MoodBook23

# MOODBOOK23

Creating glass objects is a magical activity. Emerging from a transparent, shapeless element, a world brimming with imagination may materialize, where objects assume distinct forms, sparking a fruitful conversation and conjuring up a welcoming space. The oldest material originating from a breath of life, is transformed and altered by the techniques and technology that the modern world, with its continuous innovations and insights, offers as a conduit to the future. There, in a place as ideal as it is real, the vitreous material, stemming from earth and fire, can become crystalline and transparent or can contain all the colours of the rainbow, from ancient, buried mineral colours to celestial, iridescent hues.

When light rests on and embraces this material, something wonderful unfolds before your eyes. When it is combined with other materials it becomes tactile and when the atmosphere becomes light and airy, it lifts the spirit. The material transforms into something ethereal, akin to a mood - an essence that embodies a way of life, a mental state, almost a feeling, a manner of comprehending the items and expanse enveloping them. The aspects of the elements blend into the room, forging a collective entity that is far from singular or mono-tone. Instead, it forms a corporeal presence echoing multiple voices, similar to a choir harmonising their reason for existing, alongside us and intertwined with our existence. The features can be pure, the profiles soft, the language modern, the shapes bold or the surfaces elegant, and in each case, the house becomes a home.

Realizzare oggetti di vetro è una attività magica. Da un elemento trasparente, senza figura, può apparire un mondo pieno di immaginazione nel quale gli oggetti si trasformano in soggetti, che iniziano un dialogo prolifico e creano uno spazio accogliente.

La materia più ancestrale, quella che nasce con un soffio vitale, si trasforma e si trasfigura grazie alla tecnica e alla tecnologia che la contemporaneità, con le sue continue innovazioni e intuizioni, ci offre come ponte verso il futuro. Lì, in un luogo tanto ideale quanto reale, il materiale vitreo, che nasce dalla terra e dal fuoco, sa diventare cristallino e trasparente oppure sa contenere tutte le sfumature dell'iride, dai colori minerali antichi e ipogeali alle gradazioni celestiali e cangianti.

Quando la luce si posa e sposa questa materia avvengono meraviglie per gli occhi, quando altre materie si accostano si aprono esperienze per le mani, e quando la loro aura diventa aerea può arrivare una vibrazione per lo spirito. Il materiale diventa immateriale, come un mood, che è un modo di essere, uno stato d'animo, quasi un sentimento, un modo di sentire gli oggetti e lo spazio intorno a sé, le facce dei soggetti che si fondono nell'ambiente per diventare una cosa sola ma non univoca, non mono-tona, bensì un corpo che sa contenere più voci, che come in un coro all'unisono cantano le loro ragioni d'essere e di esistere, per noi e con noi. I tratti sanno essere puri, i profili morbidi, i linguaggi moderni, le forme decise o le superfici sofisticate, e in ogni caso l'abitare diventa casa.

Réaliser des objets en verre est une activité magique. D'un élément transparent, sans figure, peut apparaître un monde plein d'imagination, dans lequel les objets se transforment en sujets, qui initient un dialogue et créent un espace accueillant.

La matière la plus ancestrale, celle qui naît d'un souffle vital, se transforme et se transfigure grâce à la technique et à la technologie que le monde contemporain nous offre, avec ses innovations et intuitions continues, comme pont vers le futur. Là, dans un lieu aussi idéal que réel, le matériaux vitreux, qui naît de la terre et du feu, sait devenir cristallin et transparent ou sait contenir toutes les couleurs de l'arc-en-ciel, des couleurs minérales antiques et hypogéales aux nuances célestes et changeantes.

La lumière qui se pose et épouse cette matière crée des merveilles pour les yeux, quand il y a une association avec d'autres matières, les mains vivent des expériences, et quand leur aura devient aérienne, il peut y avoir une vibration pour l'esprit. Le matériel devient immatériel, comme une humeur, qui est une façon d'être, un état d'âme, presque un sentiment, une façon de sentir les objets et l'espace autour de soi, les visages des objets qui se fondent dans l'environnement pour devenir une seule chose mais pas univoque, pas monotone, mais un corps qui sait contenir plusieurs voix, qui comme dans une chorale chantent leurs raisons d'être et d'exister, pour nous et avec nous. Les traits savent être épurés, les profils doux, les langages modernes, les formes marquées ou les surfaces sophistiquées, et dans tous les cas l'habitation devient la maison.

