ON-OFF SYSTEM

Design **Tumidei Lab**

Insieme, e in totale libertà. ON-OFF rappresenta un insieme di competenze Made in Italy che collaborano - da un lato - per disegnare un progetto organico e completo, dall'altro per offrire anche un solo prodotto nell'arredare ambienti giorno/notte trasformabili. Veri e propri sistemi che offrono soluzioni definitive per qualità e design e al tempo stesso modificano lo spazio da giorno a notte secondo esigenze individuali e mai come soluzioni di ripiego. La casa diviene così realmente fruibile dai nuclei più compositi: grandi famiglie, giovani coppie, amici che ospitano amici, con la possibilità di ottimizzare spazi piccoli in situazioni stabili di polifunzionalità; una sola stanza diventerà un vero living o una vera camera da letto a seconda delle esigenze.
A questo punto non resta altro che immaginare la propria casa, dove, per spazi grandi e piccoli, potrete trovare qui le risposte, il design di qualità e l'esperienza di Tumidei e ATL Group: insieme, ma in totale libertà.

Together and in complete freedom.
ON-OFF is the expression of the merging of Made in Italy craftsmanship that cooperates, on one hand, to carry out a whole and systematic project; on the other hand, to offer even just one single product to furnish convertible living/sleeping areas. A true all-encompassing concept that offers permanent solutions in terms of quality and design, and that, at the same time, turns a living into a sleeping area, focusing on actual individual needs and never on a makeshift solution. Thus, everybody can enjoy their home: big families, young couples, friends hosting friends, with the possibility of optimizing small spaces, turning them into enduring multifunctional solutions; the same room will become a true living or a true bedroom, based on needs! So there i s nothing left to do but imagine your own home. For both big and small spaces, you will find your answer here: the quality design and experience of TUMIDEI and ATL GROUP: together, but in complete freedom.

ALCOVA SYSTEM

Design **Simone Cagnazzo**

al·cò·va/
sostantivo femminile
1.
Parte della camera da letto costituita da una rientranza in una delle pareti, nella quale, talora separato dal resto dell'ambiente con tendaggi o balaustrate, si trova il letto: tenera di parto, ella se ne stava in una bella alcova... (Algarotti).

"Nel Rinascimento e nei secoli successivi fu spesso un ambiente riccamente decorato che poteva contenere, oltre al letto, anche altri mobili soprattutto quando, nel sec. 18°, si diffuse la moda di ricevervi la visita degli intimi; nell'età moderna l'uso dell'alcova, anche nelle sue forme più semplici, è quasi totalmente scomparso"

al·cò·ve/
female substantive
1.
Part of the bedroom, consisting of a recess in one of the walls, in which, sometimes separated from the rest of the room by curtains or balustrade, is the bed.

"In the Renaissance and in the following centuries it was often a richly decorated environment that could contain, besides the bed, other furniture, especially when, in the 18th century, the fashion spread to receive the visit of the intimates; in the modern age the use of the alcove, even in its simplest forms, has almost totally disappeared ".

Alcova System è un progetto di infinita grazia: indica, a monte, la discrezione del separare, del proteggere l'intimità più delicata attraverso la cornice di elementi architettonici e di arredo, gentili diaframmi, plutei sottili e sensibili.
L'estensione, un passo fuori dall'idillio più segreto, rende alcova la nicchia in cui è custodita la preziosa statuetta d'avorio, la doccia in cui con l'acqua bollente che ci scorre addosso si sta nel mistero del pensiero nostro più riposto, la bocca dei fiori in cui si agitano le api in primavera, il divano morbido su cui stare abbracciati sotto un'usata coperta guardando un film e l'abbraccio stesso.
Alcova System ripercorre la sottile linea che divide il giorno dalla notte, la cosiddetta Ora Blu, in un'unica soluzione di arredo, è possibile trasformare la stanza da nicchia contenente una seduta o una panca d'appoggio ideale per spazi ridotti o per creare un piccolo divano dove lo spazio non c'era, per poi trasformarsi in letto comodo e confortevole.

Alcova System is a project of infinite grace: it indicates, upstream, the discretion of separating, of protecting the most delicate intimacy through the frame of architectural and furnishing elements, gentle diaphragms, subtle and sensitive plutei.
The extension, a step away from the most secret idyll, makes the alcove the niche where the precious ivory statuette is kept, the shower in which with the boiling water that flows on us lies in the mystery of our most hidden thought , the mouth of the flowers in which the bees are stirring in the spring, the soft sofa on which to be hugged under a blanket, watching a film and the embrace itself.
Alcova System traces the thin line that divides the day from the night, the so-called Ora Blu, in a single furnishing solution, it is possible to transform the niche room containing a seat or a support bench ideal for small spaces or to create a small sofa where space was not there, and then turned into a comfy and comfortable bed.

