Ole! Lighting

Este catálogo es el reflejo del esfuerzo de una aventura que comenzó hace ya 30 años. Con la mentalidad de reinventarnos continuamente, podemos afirmar que tres décadas después, seguimos con la misma ilusión que el primer día.

Nuestra filosofía de trabajo se basa en la búsqueda de la mejora continua, sin dejar de ser fieles a nuestro estilo y confiando por completo en nuestro equipo Ole!. Siempre con el compromiso de ofrecer iluminación decorativa y técnica adaptada a las tendencias del mercado.

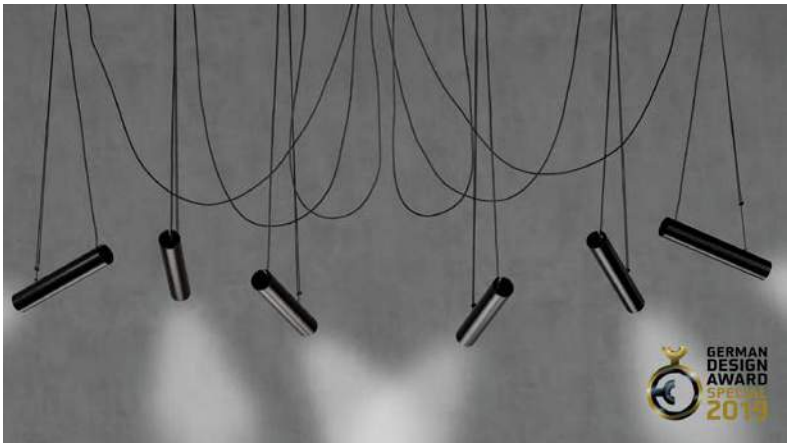

En cada colección proyectamos nuestro deseo de iluminar diferentes tipos de proyectos, ofreciendo diseños originales y variados, amoldados a diferentes gustos y necesidades.

This catalogue is a reflection of the efforts of an adventure that began 30 years ago. With the mentality of never stop reinventing ourselves, we can affirm that three decades later, we continue with the same enthusiasm as the first day.

Our work philosophy is based on the search for continuous improvement, while remaining true to our own style and trusting completely in Ole! team. Always with the commitment to offer decorative and technical lighting adapted to market trends.

In each collection we project our desire to illuminate different types of projects, offering original and varied designs, adapted to different tastes and needs.

AWARDS

PEPO

German Design Awards 2019 - Special Mention
Excellent Product Design

En 2019 participamos en nuestros primeros premios de diseño. Nuestro modelo PEPO, diseñado por Fernando Martínez, fue galardonado en Alemania por su diseño y practicidad. Ofrece múltiples opciones, siendo capaz de iluminar varias zonas con su original sistema.

In 2019 we participated in our first design awards. Our PEPO model, designed by Fernando Martínez, was awarded in Germany for its design and practicality. It offers multiple options, being able to illuminate several areas with its original system.

AVATAR

German Design Awards 2020 - Winner
Excellent Product Design

Diseñado por Fernando Martínez, AVATAR ha triunfado desde su lanzamiento en 2020. Año en el que fue premiado por el jurado alemán. Con una longitud de hasta 10 metros, AVATAR es una solución para crear ambientes en los que se crucen líneas de luz por todo el espacio.

Designed also by Fernando Martínez, AVATAR has triumphed since its launch in 2020. Year in which it was awarded by the German Design Council. With a mesure up to 10 metres, AVATAR is a suitable solution for creating environments in which lines of light cross the entire space.

AVATAR TWIST

Darc Awards 2021 - Shortlisted
Best Architectural Lighting Product

En 2021 presentamos el nuevo AVATAR TWIST a los Darc Awards. Estos premios ingleses centrados exclusivamente en la iluminación en sus diferentes ámbitos, preseleccionaron este modelo que surge de la evolución y actualización del diseño y las funcionalidades del antiguo AVATAR.

In 2021 we presented the new AVATAR TWIST to the Darc Awards. These British awards, which focus exclusively on lighting in its various fields, shortlisted this model, which is the result of the evolution and updating of the design and functionalities of the old AVATAR.

MADE IN SPAIN

Somos una empresa española que apuesta por un producto original, funcional y diseñado por nuestro equipo dirigido por Fernando Martínez, colaborando puntualmente con diseñadores de reconocido prestigio.

Ofrecemos soluciones que den respuesta a las necesidades de iluminación de interioristas, arquitectos y distribuidores, a través de la fabricación y diseño "made in Spain", con un círculo de proveedores próximo, de confianza y de calidad contrastada.

Diseñamos productos utilizando distintos materiales, dando como resultado colecciones que abarcan diferentes estilos y utilidades dentro del mundo de la decoración actual. Creamos lámparas que no solo cumplen con el fin de iluminar un espacio, sino que reunen diseño y valor añadido, una historia detrás y un por qué.

Prestamos especial atención a las necesidades de nuestros clientes, las cuales se encuentran en constante evolución, con el objetivo de diseñar productos que cumplan con sus exigencias y que encuentren en nosotros su marca de iluminación de confianza.

We are a spanish company committed to a product that is original, functional and designed by our own in-house team of designers led by Fernando Martínez, occasionally collaborating with designers of recognised prestige.

We offer solutions that respond to the lighting needs of interior designers, architects and specialised shops, through the manufacture and design of lamps entirely "made in Spain", with a circle of close suppliers, reliable and with a proven quality.

We design products using different materials, resulting in collections that cover different styles and utilities in today's world of decoration. We create lamps focused not only on fulfilling the purpose of lighting up a space, but that bring together design and added value, with a story behind them and a reason to be.

We pay special attention to the needs of our customers, which are constantly evolving, with the aim of designing products that meet their requirements and the purpose that they find in us their trusted lighting brand.

FERNANDO MARTÍNEZ
Owner & Head of Design

LORENA GARCÍA
Technical Designer

LIGHTING FOR THE EARTH

OCEANS WITHOUT PLASTIC

LÁMPARAS HECHAS CON BOTELLAS DE PLÁSTICO RECICLADAS.

En **Ole! Lighting** apostamos por la sostenibilidad. No solo en nuestros procesos internos, sino que también llevamos este compromiso al diseño. Por ello, hemos querido transmitirlo en nuestros productos bajo la consigna "***OCEANS WITHOUT PLASTIC***".

Nuestras colecciones de cuerda estarán hechas a partir de ahora de cuerda de **poliéster fabricado a partir de botellas de plástico, parte de ellas procedentes del mar**. Siguiendo la línea del último año, estimamos que podemos llegar a retirar de nuestro entorno **6,3 toneladas de plástico** con nuestras lámparas de cuerda.

El plástico es uno de los materiales más contaminantes para nuestros océanos. Más de 8 millones de toneladas de botellas de plástico llegan al mar cada año.

En **Ole! Lighting** pretendemos de este manera contribuir en la reducción de este material en el medioambiente, reusándolo al incorporarlo en productos que tienen una larga vida útil.