Die Herstellung von Gegenständen aus Glas hat etwas Magisches. Aus einem transparenten Element ohne Form taucht eine Welt der Vorstellungskraft auf, in der die Gegenstände sich von Objekten zu Subjekten wandeln, die einen fruchtbaren Dialog beginnen und einen freundlichen Raum schaffen.

Die Urmaterie, dem Leben eingehaucht wird, verwandelt sich und verändert seine Form dank der Technik und der Technologie, die uns die Gegenwärtigkeit mit ihren kontinuierlichen Innovationen und Intuitionen bietet, um eine Brücke zur Zukunft zu bauen. Dort, an einem idealen und gleichermaßen realen Ort, wird das Glas, das aus der Erde und dem Feuer entsteht, kristallin und durchsichtig, oder es behält alle Nuancen des Regenbogens und zeigt sich in den alten Erdfarben und in den Abstufungen der changierenden Himmelsfarben.

Wenn das Licht auf diese Materie fällt und sich mit ihr vereint, entstehen vor den Augen des Betrachters Wunder. Wenn andere Materien in ihre Nähe rücken, eröffnen sich den Händen neue Emotionen, und wenn ihre Aura leicht wie ein Lufthauch wird, kann der Geist zum Schwingen gebracht werden. Die Materie wird körperlos, wird zu einer Stimmung, die eine Form des Seins, ein Seelenzustand ist, ja fast ein Gefühl, eine Art, die Gegenstände und den Raum um sich wahrzunehmen, in dem die Seiten der Subjekte mit der Umgebung verschmelzen, um eins zu werden, ohne eindeutig oder monoton, sondern ein Körper zu werden, der mehrere Stimmen in sich trägt, die wie in einem Chor einstimmig von ihren Daseinsgründen und ihrer Existenz für uns und mit uns singen. Die Züge sind rein, die Profile weich, die Sprachen modern, die Formen entschieden und die Oberflächen ausgeklügelt; der Wohnraum wird zu einem Zuhause.

## Soft Pure

Puro Morbido

Here is the traditional glass, with its crystalline transparency that generates, through an interplay of lights and shadows, a force which is hard to imagine from a decontextualized glass sheet. And this lightness of glass shapes the Pure Mood, a style that tells us about a space where the material is distinguished by its incorporeal nature, by its primordial essence.

Soft Pure  
Puro Morbido

Ecco il vetro, con la sua trasparenza cristallina che genera, attraverso giochi di luci e ombre, una forza che da una sola lastra decontestualizzata sarebbe difficile immaginare.

E questa leggerezza del vetro dà forma al Mood Puro, uno stile che ci racconta di uno spazio in cui la materia vive con il suo essere incorporeo, con la sua essenza primordiale. Uno stato etereo che viene enfatizzato e sdrammatizzato dall'uso di metalli e marmi. Tocchi misurati e mirati che esaltano la trasparenza del vetro e da lei ricevono luce. Il comfort di questo spazio è raffinato, sobrio. E sebbene sia guidato da tocchi di razionalità, non è respingente, ma accogliente, delicato e coinvolgente. Questo soprattutto perché il Mood Puro è vestito, in questa architettura, di cromie Morbide: la geometria dei vetri incolore viene stemperata da tocchi caldi e avvolgenti presenti negli oggetti.

Here is the traditional glass, with its crystalline transparency that generates, through an interplay of lights and shadows, a force which is hard to imagine from a decontextualized glass sheet.

And this lightness of glass shapes the Pure Mood, a style that tells us about a space where the material is distinguished by its incorporeal nature, by its primordial essence. An ethereal state that is emphasized and toned down through the use of marbles and metals. Balanced and targeted touches that highlight the transparency of glass while receiving light from it.

The comfort of this space is refined, sober. And while guided by rational stimuli, this ambience is not repulsive, but cosy, delicate and immersive instead. This is specially due to the fact that the Pure Mood is dressed, in this architecture, with Soft shades: the geometry of colourless glass is diluted by the warm touches that characterize the objects.

