VOLUME I

ReDéco inizia un viaggio antropologico attraverso il design, dove passato e futuro, funzionalità ed eleganza, si incontrano e convivono; in questo contesto sensibilità, progetti, linguaggi e identità diverse si uniscono per creare eccellenza e bellezza. L'artigianato di alta qualità è un valore che definisce la collezione che non a caso nasce in Brianza, un'area dove tradizione e innovazione si fondono, per produrre arredi di prestigio realizzati secondo i più alti livelli. Il concept propone divani e poltrone, sedie, tavoli, contenitori giorno e arredi per l'area notte con spazi progettati per il vivere contemporaneo, in un'eleganza squisitamente equilibrata.

ReDéco è esperienza e passione, crea mobili e progetti tailor made che uniscono artigianalità, creatività e visione innovativa.

*ReDéco sets off on an anthropological journey through design, where past and future, practicality and elegance, all come together and coexist. In this context, sensitivity, projects, languages and different identities are combined to create excellence and beauty. High quality craftsmanship is a value defining the collection that is not by chance born in Brianza, an area where tradition and innovation merge, in order to produce prestigious furniture made according to the highest levels. The concept offers sofas and armchairs, chairs, tables, storage units and furniture for the sleeping area with spaces designed for contemporary living, in an exquisitely balanced elegance.*

INSPIRATION

# Italian style and visionary design

Lavorare con la materia, creare forme che prendono vita con un'attenzione particolare al dettaglio di stile.

Un accento, una linea capace di trasmettere il piacere del tocco che solo la raffinatezza artigianale può creare dal nulla. In questa linea è evidente il dialogo tra matericità diverse, la sua ispirazione è il desiderio stesso di esaltare la materia attraverso le preziose finiture delle superfici. I nuovi prodotti sono caratterizzati da un design funzionale e linee decorative, capaci per questo di far risaltare le tecniche di lavorazioni artigianali, senza abbandonare la reinterpretazione dello stile Art Decò.

*The finest materials are worked and crafted, creating shapes that come to life with special attention given to stylistic details. That perfect touch, in a furnishing line capable of conveying the pleasure that only artisan craftsmen can create from scratch. In this line, the dialogue between different materials is brought to light, its inspiration is the desire to enhance the material through the precious finishes of the surfaces.*

*These new products are defined by practical, functional design as well as decorative lines, able to highlight the techniques of craftsmanship, without giving up this reinterpretation of the Art Deco style.*
