CHILDREN'S FURNITURE

Tutto ha inizio nel 1941 nel cuore della Toscana, nella magica città di Firenze. Qui, Savio Firmino crea arredi che raccontano storie di eleganza, artigianalità e incanto. Nel 2008, l'amore di Guido Savio per la nipote Viola dà vita alla vera storia di Notte Fatata, spingendolo a creare arredi che la accompagnano lungo tutto il suo percorso di vita.

Everything begins in 1941 in the heart of Tuscany, in the magical city of Florence. Here, Savio Firmino creates furniture that tells stories of elegance, craftsmanship, and enchantment. In 2008, Guido Savio's love for his niece Viola brings the true story of Notte Fatata to life, inspiring him to create furniture that accompanies her throughout her life journey.

Dai primi passi incerti fino alle corse piene di energia, i mobili Notte Fatata accompagnano i bambini in ogni fase della loro crescita.

I nostri arredi non sono solo belli e durevoli, ma crescono con i bambini, adattandosi ai loro bisogni in continua evoluzione e stimolando la loro creatività e autonomia.

From those first uncertain steps to energetic runs, Notte Fatata furniture accompanies children through every stage of their growth. Our pieces are not only beautiful and durable but also grow with the children, adapting to their ever-evolving needs and stimulating their creativity and independence.

Man mano che i bambini crescono, anche i loro sogni diventano più grandi. I letti speciali diventano mondi straordinari, e ogni notte è un viaggio fantastico. Anelli colorati, castelli incantati, battelli misteriosi e treni magici accompagnano i bambini alla scoperta delle loro passioni.

As children grow, so do their dreams. Special beds become extraordinary worlds, and every night is a fantastic journey. Colorful rings, enchanted castles, mysterious ships, and magical trains accompany children as they discover their passions.

NORME PER IL CORRETTO UTILIZZO DEI PRODOTTI SAVIO FIRMINO ED INFORMAZIONI SULLE PERSONALIZZAZIONI

La Società realizza i suoi mobili lavorando a mano, in maniera artigianale, non industriale, il legno massiccio ed i suoi derivati. La lavorazione a mano causa naturali variazioni dei prodotti finiti, espressione di un valore aggiunto e non di un difetto. Essendo il legno un materiale vivo, presenta variazioni di colore, venature, struttura, morbidezza e umidità. Variano quindi l’assorbimento di colouranti e l’incidenza dei tipi di lavorazione sul legno stesso, con la conseguenza che due articoli prodotti nello stesso modo possono presentare differenze tra loro. Il legno come materiale vivo può muoversi ed assestarsi a seconda del clima e delle sollecitazioni ambientali alle quali il materiale viene sottoposto. La percentuale di umidità ambientale ottimale per la conservazione della merce è dal 40% al 55% e deve essere mantenuta costante nel tempo. Uno dei metodi per limitare i danni causati dal clima secco è quello di tenere acceso un umidificatore negli ambienti dove devono essere conservati i prodotti. La temperatura ideale è considerata da +5° a +25° gradi. I tessuti fotografati non sono di produzione della Savio Firmino S.r.l., pertanto la società non può garantire la produzione costante degli stessi. La società declina ogni responsabilità circa la restituzione degli avanzi dei tessuti forniti dei clienti (C.O.M.).

I cuscini decorativi e tutti i coordinati tessili fotografati sugli articoli non sono inclusi nel prezzo indicato dell’articolo stesso e sono da calcolarsi separatamente. L’attrezzatura interna degli armadi e delle boiserie non è inclusa, se non quella espressamente indicata nella conferma d’ordine, eventuali aggiunte sono da accordare di volta in volta con l’ufficio commerciale.Si consiglia pertanto di tenere presenti i seguenti punti:

- L’acquirente al momento dell’acquisto è stato adeguatamente informato che un clima particolarmente secco, specie in ambienti ermetici e surriscaldati, può creare assestamenti e cali di volume dovuti al legno massiccio ed ai suoi derivati.
- L’acquirente, all’atto della firma, è a conoscenza che sta acquistando mobili realizzati in legno e suoi derivati, pertanto accetta eventuali assestamenti del legno causati da differenze climatiche.
- La società declina ogni responsabilità nel caso in cui i mobili fossero trasportati, stivati o montati in ambienti la cui bassa o alta temperatura e specialmente il tasso di umidità non corretto, escano dalle indicazioni sopra riportate.
- Gli articoli possono essere puliti utilizzando un panno morbido ed asciutto, l’eventuale impiego di sostanze inadatte per la pulizia degli stessi potrebbe danneggiare la merce.

