Carpanese Home, Sanguinetto — VR /Italia

(it) / Nata dall'esperienza della famiglia Bellani nel mondo della lavorazione del legno, Carpanese Home è un'azienda di design in cui l'alto artigianato italiano e la migliore tradizione ebanistica si fondono con la cultura del progetto per collezioni d'arredo gentili e senza tempo.

L'approccio artigianale — incline alla cura del particolare, all'esasperazione del ben confezionato su misura, prerogativa di mani esperte proprietarie di antichi mestieri — rappresenta il valore aggiunto di un brand che ha saputo innestare i codici del design contemporaneo all'interno di una storia familiare. E traghettarli ad una platea internazionale.

Carpanese Home si distingue oggi per l'alta qualità stilista e progettuale delle proprie collezioni in cui nuove geometrie danno vita ad una personalissima cifra estetica. Linee pulite, a tratti scultoree, intarsi e giustapposizioni di materiali, riferimenti al mondo classico e ad architetture agli antipodi ritornano negli arredi e complementi della Casa Carpanese.

Un luogo dalle atmosfere calde e disinvolte, dove gli arredi asseggiano i gesti, ri/configurandosi nello spazio e nel tempo per un nuovo concetto di Contemporary Home Living.

(en) / Drawing on the Bellani family's experience in the world of woodworking, Carpanese Home is a design company in which superior Italian craftsmanship and the finest cabinet-making tradition merge with design culture for gentle and timeless furniture collections.

An artisanal approach — with a focus on attention to detail and the highest-quality custom design, the preserve of expert hands skilled in ancient trades — represents the added value of a brand that has successfully introduced contemporary design codes within a family history. And conveyed them to an international audience.

Today, Carpanese Home stands out for the high stylistic and design quality of its collections in which new geometries produce a very personal aesthetic. Clean, sometimes sculptural designs, inlays and juxtapositions of materials, and references to the classical world and to different extremes of architecture distinguish Casa Carpanese furnishings and accessories.

A place with a warm, casual atmosphere, where the furnishings support gestures, re/configuring themselves in space and time for a new concept of Contemporary Home Living.

Spazio di lavoro /working space, shoowroom
Carpanese Home, Sanguinetto — VR /Italia

(it) / Il confronto fra naturale e artificiale, che impegna ogni epoca in relazione alla propria dose di progresso, coinvolge il design in articolazioni e domande sempre nuove. Per sua vocazione il design è radicato nel mondo e, nel confronto, si alimenta soppesando quanto il naturale informi, e dia forma, all'artificiale e viceversa. La risposta di ritorno è la misura delle abilità delle macchine, la simulazione di scenari e processi, le applicazioni e le estetiche che ne derivano.

Innervare la cultura imprenditoriale e artigianale in una diversa cultura di progetto, dove l'esperimento e il ricercato prova ad arrivare al nuovo e all'autentico, in casa Carpanese, segue la necessità di scelte a lungo termine e attinge a quella propria fondativa attenzione rivolta al legno. Alla sua valenza culturale, economica, ambientale e, quindi, sociale.

Valorizzare l'innovazione, in generale e nello specifico, significa anche preservare e trasmettere le competenze delle maestranze artigiane che se, impiegate in nuove strade progettuali, possono evolversi e creare un patrimonio collettivo, non solo aziendale, per il futuro. Da qui, l'atemporale forza espressiva delle recenti collezioni Carpanese Home. Tese alla creazione di un'atmosfera di calma sospesa, di volumi avvolgenti, di contaminazione fra il fuori e il dentro e di amalgama fra gli ambienti. Luoghi, immaginari e fisici, dove è possibile mimetizzarsi con le proprie visioni, e crescere.

Frutto di connubi radicati nell'oggi, la trasformazione della materia in un oggetto utile e attraente, come nella lunga storia del design, è più che mai una somma di valori. Riconoscibili, condivisibili e tangibili.

