SAVILLE COLLECTION

Made of solid Mindi wood with hand-carved details and a beautiful walnut color hand wax finish. Collection was inspired by designs done during the period of English Monarchs William and Mary, 1689-1702. William was of Dutch origin and brought with him Dutch craftsman and the idea that ordinary people could enjoy comfort. The designs featured lines that were simpler and more delicate than designs before that time, with an emphasis on vertical lines. Highboys and chests on legs were invented at this time as was the first china cabinet originally designed for Queen Mary to house her collection of Delftware.

LOUIS CHAIR

Based on the classic Louis XVI chairs of the French late 1700's, these dining chairs feature all the details one would expect of silouettes of this period, while keeping the carvings clean and updated. Made of Beech, fluted legs raise a carved seat and back rail with scrolling arms. Our version of this chair can be ordered with a plain upholstered back, or one can select one of four back inserts to customize the piece ever further. Choose from a quatrefoil tracery back, a circle inside a square regency back, a stylized diamond back, or classic Chippendale fretwork back.

In interiors, the quintessential French chair is the oval back dining room chair. Pictured in drawings, paintings, described in textbooks and fiction alike, this was the "it" chair of the 1700's. Our version is available with or without arms with a tight seat and upholstered back carved in detail in Beech. Use it not only as a dining chair but include these chairs in living rooms as occasional chairs, or as a desk chair when needed. Fluted legs support a carved seat rail and oval back.
