## STORIA

**Malerba Srl prende vita nel 1946, per volontà ed opera di due fratelli, Antonio e Armando Malerba. In pochi anni, sviluppano un'idea controcorrente per il mercato di quegli anni, producendo arredamenti caratterizzati da mobili con design e materiali di altissima qualità. Ed è così che l'azienda ha iniziato la sua sfida coraggiosa, nel mercato nazionale inizialmente, con produzioni numericamente limitate ma di grande qualità: nei materiali, nelle finiture ed in ogni piccolo dettaglio o accessorio. Ad oggi Malerba Srl prosegue il suo cammino, in tutto il mondo, grazie al suo inconfondibile e raffinato design, proiettata verso il futuro e continuando a credere nel valore della tradizione artigiana italiana.**

## QUALITÀ

**Il marchio Malerba in questi anni ha saputo integrare l'innovazione tecnologica necessaria per la produzione di serie, salvaguardando il valore della lavorazione manuale artigiana, e mantenendo il controllo visivo e manuale delle maestranze specializzate che seguono e che si curano della qualità del prodotto in ogni suo elemento compositivo ed in ogni fase di produzione ed assemblaggio. Tale procedura è sinonimo di garanzia.**

## DESIGN ITALIANO

**Nel rispetto della tradizione e della storia, i mobili Malerba rappresentano, in modo deciso e inconfondibile, lo stile ed il design italiano, con un segno che riesce a penetrare anche il gusto internazionale, per la capacità che hanno di comunicare il valore di una bellezza senza confine e senza tempo.**

## HISTORY

Malerba Srl was founded in 1946 by two brothers, Antonio and Armando Malerba. After few years, they had already developed innovative ideas, producing design furniture with high quality materials. This is how the company started its courageous path, rising from the national to the international market, with small quantity but high quality furniture production, focusing on materials, finishes, and curating every small detail. Today Malerba continues its journey, all over the world, thanks to its unique and refined design. The company is projected toward the future and strongly believes in the value of Italian artisan tradition.

## QUALITY

In the past few years, Malerba aimed to include some technological innovations, needed for the series production, while protecting the value of craftsmanship. One of the company's goals is to maintain the visual and manual control of the specialized workers, who take care of the product's quality, of every compositional element, in every step of the manufacturing and assembly process. This method guarantees a unique and special final result which is the signature of the Malerba brand.

## ITALIAN DESIGN

In respect of tradition and history, Malerba furniture certainly represents the pure Italian style and design, which manages to reach even international taste, thanks to the ability of the brand to communicate the value of a borderless and timeless beauty

## STAY COLLECTION

BY ROBERTO GARBUGLI DESIGNER

Nel 1983 apro il mio studio iniziando l'attività di progettista e direttore artistico per aziende specializzate nel settore dell'arredamento casa.

Dal 1992 acquisisco una notevole esperienza nell'applicazione di materiali innovativi modificando radicalmente il concetto estetico dell'arredo bar grazie alla collaborazione con le maggiori aziende italiane del settore.

Nel 1993 inizio parallelamente la mia attività di progettista di locali pubblici destinati al food and beverage.

Ad oggi continuo a lavorare nel mio studio di Pesaro con l'apporto creativo di giovani collaboratori sviluppando progetti destinati ad una clientela internazionale.

I founded my studio in 1983, as designer and artistic director for companies specialized in interior design. Since 1992 I have acquired considerable experience in the application of innovative materials, radically changing the aesthetic concept of bar furnishings, thanks to the collaboration with the major Italian companies in this field. In 1993 I started designing public spaces for food and beverage.

Today I keep on working in my studio in Pesaro with creative contribution of young collaborators, developing projects for an international clientele.
