T_01

Cucina lineare e moderna si adatta ai target più elevati grazie all'elegante combinazione delle diverse finiture.
La grande isola centrale è caratterizzata da una composizione a due diverse altezze: il piano snack qui diventa tavolo.
La linearità delle colonne è interrotta da un gioco di pensili a giorno che si inseriscono tra i forni.
Il living, che richiama le finiture della cucina, propone nuovi contrasti con i pensili in vetro e telaio metal.

This modern and linear kitchen fits the higher targets thanks to the elegant combination of different finishes. The large central island is caracterized by a composition with two different highs: the snack top here becomes a table.
The linearity of the tall units is interrupted by a system of open wall units that are placed between the ovens.
The living room, which recalls the finishes of the kitchen, proposes new contrasts with wall units in glass and metal frame.

Cuisine linéaire et moderne qui s'adapte aux cibles les plus élevées grâce à la combinaison élégante des différentes finitions.
Le grand ilot central est caractérisé par une composition à deux hauteurs différentes : le plan snack qui se transforme en table.
La linéarité des colonnes est interrompue par un jeu d'éléments hauts ouverts qui s'insèrent entre les fours.
Le living, qui rappelle les finitions de la cuisine, propose de nouveaux contrastes avec les éléments hauts en verre et le châssis en métal.

T_02

La forza espressiva del contrasto tra bianco e nero delle texture incontra la nota calda della finitura melaminico legno old naturale.
La leggerezza dei Modus a parete, la praticità dell'isola centrale dalla dimensione importante, il bancone ad altezza tavolo e la capienza delle colonne con frigo largo 75 cm conferiscono a tutto l'ambiente una funzionalità ad alto valore estetico.
Separato ma non nascosto il living si integra nel contesto in armonia con la cucina per colori e finiture.

The expressive power of the contrast between black and white textures meets the warm notes of the "natural old" wood melamine finish.
The lightness of the "Modus wall system", the practicality of the large central island, the counter at table height and the capacity of the tall units with a 75 cm wide fridge convey a highly functional and aesthetic value to the entire environment.
Separated but not hidden, the living room is integrated in the context in harmony with the kitchen for colours and fines.

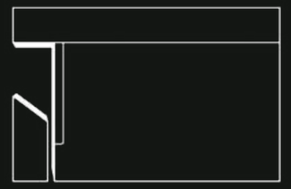

La force expressive du contraste entre le blanc et le noir des textures s'allie à la note chaude de la finition en mélaminé bois old naturel.
La légèreté des Modus au mur, le caractère pratique de l'ilot central de dimension importante, le comptoir à hauteur de table et la capacité des colonnes avec réfrigérateur de 75 cm de largeur, confèrent à toute l'ambiance une fonctionnalité de grande valeur esthétique.
Séparé mais non dissimulé, le living s'intègre dans le contexte en harmonie avec la cuisine , par ses couleurs et ses finitions.

T_03

Il rigore formale dell'isola in hpl Blimè e delle colonne laccate metal semilucido lead crome si incontra con la calda sensazione del rovere Club hpl dell'angolo snack. Questa combinazione di materiali e forme crea nel contempo un ambiente funzionale e conviviale.
Le grandi colonne nel retro dell'isola nascondono forni e accessori tecnologici da cucina. Con le ante aperte e posizionate sui fianchi queste colonne si trasformano in una praticissima zona operativa.
Scaffali e colonne vetro aumentano la già importante capacità contenitiva della cucina oltre a conferire nel contesto un piacevole aspetto urban.

The formal rigor of the island in "Blimè hpl" and the "semi-gloss lead crome" metal lacquered tall units meets the warm feeling of the "Club oak hpl" of the snack corner. This combination of materials and shapes creates at the same time a functional and convivial environment.
The large tall units located in the back of the island hide ovens and technological kitchen accessories. With the doors open and situated on the sides, these tall units become a practical working area.
Shelves and glass tall units give a pleasant urban look to the kitchen and increase its already important storage capacity.