LAMPS MADE FROM RECYCLED PLASTIC BOTTLES

*At **Ole! Lighting** we are committed to sustainability. Not only in our internal processes, but also taking this commitment to our designs. Therefore, we wanted to transmit it in our products under the slogan "**OCEANS WITHOUT PLASTIC**".*

*All our collections of cord lamps are going to be produced from now on, with **polyester cord made from plastic bottles, some of them collected from the sea**. In line with last year, we estimate that we will be able to remove **6.3 tonnes of plastic** from our environment with our cord lamps.*

Plastic is one of the most polluting materials for our oceans, more than 8 million tons of plastic bottles are dumped into the ocean every year.

*In **Ole! Lighting** our intention is to contribute to the reduction of this material in the environment, reusing it by incorporating it in products that have a long useful life.*

PERSONALIZA TU LÁMPARA
CUSTOMIZE YOUR LAMP

ILUMINACIÓN A MEDIDA

En los últimos años hemos detectado la creciente demanda de productos personalizados y a medida. En el ámbito de la iluminación, esto no es una excepción.

Es por ello que nos estamos posicionando como una marca con alta flexibilidad a la hora de adaptarnos a los requisitos de nuestros clientes, haciendo realidad sus propuestas de iluminación.

Adaptamos nuestros diseños modificando medidas, colores e incluso materiales, según las exigencias de nuestros prescriptores. De esta forma, podemos ofrecer lámparas personalizadas y a medida de sus necesidades.

Además, al ser fabricantes y disponer de un departamento de diseño propio podemos asesorar en estudios lumínicos.

CUSTOM MADE LIGHTING

In recent years we have noticed an increasing demand for customised and tailor-made products. In the field of lighting, this is no exception.

That is why we are positioning ourselves as a brand with high flexibility when it comes to adapting to the requirements of our customers, making their lighting proposals a reality.

We adapt our designs by modifying sizes, colours and even materials, according to the requirements of our specifiers. In this way, we can offer customised lamps that are tailored to their needs.

Furthermore, as we are manufacturers and have our own design department, we can advise on lighting studies.

ESPARTO
Collection

El esparto es el nuevo material que añadimos a nuestro catálogo con la colección ILLA. Un producto rústico tradicional obtenido de diversas plantas silvestres y empleado desde la prehistoria, que ahora se une a nuestro compromiso con la sostenibilidad.

Esparto is the new material that we have added to our new catalogue with the ILLA collection. A traditional rustic product obtained from various wild plants and used since prehistoric times, that now joins our commitment to sustainability.

ILLA

Esta colección de colgantes une materiales tan diferentes como el esparto y el metal, dando lugar a unos diseños que combinan lo rústico con lo moderno. El esparto nos transmite la franqueza y tranquilidad de la naturaleza, mientras el metal, aporta una distintiva elegancia contemporanea.

This collection of suspensions join materials as different as esparto and metal, giving rise to designs that combine the rustic with the modern. The esparto conveys the honesty and tranquillity of nature, while the metal brings a distinctive contemporary elegance.

CORD
Collections

Estas colecciones están basadas en pantallas de cuerda trenzadas artesanalmente. Esta cuerda está fabricada con **botellas de plástico recicladas**. Un paso más en nuestro camino hacia la sostenibilidad.

Las colecciones de cuerda recogen diversidad de formas y tamaños, además de diferentes trenzados y una carta de más de 110 colores diferentes que permiten un elevado grado de personalización.

*These collections are based on handmade braided cord lampshades. This cord is made from **recycled plastic bottles**. One more step on our way towards sustainability.*

The cord collections include a diversity of shapes and sizes, as well as different braid technics and a chart with more than 110 different colour options that allow a high degree of customisation.

BANYO

El estudio de Hugo Tejada ha diseñado BANYO, con una estructura metálica que crea un concepto de lámpara de cuerdas trenzadas de forma artesanal para que el efecto de luz tenga su máximo protagonismo. Amplia gama de tamaños y opciones.

Hugo Tejada Studio designed BANYO, with a metal frame that creates a concept solution for the hand-made braided cord lampshade, which enhances the light effects. Wide range of sizes & colors.

BIMBA

Llamativo diseño que permite combinar colores de cuerda trenzada sobre una estructura metálica. La colección BIMBA que presenta un trenzado muy original, captará todas las miradas, cumpliendo no solo la función de iluminar, sino también de decorar.

Striking design that allows you to combine cord colors on a metal structure. The BIMBA collection, which has a very original braiding, it's quite captivating, fulfilling not only the function of lighting, but also of decorating.

CONGA

Esta pantalla con alma de metal presenta una nueva y original forma de trenzar interiormente las cuerdas de forma artesanal, formando un doble cono. Disponible en múltiples colores.

New and original way of braiding cords. For places which require a beautiful view right under the lampshade. Have a look! with metal frame and hand-made braided cord lampshade.

DRUM

Diseño étnico con gran carga artesanal y cientos de metros de cuerda trenzada a mano, sobre una estructura metálica que, por su variedad de dimensiones y color, se puede adaptar a todo tipo de proyectos.

Inspiration from ethnic instruments and textile materials. Metal frame and handmade braided cord lampshade which allows a party of colours and sizes for your projects. Some models include matt opal PMMA diffuser.

KIT POP-UP

La fórmula kit permite combinar cualquier pantalla. Diseñe conjuntos que iluminen varias zonas de la estancia. Las bases se suministran de una a seis salidas para cables por la parte inferior o lateral, con los que se consigue un efecto visual creativo e innovador. También disponible como apliques con brazos fijos o móviles para dirigir la luz hacia donde se desee. Vea los ejemplos con cuerdas de nuestra colección tanto en formas (p. ej. BANYO, DRUM, UKELELE y KORA), como en colores y tamaños o disponiendo pantallas de los POT y SENTO.

Let your imagination run away! Easy to combine and never-ending options of colors, designs and sizes. Each solution is unique! KIT to combine from 1 up to 6 lampshades. Choose lampshade number, model and color. Surface canopy (with lateral or inferior cable exit) and track system option too (lampshades to be ordered additionally). Also available as wall brackets with fixed or mobile arms to direct the light where desired.

MARIOLA

La estructura metálica visible y una trama caleidoscópica de cuerda decorativa, son el distintivo de esta nueva propuesta de nuestra familia de cuerdas. Con su figura cilíndrica, MARIOLA se presenta en colgantes y plafones de distintas medidas, asi como en dos originales opciones de pie de salón.

