SCHONBEK

1870

We make lighting that lives forever.

Rooted in the American craftsmanship tradition since 1870, Schonbek makes timeless lighting with an impact that lasts.

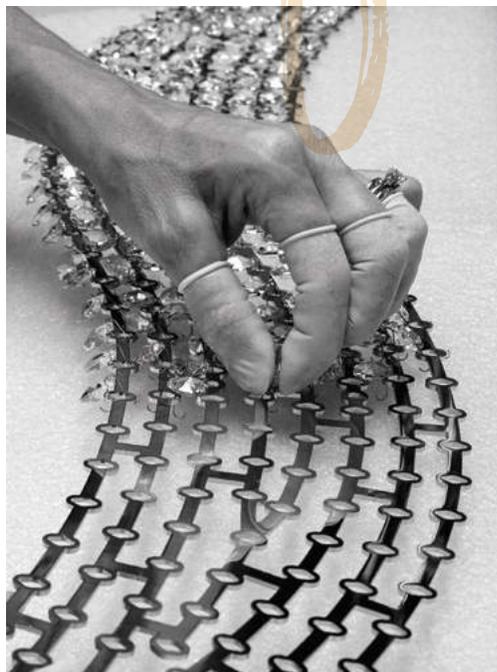

For more than a century, our designs have sparked conversation and brought people together. Light brings life to a home – and life is what Schonbek is all about. When families gather for Sunday dinner, new friends are made, lovers meet, and memories are created; Schonbek is part of every moment that makes life rich.

