Luminara Collection

Luminara: ovvero la festa della luce che ridisegna le facciate dei palazzi sui lungarni di Pisa, ricreando l'architettura della città.

Luminara: un marchio nato dalla volontà di esplorare nuovi canoni estetici e di sperimentare forme di illuminazione più vicine all'uomo, capaci di riscaldare l'animo e illuminare la mente, e non solo l'ambiente. Le lampade Luminara sono opere speciali, veri e propri oggetti d'arte che trattengono la loro originalità da un'idea di design sentimentale e poetico. La loro attualità è frutto di una interpretazione moderna di riferimenti culturali e suggestioni del passato, specialmente gli anni '60 e '70. Le lampade Luminara sono opere creative di una bellezza contemporanea e insieme carica di memoria.

Luminara: the light festival of Pisa which redraws the facade of the palaces along the Lungarno, recreating the town architecture.

Luminara: a brand born to explore materials, rewrite aesthetic canons, experiment form of lighting closer to man which are able to warm heart and illuminate mind, and not just the environment.

Luminara lamps are special works, art pieces that draw their originality from a sentimental and poetic design idea. Their modern appearance is the result of a modern interpretation of cultural references and suggestions of the past, in particular the 60S and 70S. Luminara lamps are creative projects of a contemporary beauty filled with memories.

Classic Collection

Raggiungere l'estetica partendo da un'idea totale di qualità costruttiva, fatta di soli materiali nobili e di soluzioni tecnicamente evolute, raggiungere la qualità costruttiva partendo da un'idea progettuale forte, fatta di ricerca sulla forma, sulla materia e sulla filosofia dell'abitare. La collezione Classic si pone al centro di questo doppio flusso di energia e nasce dall'incontro di un'azienda dall'identità precisa e dal pensiero dei più famosi designers.

It's object is reaching the aesthetics starting from the quality of construction, from noble materials and advanced technological solutions. There is a strong planning thought behind this, researching the form, the substance and the philosophy of interior design. The classic collection stands right in the middle of this double stream of energy and originates from the encounter between a manufacturer of strong identity and the ideas of famous designers.