Voici le verre, avec sa transparence cristalline qui génère, par des jeux d'ombre et de lumière, une force qu'il serait difficile d'imaginer à partir d'une simple dalle de verre décontextualisée.

Et cette légèreté du verre donne forme au Mood Pur, un style qui nous parle d'un espace où la matière vit avec son être incorporel, avec son essence primordiale. Un état éthéré qui est souligné et dédramatisé par l'utilisation de métaux et de marbres. Des touches mesurées et ciblées qui mettent en valeur la transparence du verre et en reçoivent la lumière.

Le confort de cet espace est raffiné, discret. Et bien qu'il soit guidé par des touches de rationalité, il n'est pas repoussant, mais accueillant, délicat et engageant. D'autant plus que le Mood Pur est habillée, dans cette architecture, de couleurs douces : la géométrie du verre incolore est adoucie par des touches chaudes et enveloppantes dans les objets.

Hier ist das Glas mit seiner kristallinen Transparenz, das durch Licht- und Schattenspiele eine Kraft erzeugt, die man sich von einer einzelnen aus dem Zusammenhang gerissenen Platte kaum vorstellen kann.

Und diese Leichtigkeit des Glases verleiht Pure Mood die Form, ein Stil, der uns von einem Raum erzählt, in dem die Materie mit ihrem unkörperlichen Wesen, mit ihrer ursprünglichen Essenz lebt. Ein himmlischer Zustand, der durch die Verwendung von Metallen und Marmor hervorgehoben und heruntergespielt wird. Maßvolle und gezielte Berührungen, die die Transparenz des Glases erhöhen und Licht von ihm empfangen. Der Komfort dieses Raumes ist raffiniert und schlicht. Und obwohl es von einem Hauch von Rationalität geleitet wird, ist es nicht abstoßend, sondern einladend, zart und einnehmend. Dies liegt vor allem daran, dass die reine Stimmung in dieser Architektur in sanfte Farben gekleidet ist: Die Geometrie des farblosen Glases wird durch warme und umhüllende Akzente in den Objekten enthärtet.

Soft Modern  
Moderno Morbido

Softness and cosyness. An enveloping comfort.

Materials take shape. Glass gets dressed in warm

colours and, through the textures of its fusions,  
becomes almost soft to the sight and touch.

Delicate patterns that impress for their sober beauty  
model surfaces and, thanks to the light reflections  
they produce, every element comes to life.

Soft Modern  
Moderno Morbido

Morbidezza e accoglienza. Un comfort avvolgente.

Le materie prendono corpo. Il vetro si veste di colori caldi e, attraverso le textures delle sue fusioni, diventa quasi morbido alla vista e al tatto. Trame delicate, che stupiscono per la loro sobria bellezza, ne lavorano le superfici e, grazie ai riverberi della luce che le accarezzano, ogni elemento prende vita.

La coinvolgente unicità delle fusioni di vetro è esaltata (ed esalta) quei legni, metalli e marmi che gli si accostano per creare prodotti che dialogano all'unisono nello spazio.

Uno spazio caratterizzato da un Mood Moderno Morbido, il cui stile borghese coinvolge e avvolge chi lo abita. La sua raffinatezza è rassicurante, sempre equilibrata e mai sopra gli schemi.

Softness and cosyness. An enveloping comfort.

Materials take shape. Glass gets dressed in warm colours and, through the textures of its fusions, becomes almost soft to the sight and touch. Delicate patterns that impress for their sober beauty model surfaces and, thanks to the light reflections they produce, every element comes to life.

The engaging uniqueness of glass fusion is enhanced (and enhances) those woods, metals and marbles that have been chosen to create products that dialogue in unison within the space. A space characterized by a Soft Modern Mood whose bourgeois style engages and involves who lives in it. Its refinement is reassuring, always balanced and never ostentatious.

Douceur et confort. Un confort enveloppant.

Les matériaux prennent forme. Le verre prend des couleurs chaudes et, par les textures de ses fusions, devient presque doux à l'œil et au toucher. Des textures délicates, étonnantes par leur beauté discrète, travaillent leurs surfaces et, grâce à l'éclat de la lumière qui les caresse, chaque élément prend vie.

