ниш. Раздвижные панели характеризует наличие стеклянного листа только в передней части конструкции, а алюминиевые профили оборудованы специальными прокладками и щетками для защиты от пыли.

FLY-SYSTEM

Maximum *flexibility*

Fly-System è l'innovativo programma per gli ambienti dedicati a cabina armadio. Il progetto nasce e si sviluppa sull'esclusiva trave in alluminio fissata a soffitto, sulla quale è possibile agganciare dei montanti dedicati a posizionare mensole ed accessori in funzione delle proprie esigenze. Inoltre il rivestimento, boiserie, della parete è strutturalmente svincolato, permettendo al sistema di essere collocato anche in uno spazio libero. Massima flessibilità progettuale e combinazioni estetiche infinite per creare cabine armadio personalizzate e su misura del "Tuo" spazio.

This is the innovative line for rooms dedicated to contain the walk-in closet. The project begins and develops along an exclusive aluminium beam fixed to the ceiling, on which it is possible to hook uprights and position shelves and accessories depending on personal requirements. The boiserie wall covering panel is structurally apart, which allows the system to be placed in a freer space, if desired. Maximum flexibility in design and unlimited aesthetic combinations make it possible to create personalised walk-in closets to fit "Your" space.

Fly-System - это инновационная линия, созданная для гардеробных комнат. Система основана на одной закрепленной на потолке алюминиевой перекладине, к которой могут фиксироваться специальные стойки для установки полок и других комплектующих согласно собственным потребностям. Декоративная стеновая панель буазери является конструктивно независимой, что позволяет устанавливать систему и в свободном пространстве. Максимальная гибкость дизайна и бесконечное число сочетаний отделки позволяют создавать персонализированные гардеробные комнаты точно по размеру.

Adaptable *system*

Fly System si completa con un'ampia gamma di accessori, liberamente posizionabili lungo il montante: mensole e basamenti, aste portabiti, appendiabiti inclinabili, cassettiere, portapantaloni e vassoi estraibili. La cabina armadio è una zona funzionale che si trasforma in uno spazio privato, separato da ante scorrevoli a vostra scelta.

Fly System is completed with a wide range of accessories, freely positioned along the upright: shelves and bases, clothing rods, tilting clothes hangers, chests of drawers, trousers holders and extractable trays. The walk-in wardrobe has a functional area that can turn into a private space, separated by your choice of sliding doors.

Fly System дополняется богатой гаммой комплектующих, которые можно свободно устанавливать вдоль стойки: полки и основания, штанги для одежды, наклонные вешала, кассетницы, держатели для брюк и выдвижные поверхности. Гардеробная комната – это функциональная зона, которая становится личным пространством, отделенным раздвижными дверями по вашему выбору.

LE COMPTOIR DU PAIN

STAGE DESIGN

VERTICAL

Modular *closet*

La cabina armadio Vertical è dotata di una ricca gamma di attrezzature nelle diverse finiture. Degno di nota è sicuramente la finitura elettrocolore moro per l'alluminio. Le mensole, grazie all'esclusivo sistema di fissaggio, si possono posizionare all'altezza desiderata. I montanti bloccabili tra pavimento e soffitto, o fissabili a parete, permettono di configurare liberamente soluzioni per ogni particolare esigenza. Le pareti si possono rivestire con la boiserie modulare (è possibile anche il taglio su misura), disponibile nelle finiture melaminico bianco, melaminico wengé, in vetro o pelle.

The Vertical walk-in wardrobe has a rich range of accessories and equipment in the different finishes. One important item is the electrocolour dark brown finish for aluminium. The shelves can be fastened at the desired height, thanks to the exclusive fastening system. The uprights can be secured between floor and ceiling, or fastened onto the wall, so that various solutions can be put together to suit particular needs. The walls can be covered with modular boiserie panels (which also can be ordered to measure) available in the finishes: white melamine, wenge melamine, glass or leather.