ON-OFF STYLE

MINIMAL

ELEGANT

URBAN

Scegli l'ambiente che più ti somiglia. Cittadini del mondo, curiosi e avventurosi, romantici o eccentrici ma con una sola volontà: vivere seguendo uno stile che non ha confini. Riduttivo definirla abitazione, piuttosto un nido caldo ed avvolgente il vostro, che rispecchia fedelmente questa filosofia di vita. Lo spirito cosmopolita traspare dalle mura domestiche attraverso forme e colori che evocano atmosfere di terre lontane o di ricordi rassicuranti trasferendo ciò che tu sei nello stile che più ti rappresenta.

Choose the environment that resembles you the most World-class citizens, curious, adventurous, romantic, eccentric, but with one scope: to live following a style with no boundaries. It is diminishing to define your home a house: it is more of a cozy nest, that fully reflects your living concept. The cosmopolitan spirit clearly stems out of the domestic walls, through shapes and colors that evoke farther reaches or comforting memories that talk about you and your lifestyle.

FLIP SOFA

Design **Simone Cagnazzo**

FLIP è una collezione di divani rigorosi, ispirati a un design puro.
Il sistema d'imbottiti FLIP rivoluziona il concetto di divano che diventa modulare e dimezzabile nella sua altezza totale.
Gli schienali del divano e i cuscini delle sedute sono completamente abbattibili, e tutta la struttura superiore reclinabile, in questo modo il divano può essere posto frontalmente al BLOCK SYSTEM e ALCOVA LIGHT.

FLIP is a collection of austere sofas, inspired by pure design. The FLIP system of upholstered elements transforms the concept of sofa which becomes modular and splittable along its total height. The backs of the sofa and the seat cushions are completely flippable and all the upper structure is reclining. In this way, the sofa can be placed in front of the BLOCK SYSTEM and ALCOVA LIGHT.

FLUFFY SOFA

Design **Simone Cagnazzo**

Solare e morbida presenza per FLUFFY. Il perfetto incontro tra il comfort e colore, FLUFFY è un sistema di divani flessibili studiati per il totale relax. Disponibili in due differenti larghezze, si contraddistinguono per il particolare meccanismo interno che li rende completamente reclinabili, trasformandoli in sacchi/pouf morbidi e confortevoli. Il FLUFFY è caratterizzato dal dettaglio della maniglia in pelle, che permette una facile presa per reclinare lo schienale.
Le versioni sono sfoderabili e le diverse fodere sono tra loro intercambiabili.

Sunny and soft presence for FLUFFY. The perfect match between comfort and color, FLUFFY is a flexible sofas system designed for the total relax. Available in two different sizes, they are characterized by a special internal mechanism which makes them completely reclining and turns them into soft and comfortable poufs. One of the main features of FLUFFY is the leather handle, which enables an easy grip to recline the back. The versions are unlining and the different covers are interchangeable.

TWICE SYSTEM

Design **Simone Cagnazzo**

Il concetto di TWICE permette la creazione di contenitori unici, free-standing, o ancorati a parete, con elementi pensili o a terra.
Attraverso lo scorrimento del piano superiore a ponte, si crea un piano scrittoio che, sdoppiandosi a libro, si trasforma a sua volta in un pratico e originale tavolo da pranzo.
Il sistema TWICE può essere personalizzato dando la possibilità di avere pezzi decorativi in tonalità oppure in contrasto, permettendo di creare un mobile che è grafico o discreto, secondo le situazioni.

The TWICE concept leads the creation of unique, free –standing or hanging boxes. The sliding of the upper top creates a desk which, once opened like a book, can be converted into a practical and original dining table. The TWICE system can be customized by having decorative items, matching tones or in contrast, in order to create a piece of furniture which can be graphic or sober, depending on the situations.

PILL POUF

Design **Simone Cagnazzo**

PILL è un complemento decisamente moderno, originale e soprattutto versatile poiché può prestarsi contemporaneamente a diversi usi: sollevando la seduta sulla parte superiore del pouf, si accede ad un vano dove riporre i propri oggetti personali, girando e riposizionando la seduta, diventa un pratico coffee-table. Un solo oggetto può fungere da seduta e da tavolino con uno scrigno nascosto. PILL è un pouf che arreda la casa e gli spazi contract con una fresca energia.