Le misure indicate all’interno dei materiali illustrativi sono da considerarsi indicative per cui possono subire leggere variazioni a causa della produzione artigianale e manuale. Le misure convertite in pollici sono arrotondate al valore superiore, per cui potrebbero esserci minime differenze.

Nel caso in cui il Cliente richieda un accostamento accurato, lo stesso dovrà consegnare alla Società un campione di colore, tonalità o rifinitura richiesti, oppure chiedere alla Società di fornire un campione del suo stock attuale, se esistente.

Le realizzazioni fuori standard per dimensioni, tessuti e finitura verranno accettate e quotate solo se corredate da disegno tecnico con indicazione chiara di tutte le quote.

RULES FOR THE CORRECT USE OF THE PRODUCTS OF SAVIO FIRMINO AND INFORMATION ON CUSTOMIZATION

The Company manufactures all items of furniture by hand adopting craft not industrial processes using solid wood and its by-products. The hand-working process can cause natural variations to the finished product; this is an expression of the added value and not a flaw. Since wood is a living material, it presents some variations in the colour, grain, structure, texture, smoothness and moisture. Therefore, the absorpton of colours/dyes and the effects of the working methods used on the wood will vary, with the result that two articles produced in the same way could present certain differences. Wood, as a living material, may move and settle according to the climate and the environmental conditions to which it is subjected. The optimal percentage of environmental humidity for storing the goods is between 40% and 55% and should remain constant over time. One method for limiting the damage caused by a dry climate is to run a humidifier in the areas where the products are stored. The ideal temperature is considered to be between +5° and +25°C.

The fabrics photographed are not manufactured by Savio Firmino S.r.l., therefore the company cannot guarantee the uniform production of the same. The company declines any responsibility regarding the restitution of fabric remnants supplied by the clients (C.O.M.).

The decorative cushions and all the matching textiles for the articles photographed are not included in the price indicated for the article and should be calculated separately.

The internal fittings of the wardrobes and boiserie panelling are not included unless expressly indicated in the order confirmation; any additions should be agreed with the sales office on an individual basis.

We therefore recommend that the following points be taken into consideration:

- At the time of purchase the purchaser is suitably informed that a particularly dry climate, especially in airtight and overheated ambients, can result in settling and reductions in volume due to the use of solid wood and its by-products.

- By signing the purchaser declares to be aware that he or she is purchasing furniture made of wood and its by-products and therefore accepts any settling of the wood caused by climatic differences.
- The company declines any responsibility in the event that the furniture is transported, stowed or assembled in ambients where the high or low temperatures, and especially the degree of humidity, do not fall within the parameters outlined above.
- The articles may be cleaned using a soft, dry cloth. Any use of unsuitable cleaning substances could damage the goods.

The dimension quoted inside the illustrative materials are to be considered approximate and not binding; they may vary due to the manual production process. Small differences occur too as the dimensions in inches have been rounded up to full inches.

In the event that the Client requests a precise match, the same should supply the Company with a sample of the colour, shade or finish required or ask the Company to provide a sample of its current stock, where available.

Non-standard production in terms of size, fabrics and finishes shall only be accepted and estimates provided where accompanied by a technical drawing clearly indicating all the measurements.

ПРАВИЛА ЭКСПЛУАТАЦИИ МЕБЕЛИ SAVIO FIRMINO И МОМЕНТЫ, КОТОРЫЕ НЕОБХОДИМО УЧИТЫВАТЬ ПРИ РАЗМЕЩЕНИИ ЗАКАЗАОВ

Каждое изделие Savio Firmino изготавливается вручную из натурального дерева, то есть несерийным способом. этим обуславливается, что готовые изделия будут незначительно отличаться друг от друга и это не является дефектом, а наоборот придает им индивидуальность и художественную ценность.

Поскольку древесина является натуральным материалом, она всегда имеет некоторые различия по цвету, фактуре, структуре и влажности. Следовательно, поглощение красителей и эффекты от используемых видов обработки существенно влияют на конечный внешний вид изделия. Поэтому два изделия, произведенные одним способом, могут иметь различия. Дерево как живой материал, может изменяться в зависимости от климатических условий и окружающей среды. Необходимо учитывать, что процент влажности окружающего воздуха для нормальной эксплуатации мебели должен находится в пределах от 40% до 55% при этом оставаясь постоянным в течение всего времени использования. Для уменьшения риска повреждений, вызванных сухим климатом необходимо устанавливать увлажнители воздуха в помещениях, где находятся изделия. При этом температура воздуха должна находиться в пределах от +5° до +25°с.

