# WonderLand

*La nuova collezione di Signorini&Coco, creata dal designer Giuseppe Viganò, nasce cogliendo ispirazione dal mondo dell'arte nelle sue molteplici sfumature: Wonderland viene alla luce grazie a concetti pittorici e materiali artigianali e innovativi.*

*Una collezione vivace in cui si uniscono atmosfere naturali, sogni e culture diverse, con richiami all'arte italiana e al mondo della natura. Giuseppe Viganò vuole distinguersi da un mercato saturo di prodotti omologati e, per farlo, modella una nuova identità immediatamente riconoscibile per stile, carattere e impatto emotivo.*

*Questa identità passa anche per la ricerca e la sperimentazione di un nuovo materiale, brevettato appositamente dal gruppo Signorini&Coco, così da creare un gusto inconfondibile, che si ritrova sia negli imbottiti che nell'arredo. Pannelli artistici fatti a mano si sposano con sagome sobrie senza tempo e con elementi più estroversi, in modo da arredare case internazionali che vogliono osare, differenziandosi dai soliti stili.*

*Il risultato è una collezione evocativa e attenta ai dettagli, che si sviluppa nella zona living e nella zona notte, oltre ad abbracciare il mondo dell'illuminazione, creando un sistema armonico in cui ogni pezzo si integra e si combina alla totalità del progetto.*

*The new Signorini&Coco collection was created by the designer Giuseppe Viganò, who drew inspiration from the world of art in its many nuances. Wonderland comes to light thanks to pictorial concepts and artisanal and innovative materials.*

*It is a lively collection that combines natural atmospheres, aspirations, and different cultures, reminiscent of Italian art and nature. Wishing to stand out from a market saturated with homologated products, Giuseppe Viganò shaped a new identity that is immediately discernable in terms of style, character, and emotional impact.*

*This identity also entailed research and experimentation of a new material, specially patented by the Signorini & Coco group, so as to create an unmistakable trend evidenced in both the upholstery and furnishings. Artistic, handmade panels are combined with timeless, sober shapes and more extrovert elements to furnish intercontinental homes that want to be audacious and different from the usual styles.*

*The result is an evocative collection that is attentive to details. It unfolds from the living room to the bedrooms, and also embraces the lighting systems. In the creation of this harmonious system, each piece falls into place and harmonizes with the entire project.*

La creazione di un nuovo materiale è uno dei punti di forza della collezione Wonderland. Si tratta di un materiale unico, in grado di plasmare un mondo fantastico e onirico e di dar vita ad un prodotto dalla forte emozionalità. I 4 pattern creati si differenziano per forma e colore, prendendo spunto da ambiti diversi, ma con la peculiarità di essere intercambiabili; si inseriscono così in tutta la collezione, per uno stile abitativo che percorre l'intera abitazione. Wonderland trae ispirazione dall'arte italiana, dall'architettura e dal mondo della natura, con i suoi colori e le sue forme. Basta uno sguardo ai pannelli artistici decorati a mano per capire la preziosità di questo nuovo materiale che cambia sfumature a seconda della luce e del punto di vista. Il tatto ne svela la vera essenza, grazie alla tridimensionalità creata attraverso l'effetto rilievo. Riflessi madreperlati e inserimenti di parti con foglia d'oro conferiscono un ulteriore tocco di eleganza. L'attenzione ai dettagli è focus importante di tutto il percorso progettuale: ogni pattern è studiato sartorialmente in modo da armonizzarlo completamente alla totalità del progetto, diventando così punto di forza evocativo per una collezione dal sapore unico.

One of the strengths of the Wonderland Collection is the new material it has created. This material is really unique and forges a fantastic, dreamlike universe that also manages to highlight the emotionality of the product. The 4 patterns differ in form and color and draw inspiration from different fields. However, they are interchangeable and can be inserted into the entire collection for a furnishing style identifiable in all the facilities of the home. The collection was inspired in all its colors and shapes, by Italian art, architecture and the world of nature. Just one glance to the artistic hand-decorated panels, suffices to make you grasp the prestige of this material which changes its hues according to the lighting and angle from which it is viewed. The touch unveils the real essence of this material thanks to its three-dimensionality and embossed effect. The mother pearl effect and insertion of gold leaf portions confer an ulterior touch of classiness. Attention to details is the project's main focus: each pattern was deeply studied to fully harmonize with the project as a whole and has become the outstanding evocative feature of a really unique collection.