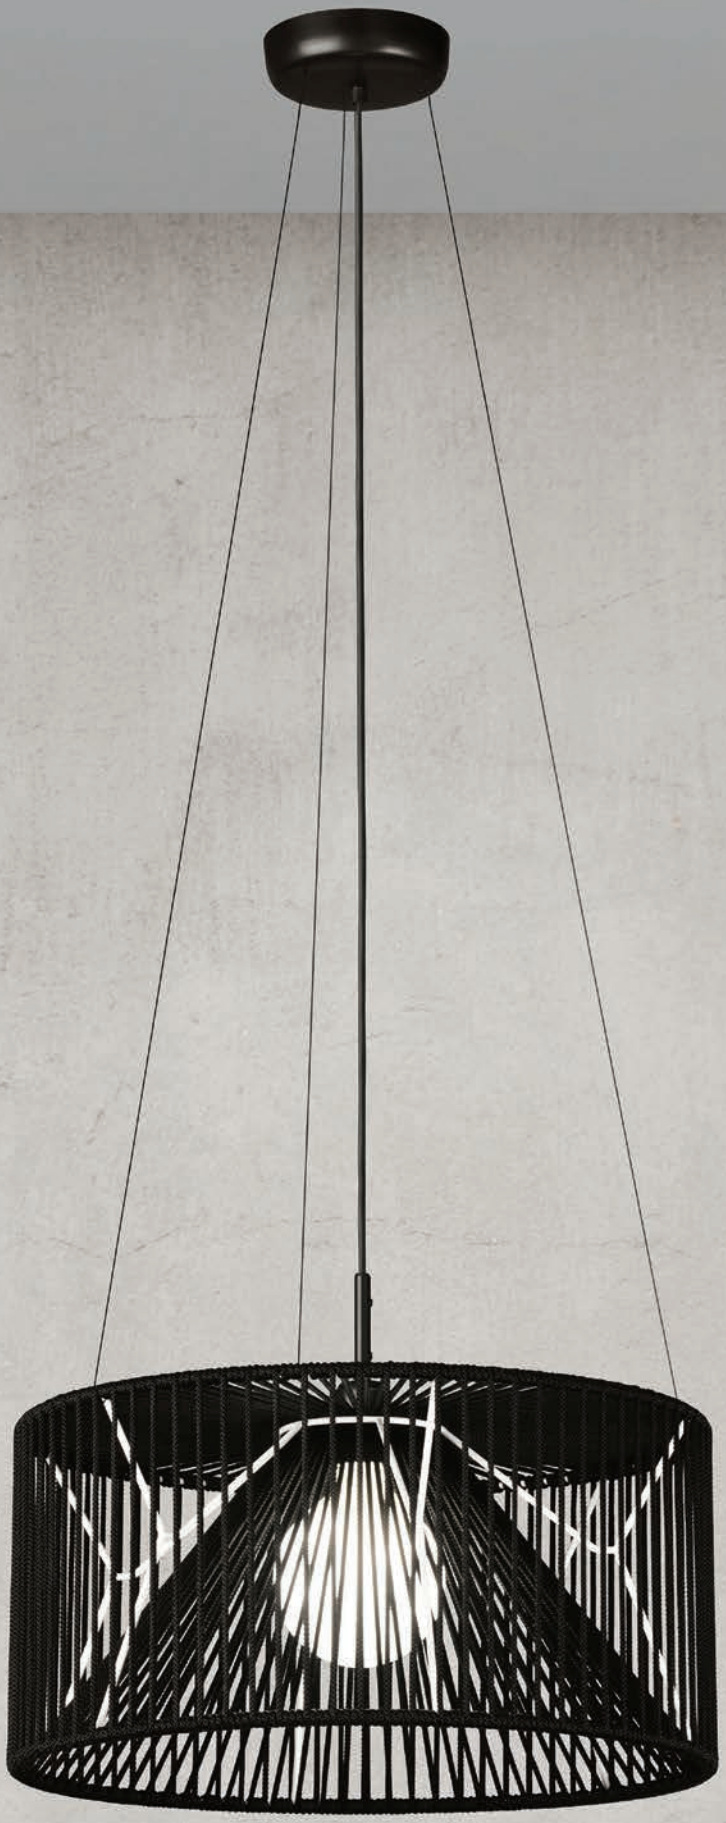

The visible metal structure and a kaleidoscopic weave of decorative cord are the hallmarks of this new proposal of our cord family. With its cylindrical shape, MARIOLA is available in suspensions and ceiling lights in different sizes, as well as in two original floor lamps options.

MORGANA

Inspirada en la conocida bruja de las leyendas del Rey Arturo y el mago Merlín. La bruja Morgana tenía el poder de cambiar de forma, una habilidad que hemos dado a nuestra lámpara. MORGANA se presenta como un diseño cambiante, una lámpara viva con espíritu propio. Un concepto de diseño que te permite jugar con las formas en cualquier momento. Deslizando sus aros verticalmente de forma manual, la lámpara cambia de forma y se transforma.

Inspired by the well-known witch from the legends of King Arthur and Merlin the wizard. The witch Morgana had the power to change shape, an ability that we have given our lamp. MORGANA is presented as a changing design, a living lamp with its own spirit. A lighting concept that allows you to play with shapes whenever you want. By sliding its rings vertically just by using your hands, the lamp changes its shape and transforms.

NELA

Inspirada en los modelos industriales, NELA es un diseño de cuerda trenzada artesanalmente sobre una estructura metálica, la luz que proyecta se ve tamizada entre las cuerdas e ilumina suavemente cualquier tipo de espacio.

Inspired by industrial models, NELA is a handmade braided cord design on a metallic structure, the light it projects is sifted between the cords and gently illuminates any type of space.

ONNA

En este diseño de Nacho Timón, las cuerdas se entrelazan entre si creando un caos organizado a modo de fractal, que se extiende por la estructura metálica generando volúmenes en cada una de sus caras.

In this design by Nacho Timón, the cords intertwine to create an organised chaos as a fractal, which extends across the metal structure, generating volumes on each of its faces.

POMA

Este diseño a base de cuerda trenzada sobre estructura metálica, tiene la particularidad de estar tejida con el nuevo estilo en zig-zag. Además, con este modelo, queremos ofrecer la posibilidad de decorar exteriores, para lo cual los hemos adecuado a ambientes agresivos, reforzando el aislamiento a la corrosión de los distintos elementos y un IP64.

This design, based on braided cord on a metallic structure, has the particularity of being woven with the new zigzag style. In addition, with this model, we want to offer the possibility of decorating exteriors, for which we have adapted them to aggressive environments, reinforcing the isolation to the corrosion of the different elements and an IP64.

UKELELE

Lámpara de diseño étnico que con sus acordes da vida y cromatismo a los espacios más exigentes e innovadores. Las cuerdas, trenzadas artesanalmente en una estructura metálica, tamizan la luz produciendo efectos singulares.

Lamp of ethnic design that with its chords gives life and chromatism to the most demanding and innovative spaces. The cords, handmade braided in a metallic structure, sift the light creating singular effects.

METAL
Collections

Actualmente se percibe una clara convivencia entre la iluminación Técnica y la Decorativa, ya no se trata solo de fabricar lámparas bonitas, sino combinar la luz en una determinada arquitectura, esto se ha conseguido integrando la iluminación Técnica que destaca espacios y enfatiza los elementos de interés, para que en conjunto, se puedan crear ambientes únicos y bien iluminados.

Nowadays there is a clear coexistence between Technical and Decorative lighting, it is no longer just a question of making beautiful lamps but of combining light in a specific architecture. This has been achieved by integrating Technical lighting that highlights spaces and emphasises the elements of interest, so that as a whole, create unique and well-lit atmospheres.

AVATAR PLUS

Sin límites. Esta es la premisa de AVATAR PLUS. Un diseño de suspensión que sigue la línea de nuestros AVATAR pero con su propio y original sistema. Crea formas cerradas o abiertas, y construye recorridos de luz por todo el espacio, orientando y dirigiendo la luz donde sea necesario. Suministramos los drivers necesarios (uno cada 9 metros), hasta la longitud ilimitada que pueda necesitar para su propia composición. Combina perfiles de 1 o 2 metros unidos por rótulas que permiten una continuación articulada y orientable.