PILL is a modern, original and, especially, versatile accessory since, at the same time, it is suitable for different uses: under the pouf seat, there is a place to put the personal items into and, by flipping and replacing the seat, the pouf turns into a practical coffee-table. A single item works as a seat and as a coffee-table with a secret trunk. PILL is a pouf which decorates your home and contract locations too with a fresh energy.

ABLE ARMCHAIR

Design **Simone Cagnazzo**

Una visione essenziale dell'oggetto poltroncina. L'idea prende forma dalla possibilità di trasformare un elemento essenziale come la poltroncina adatta alla casa e agli spazi contract, rendendola unica nel suo genere. La poltroncina si può ribaltare trasformandosi in piano d'appoggio o in comoda panca centro stanza per due o tre ospiti. Ne scaturisce un pezzo di design moderno e senza tempo, elegante e tecnico, di forte impatto visivo. ABLE è inoltre dotata di un ottomano imbottito con piano trasformabile in coffee-table.

An essential vision of the armchair. The idea takes form from the chance to convert a basic piece of furniture such as the armchair, suitable to houses and contract locations too, making it absolutely one-of-a-kind. The armchair can be overturned, becoming a flat surface or a practical bench for two or three guests. The result is a design product, modern and timeless, elegant and technical, with a strong visual impact. Moreover, ABLE is supplied with an upholstered ottoman with convertible top into a coffee table.

BLOCK SYSTEM

Con pochi, semplici gesti la zona giorno diventa una "camera da letto" in piena regola. È l'effetto ON-OFF, un sistema componibile che rivede il concetto di trasformabilità perché considera un nuovo modo di utilizzare lo spazio domestico. Il classico divano trasformabile, sempre un po' scomodo in quanto compromesso tra i due, lascia il posto ad un'idea sorprendentemente efficace e semplice, come accendere la luce.

In a few simple steps the living area turns into an actual bedroom. It's the "ON-OFF effect": a step change in convertible solutions, with a modular system that radically changes the residential landscape.
A real freestanding sofa and a real, comfortable bed.
Don't give up on comfort. Don't give up on style.
As easy as turning the light on.

RETE VERTICALE VERTICAL FRAME

FOCUS

Con un facile gesto, l'apposita maniglia sotto al cuscino di seduta consente di modificare la vostra posizione sul divano o di completare l'apertura dello stesso per permettere l'utilizzo del letto.

By simply pulling a handle underneath the seat cushion, you can slightly recline the seat or complete the full opening of the sofa to allow the bed panel to come down.

Rivestimento rete in tessuto, color grigio o corda.

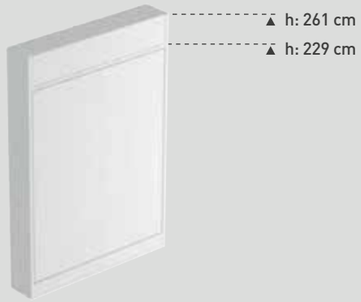

Fabric covering for slatted frame, grigio or corda colour.

Il progetto ON-OFF è stato completato con alcuni elementi componibili, che racchiudono una serie di pratici e utilissimi vani, o elementi funzionali aggiuntivi che possono essere richiesti come optional.

ON-OFF features are completed by a few modular elements, that hide an array of practical and useful containers, or further functional additions upon request.

ON OFF

Il bracciolo largo viene corredato da un vano interno, dove possono venire riposti i guanciali del letto, o ciò che più si desidera.
A ulteriore completamento, nel suo vano interno può trovare alloggio anche un tavolino accessorio, che, inserito nell'apposita guida, funge come pratico piano di appoggio per lavoro, lettura o qualsiasi necessità.

The large armrest is in fact a container, that can lodge pillows or any other item. A lift-up tablet is a further completing element: once inserted in the runner, it works as a small workstation or reading top, or anything else.

Con l'idea di creare spazio ulteriore all'interno della propria abitazione, il pouf fisso, già presente nell'insieme degli elementi componibili, si può trasformanre in un altro comodo contenitore per coperte, guanciali, libri, etc...

To further enhance the space optimization, the most traditional pouf, can become, once again, a useful container for blankets, pillows, books, etc...

Gli elementi di giunzione tra i vari componenti del divano sono facilmente posizionabili e riposizionabili, consentendo anche ai non addetti ai lavori di poter modificare l'aspetto e la forma del proprio divano garantendo sempre una eccezionale stabilità.