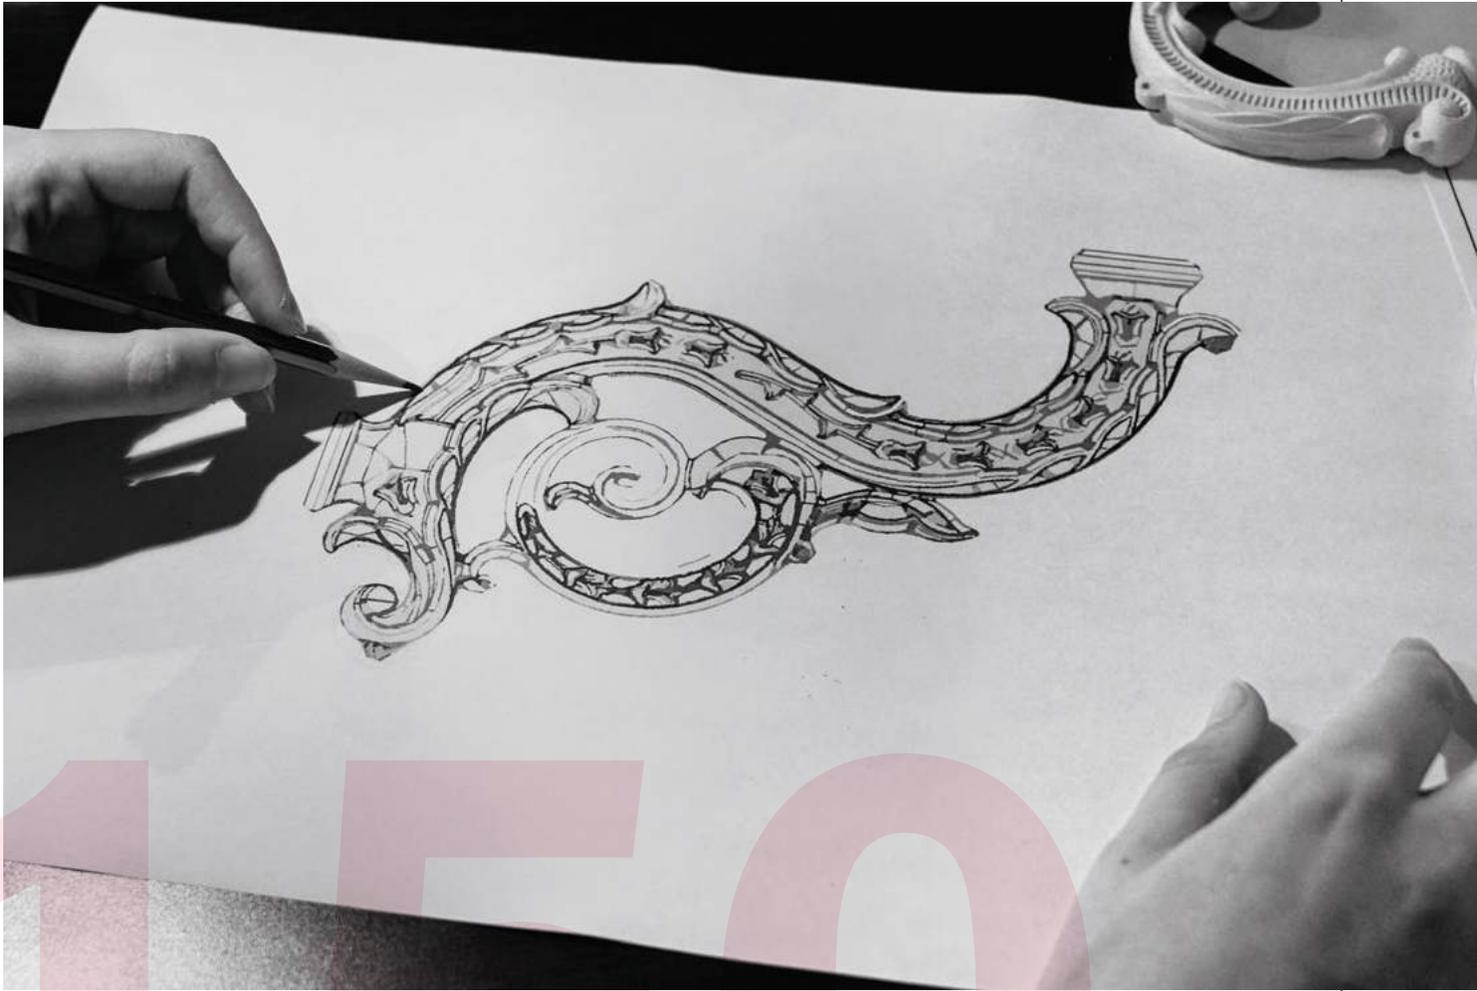

Our story began when young Adolph Schonbek left his grandfather's glassworks to pursue his dream of making custom chandeliers with the finest crystal. Since then, Schonbek has grown into a world-renowned premium lighting brand, captivating consumers across generations and continents with its timeless designs.

Our styles reflect the dynamic aesthetic tradition of America. Ranging from classically elegant to contemporary cool, our fixtures are characterized by their warm and inviting shapes and close attention to detail.

We are driven by a passion for lighting that makes spaces come alive and have a love for perfectly balanced pieces of beauty and function. We make styles to talk about with details to remember, icons to treasure, carry through life and pass on to the next generation.

Wherever it is placed, a Schonbek piece fills the home with personality and elegance that transcends time.

150

150 Years of American Craftsmanship

In 2020, we celebrate 150 years of Schonbek lighting. The passion for innovation and commitment to beauty in every detail that has made Schonbek a world-renowned lighting brand over the past 150 years continues to drive us forward today. Rooted in the heritage of American craftsmanship, we constantly explore new ways to transform spaces with light, always with our century-long promise at heart: to make lighting that lives forever.

True American Heritage

Schonbek is part of the American history and shares the attributes of other classic American brands. Rather than a desire to set trends, we have a deep and abiding respect for the people who are going to live with our products in their homes. Schonbek stands for warmth and generosity, and the joy of bringing family and friends together. We strive to create spaces where light is as much about atmosphere and ambience as it is about functionality.

A Pioneering Spirit

While building on tradition and experience, Schonbek constantly moves borders. We use proven technologies in innovative ways to continuously evolve the art of lighting. We use innovation by combination, in everything from raw materials to design, to push the boundaries of what a classic piece can bring to elevate the experience of any home.

Timeless Beauty

Schonbek products are instantly recognizable by their iconic silhouettes. We prioritize longevity and a strong appeal that endures. Our legacy was not built by standing still. Schonbek is never antique, nor do we look backwards. Our aim is to create products that are loved across generations and carried through life as treasures.

True Craftsmanship

The luxury of a Schonbek piece ultimately comes from being crafted by qualified artisans. From design to functionality and use of materials, everything we do is made to last. We are proud of retaining and passing down the distinct know-how that makes a Schonbek product so precious.

Commitment to Authenticity

Since 1870, Schonbek has been synonymous with authentic chandeliers and designs of the highest heirloom quality. With beautifully detailed glass arms, exquisitely faceted large crystals in various shapes, and elongated candle slips, Savannah celebrates the timeless romance of the chandelier. Wall sconces express the same elegance with a single long tiered crystal pendant balancing the height of the candle slip. Savannah always complements her hostess, elevating the tenor of traditional, contemporary, and eclectic interiors.