Nel corso presente del brand veronese si fa salvo il tocco umano che sa come fondere l'esperienza dell'ebanista con la sensibilità del designer e adotta il tempo lento, in accordo alla ricerca della qualità e al cambiamento ponderato. Che si rintraccia nei materiali nobili e preziosi, intonati alla sostenibilità dei processi di lavorazione. E si evolve nelle condivisioni di intenti con partner e filiera, nella produzione a chilometro zero e nell'economia delle risorse. Emerge in un fascino che travalica le mode e intercetta gusti intergenerazionali. E resta. Con il pregio di un incastro, lo studio di un dettaglio strutturale, la generosità materica, la comodità a misura. La poesia del quotidiano.

Il lusso, secondo Carpanese Home, indica una strada nell'essenziale e si fa sobrio e sofisticato. Portatore di scelte e di pensiero. Sembra ricordarci che, al pari della natura, le "cose", ci circondano e costruiscono il nostro mondo. Quello in cui decidiamo di rispecchiarci, riflettendo su ciò che potrebbe rendere migliori le nostre vite.

(en) / The interplay between the natural and the artificial, which engages each era relative to its own degree of progress, involves design in ever new forms and demands. Design is inherently rooted in the world and, as part of this relationship, is enriched by considering the extent to which the natural informs - and shapes - the artificial and vice versa. The response is the measurement of machine skills, the simulation of scenarios and processes, applications and the resulting aesthetics.

Embedding the entrepreneurial and artisan culture in a different design culture, where the experimental and the refined seek to achieve the new and the authentic. Carpanese responds to the need for long-term choices and draws on its own founding focus on wood. On its cultural, economic, environmental and, therefore, social value.

Valuing innovation, both in general and specifically, also means preserving and passing on the skills of artisans who, if employed in new approaches to design, can evolve and create a collective and not only corporate heritage for the future. Hence, the timeless expressive power of the recent Carpanese Home collections. Aiming to create an atmosphere of suspended calm, enveloping volumes, fusion between the outside and the inside, and amalgamation between different environments. Places, both imaginary and physical, where you can blend in with your visions, and grow.

The result of connections rooted in today's world, the transformation of material into a useful and attractive object, as seen throughout the long history of design, is more than ever a sum of values. Recognisable, shareable and tangible.

In the current direction of the Veronese brand, the human touch takes centre stage, capable of blending cabinetmakers' experience with designers' sensitivity, adopting a slow pace consistent with the pursuit of quality and thoughtful change. This can be found in the high-quality, precious materials, in line with sustainable manufacturing processes. And it evolves in shared intentions with partners and supply chains, in zero-kilometre production and in the economy of resources. It emerges in an appeal that transcends fashions and taps into intergenerational tastes. And it stays. With the quality of a joint, the meticulous design of a structural detail, material generosity, and made-to-measure comfort. The poetry of the everyday.

Luxury, for Carpanese Home, indicates a path to the essential, becoming understated and sophisticated. Bearing choices and thought. It seems to remind us that, like nature, "things" surround us and build our world. That world in which we decide to mirror ourselves, reflecting on what could make our lives better.

(it) / Gli ambienti ritornano intimi,
ovattati, la percezione si affievolisce e la luce
naturale fa spazio a luci soffuse e candele.
È il momento per aggregare le sedute,
radunare i pouf attorno al tavolo per le cena.
Sembra una scultura, che peccato coprirlo.
Il dolce lo si prende informalmente comodi,
basta riconfigurare la disposizione dei
tavolini accanto al divano.

Un brindisi, si è fatto sera.

(en) / Rooms become intimate and muffled;
perception fades and natural light makes way
for soft lighting and candles. This is the time
to bring together the seating, grouping the
poufs around the dinner table. It looks like
a sculpture; what a shame to cover it up.
Dessert is enjoyed informally and comfortably
just by reconfiguring the table arrangement
next to the sofa.

A toast. Evening has come.

Golden Hour

(it) / "Lavorare con materiali autentici, che preservano e raccontano una storia di artigianalità, non rappresenta semplicemente uno standard di bellezza ma una vera e propria convinzione progettuale con cui lo studio affronta ogni tipo di progetto, di arredo, di interior design o installativo."
— Studio Federico Peri

La collaborazione tra lo Studio Federico Peri e Carpanese Home inizia nel 2020, anno in cui la proprietà invita lo studio con sede a Milano ad analizzare, ripensare e immaginare un nuovo futuro per l'azienda nata dalla ricca tradizione ebanistica della famiglia Bellani.