The connecting elements between the various components of the sofa are easy to be positioned, allowing even laymen to change the aspect and the shape of the sofa always guaranteeing exceptional stability.

Posteriormente agli elementi con movimento, si trova un'asta mobile che rappresenta l'unico vincolo fra divano e mobile letto. Inserendo l'asta fra spalla e anta (senza nessun fissaggio) si consente al divano di rimanere sempre perfettamente allineato rispetto alla discesa del letto. Con l'asta abbassata, nascosta fra un elemento e l'altro, il divano torna a vivere in completa autonomia, separato dal mobile.

Behind the elements with reclining mechanism there is a collapsible lever. This represents the only connection between the sofa and the bed block. Once you position the lever parallel to the floor, it sticks out of the back of the sofa to be inserted, without any fixing, in the slot between the side and the door of the bed container. This system allows the sofa to always stay perfectly aligned with the bed structure, thus avoiding misplacements that would preclude a normal functioning of the mechanism.
By collapsing the bar, the sofa gets back to being a totally freestanding element.

SISTEMA RECLINER
RECLINER SYSTEM

Il divano ON-OFF è caratterizzato da un movimento meccanico nato appositamente per lui; studiato, realizzato e brevettato da ATL Group spa, consente l'avanzamento del cuscino di seduta e contemporaneamente l'inclinazione del cuscino di schienale, fino alla totale posizione orizzontale di quest'ultimo. Il meccanismo così costituito, una volta aperto completamente, offre la possibilità di discesa del Letto.
Il meccanismo può essere realizzato sia per utilizzo manuale, con un semplice movimento di apertura a scorrimento che consente anche di utilizzare una posizione intermedia di recliner, che con motorizzazione comandata direttamente da un telecomando. Quest'ultima versione consente un posizionamento millimetrico delle varie inclinazioni dello schienale, dando la possibilità di scegliere la personale miglior inclinazione di seduta per il momento che si sta vivendo.

Esistono diversi tipi di apertura e chiusura con il sistema motorizzato:
- apertura/chiusura solo delle sedute divano
- apertura /chiusura solo del contenitore letto
- apertura /chiusura combinata del divano e contenitore letto contemporaneamente

Anche con movimento motorizzato.
Sistema coperto da brevetto internazionale.

The ON-OFF sofa is characterized by an especially designed collapsible mechanism; studied, carried out and patented by ATL Group. It allows the seating cushion to move forward and the back cushion to collapse, until the sofa becomes completely flat, before the bed panel is pulled down. The mechanism can be manually operated through a sliding system with an intermediate recliner-position, or electrically, through a remote control. The latter allows a variable positioning of both the back and the seat and thus a choice of the best posture for you.

There are different kinds of opening/closing with the remote control:
- opening/closing of the sofa seats only
- opening/closing of the bed cabinet only
- combi opening/closing of both sofa and bed cabinet together

Also with remote control electro-mechanism.
System covered by international patent.

DUE TIPOLOGIE DI TESTATE IMBOTTITE
TWO TYPES OF UPHOLSTERED HEADBOARDS

ON-OFF propone due tipi di testate per il letto nelle versioni matrimoniale e piazza e mezza e singolo con cuscino imbottito o con cuscino piatto, a seconda della profondità del mobile scelto.

ON-OFF has two types of headboards for the double, the ¾ and the single bed, with a padded cushion or a flat cushion, according to the depth of the cabinet.

VANO CONTENITORE PER CUSCINI INTERNO TESTATA
HEADBOARD PILLOW CASE

Nella profondità cm 59 è previsto su richiesta un vano retrotestata in cui alloggiare i cuscini della testata imbottita o i vostri guanciali da notte.

In 59 cm-deep cabinets, we can provide, upon request, a headboard pillow compartment to hide the headboard cushions or the pillows.

ALCOVA SYSTEM

Design by **Simone Cagnazzo**

Sintesi ideale tra seduta e letto, Alcova System offre soluzioni flessibili per risolvere problemi di spazio all'insegna di un codice di eleganza contemporaneo. Un nuovo concept dell'abitare che svela quanto sia agevole convertire il salotto in camera da letto non con il classico trasformabile ma con una particolarità, la cornice a sbalzo, che crea una seduta confortevole e funzionale, per sfruttare al meglio lo spazio. Con pochi gesti diventa un letto matrimoniale e, in modo altrettanto semplice, ritorna alla configurazione originaria. Ne discende un progetto ampiamente declinato, utilizzabile sia in ambienti contract, che privati. Oltre la versione seduta e letto a scomparsa, può essere configurata in varie soluzioni d'arredo: è possibile configurarla nella versione seduta e schienale con armadiatura, dotata di vari accessori interni, armadio con ante in vetro a soffietto e libreria a giorno con e senza seduta. È disponibile nella vasta gamma di finiture in essenza, nobilitato e laccato della collezione TUMIDEI.

