

Loris Zanca

## L'arte Italiana del Tessuto si vede e si percepisce

L'arte del tessere e del filare è tanto antica quanto la civiltà umana. I tessuti rappresentano "il filo della storia" perché sanno trasmettere al tatto ed alla vista importanti nozioni sulle tecniche, i gusti, gli usi, le mode e le culture di un determinato periodo storico.

L'arte del tessile ha in effetti molte storie da raccontare e da tessere.

## *The Italian art of Fabric you can see and feel*

*The art of weaving and spinning is as old as human civilization. The fabrics represent "the thread of history" because they can transmit to the touch and to view, important notions on techniques, tastes, customs, fashions and cultures of a specific historical period. The textile art has indeed many stories to recount and to weave.*

Tela sottile, tela grande, immensa,  
 A oprar Penelope si mise, e a sè chiamonne, e disse:  
 Giovani, amanti miei, tanto vi piaccia,  
 Poichè già Ulisse tra i defunti scese,  
 Le mie nozze indulgiar, ch'io questo possa (...)  
 Intanto,  
 Finchè il giorno splendea, tessea la tela  
 Superba; e poi la distessea la notte  
 Al complice chiaror di mute faci.  
 Così un triennio la sua frode ascole,  
 E deluse gli Achei.

*Odissea, Libro II*

*Penelope began to weave a thin,  
 immense and large canvas and said:  
 Young, my lovers, so I like it,  
 As Ulysses already descended among the dead,  
 May I linger over my wedding (...)  
 Meanwhile, until the day was shining,  
 wove the superb canvas  
 and then overnight unwove it.  
 With the accomplice glow of torches,  
 she hid for three years her fraud  
 and disappointed the Greeks.*

*Odyssey, Book II*

Le fibre Trevira Bioactive contengono un additivo antimicrobico, che si attiva all'interno/esterno delle fibre inibendo la crescita di batteri. Non ha alcun effetto sulla flora della cute.

*Trevira Bioactive fibres contain an antimicrobial additive, which is active in/on the fibre inhibiting the growth of bacteria. It has no effect on the skin flora.*

La produzione delle fibre e dei filamenti ignifughi non prevede l'impiego di solventi, composti alogeni o composti a base di azoto.

*The production of fibers and filaments fire retardant does not involve the use of solvents, halogens or compounds with a nitrogen base.*

## I tessuti Trevira CS sono facili da pulire e si asciugano velocemente

I tessuti per imbottiti **resistono a notevoli cicli di usura, non sbiadiscono**, né contaminano altri tessuti. Non sgualciscono e mantengono la loro forma anche dopo il lavaggio.

Le macchie possono essere rimosse facilmente con metodi di pulizia tradizionali e detergivi comuni. Inoltre la loro **manutenzione è estremamente economica**: durante il lavaggio consumano meno acqua, meno detergivo e – grazie ai brevi tempi di asciugatura – anche meno energia degli altri tessuti. **Le proprietà ignifughe sono incorporate saldamente nella fibra e si conservano anche dopo il lavaggio.** Così le funzioni restano invariate per tutto il ciclo di vita dei tessuti e non devono essere rinnovate tramite alcun dispendioso procedimento.

## Trevira CS materials are easy to clean and are quick drying

*Upholstery fabrics withstand **high levels of abrasion** and do not stain other textiles. They are low-crease and retain their shape after washing.*

*Marks can easily be removed with traditional cleaning agents and methods.*

*They are, incidentally, quite economical to maintain. Unlike what happens with other fabrics, washing them takes substantially less water, less detergent and thanks to short drying times less energy to dry them.*

*The flame retardant properties are firmly anchored in the fibre and cannot be lost in washing. As a result, functionality is retained throughout the life cycle of the textiles, with no need for costly processes to renew properties.*

## Tessuti ignifugi Trevira CS dedicati al Contract

Alcuni esempi di conversione delle nostre collezioni in filato ignifugo.

In qualità utilizzatori autorizzati al marchio Trevira CS, noi preferiamo impiegare filati Trevira CS per la realizzazione delle nostre collezioni.

I tessuti Trevira CS si distinguono per elevata brillantezza e solidità alla luce dei colori. Sono straordinariamente resistenti e conservano la loro bellezza anche in caso di uso intenso.

## *Fire retardant Trevira CS dedicated to the Contract*

*Some examples of the conversion of our collections in flame retardant yarns.*

*As users licensed to Trevira CS brand, we prefer to use Trevira CS yarns for the realization of our collections.*

*Trevira CS textiles are noteworthy for high colour brilliance and fastness to light. They are extraordinarily hardwearing and retain their attractive qualities for a long time, even with intensive use.*

Tutto ciò che mi circonda [a Venezia]  
è pieno di nobiltà,  
è l'opera grande e rispettabile  
d'una forza umana concorde,  
il monumento magnifico  
non già d'un sovrano,  
ma d'un popolo.

JOHANN WOLFGANG GOETHE  
*Viaggio in Italia*, 1816/17

*Everything around me [in Venice]  
is full of nobility,  
is the great and respectable work  
of art of an agreed human force,  
the magnificent monument  
not only of a sovereign,  
but of people.*
