DECORATIVE

Lighting

La tradizione del territorio veneto unita all'innovazione tecnologica e alla sostenibilità del vetro, rendono i prodotti Reflex unici, inimitabili e frutto della grande passione nel creare spazi emozionanti. Lampadari che sono diventanti delle vere e proprie icone nel mercato tracciando un nuovo utilizzo della luce come prodotto DECORATIVO e non solo funzionale. I prodotti della linea "storia – decorativa" sono pensati come elemento di attrazione e di forte presenza emozionale.

The tradition of the Veneto region combined with technological innovation and the sustainability of the glass make Reflex products unique, inimitable and the result of the great passion for creating exciting spaces. Chandeliers that have become true icons in the market by tracing a new use of light as a DECORATIVE and not just functional product. The products of the "history - decorative" line are designed as an element of attraction and strong emotional presence.

CONTEMPORARY

Lighting

La linea Contemporary mantiene inalterati i cardini e la “capacità del saper fare” della Reflex, in una chiave stilistica contemporanea e di design.

A differenza della linea decorativa, i prodotti contemporary sono pensati per un linguaggio stilistico più semplice, equilibrato e ordinato.

I dettagli sono tecnici e non decorativi, sono frutto della capacità di essere un’azienda industriale e artigianale, in equilibrio tra tradizione e innovazione.

The Contemporary line maintains the cornerstones and the “know-how” of Reflex unchanged, in a contemporary stylistic and design key. Unlike the decorative line, contemporary products are designed for a simpler, more balanced and orderly stylistic language. The details are technical and not decorative; they are the result of the ability to be an industrial and artisan company, in balance between tradition and innovation.

24 GRADI SOSPENSIONE

Design · Tulczinsky

Gli antichi greci e romani avevano scoperto che l'inclinazione dell'asse terrestre di 24° contribuiva a vivere in armonia con il cosmo e che i contenitori della conservazione degli alimenti se inclinati a 24° si conservavano più a lungo. Dalla storia del nostro passato nasce la lampada 24°, un segno luminoso, organico e puro come il pianeta in cui viviamo.

The ancient Greeks and Romans had discovered that the inclination of the earth's axis of 24 ° helped to live in harmony with the cosmos and that the containers for food storage if tilted at 24 ° could preserved longer. From the history of our past was born our '24 Gradi', a luminous, organic and pure sign like the planet we live on.