The ideal union between seat and bed, Alcova System offers flexible solutions to solve space problems in the pursuit of a contemporary elegance code. A new living concept which makes easier the transformation of the living area into a bedroom without the traditional murphy bed, but with a detail, a sticking out frame, which creates a comfortable and functional seat, in the aim of saving space at best. With a few steps, it turns into a double bed and, in the same easy way, it comes back to the previous configuration. The result is a multifaceted project which can be used in both home and contract environment. Besides the seat and murphy bed version, there are further design configurations: it is possible to set it up in the same seat version but with wardrobes behind, supplied with several internal accessories, or with hinged or folding glass doors wardrobes or open bookcase, with or without seat. It is available in the whole range of finishes, veneer, melamine and lacquered of the TUMIDEI collection.

It allows different kinds of customizations, using the finishes and the graphic decorations from TUMIDEI collection. It is available in the whole range of finishes, veneer, melamine and lacquered of the TUMIDEI collection.

FLIP SOFA

Design **Simone Cagnazzo**

Flip è una collezione di divani rigorosi, ispirati ad un design puro. Il sistema di imbottiti Flip rivoluziona il concetto di divano che diventa modulare e dimezzabile nella sua altezza totale.Gli schienali del divano e i cuscini delle sedute sono completamente abbattibili, e tutta la struttura superiore reclinabile, in questo modo il divano può essere posto frontalmente al Block System e Alcova Light.

FLIP is a collection of austere sofas, inspired by pure design. The FLIP system of upholstered elements transforms the concept of sofa which becomes modular and splittable along its total height. The backs of the sofa and the seat cushions are completely flippable and all the upper structure is reclining. In this way, the sofa can be placed in front of the Block System and Alcova Light.

Il divano Flip completamente abbattibile permette l'apertura orizzontale e verticale dei letti matrimoniali orizzontali e verticali dei sistemi Block e Alcova.
The Flip sofa, once flip-opened, allows the opening of the horizontal and vertical beds of Block System and Alcova Light.

Lo schienale del divano Flip è sdoppiabile in altezza, per fungere da comodo poggia testa.
The back of the Flip sofa is splittable in its height in order to work as practical headrest.

FOCUS

Il divano è caratterizzato dal dettaglio della maniglia in pelle, che permette la trasformazione e l'appoggio a terra dello schienale.
One of the main features is the leather handle, which enables to transform the sofa by resting the back on.

Piede versione legno in rovere tinto nero carbone.
Version with feet in oak wood painted in carbone finish.

Piede versione metallo taglio laser e verniciato in smalto epossidico.
Version with metal feet, laser-cut and epoxy-lacquered.

FLIP SOFA

Design **Simone Cagnazzo**

Un divano unico, scomposto e riconfigurato si può trasformare in poltrona, love seat, divano due posti e tre posti, con penisola, piano o vassoio laterale. Le gambe sottili, contribuiscono a rendere l'imbottito molto leggero e possono essere in metallo taglio laser e verniciato in smalto epossidico, oppure in rovere tinto nero carbone.

A unique sofa, modular and customizable, which turns into an armchair, a love seat, a two or three seater sofa, with peninsula, lateral top or plate. The fine legs give to the sofa a very light aspect, they can be in laser-cut and epoxy-lacquered metal or in lacquered oak.

FLUFFY SOFA

Design **Simone Cagnazzo**

Solare e morbida presenza per FLUFFY.
Il perfetto incontro tra il comfort e colore, FLUFFY è un sistema di divani flessibili studiati per il totale relax. Disponibili in due differenti larghezze, si contraddistinguono per il particolare meccanismo interno che li rende completamente reclinabili, trasformandoli in sacchi/pouf morbidi e confortevoli.

Sunny and soft presence for FLUFFY. The perfect match between comfort and color, FLUFFY is a flexible sofas system designed for the total relax. Available in two different sizes, they are characterized by a special internal mechanism which makes them completely reclining and turns them into soft and comfortable poufs.

