

## Atlante

Esiodo narra che **Atlante** fu costretto a tenere sulle spalle l'intera volta celeste per volere di Zeus, come il nostro perno centrale tiene l'intera struttura, essa a forma **circolare** rappresenta nel mondo onirico un attraversamento.

Sovrapposizione

La sovrapposizione di texture combinate con il colore oltre ad un forte carattere estetico, ne gestisce la luce creando varie combinazioni per l'utente.

## Combinazioni texture

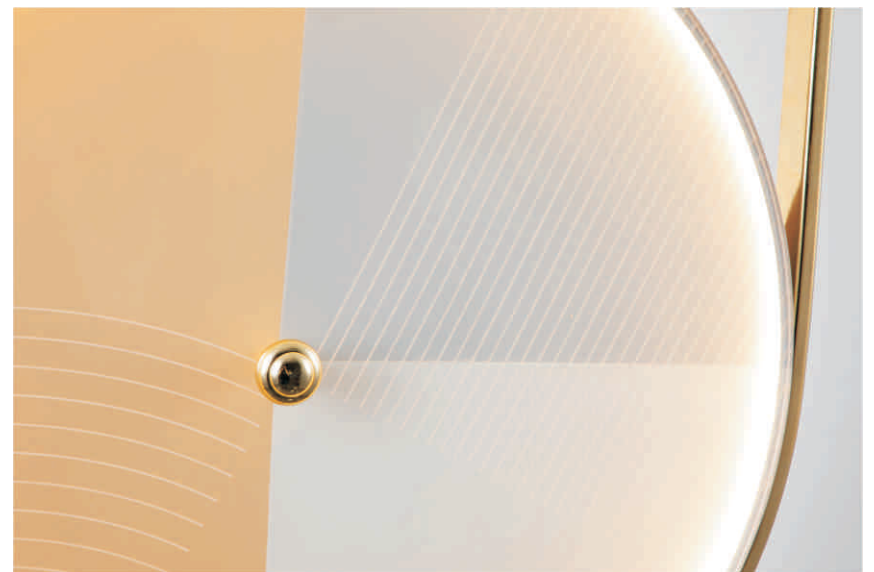

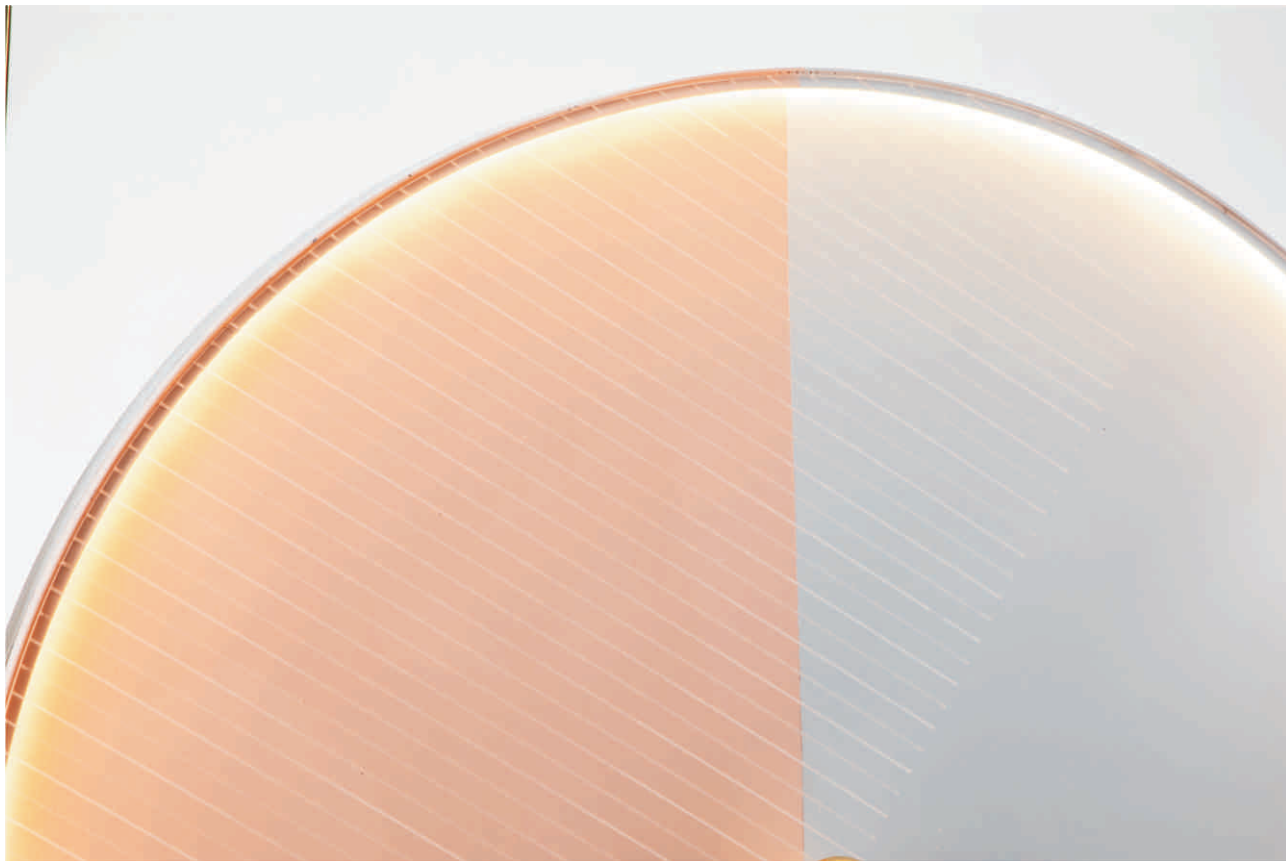

Le due facce di Atlante permettono all'utente di creare combinazioni di colore e texture personalizzate; modificando anche l'effettiva resa illuminotecnica del prodotto. I componenti sono uniti e tenuti dal perno centrale, da cui il nome atlante, colui che sorregge il tutto.

# Sintesi

Sintesi si ispira ad un forte concetto filosofico ed onirico fondato sulla compresenza di due principi o elementi distinti, complementari od opposti; di bene e male, di materia e spirito.