L'unauté captivante des fusions en verre est renforcée (et exalte) les bois, les métaux et les marbres qui leur sont associés pour créer des produits qui dialoguent à l'unisson dans l'espace.

Un espace caractérisé par un Mood Moderne Doux, dont le style bourgeois interpelle et enveloppe ses habitants. Son raffinement est rassurant, toujours équilibré et jamais exagéré.

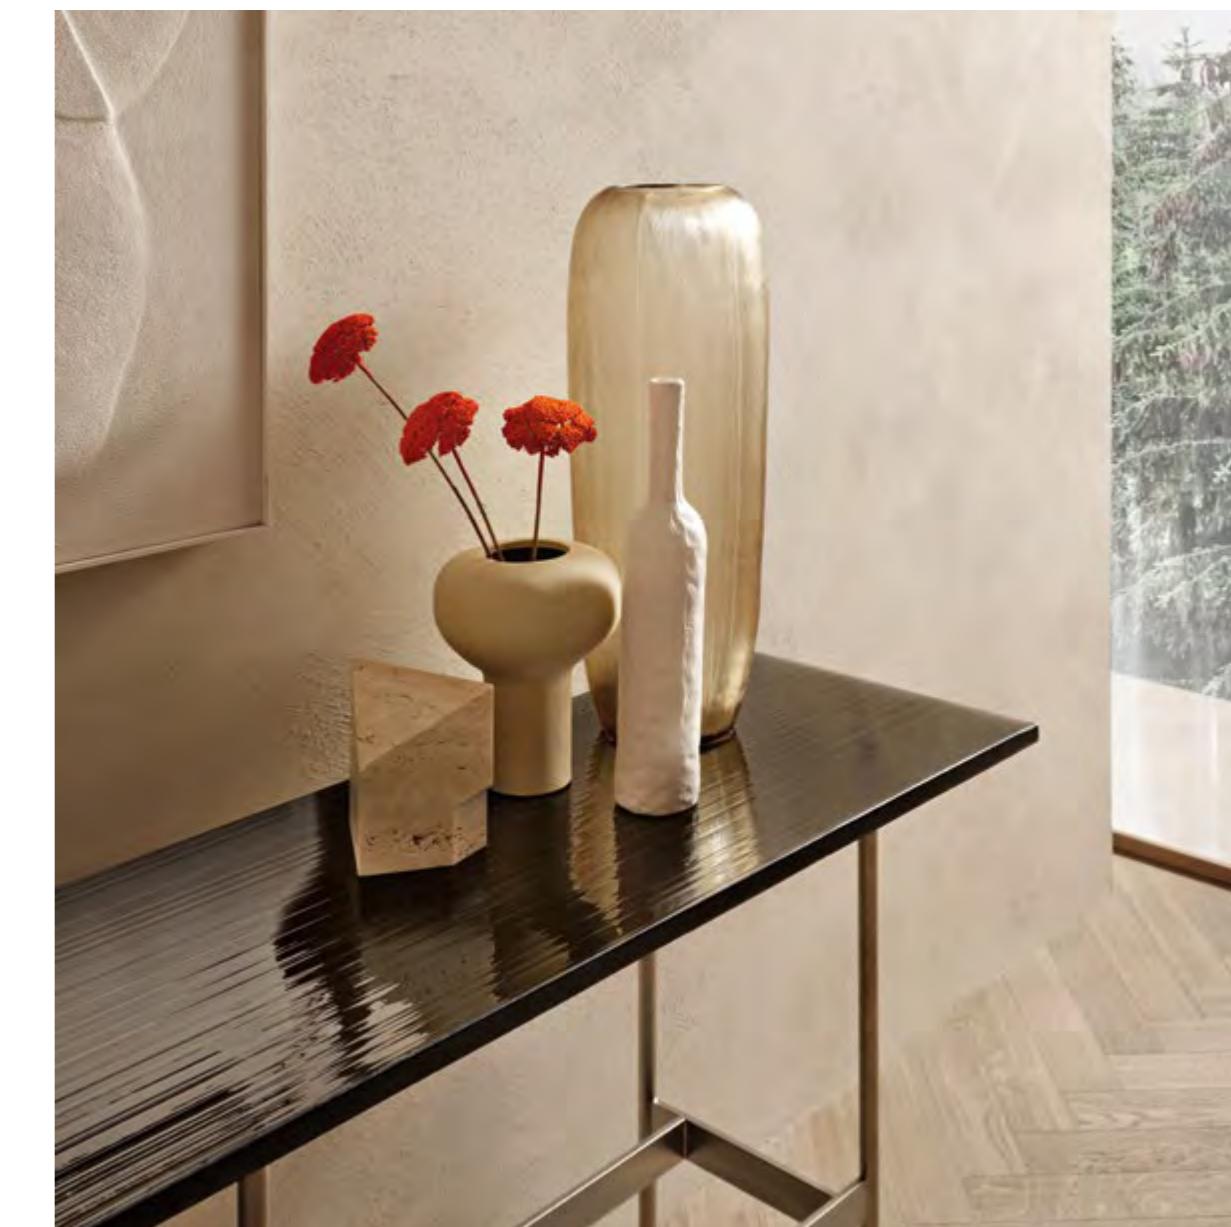

Sanftheit und Aufnahme. Ein umhüllender Komfort.

Die Materialien nehmen Gestalt an. Glas ist in warme Farben gekleidet und wird durch die Texturen seiner Verschmelzungen fast weich für das Auge und das Tastegefühl. Zarte Texturen, die durch ihre schlichte Schönheit verblüffen, bearbeiten die Oberflächen und dank des Nachhalls des Lichts, das sie streicht, erwacht jedes Element zum Leben.

Die einnehmende Einzigartigkeit der Glasverschmelzungen hebt (und unterstreicht) die Hölzer, Metalle und Marmore hervor, die mit ihnen kombiniert werden, um Produkte zu schaffen, die im Einklang im Raum miteinander kommunizieren.

Ein Raum, der sich durch eine sanfte moderne Stimmung auszeichnet, dessen bürgerlicher Stil die dort lebenden Menschen einbezieht und umhüllt. Seine Raffinesse ist beruhigend, immer ausgewogen und nie übertrieben.

# Incisive Modern

Moderno Deciso

Sophistication and freshness for an urban interpretation

of space. A sense of modern comfort showcased

in a clean and rational, yet not overly meticulous style.

The Incisive Modern Style takes on a new look.

Marble, metal and wood are combined with glass

to create a blend of materials that speak as one.

Glass which has abandoned its traditional

transparency in favour of a more palpable appearance.

Incisive Modern

Moderno Deciso

Raffinatezza e freschezza per una interpretazione dello spazio in chiave borgese. Un senso di comfort moderno declinato in maniera pulita e razionale, ma non estremamente rigorosa.