La rigueur formelle de l'ilot hpl Blimè et des colonnes laquées métal semi-brillant lead chrome s'allie à la sensation chaude du chêne rouvre Club hpl du coin snack. Cette combinaison de matériaux et de formes crée une ambiance à la fois fonctionnelle et conviviale.
Les grandes colonnes à l'arrière de l'ilot cachent des fours et des accessoires technologiques de cuisine. Avec les portes ouvertes et positionnées sur les côtés, ces colonnes se transforment en une zone opérationnelle extrêmement pratique.
Des étagères et des colonnes de verre augmentent la capacité de rangement déjà importante, en plus de conférer au contexte un agréable aspect urban.

T_04

Con rigoroso design dettato dai toni scuri del vetro e del Fenix, entrambi neri, e impreziosito dal rovere nordico nodato questo ambiente si articola in due aree distinte ma complementari: da un lato il living più conviviale ma con ampi spazi contenitivi e dall'altro la cucina avvolgente e ergonomica, evoluta con inediti moduli da 105 e 75 e nuove attrezzature sotto pensile Stripes.
Due ambienti distinti ma perfettamente integrati in sintonia di colori e in armonia con un vissuto privato e famigliare e nel contempo sociale.

With a rigorous design dictated by the dark tones of glass and "Fenix", both black, and adorned with "nodato nordic colour" oak, this environment is divided into two distinct but complementary areas: on the one hand the living, more convivial but with plenty of storage space, on the other hand the kitchen, cosy and ergonomic, evolved with 105 and 75 new modules and new equipment under the wall unit "Stripes". Two distinct but perfectly integrated environments in harmony with colours and with a private, family and, at the same time, social life.

Avec un design rigoureux dicté par les tons foncés du verre et du Fenix, tous deux noirs et enrichis par le chêne rouvre nordique noué, cette ambiance s'articule en deux zones distinctes mais complémentaires : d'un côté le living plus convivial mais avec de vastes espaces de rangement et de l'autre, la cuisine chaleureuse et ergonomique, évoluée avec des modules inédits de 105 et 75, et de nouveaux équipements sous éléments hauts Stripes.
Deux ambiances distinctes mais parfaitement intégrées en syntonie de couleurs et en harmonie avec une à atmosphère à la fois privée et familiale que sociale.

T_05

In questo ambiente, dall'immagine ricercata e contemporanea, dove tutto ruota intorno ad un'isola centrale, troviamo lateralmente due diverse soluzioni di colonne capienti e molto alte, capaci di creare un'atmosfera straordinaria di grande effetto.
Il piano lavoro in hpl finitura Cuba, corredato dell'elemento Modus a ponte, si sviluppa su due livelli per distinguere la zona operativa da quella del piano cottura e lavello.
Lo stile elegante del living, che ripropone le stesse finiture della cucina, completa e racchiude l'immagine.

In this atmosphere, with its refined and contemporary image, where everything revolves around a central island, we can find two different solutions of capacious and very high tall units on the sides which are able to create an extraordinary atmosphere of great effect.
The worktop in "Cuba hpl" finish, equipped with the "Modus bridge" element, is developed on two levels in order to distinguish the working area from that of the hob and sink.
The elegant style of the living room, which offers the same finishes of the kitchen, completes and encloses the image.

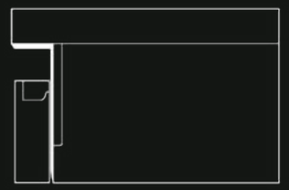

Dans cette ambiance, à l'image recherchée et contemporaine où tout tourne autour d'un ilot central, nous trouvons sur le côté deux solutions différentes de colonnes très hautes et vastes, en mesure de créer une extraordinaire atmosphère, de grand effet.
Le plan de travail en hpl finition Cuba, équipé de l'élément Modus à pont, se développe sur deux niveaux pour distinguer la zone opérationnelle de celle du plan cuisson et évier.
Le style élégant du living, qui repropose les mêmes finitions que la cuisine, complète et représente l'image.

