Aluminum Profile Integration with Plasterboard for LED Strip

Body made of 12,5 mm thick plasterboard, either standard or HYDRO treated.

Aluminum Profile and PMMA opal diffuser included.

Our profile is perfectly integrated into the plasterboard, which makes installation easy and perfect !

This aluminum profile integrated in plasterboard or drywall is a decorative element highly appreciated by interior designers and lighting professionals, as it allows for perfect integration with the architecture and decoration of any space.

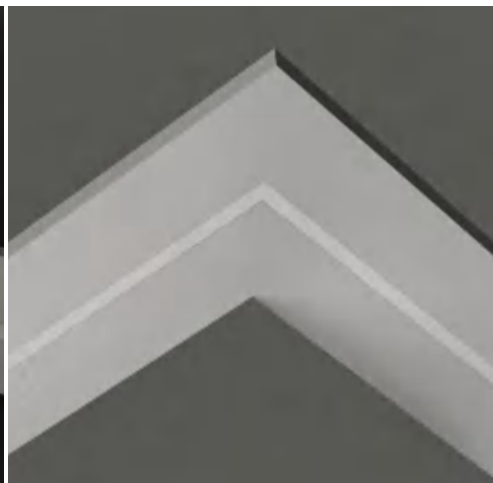

Size can be customized.