DETTAGLI

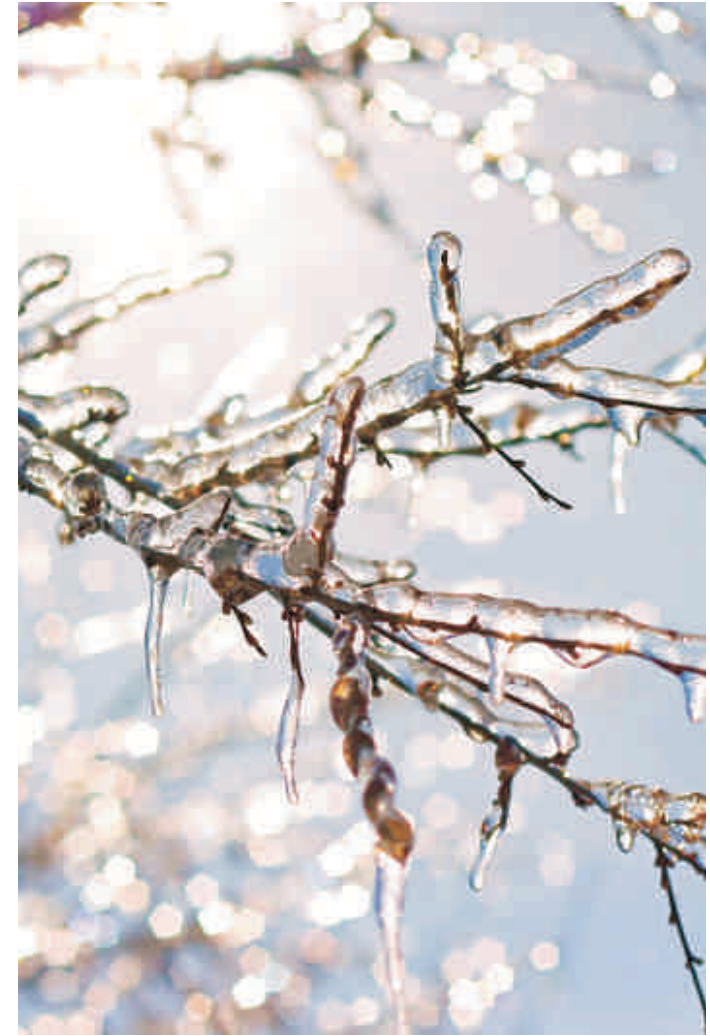

> winged euonymus

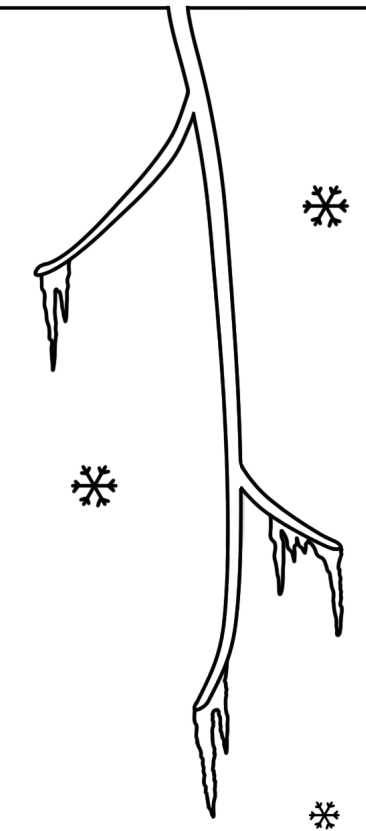

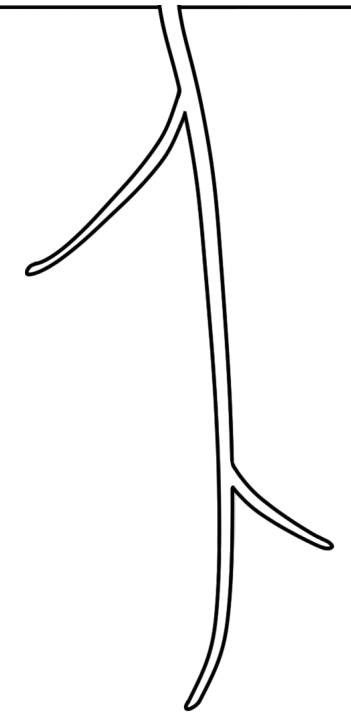

> sprout

> winter

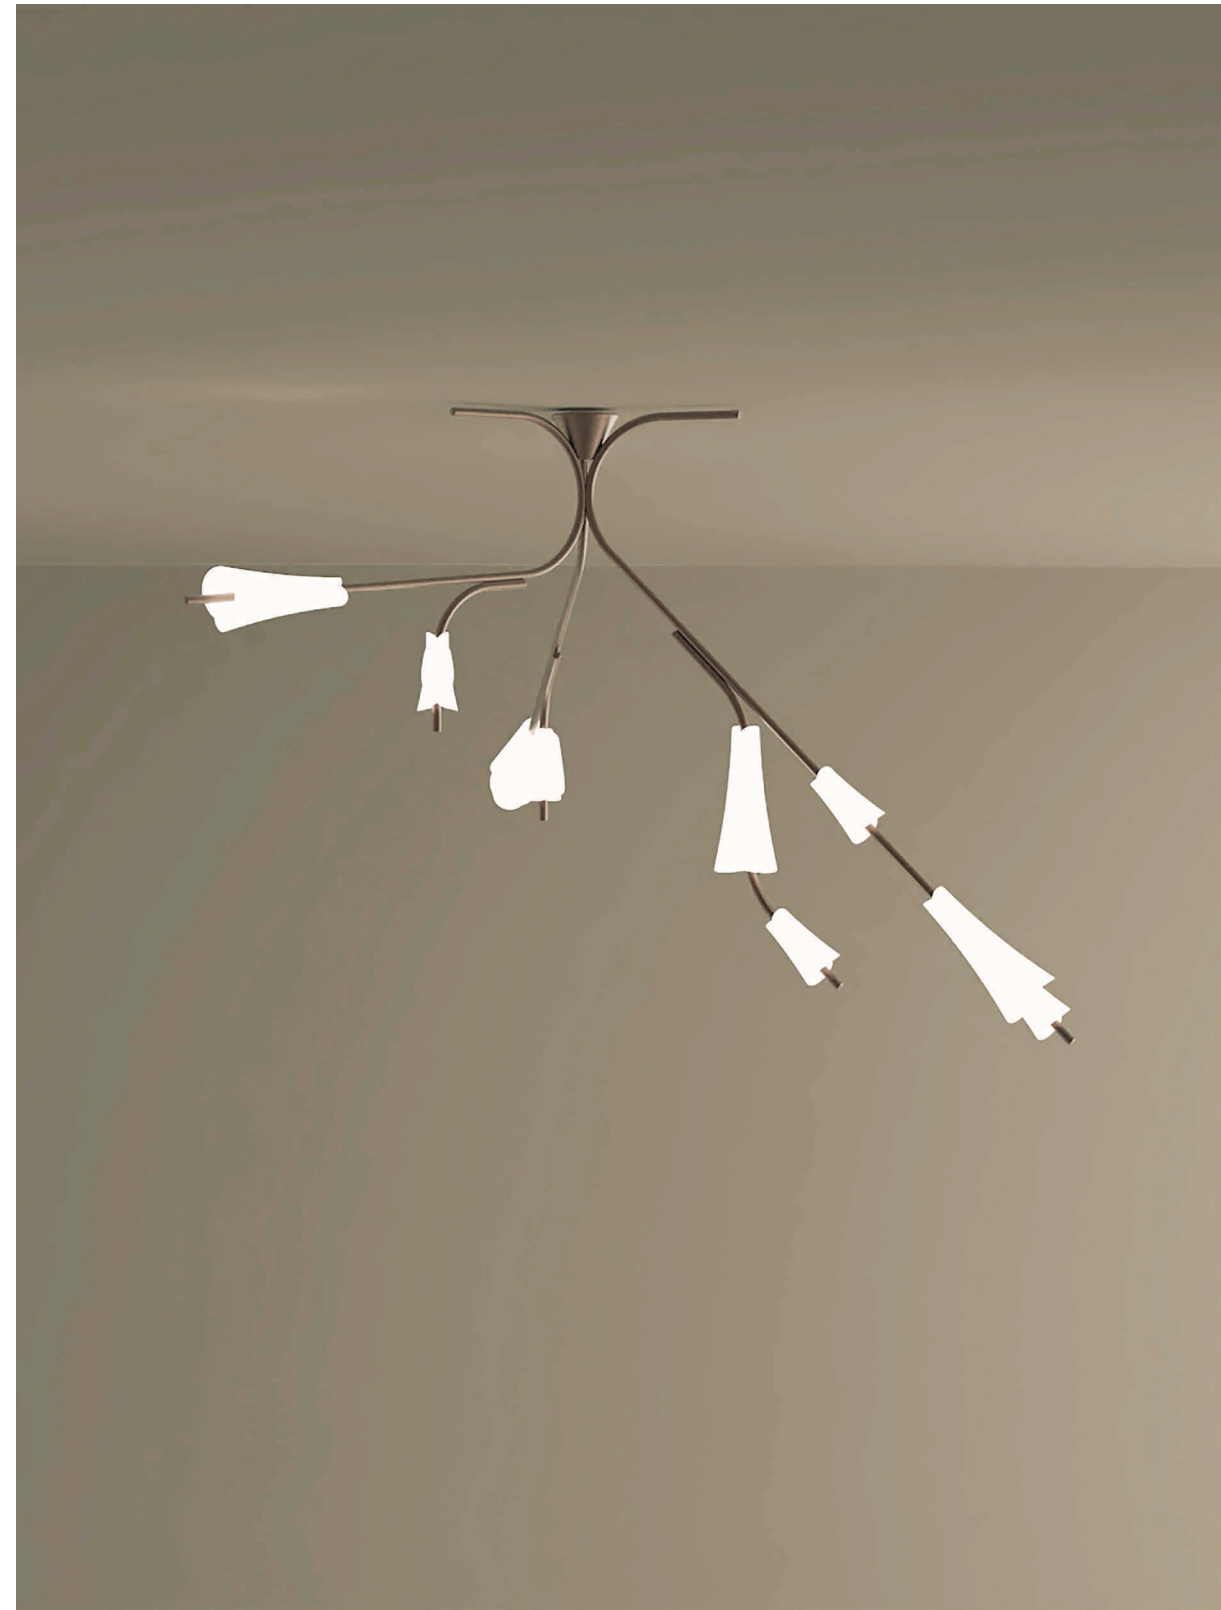