TWICE SYSTEM

Design **Simone Cagnazzo**

Il concetto di TWICE permette la creazione di contenitori unici, free-standing, o ancorati a parete, con elementi pensili o a terra. Attraverso lo scorrimento del piano superiore a ponte, si crea un piano scrittoio che, sdoppiandosi a libro, si trasforma a sua volta in un pratico e originale tavolo da pranzo. Il sistema TWICE può essere personalizzato dando la possibilità di avere pezzi decorativi in tonalità oppure in contrasto, secondo dove sono sistemati, permettendo di creare un mobile che è grafico o discreto, secondo le situazioni. Il tavolo può avere finitura in essenza, nobilitato o laccato, gli elementi a terra hanno finitura in essenza, nobilitato, laccato o anche ante in vetro, mentre gli elementi pensili sono solo in finitura di essenza o laccato, oltre alle ante in vetro.

The TWICE concept leads the creation of unique, free – standing or hanging boxes. The sliding of the upper top creates a desk which, once opened like a book, can be converted into a practical and original dining table.
The TWICE system can be customized by having decorative items, matching tones or in contrast, in order to create a piece of furniture which can be graphic or sober, depending on the situations.
The table can be in wood, melamine or lacquered finish. In addition to these finishes, floor units can also have glass doors, whereas hanging units can be in wood or lacquered finish only, with the chance of adding glass doors.

TWIST SYSTEM

Design **Simone Cagnazzo**

Il tavolo TWIST si trasforma in scrivania, attraverso la rotazione del piano superiore si crea uno scrittoio, che sdoppiandosi a libro, si trasforma a sua volta in un tavolo da studio. Sotto il tavolo sono ancorati diversi tipi di pensili: multivano, comodini ed elementi orizzontali, della collezione TUMIDEI. Il tavolo e i diversi tipi di pensili possono avere finitura in essenza (no i multivano), nobilitato o laccato.

TWIST table turns into desk. The rotation of the upper top creates desk which, once opened like a book, can be converted into a home office area. Under the desk, several kinds of hanging units are fixed onto wall: multi-section cabinets, drawers and horizontal boxes, from the TUMIDEI collection. Both table and boxes can be in wood (not for wall multi-section cabinets), melamine or lacquered finish.

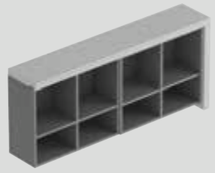

Alla lunghezza del tavolo aperto vanno aggiunti 26/34 cm per lo spostamento del tavolo dal muro.
Add to the real length of the table 26/34 cm for the wall.

SLIP

Design **Simone Cagnazzo**

La consolle SLIP, pratica e decorativa, può essere utilizzata come consolle discreta da ingresso, o può diventare un tavolo da pranzo a tutti gli effetti: grazie ad un semplice meccanismo telescopico, è sufficiente spostare frontalmente il piano per fruire della massima estensione.

The SLIP console is a practical and decorative accessory which can be used as a sober lobby console or a dining table: thanks to its simple telescopic mechanism, you just have to frontally move the top in order to make use of the maximum extension.

LINEUP SHELF

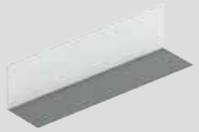

Design **Simone Cagnazzo**

La collezione LINEUP offre elementi versatili e modulari, pensati per decorare ambienti di ogni genere. Una collezione ultracontemporanea per le sue linee basiche e l'idea innovativa, per la personalizzazione dei colori e finiture. Le mensole sono realizzate con piani in metallo ad alta resistenza, verniciati in colore nero. I pannelli a muro sono disponibili nella vasta gamma di finiture in essenza, nobilitato e laccato della collezione TUMIDEI.

The LINEUP collection provides adjustable and modular elements, designed to decorate every interior space. An ultramodern collection thank to its basic lines and the chance of customizing colours and finishes. The shelves are carried out with high-resistance metal top, painted in black colour. Wall panels are available in the whole range of finishes: wood, melamine and lacquered from the TUMIDEI collection.

FRAME

Design **Simone Cagnazzo**

FRAME è una struttura di sostegno in metallo per piani e scrittoi, caratterizzata da una tasca centrale in tessuto, che diventa un pratico contenitore, discreto e funzionale.
Può essere utilizzato come terminale di una scrivania o composto in varie configurazioni per creare tavoli e scrivanie, è presentato in duplice versione: dotato di ruote, oppure con piedi antiscivolo per tavoli free-standing. FRAME può essere laccato in tutti i colori della gamma TUMIDEI, mentre i piani scrittorio sono sempre in nobilitato o essenza.