Glamorous and fluid yet also tailored and geometrically precise, Southampton is traditional elegance with a twist. Crystal-beaded chains suspended from a halo of slim metal tubing create a symmetrical curtain. A cluster of seeded glass globes of varying sizes is set at the midpoint between the halo and the curtain. Light refracted through Southampton's crystals has a lively quality that feels particularly apt for social spaces like living and dining rooms.

Asheville is inspired by the simple geometries and organic forms that have maintained eternal appeal from pre-history to present-day. Large and small pendants are unabashedly contemporary yet would make a brilliant counterpoint within a traditional interior. Open metal circles set on a rod are movable around a cluster of seeded glass globes and the shape of the fixtures appears different from various perspectives.

Inspired by the image of birds perched along a power line and designed with the ability to adapt to a variety of interior scenarios, SoHo fixtures have an airy, sculptural presence. The arms of the pendants can be aligned or can be set at angles to make a more dramatic statement. With faceted shades oriented up, SoHo pendants provide ambient illumination that is ideal for dining or entertainment spaces, and when shades are oriented down, the pendants work well for areas, like kitchens, that benefit from task-style lighting. Similarly, wall sconces are easily arranged in pairs with faceted shades oriented to deliver directional lighting as desired.

Named for an enchanting getaway spot off the coast of Georgia, Talahi fixtures combine simple elegance with delightful details. The arms of the chandeliers are inspired by the arc of stems in a bouquet of freshly cut flowers with heavy blooms. Talahi's wall sconces and ceiling-mounted fixtures reinterpret the patterns of lace doilies in decorative metalwork. Petite crystals add delicate touches of sparkle that catch the eye.

 Product Line **St. Simons**
 Page **254 – 257**

With slender unadorned arms, tall candles and long teardrop crystal pendants, St. Simons chandeliers bring a light feminine touch to the spaces they illuminate. Like a prima ballerina, St. Simons appears delicate, but has impeccable poise and remarkable presence. It is easy to imagine a member of the St. Simons line of chandeliers adding a romantic note to a contemporary living room or contributing to a gracious welcome in the foyer of a classical home.

Inspired by history, culture, and the natural world, Schonbek's American Traditional Collection is richly detailed and often ornate. Decorative elements speak to Schonbek's heritage of craftsmanship and may recall the extravagant gestures of neo-Baroque architecture or the delicate textures and patterns of a formal garden. With sensitivity to the timeless aspects of art and nature, pieces from this collection can easily join family heirlooms in classical homes or serve as standout statement pieces in modern or eclectic interiors.

Camelot

As Napoleon embarked on a journey for regional domination, he looked back at the glorious days of the Greek and Roman empires, celebrating the virtues of Antiquity's military and cultural powers. Corinthian richness and splendor filled castles and private homes, combining the geometry of classicism with lavish stones and metals. Camelot is a dense plethora of crystals reminiscent of eras of true imperial splendor.

Chrysalita

Like an heirloom cascade of diamonds, Chrysalita's ethereal crystal basket is enhanced with fine strands of crystal-embellished chains. This delicately beautiful piece culminates in a faceted finial drop cut exclusively for Schonbek. While Chrysalita's large chandeliers will delight in grand ballrooms, the smaller designs are ideal for your elegant home.

Olde World

Blossoming like a rare flower, with its graceful hand-formed crystal body and dense ornaments, Olde World is an homage to the legendary house of Schonbek, founded in Bohemia in 1870, and to the sumptuousness of nineteenth-century décors.

Plaza

Glitz, glamour and excess characterized the Hollywood Regency Style, which soared in the thirties with the great legends of cinema. Both lavish and contemporary, Plaza's Art Deco-inspired frames are studded with a splendid variety of clear or colored crystal shapes.

Renaissance

Recalling the glorious opulence of Baroque chandeliers with its open frame, lyre patterns and bouquet tops, Renaissance is an homage to the seventeenth-century court of King Louis XIV. Our interpretation is boldly contemporary.

Southampton

Glamorous and fluid yet also tailored and geometrically precise, Southampton is traditional elegance with a twist. Crystal-beaded chains suspended from a halo of slim metal tubing create a symmetrical curtain. A cluster of seeded glass globes of varying sizes is set at the midpoint between the halo and the curtain. Light refracted through Southampton's crystals has a lively quality that feels particularly apt for social spaces like living and dining rooms.

