

MANUEL CANOVAS

Paris

Tissus et Passementerie

Eclecticism & timelessness combine

Maison Manuel Canovas emphasizes luxury through its latest collection of textiles, taking us on a tour around the world in which eclecticism and timelessness combine with present-day influences.

Exquisite antique textile documents, originating from Central Asia, Japan and China, have been thoroughly revisited by the House's unique savoir-faire and complemented by a range high end woven plains.

A joyful collection of passementerie offers the perfect finishing touch to plain and patterned fabric alike: shaded fringes, embroidered braids, playful and delicate piping; all inspired by well-travelled style or classical French beauty.