FRAME is a supporting structure in metal for tops and desks, characterized by a central pocket in fabric, which turns into a practical, discreet and functional storage unit. It can be used as simple support of a desk or composed in several configurations. Two versions are available: with castors or non-slip feet for freestanding tables. FRAME can be lacquered in all the colours of the TUMIDEI range, whereas the writing tops are always in melamine or wood finish only.

PILL POUF

Design **Simone Cagnazzo**

SMALL
Ø 45 cm H 47 cm

MEDIUM
Ø 75 cm H 35 cm

PILL è un complemento decisamente moderno, originale e soprattutto versatile poiché può prestarsi contemporaneamente a diversi usi: sollevando la seduta sulla parte superiore del pouf, si accede ad un vano dove riporre i propri oggetti personali, girando e riposizionando la seduta, diventa un pratico coffee-table.
Il rivestimento può essere in tessuto o pelle.

PILL is a modern, original and, especially, versatile accessory since, at the same time, it is suitable for different uses: under the pouf seat, there is a place to put the personal items into and, by flipping and replacing the seat, the pouf turns into a practical coffee-table. The covering can be in fabric or leather.

PILL POUF

LARGE
Ø 99 cm H 35 cm

Un solo oggetto può fungere da seduta, da comodino e da scrigno nascosto. PILL è un pouf che arreda la casa e gli spazi contract con una fresca energia. Il pouf è caratterizzato dal dettaglio della maniglia in pelle, che permette l'apertura e la trasformazione dal pouf seduta a coffe-table.
Il rivestimento può essere in tessuto o pelle.

A single item works as a seat and as a coffee-table with a secret trunk. PILL is a pouf which decorates your home and contract locations too with a fresh energy.
One of the main features is the leather handle, which enables to open the pouf and to transform it into coffee-table.

ON-OFF POUF

L / W 83 cm H 40 cm P / D 91 cm

Il pouf, già presente nell'insieme degli elementi componibili del divano On- Off, si può trasformare in un altro comodo contenitore per coperte, guanciali, libri. Rivestimento disponibile in tutti i tessuti della collezione Tumidei.

The pouf, forming part of the modular elements of the On-Off sofa, can be converted into another practical storage unit for blankets, pillows, books. The covering is available in all the fabrics from the Tumidei collection.

ON-OFF POUF

CODE HANDLE

Design **Simone Cagnazzo**

SISTEMA FUNZIONALE E VERSATILE
La serie di maniglie Code, si sviluppano su tutto il profilo verticale dell'anta armadio, creando un gioco di pieni e vuoti, che dà carattere al sistema armadio.
Sono disponibili in due differenti larghezze, possono essere personalizzate con le laccature della gamma Tumidei, in finitura vetro laccato e specchio in tre diverse finiture, ed è possibile personalizzarle con la grande collezione di grafiche presenti nel catalogo Tumidei.

FUNCTIONAL AND VERSATILE SYSTEM
The set of Code handles expands throughout all the vertical profile of the wardrobe door, creating a trick of fullness and emptiness which gives personality to the entire wardrobe system. They are available in two different widths and can be customized with the Tumidei lacquered colours, lacquered glass or three different mirror finishes. In addition to that, it is possible to customize them with the great range of Tumidei graphics collection.

TUMIDEI®

Sistema Integrato
QUALITÀ - SICUREZZA - AMBIENTE

Integrated System
QUALITY - ENVIRONMENT - SECURITY

Nata nel 1958 a Predappio di Romagna, la Tumidei ha alle spalle oltre cinquant'anni di attività in un'epoca caratterizzata in tutto il mondo da un mutamento radicale nella concezione della casa, nel modo di vivere della famiglia e, quindi, nell'arredamento. La ricerca continua di soluzioni d'arredo sempre più sofisticate ed in linea con le esigenze del consumatore ha rappresentato uno dei fattori di successo dell'azienda e lo stimolo per una crescita ponderata e costante nel tempo. Si è creata un'azienda moderna ed attrezzata, che oggi dispone di circa 100 dipendenti e di una superficie di 20.000 mq. Un'azienda di produzione in grado di gestire al meglio l'intera catena produttiva e di garantire la "qualità del prodotto". Qualità, Sicurezza ed Ambiente sono al centro delle strategie della nostra azienda, certificata in conformità alle norme ISO 9001, OHSAS 18001 e ISO 14001. È con grande orgoglio da parte della Direzione, che TUMIDEI ha raggiunto questo traguardo che ad oggi risulta essere, per il settore legno e arredamento, tra le prime certificazioni integrate, emesse dall'Ente di certificazione ICILA marchio di CSI s.p.a. (Gruppo IMQ), ottenendo inoltre il certificato di "ECCELLENZA" rilasciato dall'ente stesso, che sta a testimoniare l'impegno dell'organizzazione a gestire in modo sistematico e secondo modelli standard internazionali riconosciuti, aspetti organizzativi rilevanti e complessi, cioè l'efficacia, l'efficienza, l'impatto ambientale, la salute e la sicurezza dei lavoratori, il trattamento responsabile dei collaboratori, nell'ottica del miglioramento continuo delle prestazioni e dell'impatto sociale delle attività dell'organizzazione. Tumidei utilizza pannelli con certificazione CARB Phase 2, in vigore dal 01/01/2011, che assicura emissioni di formaldeide inferiori a 0.09 ppm.