Composizione basata su un layout essenziale si articola intorno alla preziosa isola in Laminam calce grigio sottolineata da basi e bancone in legno antico old abete multicolor. Sono della stessa finitura le colonne che fanno da quinta scenica all'isola.
Nella zona del tavolo alte colonne laccate in finitura metal creano un piacevole contrasto di colori con la matericità del legno antico scuro.
Ritroviamo la finitura metal anche nel pratico pensile contenitore dei forni che si inserisce armoniosamente dietro l'isola tra la libreria

This composition, based on an essential layout, is built around the precious island in "Laminam calce grigio" underlined by base units and counter in "old abete multicolor" wood. The finishes that serve as background to the island are made of the same finish.
In the table area, tall units lacquered in metal finish create a pleasant contrast of colours with the materiality of dark antique wood.
We can also find the metal finish in the practical oven storage wall unit which fits harmoniously behind the island in the bookcase.

Composition basée sur un layout essentiel qui s'articule autour du précieux ilot en Laminam calce grigio souligné par les éléments bas et le comptoir en bois ancien multicolore. Les colonnes qui encadrent superbement l'ilot sont de la même finition.
Dans la zone de la table, de hautes colonnes laquées en finition métal créent un agréable contraste de couleurs avec le caractère matérique du bois ancien foncé.
Nous retrouvons également la finition métal dans l'élément haut de rangement pratique des fours qui s'insère harmonieusement derrière l'ilot, dans la bibliothèque.

Funzionalità ad alto valore estetico: la pratica isola centrale con top in acciaio e frontali in legno antico fa da protagonista in un ambiente dal carattere prezioso.
La ricerca del contrasto delle finiture qui diventa una scelta stilistica: il rilassante colore del verde comodoro del Fenix, il rigore dell'acciaio inox e il calore del legno antico ascia si fondono in un'unica immagine dal tono elegante e raffinato.
Le colonne attrezzate che abbracciano ad angolo le architetture dell'ambiente sono espressione di grande flessibilità dei moduli compositivi.

Functionality with high aesthetic value: the practical central island with steel top and antique wood fronts is the protagonist in an environment with a precious texture.
Here the search for the finishes contrast becomes a stylistic choice: the relaxing "comodoro" green of "Fenix", the rigor of stainless steel and the warmth of "oak old ascia" wood melt into a single image with an elegant and refined tone.
The equipped tall units that embrace the wall angle of the room are expression of great flexibility of the compositional modules.

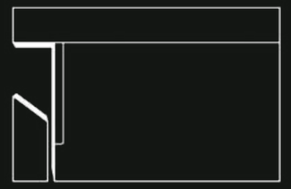

Fonctionnalité de grande valeur esthétique : l'îlot central pratique avec le plan en acier et les façades en bois ancien est l'élément central dans une ambiance au caractère haut de gamme.
La recherche du contraste des finitions qui devient un choix stylistique : le vert comodoro du Fenix relaxant, la rigueur de l'acier inox et la chaleur du bois ancien ascia se fondent en une unique image au ton élégant et raffiné.
Les colonnes équipées qui encadrent dans les angles les architectures de l'ambiance, sont l'expression d'une grande flexibilité des modules de composition.

T_08

Qui troviamo un impianto di grande effetto dove la finitura metal semilucido rame “la fa da padrona”.
Cucina capiente e pratica è caratterizzata dalla sovrapposizione dei pensili a doppia profondità che, insieme alle colonne, creano una sorta di cornice intorno alle basi dove l’isola con bancone completa il quadro d’autore.
Ritroviamo la freschezza e la luminosità dei materiali e l’eleganza delle forme anche nel soggiorno che si colloca lateralmente alla cucina in un elegante “open space”.