No limits! Just your own imagination. AVATAR PLUS is the state-of-the-art design from our existing AVATAR collection, adding a new original system to create polygonal shapes or never ending LED linear designs. AVATAR PLUS allows to twist and orientate each profile individually with bare hands. The required drivers are supplied (one driver for every 9 meters) up to the unlimited length which you may need for your own composition. Profiles of 1 or 2 meters to combine as per your own creativeness and personal unique solution.

AVATAR POP

Este diseño nace de la idea de iluminar espacios amplios con líneas de luz suspendidas en diferentes puntos. AVATAR POP se presenta, no solo como un colgante individual, sino también siguiendo la fórmula KIT que caracteriza a otras colecciones, permitiendo crear conjuntos de hasta 4 perfiles de gran potencia lumínica y combinar los diferentes tamaños de perfiles existentes. Cada colgante posee un sistema manual de orientación de hasta 105°.

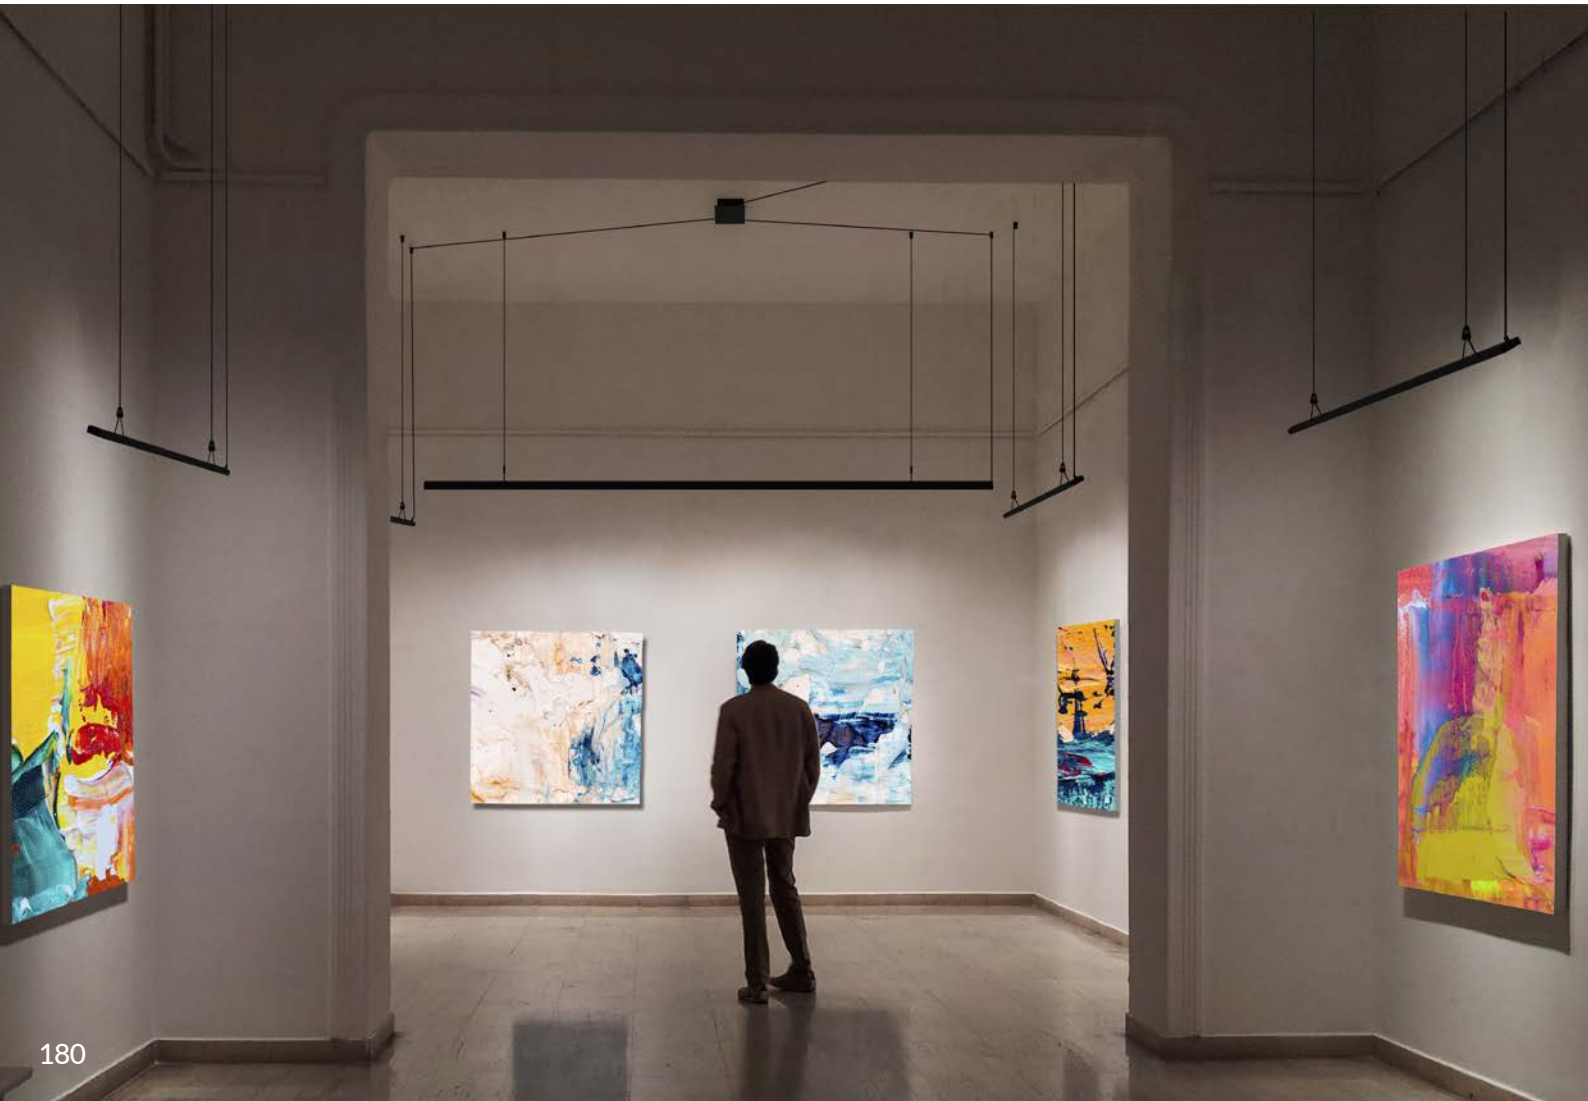

This design is born from the idea of lighting a wide space, with lines of light suspended in different points. AVATAR POP is presented, not only as an individual pendant, but also following the KIT formula that characterizes other collections, allowing the creation of sets up to 4 profiles of high luminous power and combine the different sizes of the existing profiles. Each pendant has a manual orientation system of 105º.