Гардеробная комната Vertical оснащена богатой гаммой приспособлений с различной отделкой, включая новую темно-коричневую электроокраску для алюминия. Благодаря эксклюзивной системе крепления полки могут устанавливаться на необходимую высоту. Стойки, фиксируемые между полом и потолком или закрепляемые на стене, предоставляют максимальную свободу при создании любых композиционных решений. Стены могут покрываться модульными панелями буазери (возможна резка по размерам) с отделкой белый меламин, меламин венге, из стекла или кожи.

Light *style*

La cabina armadio Vertical è caratterizzata da una organizzazione precisa degli spazi, dove l'ordine, la funzionalità e la coerenza stilistica sono protagonisti assoluti. I dettagli sono da sempre una parte importante della filosofia progettuale Longhi, esprimono una concezione dell'eleganza evoluta, risultato di una ricerca stilistica e funzionale precisa.

The Vertical walk-in wardrobe is organised with a precise definition of space. Order, function and stylistic coherence are the most important aspects. The details are always an important part of Longhi's design philosophy because they express a concept of evolved elegance, the result of targeted functional and stylistic research.

Для гардеробной комнаты Vertical характерна четкая организация пространства, в котором главную роль играют порядок, функциональность и стилистическая согласованность. Детали, имеющие важное значение в философии проектирования Longhi, выражают концепцию современной элегантности, которая является результатом точных стилистических и функциональных исследований.

LAND
Modular *system*

Land si caratterizza per un'estrema adattabilità ad ogni tipo di ambiente e per i materiali utilizzati, che sono il frutto di ricerche nel settore della moda e del design contemporaneo. La serie comprende molteplici abbinamenti e modularità dalle dimensioni quasi personalizzate. All'interno di un processo di progressiva elaborazione dell'architettura d'interni, porte, boiserie e mobili contenitori vestono l'ambiente come una vera e propria pelle in cui convivono forma e funzione.

Land is extremely adaptable to every type of room, and the materials used to make the series are the result of research in today's fashion and design sectors. The series includes many pairings and modular solutions with almost personalised features. Inside this process of progressive development of interior architecture, doors, boiserie panels and storage pieces "dress" the room as if they were its skin, bringing form and function.

Land характеризуется максимальной адаптируемостью к любому типу помещения и используемыми материалами, которые являются результатом исследований в сфере моды и современного дизайна. Серия включает многочисленные сочетания и модульные решения, отличающиеся практически индивидуальными размерами. Внутри процесса постепенной разработки архитектуры интерьера двери, буазери и шкафы одевают помещение, как настоящая кожа, в которой сосуществуют форма и функция.

Special mirror TV

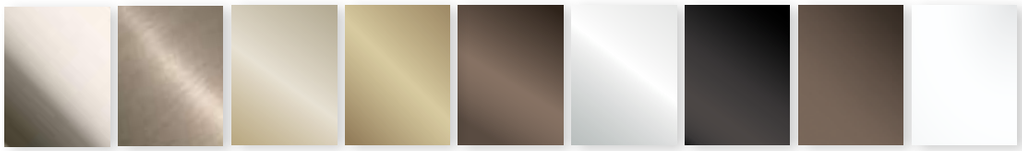

Specchio o TV? Semplice: accesa è una TV, spenta è uno specchio che non lascia intravedere nulla al suo interno. La speciale integrazione di una LED TV dietro allo specchio è il risultato di una ricerca costante, originale e di grande impatto tecnologico.
Totalmente invisibile, è il connubio perfetto tra lo stile del tuo living e una comune TV. Lo specchio è disponibile nelle seguenti varianti di colore: bronzo naturale, bronzo chiaro, grigio Londra, nero non rilettente, specchio naturale.

Mirror or TV? Simple: when it's on, it's a TV and when it's off, it is a mirror that won't allow anyone to see what's inside. The special integration of a LED TV behind the mirror is the result of constant research, and has produced an original and very impressive technological piece. Totally invisible, this TV is the perfect blend of living room style and common home entertainment. The mirror is available in the following colour variations: natural bronze, light bronze, London grey, non-reflecting black, or natural mirror.