Born in 1958 in Predappio di Romagna, Tumidei has over 50 years of experience. During this time-lapse, people all over the world have radically changed their idea of home, of family life and, as a consequence, of interior design. The continuous search for the most sophisticated consumer driven solutions for interior design represents one of the main success factors for Tumidei and the reason for their weighted and consistent growth. Tumidei is now a state-of -the-art business with a odern equipment and ca. 100 employees and 20,000 sq mt of facilities, capable of managing the production chain at its best, guaranteeing the product's best quality. Tumidei is a UNI EN ISO 9001 (quality) ISO 14001 (environment) and OHSAS 18001 (security) certified Company. Tumidei's board is very proud to have achieved this target, also because as of today this is one of the first certifications issued by the ICILA ISTITUTION, brand of CSI s.p.a. (IMQ group) within the wood and furniture sector, to a Company dedicated to home design furnitures. The certification authority has also awarded Tumidei with a certificate of "EXCELLENCE", for its commitment to systematically manage all relevant and complex aspects of the organization (such as effectiveness, efficiency, environmental impact, the workers' health and safety and the fair treatment of co-workers) according to the international standards, towards the continuous improvement of performances and social impact of the Company's activities. Tumidei uses CARB Phase 2 certified panels, in force since 01/01/2001, that ensures formaldehyde emissions below 0.09 ppm.

ATLGROUP®

ATL Group è proprietaria di tre complessi immobiliari per complessivi 65.000 mq coperti. L'azienda opera principalmente su due stabilimenti di proprietà uno dislocato a Faenza (RA) ed uno a Bertinoro (FC), mentre il complesso immobiliare industriale di Forlì è in parte utilizzato dalla Cooperativa CIPES ed in parte destinato a magazzino.Lo stabilimento di Faenza ha una superficie coperta di circa 45.000 mq ed è dedicato alle prime lavorazioni comuni a tutte le linee di prodotto: la falegnameria e il taglio del poliuretano espanso. Nello stesso vengono inoltre svolte le lavorazioni intermedie e finali, taglio, cucito e montaggio, dei prodotti finiti di gamma media e le lavorazioni speciali per le forniture di "contract" e di semilavorati per altri rinomati produttori del settore dell'arredamento. Lo stabilimento di Bertinoro ha una superficie coperta di circa 10.000 mq ed è dedicato alle lavorazioni intermedie e finali per i prodotti di alta gamma: taglio dei rivestimenti in pelle e tessuto, cucito e montaggio. Lo stabilimento di Forlì ha una superficie coperta di circa 10.000 mq ed è oggi utilizzato quale magazzino e come sede operativa della Cooperativa CIPES, che tuttora svolge l'originaria attività di lavorazioni di resine espanse limitatamente ad alcune produzioni speciali.

ATL Group owns three building complexes for a total of 65.000 square meters. The company mainly works in two of these factories, one situated in Faenza (RA) and one in Bertinoro (FC), while the industrial complex in Forlì is partly used by the Cooperative CIPES and partly as a warehouse.The factory in Faenza (RA) has a surface area of approximately 45.000 square meters and is dedicated to first processing phases, common to all product lines as woodworking and cutting of polyurethane foam. In the same premises other manufacturing processes take place as well: cutting, sewing and assembling of mid-range products; special processing for "contract" supplies and semi-finished furniture products for other well-known manufacturers working in the furniture sector. The factory in Bertinoro (FC) has a surface of approximately 10.000 square meters and is dedicated to intermediate and final processing for high-end products: leather and fabric cutting, sewing and assembly. The Forlì unit has a surface of approximately 10.000 square meters and is now used as a warehouse and as the headquarters of the Cooperative CIPES,which still carries out the original business: the processing of polyurethane foams limited to some special productions.