4 x 30021/200 + KIT 30021/4

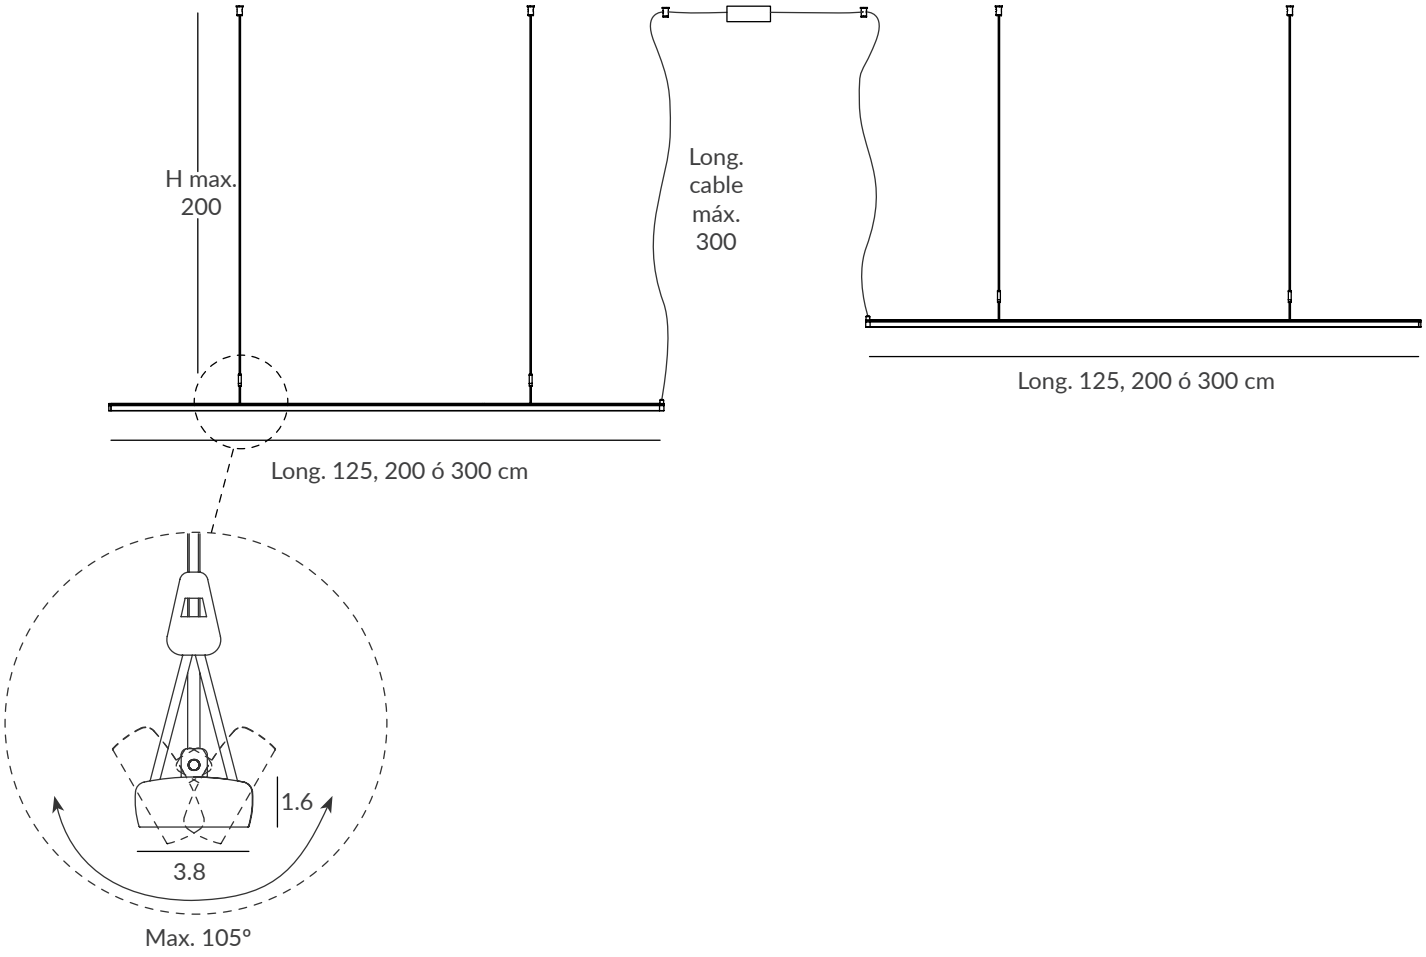

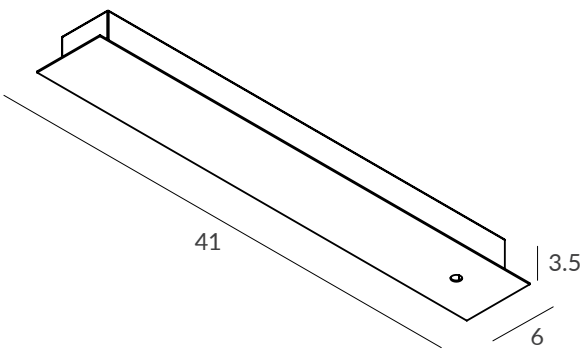

AVATAR POP está compuesto por perfiles de diferentes medidas (125cm - 200cm - 300cm) hasta un máximo de un conjunto total de 9 metros (155W) de perfiles por luminaria + el KIT de instalación apropiado a su potencia. Según los metros que sumen el total de los perfiles, se necesita un KIT con un driver diferente. Los KITs tienen un máximo de 4 salidas. Si se desean más salidas consultar con fábrica.

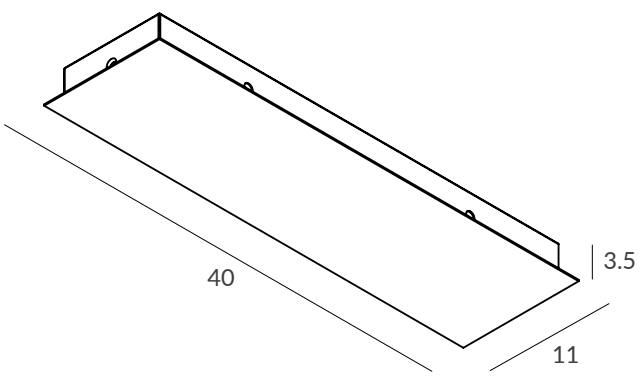

AVATAR POP is composed of profiles of different sizes (125cm - 200cm - 300cm) up to a maximum of a set of 9 meters (155W) of profiles in total per luminaire + the installation KIT appropriate to its power. Depending on the meters of total profiles, it is needed a KIT with a different driver. The KITs have a maximum of 4 outputs. If more outputs are needed, ask factory.

Base KIT 1 (para perfil individual)
Base KIT 1 (for single profile)

Base KITs 2, 3 y 4 (para múltiples perfiles)
Base KIT 2, 3 and 4 (for multiple profiles)

NOTA: En caso de necesitar más perfiles, añadir un florón más / NOTE: In case you need more profiles, add one more canopy.

AVATAR TWIST

Nuestro premiado modelo AVATAR evoluciona. Con un nuevo perfil optimizado, AVATAR TWIST ha sido diseñado con un sistema que permite una rotación de 360º una vez instalado. Y además, aumentamos su longitud hasta 10 metros. Solo tu imaginación pondrá límites a las múltiples posibilidades de este concepto de iluminación.

An evolution of our award-winning AVATAR model. With a new optimised profile, AVATAR TWIST has been created with a system that allows a rotation of 360º once installed. In addition, we have increased its length to 10 meters. Only your imagination will put limits to the multiple possibilities of this lighting concept.

