NATURAL MARBLE AND GRANITE TOPS

The top of each chest is crafted out of the finest natural stone for quality and durability. We select the stone color that best suits the chest design and finish. Each is cut to perfection and finished with smooth decorative edges. To clean your top we recommend only mild soap and water; no hard cleaning agents should be used. To bring back the luster of your top it can be hand polished with Johnson's Shine Up™. All natural stones are porous. We recommend resealing your top with a high quality penetrating sealer every nine to twelve months, depending on usage. To clean your metal sinks and tops use only mild soap and water; never use harsh chemicals or cleaners.

SINK BASIN INCLUDED

Each of our sink chests comes installed with an Ambella Home Collection porcelain undermount sink. A few designs include a specialty vessel made of porcelain, copper, or nickel that is specifically designed for that sink chest.

ELECTRIC FIREPLACES

WHY ELECTRIC FIREPLACES?

All the realism of logs with flickering flames, pulsating embers and natural inner glow combine with an energy efficient, safe unit that can be added to any room with a standard household electrical plug.

- Operates by a standard 15amp/110 volt outlet
- Year round enjoyment with or without heat
- Remote control for power and heat control
- Childsafe - glass remains safe to the touch
- Economical - operates for only pennies an hour
- No gas leaks or carbon monoxide
- No emissions or particles from combustion
- Three year warranty with in-home service
- No cleaning

MANTLES

BUILDER FRIENDLY FIREPLACE SURROUNDS

All Ambella Home Collection Fireplace Surrounds are to be treated as combustible material and should be installed according to local building codes.

The decorative cast stone used in the Ambella Home Collection Fireplace Surrounds is a combination of select crushed stone and a polymer binder. This is then hollow cast with structural reinforcements and hand finished to achieve the desired color.

These decorative cast stone fireplace surrounds do not meet ASTM specifications for ARCHITECTURAL CAST STONE (ASTM SPEC 04720). Therefore, they must be treated as a combustible material and installed according to local building codes.
