SHAPES

www.cprnhomood.it

The creation of a domestic ambience goes through the research of the equilibrium among inner architectures and furniture.

The ambitious achievement of SHAPES is to make our inner instinct feel like the main character of every home environment, by following the time course and the feelings. So, all the corners and the edges got round and beveled for receiving the light's sapient game, for inspiring calm and serenity and for stimulating social relations and conviviality.

The shape is also essence: the usage of smooth lines, colours and materials benefit our mind gifting us with personal spaces which can grant wellness to us and to the people we care about.

*Sometimes words are not enough.
That's why colours are needed.
And the shapes.
And the notes.
And the emotions.*

*Creativity arises out of the tension
between spontaneity and limitations,
the latter (like the river banks)
forcing the spontaneity into
the various forms which are essential
to the work of art or poem.*
