of tradition but are still capable of transforming the intriguing silhouettes of these creations into
timeless and unchanging instants in an almost regal trend towards new forms of exclusivity.

Dedicated to rigorous style and essential design, the Crystal Sand collection is ispired by the geometry of minimal shapes. The collection's looks are rendered lighter by the refined juxtaposition of warm and cold nuances, while special assembly techniques mean that its construction is dedicated entirely to the cause of relaxation.
The details conclusively affirm a new philosophy of coordination that sees luxury as a quest for wellbeing, and lifestyle as an exclusively mind set in which totally relaxing atmospheres can be lived with intensity precisely because they are so uniquely pleasing.

Ispirata ai tagli ed alle forme geometriche delle pietre preziose, la collezione Stone è contraddistinta da un carattere moderno ed essenziale, generato dal sapiente abbinamento a contrasto tra linee rette e curve, tra sfaccettature marcate e forme arrotondate, che restituiscono affascinanti sensazioni di ritmo ed alternanza fortemente contemporanee.
Uno stile originato dalla ricercata dicotomia tra la struttura e la fascia in acciaio, con logo DL e Stone, gli inserti in vetro molato ed i cristalli SWAROVSKI ELEMENTS che amplificano ed armonizzano la rifrazione dell'illuminazione a doppia accensione con led abbinati a luci tecniche G9 o a soluzioni a bassa tensione, che garantiscono la giusta attenzione al risparmio energetico.
La collezione Stone è composta da sospensioni, applique e lampade da tavolo, disponibili in diverse dimensioni, che integrano i modelli di piantana e plafoniera, per offrire proposte complete e coordinate in grado di caratterizzare in modo unico, con la forza, l'intensità ed il gusto del design, ogni ambiente.

STONE

The Stone collection is inspired by the cuts and geometric shapes of precious stones.
The collection stands out for its modern, essential character, expressed by clever, contrasting combinations of straight and curved lines, distinctive facets and rounded forms that create a fascinating sensation of rhythmic, contemporary alternation. The design is characterised by the refined contrast between the frame and the steel fascia, with DL and Stone logos.
Ground glass inserts and SWAROVSKI ELEMENTS crystals amplify and harmonise the refractions of the two-level lighting from LED and G9 halogen capsule lamps or other low consumption solutions chosen to pay rightful homage to the cause of energy saving.
The Stone collection comprises hanging chandeliers, applique and table lamps in different sizes, as well as column lamps and ceiling lights. The collection can therefore offer complete and fully coordinated solutions capable of adding character, identity, and intense but tasteful style to any room.

Tutti i prodotti **BEBY ITALY e DILUCE** sono costruiti, collaudati e controllati secondo le norme internazionali in vigore.
In ogni nostra lampada viene applicato il tagliando di autenticità del prodotto.
I colori dei vetri sono suscettibili di piccole variazioni di tonalità, data la complessa lavorazione artigianale.
BEBYITALY S.r.l. si riserva di migliorare senza alcun preavviso i prodotti modificandone la componentistica.

I nuovi modelli della collezione Garden Party integrano l'esclusiva e brevettata tecnologia Be-ON: un particolare sistema di innesto delle braccia alla struttura che assicura un montaggio rapido ed una facile rimozione per la pulizia ed il mantenimento del lampadario, senza ulteriori elementi di fissaggio nè cablaggio elettrico.
Tecnologia d'eccellenza.