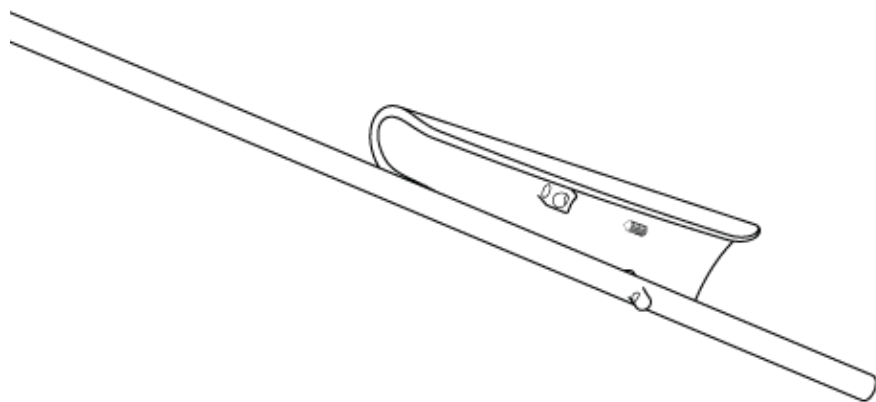

The lamp simulates in a modular way the effect of **light between frozen branches**, during a **winter morning**.

The lamp **germinates from the ceiling**. Ice **covers gently** the brenches.

Mould is placed on the tubular through its form and then fixed using **screws**.

The led stick is on the inner edge of the glass.  
**Light is stronger on the thinner parts**, in order to simulate **the effect of the sun on ice**.