Зеркало или телевизор? Очень просто: во включенном состоянии это телевизор, а в выключенном зеркало, внутри которого ничего не заметно. Особая интеграция LED-телевизора за зеркалом представляет собой результат постоянных и оригинальных исследований и обладает уникальным технологическим эффектом. Абсолютно невидимый, он представляет собой идеальный союз стиля гостиной и обычного телевизора. Зеркало производится в следующих цветовых вариантах: натуральный бронзовый, светлый бронзовый, серый Londra, черный неотражающий, натуральное зеркало.

Endless
Interchangeable *boiserie*

Il sistema di Boiserie Endless è caratterizzato da molteplici modularità che permettono di arredare l'ambiente attraverso le eleganti finiture che troviamo nella serie Ianus. Rilievi e textures delle essenze dell'onice e della pelle, rendono il "toccare" una piacevole e gratificante sensazione.

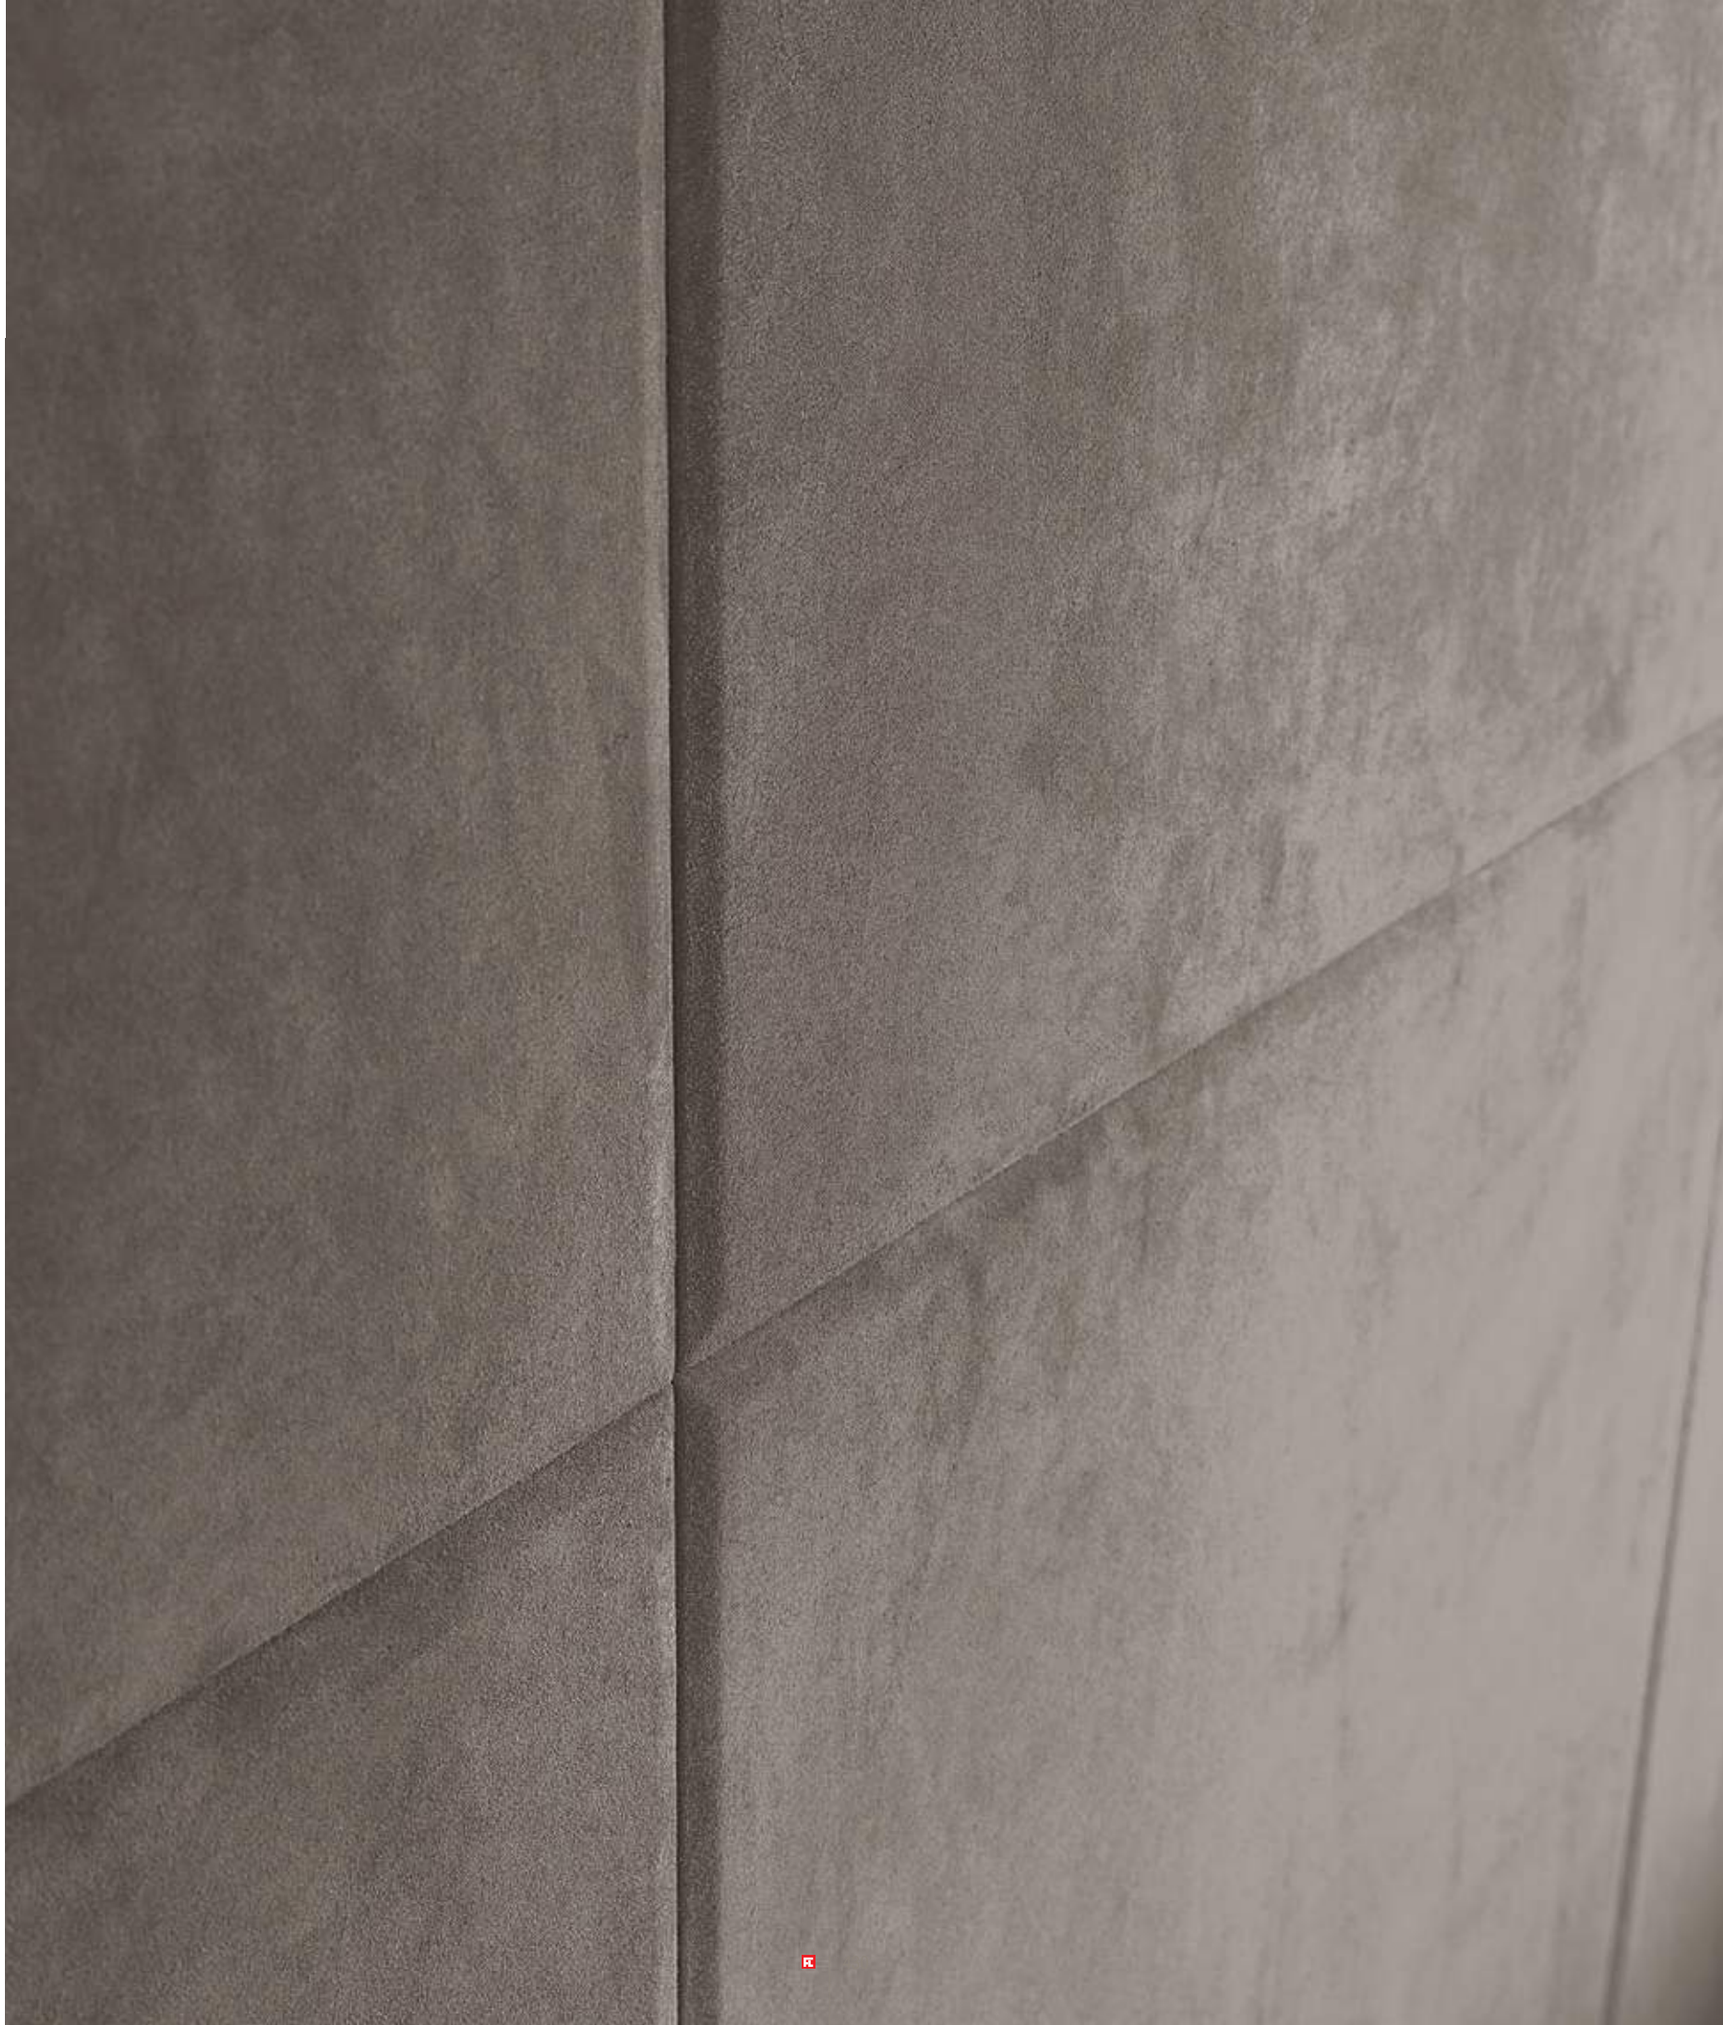

The Endless Boiserie system features a variety of modular options that make it possible to furnish any space, using the elegant finishes available in the Ianus series. The relief patterns and textures of the wood, onyx and leather are an invitation to "touch", for a pleasant and rewarding sensation.