MANOLO

Líneas rectas de luz. Un diseño versátil, que en los modelos colgantes se integran fácilmente en el espacio, generando un efecto flotante al estar suspendido por cable de acero que le dota de una estética original y sugerente. Su perfil de aluminio con difusor acrílico puede ser blanco, negro mate o recubierto de madera de roble natural o nogal. Los colgantes pueden ser lineales que permiten una rotación de 350º, o en disposiciones cuadradas o rectangulares. También disponible como aplique con difusor de luz a ambos lados, para los que opten por las disposiciones horizontales o verticales en pared. En todas sus variantes, el diseño es minimalista lo que permite su integración en ambientes ecléctico y expanden la claridad con sutileza.

Design that combines decorative & architectural inspiration in same fixture. You choose to feel either the warmness of wood, or the modern matt finish in white or black. Slimmest aluminium profile with acrylic diffuser and LED PCB technology. The lineal suspension models have a 350° rotating profile with bare hands, no toolings. Also available suspensions with esquared or rectangular shape, and wall surface solutions with 2 illuminated sides for vertical or horizontal installation.

RITA

Líneas de luz en distintas configuraciones diseñadas con un mismo perfil de aluminio: pértigas con apoyo orientable en el techo, formas triangulares, líneas de longitud variable, diseños curvos y rectos. De fácil orientación y regulación en altura.

Light lines in different configurations designed with the same aluminium profile: poles with adjustable support on the ceiling, triangular shapes, variable length lines, curved and straight designs. Easy orientation and height adjustment.

SENTO

Simplicidad y funcionalidad se unen en este modelo compuesto por campanas metálicas troncocónicas con difusor acrílico. Diseños colgantes individuales y múltiples (hasta 6 pantallas) orientables, apliques con brazos móviles, plafones triples, variedad de diámetros y colores. Le invitamos a descubrir las múltiples posibilidades que ofrece nuestro modelo SENTO.

Simplicity and functionality come together in this model composed of truncated conical metal bells with acrylic diffuser. Individual and multiple hanging designs (up to 6 screens), adjustable wall lights with movable arms, triple ceilings, variety of diameters and colours. We invite you to discover the many possibilities offered by our model SENTO.

STRIPES

Diseño vanguardista en metacrilato sobre marco de aluminio de líneas perpendiculares, de las que emana una gran potencia lumínica. Posibilidades de generar composiciones propias combinando las distintas posiciones. Colección en empotrable, panel y plafón de LED, que pueden crear originales “formas de luz”.

Avant-garde design in methacrylate on an aluminium frame with perpendicular lines from which a great luminous power emanates. Possibility of generating own compositions combining the different positions. Recessed collection, panel and LED ceiling, which can create original “light forms”.

TI-ZAS

Con la extrusión del aluminio y del policarbonato hemos creado estos “trazos de tiza” de diseño minimalista, muy modular y versátil, iluminados mediante un PCB-LED. La distribución de sus líneas nos permite combinaciones múltiples.

With the extrusion of aluminium and polycarbonate we have created these “chalk traces“ at minimalist design, very modular and versatile, illuminated by a PCB-LED. The distribution of their lines allows us multiple combinations. Now also available in wall light.

FABRIC
Collections

Colección basada principalmente en telas elásticas que se adaptan a la forma de la estructura metálica que las sustenta, generando volúmenes poliédricos de caras planas. Disponibles en diversas formas y tamaños.

Collection based mainly on elastic fabrics that adapt to the shape of the metallic structure that supports them, generating polyhedral volumes with flat faces. Available in various shapes and sizes.

BLOCK

BLOCK permite crear y diseñar tu propia composición. Está inspirado en los juegos de bloques para niños, con el objetivo de crear espacios interiores con simetrías y asimetrías. De estructura metálica recubierta de tela blanca elástica, permite configurar espacios y diseños únicos. Las telas son fácilmente desmontables para su lavado o sustitución.

There is nothing nicer than creating, building up and designing your own BLOCK composition for your interior requirements. Every space design you create is unique! BLOCK is inspired by kid's block games. Produced in multi-sized options in order to create interior spaces playing with symmetries and asymmetries. Make up your own BLOCK design! Removable stretching fabric covering a metal structure.

CLEO

Con su pantalla de lino se asemeja a un lienzo tensado, de líneas rectas y simples con profundidad piramidal. Su sencillez favorece el confort visual.

Linen decorated PVC lampshade with non visible structure. Warm light of traditional lampshades with innovative pyramidal design, inspired in painters canvas.

CLONE

Inspirada en la perfecta composición de una colmena, esta estructura metálica recubierta de tela blanca elástica puede instalarse como una sola pieza o pueden 'clonarse', conectándolas y creando múltiples combinaciones.

The perfect composition of a bee-house inspired CLONE. You may propose a single piece, or connect multiple of them and pieces and create never-ending solutions for any interior, personalizing each space with your own composition. Removable stretching fabric covering a metal frame. Suitable for horizontal, vertical or sloping surfaces.

POLARIS

La tela elástica adquiere una forma facetada recubriendo las líneas que forman su estructura metálica. Permite realizar composiciones que envuelven la estancia en un ambiente estelar. Es adaptable a todo tipo de paredes y techos. Se pueden combinar de diferentes tamaños y crear una sensación de intensa y de sugerente claridad.

Play and design with stars, with different surface compositions suitable for any kind of ceiling, wall or sloping ceilings. Range including also suspension, floor & table lamps. You may combine different POLARIS, different sizes and shapes. Removable stretching fabric covering a metal estructure.