Inizia un percorso di profondo cambiamento che investe non solo le collezioni con un deciso e radicale cambio di direzione, ma la struttura e i luoghi stessi dell'azienda, dalla sede allo showroom di Sanguinetto (VR), dalla progettazione degli stand per varie edizioni del Salone del Mobile di Milano all'ideazione dell'installazione "In between the Dunes" presentata al Fuorisalone di Milano 2024.

Un momento apicale che segna il debutto ufficiale della nuova Carpanese Home sotto la direzione artistica di Studio Federico Peri.

(en) / "Working with authentic materials that preserve and express a story of craftsmanship is not simply a standard of beauty but a real conviction regarding design. This is the starting point for the studio in any project, be it furniture, interior design or an installation."

— Studio Federico Peri

Studio Federico Peri began to collaborate with Carpanese Home in 2020 when the owners invited the Milan-based studio to analyse, rethink and imagine a new future for the company and the rich cabinet-making tradition of the Bellani family.

A process of profound change was launched, not only a decisive and radical change of direction for the collections but also of the company's structure and sites, from its headquarters to the showroom in Sanguinetto (VR), from the design of the stands at various editions of Milan's Salone del Mobile to devising the installation "In between the Dunes" presented at Fuorisalone Milano 2024.

It marked the official debut of the new Carpanese Home under the artistic direction of Studio Federico Peri.

Designers

Matteo Zorzenoni

(it) / Lo stile che lo contraddistingue e che lo ha reso uno dei più promettenti designer italiani è il continuo studio dei materiali e la capacità di svelare le loro inaspettate potenzialità, come creare vetri in cemento, strutture in vetro, tavoli in metallo liquido...

I suoi progetti sono stati esposti in alcune delle più importanti mostre mondiali tra cui: Maxxi di Roma, Triennale di Milano, London Design Festival, Centre Pompidou e la Biennale di Architettura di Venezia.

Zorzenoni è stato docente presso l'Università di Architettura di Venezia IUAV e conduce workshop e corsi per IED a Madrid, il Domaine de Boisbuchet (Vitra Design Museum), Fabrica, Mexico Design Week e Kozice.

Dopo una lunga esperienza come consulente per Fabrica e responsabile della filiale italiana dello Studio Hayon, segue attualmente la direzione artistica di Dall'Agnese, Comprex e altre società.

Parallelamente prosegue la sua ricerca nel mondo dell'artigianato di alta qualità e la creazione di nuovi progetti per clienti come Cappellini, Mercedes Benz, Replay, Alcantara, Benetton, Bosa, Miniforms, Somethingood, Augusta Westland, MM Lampadari, Scapin Collezioni, Torremato, Nason Moretti, Novamobili, Bolzan Letti e altri.

(en) / One of the most promising designers in Italy, Matteo Zorzenoni has a unique style based on the continuous study of the materials and unlocking their unexpected potential, such as glasses made of concrete, glass structures, liquid metal tables...

His projects have been showcased in some of the most important exhibitions worldwide including: Maxxi in Rome, Triennale di Milano, London Design Festival, Centre Pompidou and the Biennale of Architecture in Venice.

Zorzenoni has been a teacher at the University of Architecture of Venice IUAV and leads workshops and courses for IED design school in Madrid, the Domaine de Boisbuchet (Vitra Design Museum), Fabrica, Mexico Design Week and Kozice.

After a long experience as a consultant for Fabrica and heading the Italian branch of the Hayon Studio, he currently responsible for the artistic direction of Dall'Agnese, Comprex and others company.

In parallel, he continues his research into the world of high-quality craftsmanship and the creation of new projects for clients such as Cappellini, Mercedes Benz, Replay, Alcantara, Benetton, Bosa, Miniforms, Somethingood, Augusta Westland, MM Lampadari, Scapin Collezioni, Torremato, Nason Moretti, Novamobili, Bolzan Letti and others.