Система буазери Endless отличается множеством модульных решений, позволяющих создавать интерьер, используя элегантные отделочные покрытия серии Ianus. Рельефность и текстура дерева, оникса и кожи делают прикосновение приятным и желанным ощущением.

Elegant
Wall *decoration*

Sistema Boiserie Elegant, grazie agli accostamenti tra decori, essenze e materiali preziosi permette di personalizzare e impreziosire ogni ambiente, un sistema di "Wall Decoration" semplice e unico allo stesso tempo.

The Boiserie Elegant system uses combinations of decorations, woods and precious materials to allow the client to customise and embellish every room. It is a simple but unique "Wall Decoration".

Благодаря гармоничному сочетанию декоративных элементов, древесных пород и ценных материалов система буазери Elegant позволяет персонализировать и украсить любое помещение. Это простая, но в то же время уникальная система декора стен.

HERITAGE

Wooden *boiserie*

La boiserie Heritage ha molteplici aspetti di adattabilità e, coordinata con le sue porte, crea stile e continuità formale a tutta la stanza. Ogni progetto è creato su misura sia in altezza che in larghezza. Tutti i punti luce sono a led con accensione tramite piccolo interruttore touch posto esternamente e con variazione di intensità tramite pressione.

Heritage boiserie is very adaptable and, coordinated with its doors, creates a seamless formal continuity in the room. Each project is custom-designed to fit the height and width of the room. All spotlights are LED luminaires with a small touch switch placed outside whose intensity may vary by pressure.

Буазери Heritage обладает многочисленными аспектами адаптируемости и в сочетании с дверями придает стиль и формальную связность всему помещению. Каждый проект создается по индивидуальным размерам как в высоту, так и в ширину. Все светодиодные светильники включаются с помощью миниатюрного сенсорного и нажимного выключателя, позволяющего изменять интенсивность света, который расположен снаружи.

LA PITTURA DEL NOVECENTO
DONATELLO

Italian *Style*

Preziosa cornice, un dinamico gioco di boiserie alta fino al soffitto, regala agli ambienti una sensazione di grande respiro. Heritage è un sistema di boiserie modulare totalmente su misura, con alcuni elementi attrezzati speciali, dallo stile neoclassico.

A precious setting, a dynamic interplay of full-height boiserie panels, gives any ambience a sensation of deep breath. Heritage is a modular system of custom-made boiserie panels with some special accessorised elements in pure neoclassical style.

Уникальный декор, динамичная игра буазери во всю высоту помещения дарят ощущение абсолютной свободы. Heritage - это модульная система буазери, реализуемая полностью по индивидуальному заказу и включающая особые оборудованные элементы в неоклассическом стиле.

BOISERIE / *BOISERIE* **HERITAGE WITH ALLEY DOOR**
STRUTTURA / *STRUCTURE* **WHITE LACQUERED WITH GOLD PROFILES**

Severe *Style*

Heritage è un progetto completo dove la tradizione incontra un design rigoroso creando un'assoluta armonia di stile. Dona ancora più vigore la seconda finitura scelta per presentare la boiserie: il mogano tinto scuro.

Heritage is a complete project where tradition meets a thorough design creating an endless harmony of style. The second available finish of the boiserie gives even more firmness: dark stained mahogany.

Heritage – это совершенный проект, где традиция сочетается со строгим дизайном, создавая абсолютную гармонию стиля. Еще большую энергию придает вторая отделка буазери - красное дерево, тонированное в темный цвет.
