Mini book

Those of us who live near the Mediterranean know all the nuances of light.
For this reason, when night comes, we transform it into little spacelets of day.

Los que vivimos cerca del Mediterráneo conocemos todos los matices de la luz.
Por eso cuando llega la noche la transformamos en pequeños espacios de día.

Outdoor

Perhaps because we are from the Mediterranean; the outdoors are one of the areas in which Bover is best known.

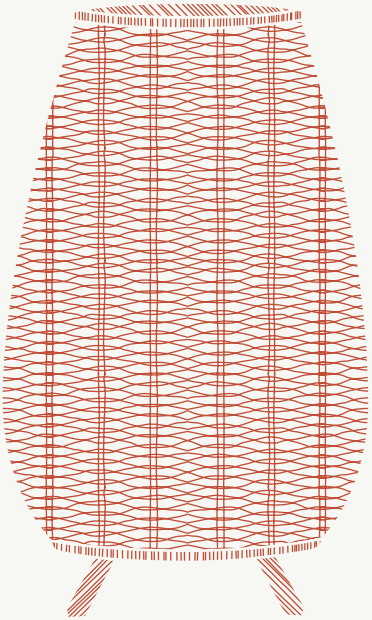

This collection's common denominator is the combination of resistance and sensitivity. Resistance since it is designed to be able to live comfortably outdoors, and sensitivity expressed in the delicacy with which it sifts the light and the general warmth of the lamp. These features mean that both the inside and outside of an architectural space help to create a sense of continuity.

Quizás porque somos del mediterráneo; el outdoor es uno de los campos en los que Bover es más conocida.

El denominador común de esta colección es la combinación de resistencia y sensibilidad. Resistencia ya que está diseñada para poder vivir cómodamente a la intemperie, y sensibilidad expresada en la delicadeza con que tamiza la luz y la calidez general de la lámpara. Estas características hacen que tanto dentro como fuera de un espacio arquitectónico, ayuden a crear una sensación de continuidad.

Contemporary

In Bover we believe that the right combination of design, quality and technical development is decisive for a successful product.

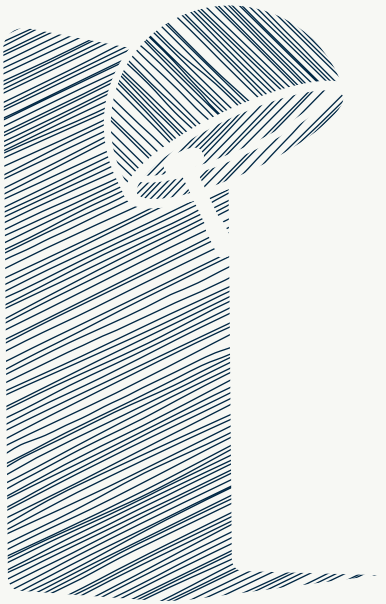

We like to say that we create contemporary design lighting pieces, because our products always strive a balance between quality, materials and shapes, becoming to a timeless style that defines us.

En Bover creemos que la combinación adecuada entre diseño, calidad y desarrollo técnico es decisiva para que un producto tenga éxito.

Nos gusta decir que creamos iluminación de diseño contemporáneo, por que nuestros productos buscan siempre el equilibrio entre la calidad, los materiales y las formas, dando lugar a un estilo atemporal que nos define.

Nón Lá A/04

Nón Lá T

Non La is our way of paying a little homage to the Vietnamese hat and its centenary culture. Its simple open cone offers us a light structure that is resistant and a bit avant-garde, thanks to the decentralization of its light cavity. Its cast iron arm in the shape of an angle gives it a rough look that contrasts with the subtlety of its conical shade.

Nón lá es nuestra manera de rendirle un pequeño homenaje al sombrero vietnamita y a su cultura centenaria. Su sencillo cono abierto, nos ofrece una estructura ligera, resistente y un punto vanguardista gracias a la descentralidad de su cavidad lumínica. Su brazo de fundición de hierro en forma de ángulo nos ofrece un aspecto más rudo que contrasta con la sutileza de su pantalla cónica.

The concept of this lamp is based on a smooth head which draws a wavy shape on its perimeter, the clear contrast with the lamp inner part, that reminds us of the gentle and small oscillations that marine currents form on the Mediterranean coast.

El concepto de la luminaria parte de un cabezal liso que dibuja en su perímetro un contorno ondulado, en claro contraste con el cuerpo interior de la luminaria, que nos recuerda, las suaves y pequeñas oscilaciones que las corrientes marinas forman a orillas del Mediterráneo.

Handcrafted

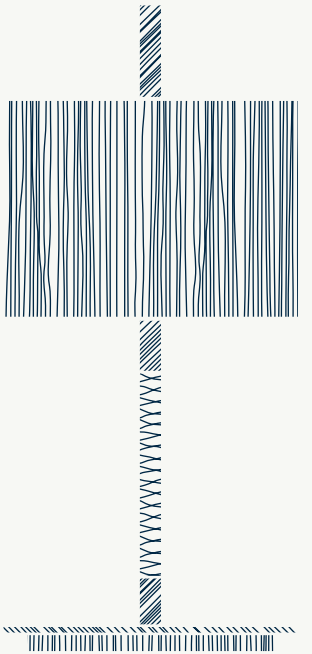

In Bover we like to be part of that small group of companies, who continue betting on the tradition and wisdom of craftsmanship. Knowing how to recognize in the movement of our hands, our best work tools and let them, with their knowledge and skills, weave, thread by thread, each of our timeless products.

En Bover nos gusta formar parte de ese reducido grupo de empresas, que siguen apostando por la tradición y la sabiduría del trabajo artesanal. Saber reconocer en el movimiento de las manos, nuestras mejores herramientas de trabajo y dejar que sean ellas, quienes con sus conocimientos y su habilidad, tejan, hilo a hilo, pasada a pasada, cada uno de nuestros productos atemporales.