Sterling

In the eighteenth century advances in glassmaking techniques and the demands of rich patrons made all-glass chandeliers the ultimate statement of class. Sterling, an all-crystal chandelier with hand-formed crystal arms and finely cut pendants, column and dishes, is the ultimate illustration of historical chandeliers' 'dazzling by light.'

Tiara

Inspired by the bejeweled coronets worn by the ladies of nobility, Tiara is an original Schonbek design. Its sophisticated lace-like frame is adorned with tiny crystal beads, as if sparkling from within. The basket of crystals falling from the crown recalls the lines of Empire-style chandeliers while creating a timeless majestic feel.

Triandra

With its nature-inspired combination of crystal and metal, Triandra embodies the trend towards organic, holistic interior spaces. Handcrafted metal formed into willow tree leaves are punctuated with tiny crystal octagons, creating multi-layered depth as they cascade down the center column of the chandelier. Two circles of brilliantly faceted prisms unite the column on the top and bottom, drawing the eye and imagination inward to celebrate natural beauty and create harmony within the home.

Trilliane

A signature Schonbek chandelier, Trilliane blends the grandeur of Antiquity with the opulence of an all-crystal masterpiece. Glimmering with inverted pendeloques, it is created using a historically revolutionary technique that evokes the rawness of mineral crystal.

American Rome

romantic

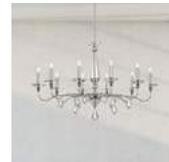

Schonbek's American Romantic Collection finds a harmonious balance between its Traditional and Contemporary Collections. Fixtures with feminine curves and masculine lines are elegant and minimalist. They have the graceful silhouette of traditional design without the ornate details, allowing them to complement a variety of interiors from contemporary to transitional to classic. This collection will particularly appeal to those who enjoy an ambience that is airy and open, yet inviting and warm.

Bella Rose

A diamond-shaped pattern of crystal beading gives the illusion of a lacy drum shade wreathing a metallic collar frame in the Bella Rose collection. A soft aura of light flows from candle slips supported by curved arms delicately draped with crystal strands, for a look that is both elegant and dramatic.

Esmery

Esmery captures the mood of the moment with its minimalistic, contemporary style. Beaded crystal chains drape their fiery brilliance creating a play of light and energy around the clean silhouette of the chandelier. Large, sparkling octagon crystals anchor the chains to the chandelier's metal rings in a subtle gesture that adds a touch of everyday magic to an otherwise simple and clean design.

Modique

Skillfully executed modernist design defines the Modique Collection, for lighting that is balanced and beautiful. Simple arms convey elegance and serenity as they move outward in a gentle modern twist, anchored by sleek glass bobeches and minimal crystal ornamentation. In a departure from traditional chandelier design, ornate detailing is absent, allowing function to dictate a form whose focus falls on the simple palette of high-quality materials.

St. Simons

With slender unadorned arms, tall candles and long teardrop crystal pendants, St. Simons chandeliers bring a light feminine touch to the spaces they illuminate. Like a prima ballerina, St. Simons appears delicate, but has impeccable poise and remarkable presence. It is easy to imagine a member of the St. Simons line of chandeliers adding a romantic note to a contemporary living room or contributing to a gracious welcome in the foyer of a classical home.

Talahi

Named for an enchanting barrier island off the coast of Georgia, Talahi fixtures combine simple elegance with delightful details. The arms of the chandeliers are inspired by the arc of stems in a bouquet of freshly cut flowers with heavy blooms. Talahi's wall sconces and ceiling-mounted fixtures reinterpret the patterns of lace doilies in decorative metalwork. Petite crystals add delicate touches of sparkle that catch the eye.

Tassau

Tassau is an Art Deco-inspired chandelier that brings the glamour of the era into the 21st century with a play on the popular fashion trend of tassel accents. Intricately designed and carefully handcrafted metal tassels are suspended from circular pieces of sparkling crystal rings. Small details like the exquisite crystal banding on the two-tone tassels and a glimmering metallic effect on the underside of the crystal ring epitomizes the luxury of bygone days when ornate handmade tassels accented the furnishings found within opulent interiors.

American Rust

The heart of Schonbek's American Rustic Collection is its authentic character and down-to-earth spirit. Pieces are distinctive for pairing timeless grace with raw beauty. Elegant shapes rendered in materials offering a rough or aged appearance fit as perfectly with interiors that have been lovingly designed with antique or historical furnishings as they do with modern or farmhouse-inspired homes that incorporate salvaged materials. Rustic fixtures illuminate dinner parties and intimate conversations without pretense – this is what truly makes them shine.

