For over 40 years, Van Rossum has designed and handmade solid and sustainable furniture from the workshop in Bergharen, the Netherlands.

Exquisite craftsmanship, imaginative forms and a passion for wood are the hallmarks of our designs. Working exclusively with FSC-certified oak and walnut, we cherish the beauty of each piece of timber and specialize in rich textural finishes that honor wood's natural character and longevity.

This new catalogue brings together both new and classic Van Rossum designs, as well as our series of design collaborations with the likes of Andrea Tognon, Christophe Delcourt and Erjan Borren. Fresh additions this year include a new collection of bar table and stools and the free-flowing Kei table and console inspired by French modernist Charlotte Perriand.

Throughout the catalogue, Van Rossum designs are interspersed by images of dahlias by Dutch photographer Winter Vandenbrink. These pictures share our love of natural pattern and form. In a soft, ethereal light, they honor the sense of purity and possibility that we channel with every piece of our furniture.
