Made in Venice

Le richieste di illuminazione si rivolgono sempre più ad un panorama di infinite proposte orientate a stili diversi, ognuno caratterizzato da design, materiali e finiture ben definiti; tra le tante proposte spesso è impegnativo trovare soluzioni originali, creative e in perfetta armonia con l'ambiente da arredare.

Per **Patrizia Volpato**, la soluzione alle richieste del cliente è un must da perseguire e raggiungere rapidamente, trovando giuste soluzioni per dare la migliore luce al progetto ricevuto.

Per questo la sua produzione si apre a 360° e può trovare risposte alle varie esigenze del committente per la eterogeneità delle sue proposte raccolte nei tre cataloghi: **Collections**, **Murano Glass** e **Custom Made**.

- **Collections**, è la base della produzione Patrizia Volpato, una raccolta con proposte creative, di alta qualità e dal design esclusivo, la lampada non è più solo un apparecchio di illuminazione ma un complemento che si integra e si mette in giusta luce all'intero ambiente, diventando artefice della sua massima valorizzazione.

- **Murano Glass**, il "classico del classico", proposte dove specchi, vetri e cristalli con i loro preziosi riflessi di luce, sono gli attori principali.

Specchi veneziani in finissimo vetro di Murano con cornici in audaci e preziose fantasie frutto del sapiente lavoro nelle fornaci veneziane dai celebri maestri vetrai. Cà Rezzonico, il vetro di Murano trova in questa collezione di lampadari classici veneziani forme armoniose impreziosite dai finissimi dettagli di foglie e ricci con lavorazione artigianale unica al mondo, i bracci sono formati da tanti piccoli pezzi di vetro che si completano con fiori in pasta colorata "Maria Teresa", uno stile dal sapore antico, un corpo metallico con un rivestimento in vetro di Murano e gocce in cristallo che vanno ad arricchire il lampadario dando vita ad una vera e propria cascata di luci. È un oggetto di vero e proprio prestigio, in grado di rendere speciale una stanza.

- **Custom Made**, ... "se lo puoi immaginare noi lo possiamo realizzare" ...non solo uno slogan ma una realtà ben documentata dai tanti progetti "custom made" prodotti in tutto il mondo con acquisita esperienza sulle normative e certificazioni richieste dai diversi paesi (UL, Saso, CCC, ...) realizzati per aziende del mobile, studi di architettura, hotel, residenze private, punti vendita retail, per il settore alberghiero e navale.

Un ufficio tecnico particolarmente strutturato per la progettazione con modellazione 3D e render foto realistici e la notevole esperienza del reparto produttivo sulla conoscenza dei materiali e sui loro processi di lavorazione, permette a **Patrizia Volpato** di proporsi come produttore di elementi illuminanti decorativi anche molto diversi tra loro per tipologie di stile (dal classico al moderno) e per varietà di materiali impiegati (metalli, fusioni, vetri, cristalli, metacrilati, Led, fibre ottiche, teli Barrisol ecc.).

It is often difficult to find lighting solutions to match and compliment a particular style or décor.

Custom lighting products are created to address this challenge. Lighting can be made from a wide range of materials, components and finishes to suit the tastes of the client and the environment it will be used in.

*At **Patrizia Volpato** we believe that addressing the client's needs is the key to successful collaboration. We make the effort to quickly understand these needs and to incorporate them into the design of the products. For this reason, our collections are wide-ranging and this can be seen in our three catalogues:*

Collections, Murano Glass and Custom Made.

*- **Collections**, this is the catalogue of Patrizia Volpato's standard range. These collections demonstrate the everyday creativity and quality that goes into each exclusive design. A lamp is not just a source of light. It is also an accessory that compliments and enhances the beauty of the space it is placed in.*

*- **Murano glass** is the Venetian queen of hand-blown glass. It is used to make mirrors, tables, chandeliers, and even glassware. In our Murano Glass catalogue, you will see our application of the centuries-old techniques of the Venetian masters to both modern and classic lighting solutions.*

Cà Rezzonico, Murano glass is part of this collection of Venetian classic lamps. Harmonious shapes embellished by fine details of leaves and curls. The arms are made of small pieces of glass which are finished with delicately colored flowers. "Maria Teresa", an old-fashioned style, has a metal body with a Murano glass covering and crystal glass tears enriching the lamp and creating a cascade of lights.

It is an object of true prestige, which makes the room unique and elegant

*- **Custom Made**, ... "If you can imagine it, we can make it." This is not just a slogan as you can see from the items featured in this catalogue. These products are made for private and corporate clients, furniture companies, architecture firms, interior design studios, and the hospitality and maritime industries worldwide. Our technical department is familiar with the regulations and certifications required by the various countries we produce lighting for, such as UL and CE. Our staff has substantial experience in planning, designing and producing photorealistic images of our lighting products set in interior and exterior environments. This is a critical part of the product development process since our ultimate goal is the our clients' complete satisfaction. They are also knowledgeable about the different materials and components used in modern lighting systems and of the manufacturing process. All of this comes together to enable **Patrizia Volpato** to create our unique and beautiful lighting solutions of the highest-quality and in any style that can satisfy the most demanding tastes.*