Here we can find an impressive system where the “semi-gloss rame” metal lacquared finish “takes the lead”.
This capacious and practical kitchen is characterized by the overlapping of the double-deep wall units that, together with the tall units, create a kind of frame around the base units where the island with counter completes the picture.
We rediscover the freshness, the lightness of the materials and the elegance of the shapes also in the living room which is located sideways to the kitchen in an elegant “open space”.

Nous trouvons ici une installation de grand effet où la finition métal semi-brillant cuivre règne en maitre.
La vaste cuisine pratique est caractérisée par la superposition des éléments hauts à double profondeur qui, avec les colonnes, créent une sorte de cadre autour des éléments bas où l’îlot avec le comptoir complète le tableau d’auteur.
Nous retrouvons la fraicheur et la luminosité des matériaux et l’élégance des formes également dans le séjour qui se situe à côté de la cuisine, en un élégant “open space”.

T_09

Giovanile, ma nel contempo raffinata questa, cucina mostra personalità dinamica, freschezza nei colori e nelle soluzioni compositive.
Il rosso Japur del Fenix dei pannelli e delle colonne larghe 75 cm ad ampia capienza spicca sui toni più pacati dell'hpl Akita e del rovere cenere nodato e rende tutto l'ambiente molto giocoso. Si crea così in cucina un gioco di colori che da spunto a soluzioni originali come quelle della cappa rivestita da una graziosa carta da parati con dettagli rossi.
Il living riprende i toni grigi presenti nella cucina lasciando spazio agli altri arredi di esprimersi con fantasia di colori.

Youthful but at the same time refined, this kitchen shows dynamic personality, freshness in colours and compositional solutions.
The "Japur " red of the "Fenix" panels and of the 75 cm wide tall units with large capacity stands out in the softer tones of the "hpl Akita" and of the "nodato ash colour" oak and makes the whole environment very playful. This creates a play of colours in the kitchen that is a starting point for original solutions such as those of the hood covered by a nice wallpaper with red details.
The living room reproduces the grey tones present in the kitchen, leaving space for the other furnishings to express themselves with a fantasy of colours.

A la fois jeune et raffinée, cette cuisine exprime une personnalité dynamique, fraiche dans les couleurs et dans les solutions de composition.
Le rouge Japur du Fenix des panneaux et des colonnes de 75 cm de largeur aux grandes capacités de rangement, ressort sur les tons plus doux de l'hpl akita et du chêne rouvre cendre noué et rend toute l'ambiance très ludique. C'est ainsi que se crée dans la cuisine un jeu de couleurs qui génèrent des solutions originales comme celles de la hotte revêtue par un élégante papier peint aux détails rouges.
Le living reprend les tons gris présents dans la cuisine en permettant aux autres ameublements de cet espace d'exprimer leur imagination avec les couleurs.

T_10

In una atmosfera coinvolgente la cucina si propone con anta telaio in rovere impiallacciato in due diverse finiture. Elementi rigorosamente geometrici danno vita ad una composizione dagli spiccati toni urban dove l'isola dalle dimensioni generose e la cucina vengono uniti da un prezioso banco snack in legno antico saponato.
Le cantinette con i vini in vista, la libreria Size colma di articoli da cucina e non solo e lo snack in legno antico con gli sgabelli in ferro urban, esaltano la sensazione di convivialità di tutto l'ambiente.

In an immersive atmosphere the kitchen is proposed with a framed door in oak veneer in two different finishes.
Strictly geometric elements create a composition with strong urban tones where the generously sized island and the kitchen are kept together by a precious snack top in "old abete saponato" wood.
The wine fridge cellars in which you can see the wines, the "Size" bookcase full of kitchen items and much more, and the snack in antique wood with urban iron stools, enhance the feeling of conviviality of the whole environment.

