Brand van Egmond

Every year we at BRAND VAN EGMOND strive to use all our knowledge and experience in order to create some of the most astounding lighting sculptures.

We are constantly inspired by the world around us, the people we meet and the beautiful projects we are invited to be part of. In return, we are frequently asked to translate unique lighting wishes into handcrafted reality. Partners like Louis Vuitton, Chopard and the Four Seasons Hotels invited BRAND VAN EGMOND to create tailor-made lighting solutions for their spaces. We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and ateliers in Naarden, The Netherlands.

BRAND VAN EGMOND TEAM

Eve

Design by William Brand

To be human, is to be aware that there are forces greater than ourselves.
From the majestic power of nature, till the longings deep within our soul.

With an elegant twist, although with an
undeniable force behind it, the new Eve is crafted.
The fruits she carries are tempting...
will the apple be eaten, or not?

Fractal

Design by William Brand

Our brains are set up to bring order in chaos, find logic in confusion and recognise patterns in the opaque.

However, what to make of the puzzle of the exact yet endless repetition found at times around us?

Fractal is a natural phenomenon as well as a mathematical set that exhibits a repeating pattern.

The organised chaos of the reflecting elements of the Fractal dispenses the light beautifully in all directions.

The finishes are in stainless steel, brass grinded, bronze, black matt and white matt.

Flintstone

Design by William Brand

Retracing our steps through the millennia to the beginning of times, we find ourselves back at the fireplace in the prehistoric cave. Here we realise that the most primal of our needs are safety and warmth. The tree branch and the stone, found at the end of this journey back in time, are combined in this lighting object. Every stone is unique, and captures the emotion of eternity as well as being used as a functional counterweight.

The branch of the Flintstone is flexible, allowing the light to be adjusted and easily moved through space. The length of the branch can be ordered in different sizes.

The finishes are either in black, white or high gloss nickel.

Possible length of the branch is: 70 cm, 100 cm, 130 cm, 160 cm, 190 cm, 210 cm or 240 cm.

Optional finishes

Customised lighting sculptures

Architects and other co-creatives are invited to discover the endless possibilities of customising our lighting sculptures. We hope to inspire you through the different colours and forms of various compositions, just as we enjoy being stimulated by your requests. William Brand's background in architecture gives him the insight to fully understand the demands and challenges of your work. Combined with his experience he is the perfect partner to translate your needs into handcrafted reality.

For our clients we not only customise to different dimensions, but also to different finishes: allowing a truly personal lighting sculpture to be created.

A new finish applicable to several collections is brass grinded.

The possibilities with our lighting sculptures are, in fact, limitless.
We would like to show some of the new possibilities.

William Brand

designer / owner

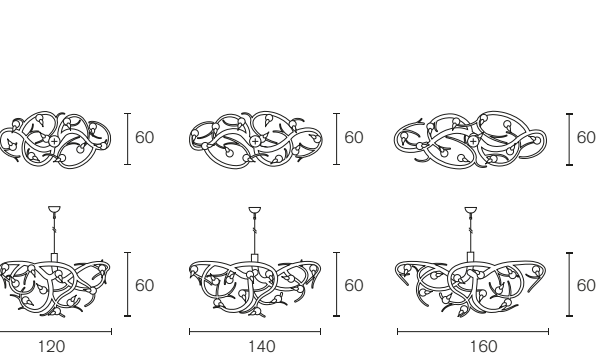

William was trained as an artist and an architect. He graduated at the Utrecht School of Arts.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be "the cherry on the cake". His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.