Fyra

Fyra enchants the beholder with pieces of perfectly faceted crystal peeking through a windowless lantern-like handmade metal frame. Large chunks of crystal catch and hold light from every angle, then release it into space, shredded into myriad flickering fragments of color. The collection offers single and triple pendants in several sizes as a focal point for any space.

American Rustic

America

Schonbek's American Contemporary Collection is founded in styles developed during the latter half of the 20th century, takes further inspiration from current trends in culture, art, and society, and sets itself apart by instilling a sense of natural warmth in every piece. The result is an array of fixtures that make bold spatial statements while staying mindful of what will remain timeless. They are ideal for people who are attracted by the sophistication that comes from simple lines, forms, and shapes in perfect balance.

Alon

Inspired by the graceful frolic of sunlight sparkling on gentle ocean waves, Alon's crystal strands invite exploration of notions of balance, harmony, and playfulness. Sparkles appear to ebb and flow in a scintillating play of light like rays of sun glimmering across the sea, as downlights embedded within the canopy illuminate the strands from above.

Amaca

Brilliant crest shapes grace any minimalist room with their feather-light presence. A straightforward trio of cables affix to a sleek crossbar and layer industrial ease with the intrigue of a net sprinkled with up to 400 Swarovski crystals. This style amplifies the energy of a room with a deliberately simple design that accentuates any home's exquisite qualities.

Asheville

Asheville is inspired by the simple geometries and organic forms that have maintained eternal appeal from pre-history to present-day. Large and small pendants are unabashedly contemporary yet would make a brilliant counterpoint within a traditional interior. Open metal circles set on a rod are movable around a cluster of seeded glass globes and the shape of the fixtures appears different from various perspectives.

Baronet

Inspired by the great houses of England's nobility, the Baronet collection's dense clusters of crystals bedazzle its streamlined shapes. Like jewels suspended in mid-air, these designs can be paired for dramatic architectural effects or used alone as a vibrant, extravagant highlight in a space.

Cassini

Both pure in shape and lavish, this dense crystal ring seems to float in mid-air, glittering like a halo. Inspired by the discovery of the Cassini Division in the rings of Saturn by Renaissance astronomer Giovanni Domenico Cassini in 1675, it is a celebration of the power of the solar system and the astral movements around the sun and moon. This is the extravagant design piece that will add oomph to your dining room and shine a light on your lounge or retail space.

Crystal Empire

Neoclassical in nature, this draped, leather chandelier's structure softens the room. Its smooth sheen is punctuated by an iconic Swarovski crystal ring. Its symmetry and proportionality call to those with a modern take and a penchant for history. Often discovered in spiral stairways or over formal dining tables.

Esteracae

Just as the gossamer ball of a dandelion sends a thousand wishes as its seeds are gently blown away, the rounded shape of Esteracae blossoms with a multitude of sparkling polished crystals. Each stem emerging from the center of the orb is topped with a hand-finished metal floret pinned with faceted crystal that shimmers beautifully in the reflected light.

Glissando

Named for glissando, an Italian term describing musical notes gliding upward and downward in perfect harmony, the crystal prisms in the Glissando collection glide from one to another creating a multi-layered stack of sparkling light. Interlocking planes and angles radiate bands of color as the crystal holds and reflects light from its twisted silhouette.

Selene

Inspired by the ever-changing shapes of clouds in the sky, Selene intertwines within itself and is height adjustable for an endless amount of interior design combinations, limited only by one's imagination. SoHo

Inspired by the image of birds perched along a power line and designed with the ability to adapt to a variety of interior scenarios, SoHo fixtures have an airy, sculptural presence. The arms of the pendants can be aligned or can be set at angles to make a more dramatic statement. With faceted shades oriented up, SoHo pendants provide ambient illumination that is ideal for dining or entertainment spaces, and when shades are oriented down, the pendants work well for areas, like kitchens, that benefit from task-style lighting. Similarly, wall sconces are easily arranged in pairs with faceted shades oriented to deliver directional lighting as desired.

Trilliane Strands

The ethereal luminosity of lush crystal strands brings a whimsical element to the iconic Trilliane chandelier. The garlands mingle with glimmering inverted pendeloques, created using a historically revolutionary technique that evokes the rawness of mineral crystal.