Lo Stile Moderno Deciso si veste di un corpo nuovo. Marmi, metalli e legni accompagnano vetri creando dei mix materici che dialogano all'unisono. Vetri che hanno abbandonato la loro tradizionale trasparenza in favore di un corpo più o meno impalpabile. Alle finiture fumé si accompagnano le fusioni retro-verniciate che esaltano, come pennellate su una tela, l'unicità degli spazi. Colori decisi che sono sdramatizzati da tocchi di colore che, attraversando l'ambiente, e si perdono poi nell'infinito del panorama.

Sophistication and freshness for an urban interpretation of space. A sense of modern comfort showcased in a clean and rational, yet not overly meticulous style.

The Incisive Modern Style takes on a new look. Marble, metal and wood are combined with glass to create a blend of materials that speak as one. Glass which has abandoned its traditional transparency in favour of a more palpable appearance. Back-painted glass in smoked finishes which enhances the unique feel of the spaces like brushstrokes on canvas. Strong colours that are softened by touches of colour that run through the room and then, fade into the distance.

Élégance et fraîcheur pour une interprétation bourgeoise de l'espace. Un sens du confort moderne décliné de manière épurée et rationnelle sans être extrêmement rigoureuse.

Le Style Moderne Détérminé acquiert une nouvelle dimension. Marbres, métaux et bois accompagnent le verre en créant des mélanges de matériaux qui dialoguent à l'unisson. Des verres qui abandonnent leur transparence traditionnelle au profit d'un corps plus ou moins impalpable. Les finitions fumées sont accompagnées de fusions rétro-peintes qui mettent en valeur, comme des coups de pinceau sur une toile, l'unicité des espaces. Des couleurs intenses adoucies par des touches de couleur qui traversent la pièce et se fondent dans l'infini du panorama.

