Brand van Egmond

Every year we at BRAND VAN EGMOND strive to use all our knowledge and experience in order to create some of the most astounding lighting sculptures.

We are constantly inspired by the world around us, the people we meet and the beautiful projects we are invited to be part of. In return, we are frequently asked to translate unique lighting wishes into handcrafted reality. Partners like Louis Vuitton, Chopard and the Four Seasons Hotels invited BRAND VAN EGMOND to create tailor-made lighting solutions for their spaces. We welcome everybody who wants to see our designs, or would like personal advice from William Brand and his team, to our office and ateliers in Naarden, The Netherlands.

Ersa

Design by William Brand

Early morning, when the first light of day sends the darkness of the night away, we can see one of nature's wonders on display: dew drops formed throughout the night.

Edison’s Tail

Design by William Brand

Unadorned yet full of energy, contemporary and elegant: Edison’s Tail moves freely through space and reveals that bringing light and vitality can go hand in hand.

Introduced successfully by the inventor Thomas Edison, the light bulb is - more than in any other collection - an integral part of the overall design. The spirited and energetic shape of Edison’s Tail is evocative of the initial burst of life when a seed opens and through the cracks the first green shots appear.

To see this exact moment, is to see a wonder in the making. To capture this moment, is what Edison’s Tail attempts.

Shiro

Design by William Brand

By means of the deduction of every unnecessary layer of decoration, a calmness of mind appears allowing for a new collection to be born. The Shiro – Japanese for castle - is the result of a journey of deconstruction.

Stripped of all but the bare yet beautiful essentials, this new collection permits for a well composed equilibrium.

It allows serenity to triumph over chaos.

Kelp Fortuna

Design by William Brand

Overwhelmed by the warm reception the Kelp collection received, William Brand was intrigued to experiment further and sought to add new elements.

The grand icicles, blown and pulled at the same time by our glassblowers, add a striking monumental facet to the frivolously shaped Kelp. To be able to create icicles of this quality and size demanded rigorous experimenting and exploration of new techniques. As the 16th century Florentine diplomat and poet Machiavelli wrote, 'It's better to be adventurous than cautious, as Fortuna is a woman'.

Flintstone

Design by William Brand

Retracing our steps through the millennia to the beginning of times, we find ourselves back at the fireplace in the prehistoric cave. Here we realise that the most primal of our needs are safety and warmth. The tree branch and the stone, found at the end of this journey back in time, are combined in this lighting object. Every stone is unique, and captures the emotion of eternity as well as being used as a functional counterweight.

The branch of the Flintstone is flexible, allowing the light to be adjusted and easily moved through space.
The length of the branch can be ordered in different sizes.

The finishes are either in black, white, high gloss nickel or brass burnished.

Possible length of the branch is: 70 cm, 100 cm, 130 cm, 160 cm, 190 cm, 210 cm or 240 cm.

Eve

Design by William Brand

To be human, is to be aware that there are forces greater than ourselves. From the majestic power of nature, until the longings deep within our soul.

With an elegant twist, although with an undeniable force behind it, the new Eve is crafted. The fruit she carries is tempting.... will the apple be eaten, or not?

William Brand

designer / owner

William was trained as an artist and an architect. He graduated at the Utrecht School of Arts.

As an award-winning furniture designer he for many years designed buildings and interiors for fashion brands, including the headquarters of BRAND VAN EGMOND. His interior designs are always minimalist, in contrast to his lighting designs which have a powerful sculptural presence. He considers his lighting objects to be “the cherry on the cake”. His way of working is quite specific. Immediately after defining the concept he starts working in the workshop like a sculptor; experimenting and crafting while having the object grow in his hands, often with unexpected results. Therefore the journey is just as exciting and important as the destination.

Architects and other co-creatives are invited to discover the endless possibilities of customising our lighting sculptures. We hope to inspire you through the different colours and forms of various compositions, just as we enjoy being stimulated by your requests. William Brand's background in architecture gives him the insight to fully understand the demands and challenges of your work. Combined with his experience he is the perfect partner to translate your needs into handcrafted reality.

For our clients we not only customise to different dimensions, but also to different finishes: allowing a truly personal lighting sculpture to be created.

New finishes, applicable to several collections, are brass grinded and brass burnished.

The possibilities with our lighting sculptures are, in fact, limitless.
We would like to show some of the new possibilities.