TANA

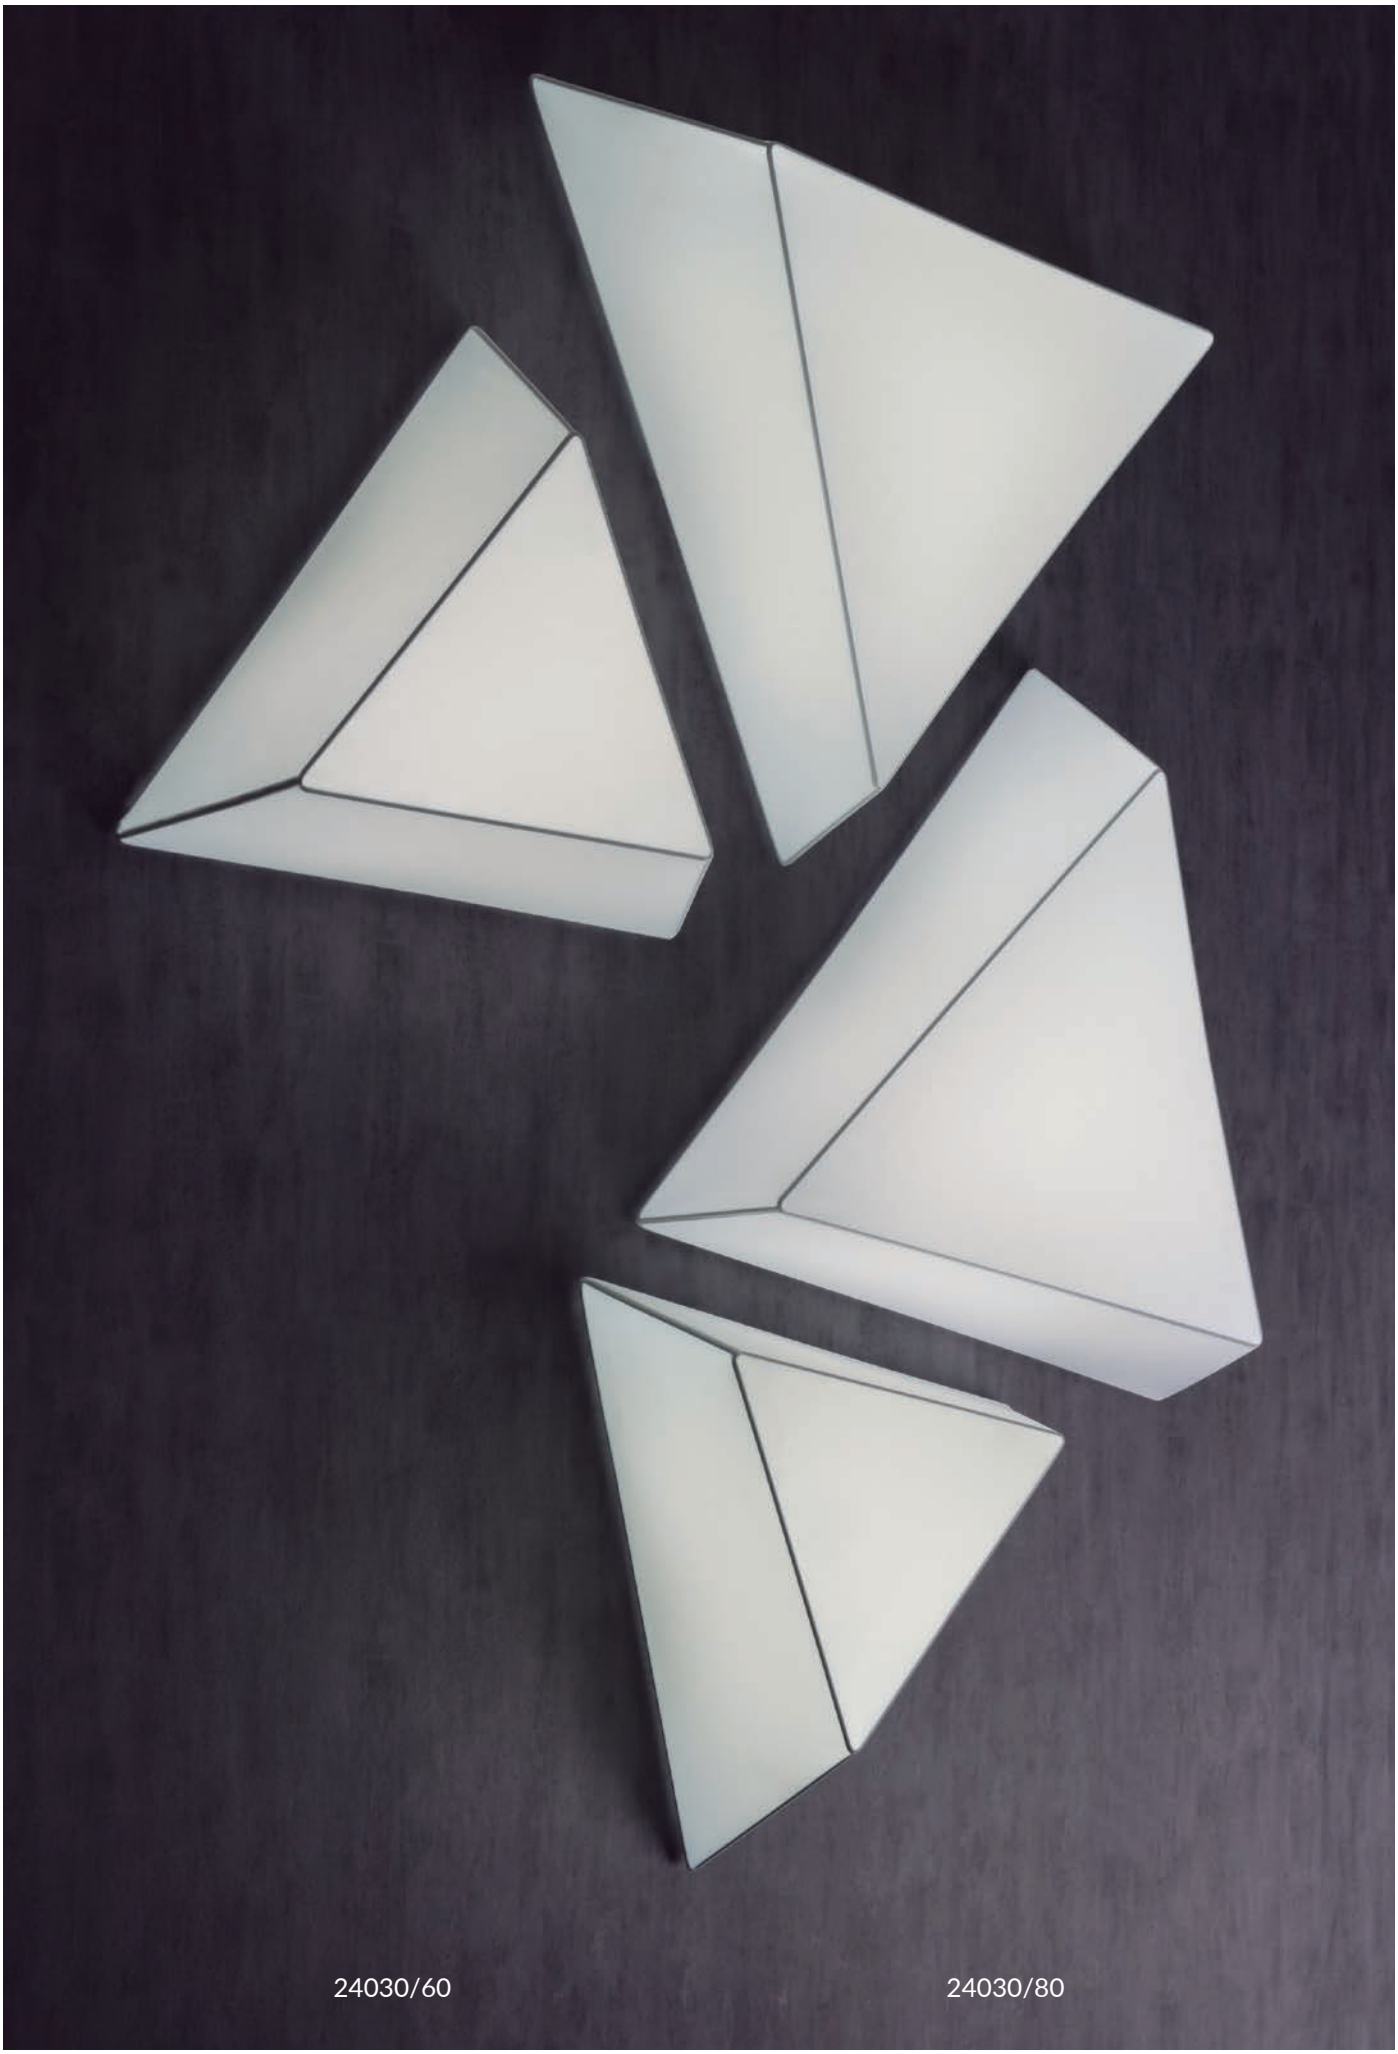

El triángulo es el elemento básico que invita a realizar variadas composiciones geométricas. Su estructura metálica envuelta de tela elástica lavable favorece su durabilidad y confiere una gran capacidad lumínica.