Raffinesse und Frische für eine Interpretation des Raums in einem bürgerlichen Ton. Ein Gefühl von modernem Komfort präsentiert sich in sauberer und rationaler Form, aber nicht extrem strenge.

Der Stil Incisive Modern bekommt einen neuen Körper. Marmor, Metalle und Hölzer begleiten Glas und schaffen Materialmischungen, die im Einklang miteinander im Dialog stehen. Gläser, die ihre traditionelle Transparenz zugunsten eines mehr oder weniger unfühlbaren Körpers aufgegeben haben.

Incisive Sophisticated  
Sofisticato Deciso

Softness, in addition to the strong, bold colours.

This is the Incisive Sophisticated Mood, a blend of transparent and non-transparent materials in which fused glass adds a sense of delicacy despite the colour variations. It is a style that uses its sophistication on pleasant contrasts created by the encounter between cold colours which grace the soft and elegant shapes of fused glass.

Incisive Sophisticated  
Sofisticato Deciso

Morbidezza, oltre le cromie incisive e rigorose.

È questo il Mood Sofisticato Deciso, un mix di materie trasparenti e coprenti in cui la fusione di vetro regala, nonostante sue varietà cromatiche, un grande senso di delicatezza.

È uno stile che gioca la sua raffinatezza su piacevoli contrasti che nascono dall'incontro tra colori freddi che vestono le forme aggraziate e morbide delle fusioni. Il dialogo che nasce tra le materie diventa un'armonia in cui le textures sono dosate in maniera sobria ed estremamente piacevole. I marmi e i metalli concludono il sapore dell'ambiente esaltando la bellezza dei vetri utilizzati. Lo spazio diventa così accogliente, un luogo che è un rifugio sofisticato attraversato da una luce intima e delicata.

Softness, in addition to the strong, bold colours.

This is the Incisive Sophisticated Mood, a blend of transparent and non-transparent materials in which fused glass adds a sense of delicacy despite the colour variations.

It is a style that uses its sophistication on pleasant contrasts created by the encounter between cold colours which grace the soft and elegant shapes of fused glass. The dialogue that emerges between the materials is balanced with textures that are carefully dosed and visually appealing.

Marble and metal put the finishing touches to the feel of the room, enhancing the beauty of the glass within it.

The space thus invites you into an elegant haven, suffused with an intimate and delicate light.

La douceur, au-delà des couleurs intenses et rigoureuses.

Voilà le Mood Sophistique Détérminé, une combinaison de matériaux transparents et opaques dans laquelle la fusion du verre donne, malgré sa variété chromatique, un grand sens de la délicatesse.

Il s'agit d'un style qui joue son raffinement sur d'agréables contrastes nés de la rencontre de couleurs froides qui habillent les formes gracieuses et douces des fusions.

Le dialogue qui s'instaure entre les matériaux devient une harmonie dans laquelle les textures sont dosées de manière sobre et extrêmement agréable. Les marbres et les métaux complètent l'ambiance en exaltant la beauté du verre utilisé. L'espace devient ainsi cosy, un lieu qui est un refuge sophistiqué traversé par une lumière intime et délicate.

Sanftheit jenseits der plakativen und strengen Farben

Das ist entschlossene anspruchsvolle Stimmung, eine Mischung aus transparenten und bedeckenden Materialien, bei der die Verschmelzung von Glas trotz seiner chromatischen Vielfalt ein großartiges Gefühl von Zartheit verleiht.

Es ist ein Stil, der seine Raffinesse mit angenehmen Kontrasten ins Spiel bringt, die aus der Begegnung zwischen kalten Farben entstehen, die die anmutigen und weichen Formen der Verschmelzungen kleiden.

Der Dialog, der zwischen den Materialien entsteht, wird zu einer Harmonie, in der die Texturen auf nüchterne und äußerst angenehme Weise dosiert sind. Marmor und Metall vervollständigen den Geschmack der Umgebung, indem sie die Schönheit des verwendeten Glases hervorheben. Der Raum wird so zu einem gemütlichen Ort, einem raffinierten Refugium, das von einem intimen und zarten Licht durchflutet wird.