# SPECIFICATIONS

Item No: CL-25X-10

SIZES: L107\* W93\* H73 CM

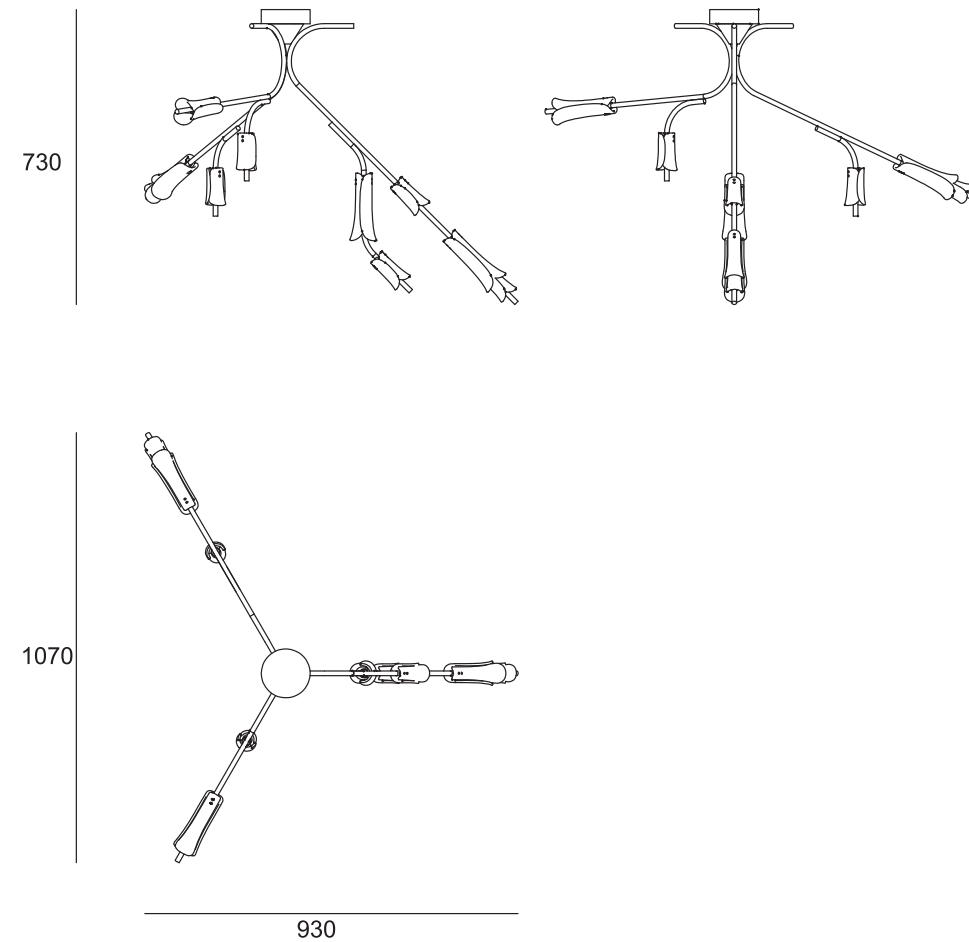

COLORS: METAL IN BRONZE HIGHLIGHT

GLASS IN MIKE

LIGHT SOURCE: LED 40W/ 3000K