При размещении заказа необходимо учитывать, что: Декоративные подушки и весь дополнительный текстиль, сфотографированные на изделиях, не включены в цену самого изделия и просчитываются отдельно.

Внутреннее оборудование шкафов и боазери не входят в стоимость, за исключением того, что прямо указано в подтверждении заказа. Любые добавления должны быть согласованы с коммерческим отделом и отражены в заказе.

Размеры, указанные в иллюстративных материалах, следует считать приблизительными, они могут незначительно варьироваться из-за процесса ручного производства.

В случае, если клиент запрашивает полное соответствие выбранной отделке, он должен предоставить компании существующий у него образец требуемого цвета или оттенка, либо попросить компанию предоставить текущий выкрас образца, если таковой имеется.

Запросы на осмечивание и изготовление нестандартных изделий (размеры, отделки используемые ткани) принимаются только при предоставлении соответствующих технических чертежей с указанием всех размеров и соответствующих спецификаций.

Компания не несет ответственности за возврат остатков тканей, предоставленных клиентами (C.O.M.)

Рекомендуется учитывать следующие моменты:

- Перед покупкой заказчик надлежащим образом должен быть проинформирован о том, что сухой климат, особенно в сильно нагреваемых и закрытых помещениях может привести к деформации древесины, из которой изготовлены изделия.
 - Подтверждая заказ, покупатель должен понимать, что изделие из древесины может деформироваться при ненадлежащих климатических условиях.
 - Компания не несет ответственности в случае, если мебель транспортируется, складировается или монтируется в помещениях со слишком низкой или высокой температурой и с ненадлежащей влажностью.
 - Предметы мебели можно чистить с помощью мягкой и сухой ткани. Использование веществ, не подходящих для специализированной чистки, может привести к повреждению изделия.

正确使用 SAVIO FIRMINO 产品的规则和定制信息

本公司所有家具均采用手工工艺而非工业工艺，使用实木及其副产品制造。手工制作过程会导致成品出现自然变化；这是附加值的体现，而不是缺陷。由于木材是一种有生命的材料，它在颜色、纹理、结构、质地、光滑度和水分方面呈现出一些变化。因此，颜色/染料的吸收以及所使用的加工方法对木材的影响会有所不同，因此以相同方式生产的两件产品可能会存在一定差异。木材作为一种有生命的材料，可能会根据其所处的气候和环境条件移动和沉降。储存货物的最佳环境湿度百分比在 40% 到 55% 之间，并且应该随着时间的推移保持恒定。限制干燥气候造成的损害的一种方法是在产品储存区域运行加湿器。理想的温度被认为是在 +5° 到 +25° C 之间。图册上所展示的面料并非由 SAVIO FIRMINO S.R.L生产，因此本公司无法保证相同面料的统一生产。本公司拒绝承担任何有关客户发送织物残留物归还的责任。

图册上拍摄的物品的装饰垫及所有配套纺织品均不包含在物品标价中，需另行计算。除非在订单确认中明确说明，否则不包括衣柜的内部配件和护墙板；任何添加都应单独与销售办公室商定。

因此，我们建议考虑以下几点：

- 在购买时，购买者被适当告知，特别干燥的气候，尤其是在密闭和过热的环境中，会因使用实木及其副产品而导致活动并且体积减少。
- 通过签名，购买者声明他或她购买的家具由木材及其副产品制成，因此接受因气候差异造成的任何木材活动变化。
- 如果家具在高温或低温，尤其是湿度不符合上述参数的环境中运输、存放或组装，本公司不承担任何责任。
- 可以使用柔软的干布清洁物品。使用不合适的清洁物质可能会损坏货物。说明性材料中引用的尺寸应视为近似尺寸，不具有约束力；它们可能因手工制作过程而有所不同。出现细微差异也因为以英寸为单位的尺寸已四舍五入为全英寸。如果客户要求精确匹配，客户应向公司提供所需颜色、色调或饰面的样品，或要求公司提供其现有库存的样品（如果有）。尺寸、面料和饰面方面的非标准生产仅在附有明确标明所有测量值的技术图纸的情况下才可接受并提供估算值。