Create and design your own personal TANA composition with its your triangular portions. Make up your interior unique atmosphere! Produced in 2 sizes in order to create never-ending polygonal compositions. Suitable on any surface, vertical, horizontal or sloping. Removable stretching fabric covering a metal frame.

WOOD
Collection

La madera es la materia prima más ecológica, totalmente reciclable y la más sostenible. Con ella presentamos dos diseños de líneas sencillas, compatibles con cualquier estilo para iluminar cualquier espacio.

Wood is the most ecological raw material, totally recyclable and the most sustainable. With it we present two designs of simple lines, compatible with any style and to illuminate any space.

NATURE

La belleza y pureza de una sólida madera de haya, cálida y natural, sin bordes afilados, ni interferencias artificiales. En perfecta combinación con un cristal opal. Naturaleza en estado puro que permite que la luz fluya.

Wood, always in fashion. The beauty and pureness of solid beech. Without screws, without sharp edges, without artificial interferences, just natural warm wood. Pure NATURE. Solid natural wood with opal glass diffuser.

CONDICIONES, GARANTÍAS Y MANTENIMIENTO
Conditions, Guarantee and Maintenance

FM ILUMINACION, S.L.U. se reserva el derecho de efectuar modificaciones en los modelos del presente catálogo, con el fin de mejorar sus características de diseño, su seguridad o sus funciones luminotécnicas.

F.M ILUMINACIÓN, S.L.U. reserves the right to make any changes it believes are beneficial to the products of the present catalogue., with the aim to improve the characteristics, safety or lighting applications.

GARANTÍA/ *GUARANTEE*

El fabricante entrega junto a los equipos una garantía que asegura el correcto funcionamiento del equipo y posibles reparaciones o suministro de recambios del modelo debidos a defectos de fabricación durante 3 años desde la fecha de entrega. Se excluyen consumibles como telas elásticas, bombillas... que será de 2 años.

Manufacturer guarantees the proper functioning of this equipment, repairs or spare parts of the model owing to faulty manufacture during 3 years after the surrender date. Responsibility will not be accepted, however, for damages or injury caused through misuse.

MANTENIMIENTO DE LUMINARIAS DE TELA / *FABRIC LUMINAIRES MAINTENANCE:*

Antes de colocar la tela, limpiar la estructura metálica, para su colocación utilizar los guantes que se incorporan. En caso de que la tela quede algo arrugada, la puede planchar antes de colocarla. Lavar la tela por separado, utilizar jabones neutros y agua fría. Disponemos de telas de recambio para todos los modelos.

Clean the metal frame before placing the fabric. In case the fabric is wrinkled, iron it before placing it. To wash the fabric separately with neutral soaps and cool water. Spare fabrics available for all models.

INFORMACIÓN TÉCNICA / *TECHNICAL INFORMATION:*
Drivers Regulables LED / *Dimmable drivers for LED*

Ⓥ Regulación analógica de 0-10V / *Analogical regulation system 0-10v :*
Mediante un potenciómetro conectando dos hilos al DRIVER, transmite una señal que va de 0 a 10V. Siendo 0V apagado y 10V el máximo de luminosidad. / By means of a potentiometer connecting two wires to the DRIVER, it transmits a signal that goes from 0 to 10V. Being 0V off and 10V the maximum brightness.

Ⓟ Regulación PUSH / *PUSH Regulation system*
La regulación se produce a través de un pulsador normalmente abierto, que mediante un solo hilo conectado al DRIVER desde el pulsador, regula la intensidad de luz, además permite su apagado completo mediante una pulsación rápida, y se regulamediante una pulsación larga que sube o baja la intensidad alternativamente. / Light intensity regulation occurs through the use of a "normally open" type push button and it is the easiest type of regulation available on the market, only one push button for regulation (turn off with a rapid pulse, and is regulated by a long pulsation), only one wire from de push buttom to the driver.

Ⓓ Regulación DALI / *Digital regulation system DALI*
Mediante el estándar de regulación digital DALI (Digital Addressable Lighting Interface). Controlado mediante una centralita, permite un control total de la instalación, memorizar escenarios de luz, etc. / This interface has been jointly developed by the most important producers of electronic driver s to create a standard regulation for the lighting engineering industry all over the world.

Ⓡ Regulación Remota / *Remote control regulation system*
La regulación se realiza mediante un mando a distancia, que nos permite controlar la temperatura de color de la luz (en grados Kelvin) o su intensidad. / The radio remote control management system utilizes electromagnetic waves to transmit the signals. Dimmable Kelvins and Power.

Ⓛⓒ Regulación por corte de fase / *Leading & Trailing-edge dimming LC*
La regulación se realiza mediante un regulador de corte al inicio y/o al final de fase. No necesita hilos adicionales dirigidos al DRIVER, ya que es un regulador en serie colocado entre la línea de alimentación y el DRIVER. / This type of controlling is accomplished without any need for an additional control wire. It involves connecting a dimmer in series between one of the mains wire and the equipment.

Ⓒ Regulación Casambi / *Casambi regulation system*
La regulación Casambi consiste en tecnología inalámbrica avanzada para controlar sistemas de iluminación a través de bluetooth, disponible para smartphones, tablets y smartwatch. En el caso de instalaciones con bombillas, estas han de ser regulables./ Casambi dimming is advanced wireless technology for controlling lighting systems via Bluetooth, available for smartphones, tablets and smartwatches. In case of installations with light bulbs, these must be dimmable.

SELLOS DE CALIDAD Y RESPONSABILIDAD SOCIAL CORPORATIVA
QUALITY GUARANTEE AND CORPORATE SOCIAL RESPONSIBILITY

Nuestro objetivo es proporcionar la mejor calidad tanto a nuestros productos como a nuestros servicios, intentando conseguir la máxima satisfacción al cliente, nos avalan los sellos de calidad AENOR. Nuestra Responsabilidad Social Corporativa está basada en la contribución activa y voluntaria al mejoramiento social, económico y ambiental para lo cual colaboramos con ONGs algunas de reconocido prestigio como son con Médicos del Mundo e Intermon Oxfam y otras que hacen una labor más modesta pero importante, como es Creer en ellas, que busca dar respuesta a una realidad cotidiana de violencia y vulnerabilidad que sufren jóvenes y adolescentes en la R.D del Congo. Nuestro equipo humano trabaja con el máximo respeto hacia elmedioambiente, mejorando nuestros procesos productivos con ese fin y, sobre todo, promovemos el ahorro energético. Es nuestrocompromiso con una sólida ética laboral, integridad y honestidad.

Our aim is to provide the best quality both to our products and our services, trying to achieve maximum customer satisfaction, this objective is backed by AENOR and its quality stamps we have got. Our Corporate Social Responsibility is based on the active and voluntary contribution to social, economic and environmental improvement for which we collaborate with prestigious NGOs such as Doctors of the Word and Intermon Oxfam and others that do a more modest but important work, such as "Creer en ellas", which seeks to respond to a daily reality of violence and vulnerability suffered by young women and adolescents in the D.R. Congo. Our human team is working with the highest respect for the environment, improving our production processes and above all we promote energy saving. It's our commitment to a solid work ethic, integrity and honesty.