## Eden

*Un ambiente accogliente e inesplorato come il giardino primordiale: Eden mantiene le promesse sussurre dal suo nome, tanto che basta uno sguardo al divano e ai due coffee tables ovali dal piano decorato che compongono questo mondo per stupirsi delle sue trame e rivestimenti fuori dal comune. Altrettanto protagoniste, le stesse proposte dalla visibilità più semplice, sempre caratterizzate da grande artigianalità. Ogni elemento può essere combinato con il resto dell'arredo Wonderland.*

*Like the primordial garden, Eden is a welcoming and unexplored environment. It keeps the promises its name suggests. In fact, just a glance at the sofa and the project's two oval coffee tables with decorated top would be enough to overwhelm you with their unusual textures and linings. Even the simpler-looking items attract the limelight and bear the same characteristics of great mastery and artisanship. Each element can be combined with the rest of the Wonderland furniture.*

# Daisy

*Tema cardine di tutta la collezione, anche in Daisy la finitura artigianale è protagonista: tavolo, consolle, credenza si vestono di colori prorompenti e delle trame originali, che accompagnano le particolari forme arrotondate. Questi tre prodotti visionari arricchiranno la zona living di ispirazioni artistiche inaspettate senza cessare mai di stupire.*

*The key theme of the whole collection, also in the Daisy project the handcrafted finish plays the leading role. The tables, consoles, sideboards are explosions of colours and original textures that accompany the particular, rounded shapes. These three visionary products will enrich the living room and unceasingly amaze you with unexpected artistic inspirations.*

# Blois

*Linee curve e morbide si alternano a rivestimenti colorati e fortemente caratterizzanti: Blois trova il perfetto equilibrio tra forme classiche e riferimenti contemporanei in un'armonia che non mancherà di affascinare gli amanti dello stile. Divano e tavolini possono essere personalizzati con le diverse finiture previste dalla collezione Wonderland.*

*The Blois project reveals curved and soft lines, alternated with colourful and highly distinctive coatings and a perfect balance between classic shapes and contemporary features. Its harmony will not fail to fascinate the lovers of style. Sofa and coffee tables can be customized with the different finishes provided by the Wonderland collection.*

# Orchidea

*Orchidea è una poltrona affascinante, che condensa in sé tutte le ispirazioni della collezione Wonderland: arte, moda e, soprattutto, natura. La seduta, infatti, si apre come la corolla dell'omonimo fiore, comoda e confortevole. Il legame con il giardino all'italiana è sottolineato dalla base di appoggio simmetrica.*

*Orchidea is a captivating armchair and expresses in a nutshell, all the inspirations of the Wonderland collection: art, fashion and, above all, nature. The seat, in fact, opens out like the corolla of the namesake flower, cozy and comfortable. The symmetrical support base underlines its link with the Italian-style gardens.*

# Boomerang

*Geometrie inaspettate e un gioco di rimandi caratterizzano il mondo Boomerang. Il nome deriva dalla particolarità dell'elemento falciiforme che si ripropone sui diversi arredi che lo compongono, ovvero divano, credenza, letto, consolle, comò, comodino e pouf, creando immersivi ambienti per una zona living e una zona notte dall'identità unica.*

*Boomerang is a world of unexpected geometries and a game of referential links. The name derives from the particularity of the sickle-shaped element appearing in the project's furnishing compositions, i.e., sofa, sideboard, bed, console, chest of drawers, bedside table, and pouf. These items create immersive environments for living and bedroom areas with a unique identity.*

*Butterfly*

# Ninfa

*Ninfa incarna le suggestioni evocate dal nome. La testiera, imbottita e segmentata, ricorda le canne che circondano i laghi su cui poggiano le ninfee; la base, poi, sembra adagiata su correnti placide e invita a sereni riposi, come cullati dallo specchio d'acqua. E' un arredo dal forte impatto emotivo, protagonista indiscusso della camera da letto, e offre un incredibile potenziale di personalizzazione in ampiezza e colori.*

*Ninfa embodies the suggestions its name evokes. The padded and segmented headboard recalls the reeds surrounding the lakes where water lilies abound; the base, furthermore, seems to float on placid currents - an invitation to rest and be lulled by the water. This piece of furniture has a strong emotional impact, and certainly plays a leading role in the bedroom. It offers an incredible range of possibilities for customization in size and colours.*

# Wave

*In un dialogo sommesso ma chiaramente distinguibile tra arredo e arte, Wave reinterpreta le forme classiche e le porta nel contemporaneo. Una curva dirompente plasma lo schienale del divano, e richiama alla memoria i pezzi storici delle palazzine del passato; camaleontico e dotato di infinite componibilità, questo modello dagli echi tradizionali trova il suo contrappeso nei due tavolini dal carattere squisitamente moderno che completano questo micro mondo.*

*In a subdued but clearly distinguishable dialogue between furniture and art, Wave reinterprets classic forms in contemporary times. A disruptive curve shapes the back of the sofa, and calls to mind the historical parts of ancient buildings. It is a chameleonic model endowed with infinite modularity, that echoes the tradition, offset by the two exquisitely modern tables that complete this micro setting.*