VOLTAGE: 220-240V / 50HZ NOT DIMMABLE

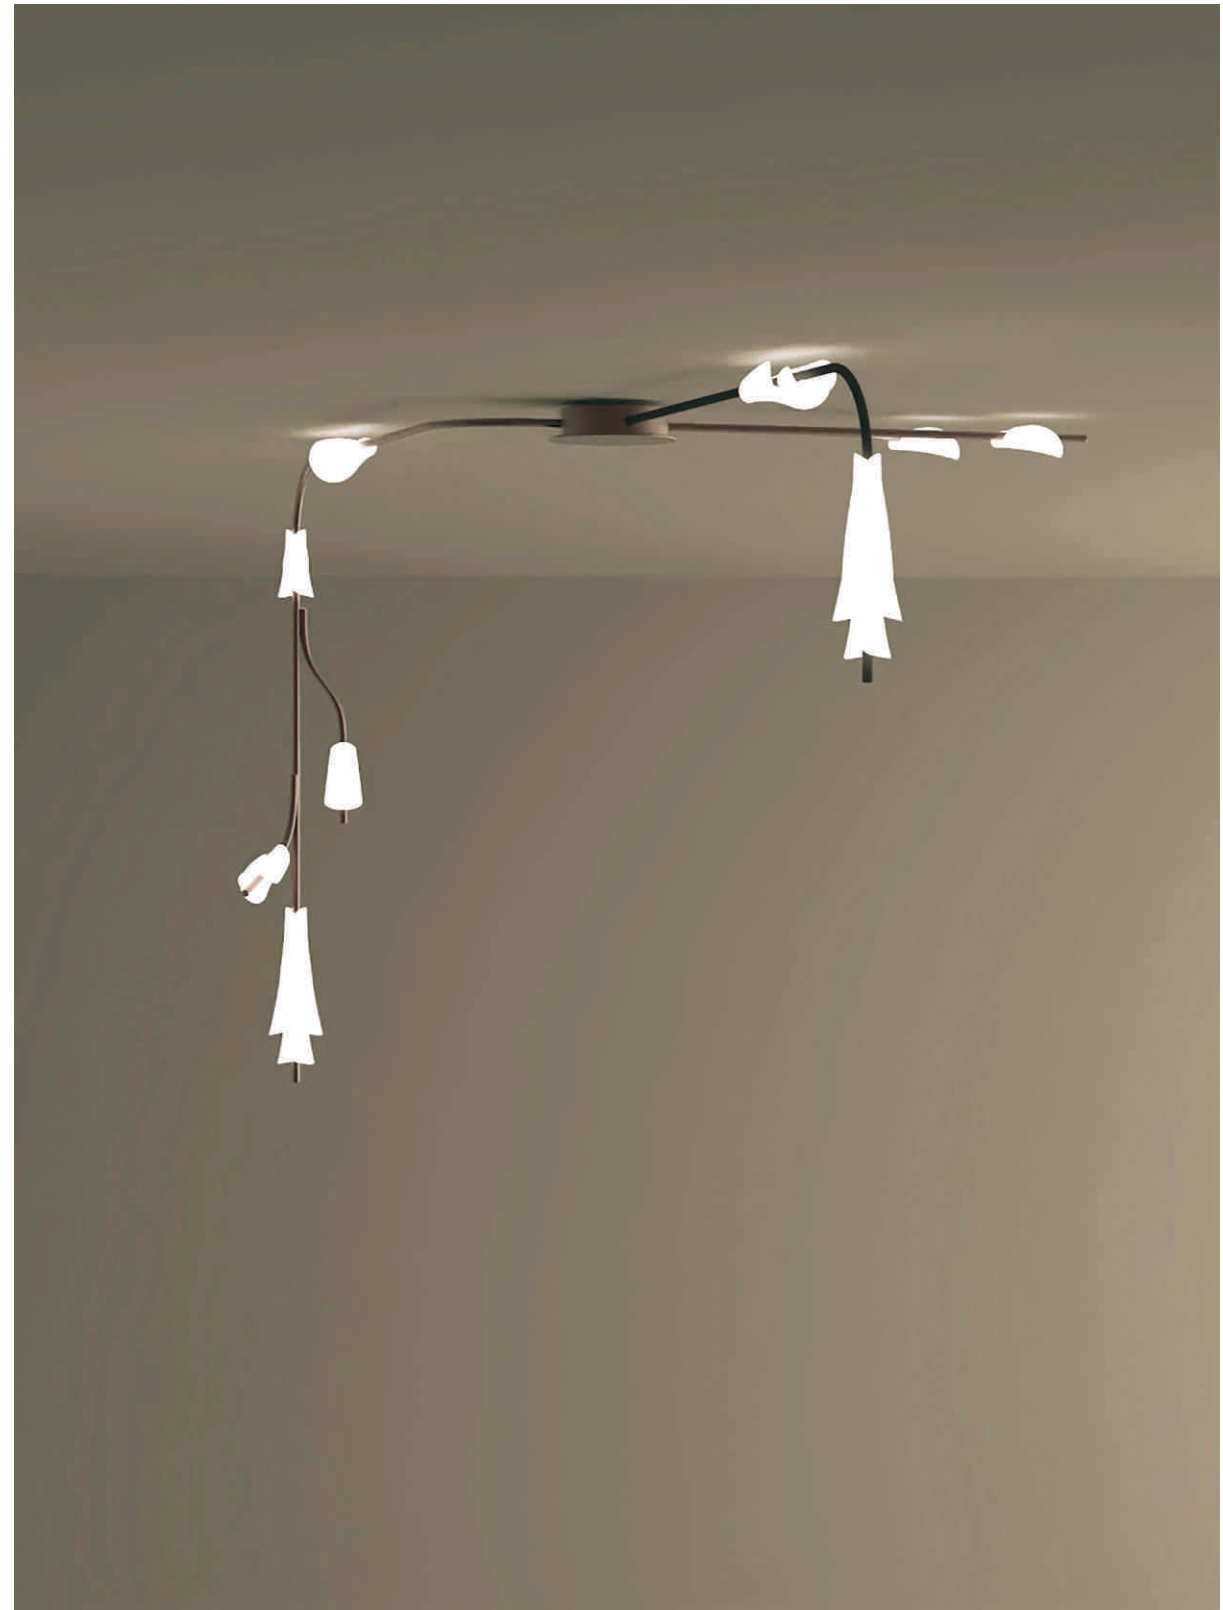

ENVIRONMENT: INTERIOR

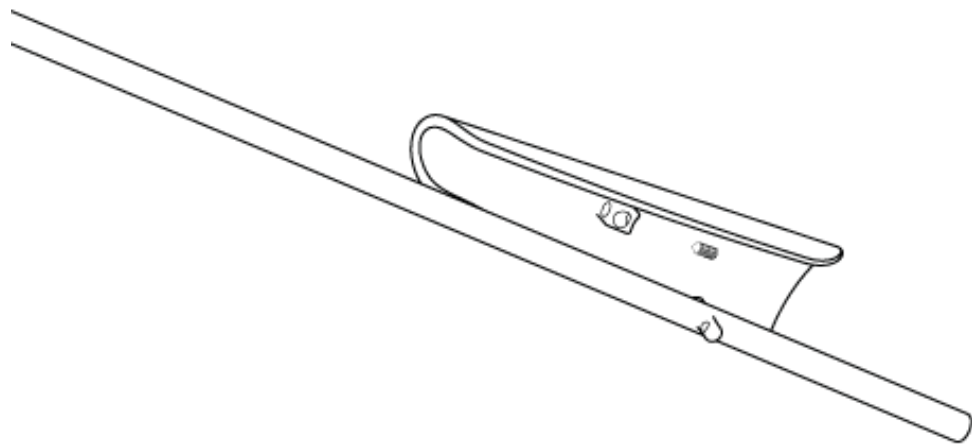

The lamp simulates in a modular way the effect of **light between frozen branches**, during a **winter morning**.

In the **second version** the structure is developed **on the ceiling** like a creeper.

Mould is placed on the tubular through its form and then fixed using **screws**.