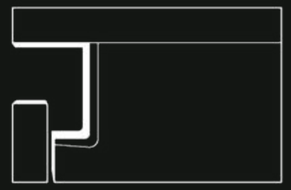

Dans une atmosphère accueillante, la cuisine se propose avec une porte châssis en chêne rouvre plaqué dans deux finitions différentes.
Des éléments rigoureusement géométriques donnent vie à une composition aux tons urban prononcés où l'ilot aux dimensions généreuses et la cuisine sont unis par un superbe comptoir snack en bois ancien savonné.
Les caves à vin avec les bouteilles visibles, la bibliothèque Size remplie d'articles de cuisine et pas seulement, et le snack en bois ancien avec les tabourets en fer urban, exaltent la sensation de convivialité de toute l'ambiance.

T_11

La cucina si sviluppa a ferro di cavallo con ampie superfici di lavoro, perfetta per adempiere in modo ergonomico ai compiti di lavaggio e preparazione dei cibi.
Le calde tonalità del legno antico quercia su pannelli, mensole e bancone rendono esclusiva l'interpretazione di questo ambiente.
Spiccano nel contesto: la libreria Size con struttura metallica laterale alle colonne, le basi retro penisola altezza cm 96, che creano una separazione della zona lavoro, e l'inedito utilizzo della stessa libreria Size sotto il bancone quadrato.

The horseshoe-shaped kitchen with large work surfaces is perfect for ergonomically fulfilling the tasks of washing and preparing food.
The warm tones of the "old quercia" wood on panels, shelves and counter make the interpretation of this environment exclusive.
Stand out in the context: the "Size" bookcase with a metal structure lateral to the tall units, the 96 cm high base units, situated behind the peninsula, that create a separation of the work area, and the new use of the same "Size" bookcase under the square counter.

La cuisine se développe en fer à cheval avec de vastes surfaces de travail, parfaite pour effectuer de façon ergonomique les tâches de vaisselle et de préparation des aliments.
Les tonalités chaudes du bois ancien de chêne sur les panneaux, les tablettes et le comptoir rendent exclusive l'interprétation de cette ambiance.
Les éléments qui ressortent sont : la bibliothèque Size avec une structure métallique à côté des colonnes, les éléments bas à l'arrière de la péninsule de 96 cm de hauteur qui créent une séparation de la zone de travail et l'utilisation inédite de la bibliothèque Size sous le comptoir carré.

T_12

La cucina, nella sua espressione con isola wine bar, permette di organizzare gli spazi in modo versatile secondo le logiche di lavoro degli cheff più esigenti: da un lato abbiamo il pratico piano lavoro con una luminosa zona lavello sotto la finestra, dall'altro abbiamo l'isola bar studiata per il prolungamento del sociale della cucina stessa.
L'anta a telaio delle basi e delle colonne in Arkocell qui si accostata in modo armonioso all'anta in finitura melaminico cemento cenere dei pensili. Il melaminico noce medium dei pannelli, del living e delle madie favorisce un'immagine estremamente elegante a tutto l'ambiente.

The kitchen, in its expression with wine bar island, allows to organize the spaces in a versatile way according to the working logic of the most demanding chefs: on the one hand we can find the practical worktop with a bright sink area under the window, on the other hand we can find the bar island designed to extend the social area of the kitchen itself.
The framed door of the bases and tall units in "Arkocell" is harmoniously matched here with the "ash cement" melamine finish door of the wall units. The "medium walnut" melamine of the panels, of the living and of the cupboards convey an extremely elegant image to the entire environment.

La cuisine, dans son expression avec un ilot wine bar, permet d'organiser les espaces de façon polyvalente, selon les logiques de travail des chefs les plus exigeants : d'un côté nous avons le plan de travail pratique avec une zone évier lumineuse sous la fenêtre, de l'autre, nous avons l'ilot bar étudié pour le prolongement de la vie sociale de la cuisine.
La porte à châssis des éléments bas et des colonnes en Arkocell s'assemble ici, de façon harmonieuse,à la porte en finition mélaminé ciment cendre des éléments hauts.
Le mélaminé noyer medium des panneaux, du living et des huches donnent une image extrêmement élégante à toute l'ambiance.
